## THE UNIVERSITY GRADUATE AS A RESPONSIBLE CITIZEN

by Charlotte E. Whitton, C.B.E., Arts '17,  
LL.D. '41

**M**EN and civilization today seem as uncertain and confused as a Louisiana mule on a Pont-Chartrain causeway, with little pride of ancestry and no hope of posterity. A. P. Herbert, probably the happiest interpretative humorist of our day, sums it up:

The world, in short, which never was  
extravagantly sane  
Developed all the signs of inflammation  
of the brain,  
The past was not encouraging, the  
future none could tell  
And everybody wondered why the  
population fell.

Certainly, over large areas of territory and of peoples, and in millions of individual lives, meaning seems to have gone out of existence and, with meaning, has gone purpose, and, with purpose, any sense of certain direction. Not only do we seem bewildered as to what end we seek, but even as to our own address, as it were, insofar as our own convictions and beliefs are concerned. We are not so different from the inebriate, who was found searching, with that persistent singleness of purpose which inebriation often brings, for a fifty-cent piece, four blocks from where he thought he had lost it. He explained to the policeman that the light "was a lot better here" than where he had dropped the coin. There can be little hope of progress until we rediscover meaning and purpose in life and with them our sense of direction. Surely that must be a major obligation upon the university graduate, the special opportunities of whose training should tend to produce men and women more aware and certain of open communication lines through the present to the future from the confidence of their knowledge of the past.

At his inauguration the present Principal spoke of Queen's as a university which had "so conducted itself that the stamp of Queen's has been impressed on the lives of responsible men and women throughout this land, and across the seas." At no time in the brief span (though long in Canadian story) of the University's century of service has the need been so strong for those who are bound together by her golden "Q," to remember that "Q" is the initial cipher of *quality* no less than of our family name, and to bring to our public and private life the highest possible offering of responsible and intelligent citizenship. This should be exercised particularly in keeping open the lines of communication from the past, for only in the interpretation of the past is life intelligible in the present and hopeful for the future. If there seems hopeless antipathy in the relative positions of our former allies today, a modern historian recalls to us that it was so, just a century and a quarter ago. Within a few months of the adjournment of the Congress of Vienna, at which the four great victorious powers of Great Britain, Austria, Prussia, and Russia had signed a twenty-year pact, two of them entered a new one with their former enemy to withstand the buoyant aggressiveness of the other two.

History continually gives that sense of reassurance which springs from realizing, in uncertainty, that mankind has been this way before and that some of the landmarks may be of use in guiding us to safety in the journeying of our day.

Of course, the challenge to hope and faith and courage, thrust upon our gener-

ation in the knowledge of atomic energy, is sharper than man had to face in any previous era of 7000 years of organized social life. It compares only in certainty of ultimate overwhelming change with man's unlocking of the secrets of the use and control of fire. A process which means the release of a million times more energy than hitherto from the same weight of matter cannot but create such impacts as to carry in its train all sorts of new, strange problems as well as inexpressible complications of those already existing. The terrible bleak fact about this new discovery is that its emergence as a military weapon and the enormous cost of its production and adaptation for beneficent social use mean that it presents itself not as a strengthening new resource so much as an overshadowing threat to the very survival of organized society and indeed to human life itself. It places in the hands of men incredible power over life and death. In fact, in the application of X-ray to biochemistry, Dr. C. D. Darlington has reported that human ingenuity may even be able to determine many aspects and adjustments in the creation of the individual human being. Adaptations in national character may not remain at even their present complicated level of a Government Information Service, a Broadcasting Corporation, and a Citizenship Branch: fundamental changes in character and outlook may be effected over a few years simply by "Operation Party Preference" and the development on a nationalized public ownership basis, of course, of a properly controlled and manipulated X-ray pre-marital, et cetera, clinic. Even that may not be necessary—party leaders may only need to carry some of those potent atomic bombs in their pockets or brief cases as they attend political gatherings, particularly those cordial "all-party get-togethers," and the like, and from the emanations affect brain cells of contrary opinion.

Of course, all Queen's people view every new presentation first from the angle of how it may affect the University. Upon an old college, established to advance piety and learning as the foundation of character and the elements in the growth of wisdom, so that men and

women learn how rather than what to think, the result can be shattering and surrender us completely to the Philistines. On November 1, Lord Louis Mountbatten described to the British Institute of Radio Engineers an "electronic brain" with 18,000 radio cells, activated in a manner comparable to those of the human brain. This machine, in four seconds, could complete calculations requiring ten days for the human mind and, moreover, could be guaranteed to evince a certain degree of memory and even of judgment, which latter attributes are more than the ordinary university can guarantee for its graduates. A calculation of the average academic course, allowing for vacations, lecture schedules, and so on, suggests that it extends over some eight hundred days of intensive instruction. Let us, therefore, realize the terrific challenge now posed by those university heads in this land who have been urging a stream-lined, speeded-up "modern" university routine, turning out graduates of the courses and degrees specified on a mass assembly basis. They need only purchase rights to the electronic brain (and some of them have the endowments to do so) and grant degrees on a process of  $5\frac{2}{3}$  minutes, apart from the time required for the installation of the electronic brain in place of the discarded one. This process could doubtless soon become a painless mechanical shift instead of a delaying surgical one. Such a university would then require only a handsome and dignified president for the graduation awards. Of course, in the first stages, a good surgical staff might be needed, but otherwise only a good mass production plant for the manufacture, installation, repair, and maintenance of the electronic brain, probably installed with a guarantee for the life time of the alumnus. Again we cannot guarantee that the educational impress of our present exposures will last indefinitely. Queen's simply has not the funds to compete and therefore her demise may be one of the first casualties of the atomic age, unless, of course, with so many influential graduates in all political parties, she might be entrusted to the National Board of Historical Monuments as a stubborn and enduring

survival of the Scottish traditions of the pre-atomic age.

But quite seriously the challenge of the new discoveries is so great that, especially in a world with its freest and most civilized continent broken almost beyond recovery, the slowly adjusting amble of human life down the corridors of history must now break into a gallop; nay, more, it must jump forward in a sudden neck-risking jerk, if it is not to go down in the on-rushing currents of this changed and changing age. The whole basis of the relations of men and of nations is altered. Treachery, rather than honour or courage, alone will give hope of survival in a sheer test of atomic might between or among states. The thrust will be aimed directly at strategic cities, for they are the brain centres of an industrial and urban civilization. (Of course, here, too, many Canadians would hold few regrets were the cities to be exterminated judiciously chosen.) The destruction will be so devastating that any recovery of the nation so stricken would be highly improbable; their progress and their culture would revert to the scattered pastoral and primitive areas. One member of the U.S.A. Committee, sent to report upon the bombing of Hiroshima, reported that of 300 physicians,

DR. CHARLOTTE WHITTON

260 were so injured as to be unable to aid the wounded and dying, as were 1800 out of 2400 nurses, orderlies and first aid workers. Out of thirty-three fire forces, no fewer than twenty-six were rendered useless at once, so that conflagration raged over shattered and dead alike, while not one hospital was left in shape to render service or even to shelter the thousands of suffering against the storms that came. Atomic warfare defies any act of mercy, and thus deprives man of the healing virtue of succour to his enemies.

The possibilities are so horrible that such sections of humanity as pause to think at all agree upon the overweening necessity of placing the production or use of such fearful power "under government" as if that were of itself a safety.

President Truman's message to Congress sought to control "all sources of atomic energy and all activities connected with its development and use in the United States" (though apparently to date the only effect has been such a truly atomic repercussion upon the President's own security as to suggest that some way this control has passed to the Republican opposition). But this premise that such power is safe with government carries implications that can be annihilating to freedom. In the first place, the freedom of man (as resting on that last desperate weapon to enforce justice, revolt) disappears with such potent resources vested solely in government. This potential tyranny of government over the governed will be the more extensive as the industrial development, as apart from the military significance, of atomic power matures. For its production for the one use is inseparable from the other. Therefore, surely, if not shortly, all the most powerful means of industrial production will be under government. Private enterprise will completely disappear or become as servile and impotent as a turbine and power plant with the power shut off and all other means of efficient generation of energy withheld.

The sudden devastating nature of any thrust in atomic warfare, moreover, will mean that decisions as to utilizing atomic

energy could not be the subject of public controversy, plebiscite, and referendum, or even of Parliamentary debate, but must vest in quick executive action. Therefore, the most terrible of all powers over life and death, known to man, will necessarily become the matter of discussion and decision by the executive arm alone—by government acting through order-in-council.

These are some of the obvious, practical problems jutting out on the darkening, narrowing path through which humanity is now journeying from one closing era to another—whether to annihilation or to fulfilment of the potentialities of man beyond any easy imagining of ours today we cannot know. We cannot even be certain that we have the power to determine.

What will be the effect on life generally if, in the contemplation of this new power and all its possible effects, hope goes? Western civilization, particularly, has been grounded in the last five hundred years of modern history, at least, and, especially in the last century, in man's awareness of a greater continuity, an ongoing stream, outside his own day and life, a sense of contributing to a gradually enlarging, enriching, finer, better way of life for those who follow on. The whole story of immigration and settlement of this continent is perhaps the outstanding evidence of this truth. If there be no certainty, no hope of survival, what will be the effect, at once, say, on our whole system of economic stability in private, or in fact public, economic enterprise, if the philosophy thrust upon the nation, as long accepted by many an individual, becomes "eat, drink, and be merry for tomorrow we die"? We know the answer: entire economic collapse.

What will be the effect of such fatalism on an already declining birth rate? For the first time an entire nation can adjust and control its birth rate, can will widespread reduction and effect it under any economic or other social strain, for atomic radiation directly affects male potency. (A marvellously intriguing spectacle presents itself in a world where in a matriarchy comes on apace in the

predominance in population and in electoral power of women in almost all the nations of the world today. The possibility of a new social system looms in which women rule and direct a social mechanism controlling both atomic radiation and those biological developments which Dr. Darlington warns are now practical probabilities—a sort of beehive social state where numerous competent queens mobilize and order the lives and maintenance of just the necessary number of tolerated drones.) It is no more fantastic to visualize a state deliberately willing and socially planning exact reduction of its population than it is to live in this era, between the pre- and post-atomic age, in which whole nations, our own among them, deliberately seek to extend population by bonussing its birth, regardless of any social considerations, with subsidies as inadequate as indiscriminate.

Which way shall we go?

"'Take what you want,'" said God; "'take it and pay for it,'" runs an old Spanish proverb, tragically applicable to man's latest intrusion upon the creation and mysteries of the universe. "The release and utilization of atomic energy has given a quite fresh view of the scope of the effects that may result from man's freedom. For, on the one hand, it would appear to prolong the period during which the earth will sustain human life . . . . . On the other hand, it seems at least as likely that by misdirection of atomic energy man can easily bring earthly history to a premature close. His freedom, then, is more decisive and dangerous than we had expected."\*

We can go one of three ways.

*First*, we can choose the way of power mechanism, the creed of complete ruthlessness. We can over-simplify everything as did the Nazi, the Fascist, as, to some degree, does the Communist philosophy. We can say that society needs no other cornerstones than those of economic justice in a socially conscious democracy. We can argue that these can be attained and retained by

---

\**The Era of Atomic Power*—Commission of the British Council of Churches.

sheer intellectual power and force of will. In other words, life can be summed up in efficient social engineering, which designs a plan and pattern into which human beings are fitted and move as units in the mechanism. Life and government become so necessarily technical, and call for such knowledge as to render democracy's slow progress impractical. So, "the bright young men take over." They take over Government, in which Parliament has placed its trust, Parliament having taken over from the trust of the people. Direct action succeeds on the slower process of public discussion, evolution, and growth. Direction replaces education; it is no longer a grammatical error to say "we'll learn them" for there is no thought or purpose that "we'll teach them." Such a course may direct and salvage men. It will not save humanity, for it does not free but enslaves to a state that becomes supreme and, however benevolent in initial intent, battens and hardens on the food and love of power.

It can happen here, in Canada, make no mistake about it. Many men, and in high power and places, and some of them graduates of our own University, will contend that any other process is too slow. They maintain that only their course offers early and sure increase in the standard of living, forgetting that living rests on happiness, no less than on standards, and that in spite of close to a thousand years of steadily heightening standards of living for a steadily enlarging proportion of the world's peoples those ten centuries were climaxed with the worst two wars in human history.

This loyalty to the mechanism, rather than to the purpose, of a social order makes the means and not the end the fundamental thing. Both within and between nations it threatens annihilating conflict as contending mechanisms meet and clash on power rather than merge in the search for the assurance of the survival and service of human life as such. This conflict is already sharply joined. Many within, as well as whole philosophies without, our Western European social structures believe our way of

life so evil that it should be destroyed. They are already identified with its undermining or withdrawing from much active interest or responsibility in its maintenance.

So, as a *second* way out, we move along the path of personal isolation. We try to find escape in a deep personal integrity and put our confidence in a general body of ethics as some way likely to carry humanity through. Firm in one's own calm strength, the proponent of this creed argues that each has only today to live and his or her own life to mind. "I am not my brother's keeper, let the world roll on where it will."

The most obvious expression of this philosophy is in the turning aside of so many of our best from the *mêlée* and mess that present-day politics have become. Men and women tend to withdraw in disillusion and to find refuge to some degree in cynicism. Our society, as a whole, now threatens to drift along the same course. Simple integrity, decency, honour, all spiritual values and any sense of transcendent power threaten to have passed out of the social order. Why not let the order pass, too, into annihilation?

Surely this is the way of spiritual retreat, of moral laziness, of the decay of responsibility and of conscience. Surely we who have, by privilege of our training, seen in our minds' eye the long story of humanity tramp its tragic way from the protoplasm to exploration in our day of a power close to the divine, surely we cannot so betray all that progress to this hour, all the long sacrifice of humanity from formlessness to this struggling civilization.

No, another—the *third* way—surely beckons us. It must be the choice of the free and responsible citizen, who believes that there is transcendent power, and that, in its entry into human life and in its blending and fusion, there is growth and survival. For the Queen's man or woman of my day it is as "Cappy" asks us to let Wordsworth reaffirm the undying truth, as he expressed it in the comparable chaos and near collapse of the Napoleonic age:

And I have felt . . . a sense sublime  
Of something far more deeply inter-  
fused,  
Whose dwelling is the light of setting  
suns,  
And the round ocean and the living air,  
And the blue sky and in the mind of  
man;  
A motion and a spirit which impels  
All thinking things, all objects of all  
thought  
And rolls through all things.

In that confidence and the courage  
thereof we shall not abandon but em-  
brace the challenge to conspire together  
—not to shatter but to seize this “sorry  
Scheme of Things entire” and “Remould  
it to the Heart’s Desire.”

We reject the assumption that neces-  
sarily, inevitably, we are caught in the  
tide of this time. We maintain rather  
that we stand outside and beside it as  
well as in it, part of a greater strength.  
For the Queen’s man or woman it is the  
mind of Watson recalling us to the Greek  
sense of proportion, no less than of  
limits, to the continuity of life as well  
as to the certainty of a force that may  
be fate but is not necessarily fated.

It is all the scholars who have gone  
before recalling to us that this continuity  
of history reflects two great currents.  
One is man’s efforts to control nature  
and his physical environment; the other  
is his effort to control himself and to  
suborn his instincts to the discipline of  
his will and reason, and, in his relations  
to the state, as in his own life, to apply  
the rule of reason, of right, and of justice  
—in other words, the rule of law over  
instinct and the rule of force. We are  
called on to summon consciously the  
strength of our knowledge and perhaps  
unconsciously the inheritance of a long  
story in our race and character of the  
ordering of freedom that we may be free  
to preserve liberty.

In such a concept we build custom and  
law to control power, not to organize and  
capitalize it. Today we must rediscover  
and apply this truth to the power of  
science no less than of the law, and to  
subordinate our expanding knowledge to  
social responsibility so that law is the  
master and power the servant. We, of

our tradition and of much of western  
civilization, have done this in our in-  
ternal relations within states. The chal-  
lenge now is to seek the same objective  
among states. Surely we heirs of the  
ways of the west must accept that, of  
all the paths that open in the atomic age,  
there is none other that can be safely  
and logically followed but this one of  
responsible citizen effort, on the part of  
all free people, to try to bring humanity  
to a realization of what has happened,  
of how insecure the survival of civiliza-  
tion and of humanity have become. We  
who have known the universities should  
be able to think in terms of centuries and  
of all time, no less than of years and of  
all humanity, no less than of localities  
and communities. We should feel the  
sense of duty in striving continuously to  
widen the view of all, not, as so many  
are prone to do, to deflect it from the  
challenge of the world to concentration  
on the minutiae of local political differ-  
ences and play for policy or place.

We must do our part to bring home to  
an age who learned geography in the  
boundaries of their countries that the  
nations of the world in an atomic age  
have really no boundaries but the skies  
and stratosphere.

We must realize that not only has  
study for the control of atomic power  
become an immediate and pressing prob-  
lem throughout the world, but that adult  
education, as to its significance and im-  
plication, has become one of the gravest  
challenges to democracy if it is to remain  
free.

And let us frankly face the fact that  
only by world agreement for joint ap-  
plication of atomic power against the  
nation which threatens to use it, and the  
creation of mechanism and agreements  
to assure immediate effective implement-  
ing of the corporate will can we hope  
to have even these preliminary conditions  
to a sense of security that will allow us  
to work for peace.

Here the responsible mind comes  
straight against another challenge: Lord  
Russell’s “Can a scientific society con-  
tinue to exist?” A. P. Herbert and  
Pierre Curie parry it from different  
approaches:

Great science nobly labored to increase  
the people's joys  
And every new invention seemed to  
add another noise  
One was always on the telephone or  
answering the bell  
And everybody wondered why the  
population fell!

Five hundred brand new motor cars  
each season rode the roads  
And flashed about like comets or sat  
motionless as toads  
Whichever course they took, they made  
the public highway hell  
And everybody wondered why the  
population fell!

—A. P. Herbert

One may also imagine that in criminal  
hands radium might become very dan-  
gerous, and here we may ask ourselves  
if humanity has anything to gain by  
learning the secrets of nature, if it is  
ripe enough to profit by them, or if  
this knowledge is not harmful.

—Pierre Curie

Let us face objectively and dispassion-  
ately another challenge in political theory.  
It is the clash in concept of the way of  
life of the nations which hold to the  
Anglo-Saxon tradition and that of the  
Soviet Union, with the rest of Europe  
drifting miserably on the ranges in  
between. Canada's tragic problem is her  
occupancy of the sheer physical and geo-  
graphical ledge, separating the two great-  
est elements in the tension, the U.S.A.  
and the U.S.S.R.

Let us strive to realize, and to have  
others realize, that the Russian appeal is  
so strong because it expresses a welling  
up of over a century's brewing and be-  
wildered resentment against the accruing  
network of an industrial revolution and  
its generating evil, urbanization.

That is western society's basic chal-  
lenge. The modern state's rapid and  
mass industrialization and urbanization  
could "command the vigour, content-  
ment, health, and character of its people  
without paying anything toward the cost  
of these commercial assets—the accumu-  
lated legacy of former ages of sane and  
virtuous living and the real wealth of  
any continuing society . . . . It failed  
to recognize that *the human economic  
unit was the continuing society—a nation,  
group or family—from which the in-  
dividual derived his habits and instincts.*

It failed to perceive that the effect of  
under-nourishment, bad housing, un-  
employment, and social injustice was not  
confined to the immediate victims but was  
transmitted to his descendants. A busi-  
ness that only operated in one generation  
might profit from overworking and  
under-paying human beings. A nation  
could not." †

So the responsible citizen must seek  
to remove these internal defects in the  
life of the free nations if he is to argue  
effectively for correction of strain in  
Russia's way of conducting her external  
relations. Only then can we come face  
to face with the question: Does the  
Soviet Union object to our social evils  
and injustices or to our freedom and the  
liberty of the subject? If that be the  
end question, God helping us, we are left  
with no action but the choice that we  
have always made.

Our answer leaves us where we started.  
What is the meaning and purpose of  
life? For that will be the determinant  
of whether science, like power, submits  
to the rule of law and therefore not to  
a concept of a self-sufficient and perish-  
able man, but to one constantly, humbly  
searching after truth and identity with  
a greatness, forever great and beyond  
defining. Then life takes on meaning in  
terms of conviction, endurance, suffering,  
sacrifice in growth, and for achievement.

Let Dr. Jordan speak to us again in  
the baccalaureate sermon in the last year  
of the World War I—"Is the young man  
Absalom safe?" We might, that old  
scholar urged us, drive roads and throw  
bridges where never man had trod; we  
might thrust forward the limits of man's  
knowledge beyond unsighted frontiers;  
we might add to human life and the ease-  
ment of mortal pain; we might mould  
the thought of nations in our teaching or  
our public service; we might fire men's  
souls by the inspiration of our preaching,  
but unless, always and ever, we could  
answer, unflinchingly and unafraid, "Is  
the young man Absalom safe?"—"Is the  
truth as you have here been taught to  
know and serve it, still inviolate?"—it  
were better that, like Absalom, we should  
have perished before that day.

† Arthur Bryant—*English Saga*.

Let "Scottie" Mitchell speak to us through Marcus Aurelius:

Thou must be like a promontory of  
the sea

Against which, though the waves beat  
continually

Yet it both itself stands and about it  
Those welling waves are stilled and  
quieted.

Our responsibility is as clear as it is  
heavy. Let us, as citizens who have

known under what great privilege we  
carry this heritage of ours, responsibly  
and steadily witness to the fundamental  
truths that the continuity of history and  
the immutable laws of science alike pro-  
claim. There are such things as truth  
and honour and responsibility and justice  
and the free souls of men that are above  
the value of any mortal pricing and that  
are not lost with the life of the individual.  
There rests the answer.

## UNIVERSITY CHAPLAIN APPOINTED TO STAFF

**R**EV. A. M. LAVERTY of Stirling, Ontario, has been named University Chaplain, it was announced at the December meeting of the Board of Trustees. The appointment marks the first time in the history of the University that there has been a full-time chaplain on the staff. It is believed that Queen's is one of the first Canadian universities to take such a step.

The Chaplain will work with Protestant religious organizations on the campus and in friendly relations with other religious groups. He will find his

main responsibility in helpful assistance to students, individually, in their religious problems and in creating a link between them and their respective churches.

The new chaplain is a graduate of Victoria College and Emmanuel College, Toronto. He served in the church on Manitoulin Island and later as chaplain with Signals, 2nd Canadian Corps and 4th Field Regiment R.C.A., from 1942-46. His duties at Queen's commenced with the beginning of the New Year.

Other appointments ratified at the Trustees' meeting included that of Dr. R. C. Burr, formerly assistant professor in the Department of Radiology, promoted to the rank of associate professor, retroactive to October 1.

As a result of the expansion of the teaching privileges of the University to include the D.V.A. and St. Mary's hospitals, the following new appointments were made: Dr. Helen M. Holden, assistant in medicine at the D.V.A. Hospital was named clinical assistant in medicine at Queen's; Dr. H. M. Warner of the D.V.A. Hospital was appointed clinical assistant in surgery; Dr. J. M. Edgeworthy of the Ontario Hospital was appointed clinical assistant in medicine.

The following were named to the consulting staff of St. Mary's Hospital: Dr. W. F. Connell, Dr. G. M. Brown, Dr. D. L. C. Bingham, Dr. E. M. Robertson, Dr. C. H. McCuaig, Dr. N. E. Berry, Dr. J. D. Hamilton; acting chiefs of staff at St. Mary's: Dr. F. D. O'Connor, Dr. B. M. Koster, Dr. F. J. O'Connor, Dr. M. J. O'Connor, Dr. R. C. Burr, Dr. F. X. O'Connor.

REV. A. M. LAVERTY

## GIFTS TO QUEEN'S RECEIVED BY BOARD

**R**ECEIPT of gifts to the University was acknowledged at the December meeting of the Board of Trustees and included one from H. G. Bertram of Dundas, Ontario, for \$25,000 "for improvement in teaching of mechanical engineering." The income will be spent each year as decided by the Board.

A gift of \$1,500 from the Toronto branch of the General Alumni Association will provide scholarships over a period of five years and an additional \$1,500 will be used to purchase furniture for the deans' offices in the new Students' Union.

The sum of \$10,000 was received from Senator A. C. Hardy to increase the endowment of the Hardy Memorial Chair in political science.

The Alumnae Association, which had raised the money for the Marty Memorial Scholarship fund, turned over the capital to the University to be administered as a trust fund.

## ALUMNI ON ACTIVE SERVICE JOIN PERMANENT FORCE

**O**F the 3,000 graduates, students, and former students on active service during World War II, a surprisingly large number have joined the permanent forces.

With the Royal Canadian Ordnance Corps, for example, are the following: Col. W. G. Denney, Arts '40, Lt.-Col. B. M. Webb, Arts '32, Lt.-Col. F. E. Anderson, Com. '33, Arts '34, Major J. R. Allen, Com. '38, Major J. G. Mumford, Arts '42, Capt. M. C. Watson, Arts '37, Capt. D. A. Miskelly, Arts '43, Capt. W. R. Preston, Arts '42, Capt. J. M. Seldon, Sc. '42, Lt.-Col. D. G. Ketcheson, Com. '30, Capt. G. H. Hall, Com. '38, Capt. R. J. Tamblyn, Arts '41. In addition, there are Major R. D. Watson, now taking extra-mural courses, and the following who have completed the banking course: Lt.-Col. G. C. Wright, Lt.-Col. A. Stocks, Major J. F. Lunau, Capt. T. M. Allwood, Capt. R. D. Gibson, Capt. J. W. Croft.

The *Review* will be pleased to receive lists of alumni in other branches of the services.

## F. G. HOOTEN, ARTS '46 NAMED AS RHODES SCHOLAR

F. G. HOOTEN

**A** GRADUATE with first-class honours in economics, Frank G. Hooten, Arts '46, has been named as the winner of the Rhodes' Scholarship for Manitoba. For the past year Mr. Hooten has been lecturing in the Department of Economics at the University of Buffalo.

Mr. Hooten is a former captain in the Canadian Armoured Corps. He was on active service for forty-two months before receiving his discharge and enrolling at Queen's. He had originally attended the University of Manitoba, and it was from there that he enlisted for active service.

During his term at Queen's he was particularly active in student veterans' affairs, serving as president of the ex-servicemen's organization. He was also president of the International Affairs Club.

## Co-operation and Rural Leadership Taught in Short Course

**S**PONSORED by the Ontario Federation of Agriculture and the Queen's Department of Extension, a short course in co-operation and rural leadership was held at the University December 26-30. Approximately one hundred were in attendance.

Among the speakers were Principal Wallace, Director of Extension H. K. Hutton, Wesley Neelands, Arts '36, R. H. Macklem, Arts '33, as well as a number of government and farm organization officials. In addition to addresses, the programme included discussion groups, reports of committees, films, and organized recreation.

# The Bookshelf

## Democracy and Freedom

THERE are many definitions of democracy. The *Oxford Dictionary* describes it as "government by the people; a form of government in which the supreme power is retained by the people and exercised either directly or indirectly." In the introduction to the book reviewed below Professor Corry quotes a wit: "In the democracies, what is not forbidden is permitted while in the dictatorships, what is not forbidden is compulsory." Democracy means many things to many peoples. But whatever conception one may have it is generally agreed that democracy and freedom are synonymous.

Two books concerning democracy have recently been written by members of the Queen's staff. Dr. R. G. Trotter has brought out *Charters of our Freedom*, in which he presents the most important documents upon which the system of democratic government in Canada is based. Prof. J. A. Corry is the author of *Democratic Government and Politics*, which gives a concise, comparative view of the governments of Great Britain, the United States, and Canada as a background for discussing recent develop-

DR. R. G. TROTTER

ments in democratic government and assessing their significance, and for analyzing the politics of democracy.

## CHARTERS OF OUR FREEDOM.

By Dr. R. G. Trotter. Published by Ginn and Company, Toronto.

One critic has said that only astounding ignorance of the history of the fight for freedom can account for the apathy with which Canadians view internal and external threats to liberties, for which their ancestors died in conflict after conflict for more than seven centuries. This is a severe indictment, particularly coming at a time when democracy may well be asked to stand its strongest test. There is little doubt that for free men to continue to enjoy the fruits of democracy they should be as well-informed as possible in order to combat the forces of evil that threaten from within and without.

Therefore, *Charters of our Freedom* is an important work, for it is a broad presentation of the highlights of the last 750 years, as the civilization of the English-speaking countries advanced towards their goal of freedom for the individual. Starting with the actual text of Magna Carta, Professor Trotter has presented the crucial documents which are the sources from which our liberties sprung: the Bill of Rights, the Ordinance for Virginia, Lord Durham's Report, the British North America Act, the Statute of Westminster, and the Atlantic Charter. Accompanying the documents are explanatory notes and memoranda that contribute much to the understanding and interpretation of the historic charters and acts.

The Canadian Council of Education for Citizenship has collaborated in the preparation of this work, and it appears with the full endorsement and commendation of the Council. H. M. Tory, LL.D. '38, chairman of the Council executive.

has said that he would like to see *Charters of our Freedom* become the cherished possession of every high-school student in Canada and a work of reference in our elementary schools. It could also, with profit, be made required reading for every adult in the country.

Dr. Trotter has been head of the Department of History at Queen's since 1934. In 1945 he was a delegate to the British Commonwealth Relations Conference in London. He has been president of the Canadian Historical Association and chairman of the Canadian Social Science Research Committee.

## DEMOCRATIC GOVERNMENT AND POLITICS. By Prof. J. A. Corry.

Published by the University of Toronto Press.

In his foreword the author says that the main purpose of this book is to provide some description of comparatively recent developments in democratic government and to sketch an analysis of the politics of democracy. During the past twenty-five years there has been a large literature on democratic government and politics, and there has been much stimulating discussion about the politics of democracy. As an introduction to the study of government, *Democratic Government and Politics* is eminently suitable and one that should prove popular.

Professor Corry deals with constitutions and the separation of powers, the expansion of government activities, political parties, representation, pressure groups, the relationship between the executive and the legislature, the judiciary and the law, the civil service, the administrative process, federalism, local government, democracy and dictatorship. These are formidable subjects, but the author has an interesting style. He has the happy knack of enlivening his text

with apt illustration or illuminating colloquialism.

There are those who claim that the democracies are travelling the totalitarian road, that the general pattern of government in the dictatorship is, in main, a projection of current trends in democratic government. Professor Corry admits that this view is not entirely groundless. In 1939 there was considerably more concentration of power in the democratic governmental structure than there was in 1900, and this is not without its alarming aspects. If the government is going to perform many positive services for the community, there must be greater concentration and less dispersion of power than that which marked the age of *laissez-faire*. But he feels that it is not necessarily beyond human ingenuity to find improved methods of control as counterpoises.

This book is one of the first in a series dealing with the government of Canada. The series will comprise a group of comprehensive and authoritative studies of the Canadian political system, and will go far to meet a need acutely felt for many years past.

A graduate in law of the University of Saskatchewan, Professor Corry has been Professor of Political Science at Queen's since 1936, when he succeeded to the post held by the late Hon. Norman Rogers. From 1937 to 1939 he was a member of the staff of the Sirois Commission.

PROF. J. A. CORRY

### Circulation Increases

During the past year the Douglas Library issued 47,440 volumes to students, alumni, and members of staff. This represented an increase of approximately 20,000 over the previous year.

## A PROPOSED WAR MEMORIAL FOR QUEEN'S

**A**PPOINTED by the Board of Directors of the General Alumni Association, a committee under the convenership of Mrs. D. G. Geiger (Goldie Bartels), Arts '22, has been considering suggestions for a memorial to commemorate the men and women from Queen's who served in the war.

The committee was unanimously of the opinion that the memorial should fit into some part of the proposed new building programme. After the last war the Memorial Chapel was added to the Douglas Library plans. The present committee suggests that the new memorial be considered as part of the Common Room in the new students' union.

Briefly, the idea is this: The forty-foot wall opposite the long row of Gothic windows in this magnificent room, which will open off the main entrance, will be transformed by the artist and the architect into a simple memorial unit. It is proposed to place here seven paintings in panels. These paintings, by Miss Marion Long, R.C.A., would represent men and women in the Navy, Army, and Air Force. The two end panels and the centre one would be three-quarter length and surmounted by insignia representing the three services. In between these would be smaller panels, two on each side of the centre panel. The names of all who had fallen would be carved in oak panels, and beneath the central portrait would be the dedicatory inscription.

It had been the hope of the committee that portraits of men and women in the services could have been made while the war was on. It was felt that much would have been lost if the actual painting had been postponed to peace time. These eager young people, pausing a moment in their training, or home from campaigns on land or sea or in the air, looked different from young men and women in peace time.

Then C. W. Jefferys, R.C.A., LL.D., suggested to one of the members of the committee that Miss Marion Long had already done what was needed. Miss Long is one of Canada's most distinguished artists and one of the two women who are full members of the Academy. Fascinated by these young men and women in the midst of war, she had painted many of them for her own pleasure. She had a wonderful and moving collection, and from these pictures the committee tentatively selected a number. Two or three will have to be completed and some slight alterations will be made in others.

The committee feels that at last they have a group of paintings that, taken together, will offer a beautiful and stimulating memorial. Here are the young lives that once again saved the world. They look the part—an immortal company.

The above sketch is merely a suggestion of how this idea can be worked out and is not final by any means.

# "MY FATHER SENT ME DOWN TO QUEEN'S"

By Gwen Morton Herbst, Arts '43

"ONCE a Queen'sman, always a Queen'sman"—the spirit of Queen's is justly famed. More than a closely knit undergraduate bond, it is an affectionate alumni memory, a tradition that each year brings young men and women from all parts of Canada to Queen's to follow the educational footsteps of their parents.

Two hundred and thirty-one students enrolled at the University this year are descended directly from Queen's alumni. This in a year when more than half of the students are veterans, many from non-professional homes who might not have come to the university without the help of veterans' educational grants.

One student—Anne Des Brisay—is the fourth generation of her family to attend Queen's. There are twenty-four young men and women who are third generation students, including a granddaughter and grandson of Rev. Dr. Hugh Cameron, Arts '76, the oldest living Queen's graduate. Forty-four students could hardly have gone to any other college—they have both mother and father Queen's alumni. Twenty-two had Queen's mothers. In several cases the link was between student and grandparents, or even between student, parent and great-grandparent. The remainder had a Queen's father.

Although it was not feasible to make a complete set of statistics for all faculties, it was noted that in Medicine, with a total enrolment of 258, thirty-five were second-generation students—and nineteen of these were sons or daughters of Queen's medical graduates. Which is following so closely in father's footsteps that it looks as though his shoes may be stepped into!

The following list was compiled from forms distributed by the Alumni Office to all students registering this fall. In future only those students registering for the first time will be asked for this information. It is hoped that eventually an interesting set of figures may be compiled.

D. B. Acton—A. L. Acton, Arts '12.  
V. E. Aksim—E. F. Aksim, Arts '09.  
Joan Allison—A. E. Allison, Arts '20.  
Alice Anglin—Rev. R. W. Anglin, Arts '08.

A. E. Ross—A. E. Ross, Arts '92, Med. '97, LL.D. '19.

H. J. Rowley—Dr. H. J. Rowley, Sc. '20, and Mrs. Rowley (Lucille Corbett), Arts '19.

G. M. Sampson—Mrs. H. M. Sampson (Georgia Eva Gordon), Arts '11.

Munroe Scott—Rev. W. J. Scott, Arts '14, Theol. '18, and Mrs. Scott (Helen Ford), Arts '13.

N. A. Scott—Dr. C. M. Scott, Arts '12, Med. '14, and Mrs. Scott (Katherine MacNabb), Arts '17.

J. W. Smail—F. H. Smail, Sc. '19.

A. A. Smith—Arnold Smith, Sc. '23.

Sheila Smith—Dr. R. M. Smith, Sc. '14, LL.D. '43.

Ruth Stevens—Dr. R. S. Stevens, Arts '08, Med. '12.

C. C. Stewart—Dr. G. R. Stewart, Med. '18.

Elizabeth Stewart—W. J. Stewart, extramural '25.

Joan Stewart and W. N. Stewart—N. G. Stewart, Arts '11, Sc. '15, and Mrs. Stewart (Maude Chalmers), Arts '14.

J. H. Stitt—J. H. Stitt, Arts '14.

Frank Stone and James Stone—Dr. E. L. Stone, Med. '14.

D. E. Swezey—R. O. Swezey, Sc. '08, and Mrs. Swezey (Harriet Watson), Arts '09.

Betty Taylor—Mrs. A. B. Taylor (Edith Culbert), Arts '19.

Aubra Thomas—Mrs. David Thomas (Roberta McLean), Arts '20.

E. G. Thompson and W. J. Thompson—A. E. Thompson, Arts '14.

R. S. Throop—Rev. L. S. Throop, Arts '18.

D. E. Toole—Mrs. G. A. Toole (Catherine MacLennan), Arts '06.

Gladys Trimble—W. A. C. Trimble, extramural '26.

G. A. Tripp—Dr. A. J. Tripp, Med. '17.

N. B. Urie—Dr. G. N. Urie, Arts '11, Med. '13.

J. R. Vallentyne—H. J. Vallentyne, Arts '20.

G. L. Van Skiver—L. A. Van Skiver, Sc. '14.

J. E. Vincent—G. G. Vincent, Sc. '18.

Lenore Wallace—Mrs. M. C. Wallace (Mary McIntyre), Arts '19.

Nancy Wallbridge—Dr. Cecil Wall-

bridge, Med. '14.

W. H. G. Wardrope—Rev. Thomas Wardrope, Arts 1845.

C. H. Warner—G. W. Warner, Sc. '23.

D. B. Warner—Dr. A. M. Warner, Arts '10, Med. '12, and Mrs. Warner (Lillian Birley), Arts '12.

F. H. O. Warner and G. D. E. Warner—Dr. G. L. Warner, Med. '23.

G. S. Webb—R. D. Webb, Arts '29.

Marjorie Wert—B. H. Wert, Arts '20.

Edith White—M. B. White, Com. '23.

A. C. Whittier, D. P. Whittier, and June Whittier—A. R. Whittier, Sc. '20.

Barbara Whytock—Dr. H. W. Whytock, Arts '13, Med. '15.

J. J. Williams—Dr. J. V. Williams, Med. '15, and Mrs. Williams (Dorothy Roney), Arts '16.

D. S. Willoughby—Dr. J. B. Willoughby, Med. '16.

Frances Joan Wilson—E. E. D. Wilson, Sc. '11.

J. B. Woodside—Mrs. James Woodside (Gladys Bogie), extramural '22.

D. S. Wright—G. C. Wright, Sc. '07.

Helen Wright—W. M. Wright, Arts '13, and Mrs. Wright (Marjorie Hopkirk), Arts '13.

---

### First Woman Student To Earn Bachelor of Science Degree

SOMETHING new was added to the roster of the General Alumni Association when Miss Dorothy Heartz of Montreal received a Bachelor of Science degree at the last Spring Convocation. She was the first woman graduate of the engineering faculty at Queen's.

DOROTHY HEARTZ

Miss Heartz, now Mrs. John W. Snook of Truro, Nova Scotia, came to Queen's in the fall of 1944 and entered third year mechanical engineering. She held a B.Sc. degree and an engineering diploma from Mount Allison University.

## Student Activities

### To Decorate Clubroom

**M**EMBERS of the C.O.T.C. have decided to spend \$2,000 to re-decorate and refurnish their common room. The present quartermaster stores are to be converted to a lecture room and the present lounge and office space will become a luxurious common room. It is planned to buy a quantity of furniture and other fittings, and to install new lighting fixtures. Newspapers and current magazines will be available for members.

### Veterans Organize

A group of ex-servicemen have formed a Veterans' Housing Organization for the avowed purpose of finding suitable housing for veterans now living in unsatisfactory conditions. An executive committee of thirteen members was selected, including two women. Cases brought to the attention of the executive for consideration included those of a man living in a coal cellar, several families with two or three children in single and double room "apartments," and many married couples living in single rooms with no facilities.

### Sing Christmas Carols

Sponsored by the Engineering Society, a sing-song of Christmas carols was held in Grant Hall on December 8, with a large number of students in attendance. Ewart Prince, Arts '47, and Jack Pulford, Sc. '49, led in the carol singing. An orchestra formed of members of Queen's Symphony Orchestra and the Queen's Band provided the musical accompaniment. The programme also included a trumpet duet by Doug. Creighton, Sc. '48, and Ed. Akeson, Arts '50, of the band, selections by the newly formed Men's Choral Club, and piano numbers by the popular Harry Arbique, Arts '48.

### Elect Permanent Officers

Cyril Morris has been elected permanent president of Science '47. Other officers appointed are as follows: honorary president, Prof. H. G. Conn; vice-president, Murray Gill; secretary-treasurer, Don Crighton; social convener, Stan Ellis; editor, Art Fee; department representatives, Bruce Ross, Harold Laine, Kenneth Moon, Kenneth Lachance, Vic Davies, Gordon Johnson, Jack McKelvie, Chris Nicholl, Lyall Barnhardt.

### Here and There

A special Christmas edition of the *Journal*, printed in green ink and featuring messages from the Principal and Dr. B. K. Sandwell, was brought out on December 13. The issue was devoted to special articles and pictures . . . Three news sheets made their appearance during December, put out by Arts '49, Science '50, and Science '44 Co-operative . . . The 1946-47 *Who's Where* finally reached the campus early in December. It is planned to print supplements in the *Journal* throughout the academic year in order that the directory may be kept up to date . . . Mr. W. H. Poole of Young and Rubicam advertising agency addressed a meeting of the Commerce Club on "Various aspects of market research" . . . Mr. E. J. Carlyle, secretary-treasurer of the Canadian Institute of Mining and Metallurgy, was the guest speaker at the meeting of the Mining and Metallurgical Society on December 3 . . . Queen's were represented at the meeting of the National Federation of Canadian University Students at the University of Toronto during the Christmas holidays by G. F. Bruce, Arts '47, president of the A.M.S., and by Miss Kate Macdonnell, Arts '47, vice-president.

# At the Branches

## New York

**A** MOVING appeal for leadership by university graduates in the use of education as a key to world peace was made by Principal Wallace at a meeting of the New York alumni held at the Midston House on November 20. Approximately seventy-five were in attendance.

The speaker emphasized the importance of teaching and not preaching the value of personal honesty, truthfulness, courage, and the like, to all the people, and of helping them to understand the advantages of a studious approach to human relations and to understand the lasting benefits of persuasion instead of coercion as a means of adjusting differences, whether between individuals or nations.

During the business part of the meeting it was announced that Dr. J. E. Hammett, Med. '19, had been elected president for the ensuing year. The remainder of the executive will be as follows: H. P. Salter, Com. '23, first vice-president; Miss Nonie Farmer, Arts '32, second vice-president; J. A. Strong, Com. '26, treasurer; Dr. W. A. Newlands, Arts '22, Med. '26, secretary; executive—Mrs. W. E. Jordan (Katharine Malcolm), Arts '31, G. F. Geiger, Sc. '23, H. J. Douglas, Arts '24, Dr. W. A. Jaquith, Med. '98.

---

## Branch Officers, 1946-47

**DR. J. E. HAMMETT**  
President, New York

**V. C. KNOWLES**  
President, Montreal

## Montreal

**P**ROF. J. S. FOSTER, MacDonald Professor of Physics at McGill University, was the guest speaker at the regular monthly meeting held at the Ritz Carlton Hotel on December 5. He spoke on "The New Cyclotron."

A report of the work of the University Board of Trustees was given by J. B. Stirling, Arts '09, Sc. '11. J. A. Henderson, Sc. '22, was added to the branch executive.

\* \* \*

On November 30 the annual alumnae sherry party was held at the home of B. E. Norrish, Sc. '08, and Mrs. Norrish.

## Ottawa

**U**NDER the auspices of the Ottawa branch, the Queen's Drama Guild presented "Much Ado About Nothing" in the Technical High School auditorium on December 10. With a seating capacity of more than 1100, the hall was completely filled for the occasion, and the production was received with great enthusiasm.

In true Shakespearian tradition, stage properties were at a minimum and the play relied for its effectiveness entirely on the interpretive abilities of the actors. The critic of the *Ottawa Journal* said: "The entire performance was excellent. All the players right down to the most insignificant retainer seemed well able to throw themselves into their parts and live the story they were telling."

Directors were Dr. William Angus and Dr. G. B. Harrison of the English Department at Queen's. Members of the cast were all students registered at the University.

The venture was something new as an Ottawa branch activity, but after the success enjoyed it is hoped to make it an annual event. As one alumnus said: "The success of the Guild here made us forget all about the football season."

The Committee in charge of looking after the details of the production in Ottawa consisted of Dr. Wallace Troup, Med. '24, convener, Miss Marjorie Gordon, Arts '38, P. E. H. Brady, Arts '41, and J. L. Shearer, Sc. '28.

# Alumni News

## Births

**Amodeo**—At the Hotel Dieu Hospital, Kingston, on January 3, to Dr. William Amodeo, Med. '40, and Mrs. Amodeo, a son (Michael Patrick).

**Bell**—At the Kingston General Hospital, on December 30, 1946, to Dr. R. Glen Bell, Med. '39, and Mrs. Bell, of Merrickville, Ont., a son (Gregory).

**Brown**—At the Kingston General Hospital, on January 2, to Dr. A. B. Brown, Med. '43, and Mrs. Brown, a daughter.

**Beswick**—On December 24, 1946, at the Kingston General Hospital, to P. J. Beswick, Sc. '42, and Mrs. Beswick, a son (Paul).

**Dickson**—At the Private Patients' Pavilion, Toronto General Hospital, on November 24, 1946, to Dr. L. C. Dickson, Med. '37, and Mrs. Dickson, a son (Grant Fraser).

**Gavell**—On November 20, 1946, at Ottawa, Ont., to Mr. Vernon Gavell and Mrs. Gavell (Kathleen Leacock), Arts '32, a daughter (Suzanne Elizabeth).

**Gibson**—At St. Joseph's Hospital, London, Ont., on January 2, to Dr. L. M. Gibson, Med. '38, and Mrs. Gibson, a daughter.

**Jenkinson**—At the Saguenay General Hospital, Arvida, Que., on November 12, 1946, to H. C. Jenkinson, Sc. '27, and Mrs. Jenkinson (Elizabeth Graham), Arts '27, a son (Stewart Fleming).

**Martin**—At Townsite Hospital, Deep River, Ont., on August 6, 1946, to W. M. Martin, Sc. '41, and Mrs. Martin, a daughter (Theresa Jeanette "Janet").

**McNabb**—At St. Elizabeth Hospital, Elizabeth, N.J., on August 6, 1946, to J. G. McNabb, Arts '33, and Mrs. McNabb, a son (Kenneth Arthur).

**Parnall**—On November 18, 1946, at the Private Patients' Pavilion, Toronto Western Hospital, to Maxwell Parnall, Arts '39, and Mrs. Parnall, a daughter (Catherine Jane).

**Rivington**—At the Royal Victoria Hospital, Montreal, on December 28, 1946, to Neville Rivington, Sc. '42, and Mrs. Rivington (Buntly Chatham), Arts '40, a daughter (Diana Jeanne).

**Robinson**—At Haileybury, Ont., on December 20, 1946, to Judge J. B. Robinson and Mrs. Robinson (Julia Bridger), Arts '41, a daughter.

**Shirreff**—At the Kingston General Hospital, on December 14, 1946, to Lt.-Col. W. P. Shirreff, Sc. '35, and Mrs. Shirreff, a son.

**Smith**—At the Royal Victoria Hospital, Montreal, on January 15, to W. J. Smith, Sc. '42, and Mrs. Smith, a daughter (Suzanne Helen).

**Sugarman**—On December 24, 1946, at the Jewish General Hospital, Montreal, Que., to Dr. Irwin Sugarman, Arts '34, Med. '36, and Mrs. Sugarman (Miriam Cohen), Arts '34, a daughter.

**Thomson**—At the Kingston General Hospital, on January 8th, to Dr. John A. Thomson, Med. '41, and Mrs. Thomson, of South Mountain, Ont., a daughter.

**Walker**—In October, 1946, to George O. Walker, Com. '40, and Mrs. Walker, of Saskatoon, Sask., a daughter.

**Williamson**—On November 30, 1946, at Deep River, Ont., to Dr. N. L. Williamson, Med. '42, and Mrs. Williamson, a daughter.

## Marriages

**Beacock**—At the residence of Dr. and Mrs. Charles Miller, Toronto, on December 28, 1946, Leta Jean Spencer to Dr. Grant Colville Beacock, Med. '41, Kingston.

**Clarke**—In Sydenham St. United Church, Kingston, on December 26, 1946, Frances Louise Clarke, Arts '41, to Mr. John Melville Prideaux, of Regina, Sask.

**Fraser**—On January 4, in the chapel of St. Paul's Anglican Church, Toronto, Mary Frances McArthur, daughter of Mrs. McArthur and late Hon. Duncan McArthur, Arts '08, LL.D. '35, to Duncan Dewar Fraser, Sc. '41. They will live in Montreal.

**Holland - Martin**—In First Presbyterian Church, Utica, N.Y., on October 26, 1946, Ree Martin, Arts '44, to Clifford Doran Holland, Sc. '46. They are living in Thorold, Ont., where Mr. Holland is on the staff of the Ontario Pulp and Paper Company.

**Johnston**—On December 7, 1946, at Metropolitan United Church, Edmonton, Alta., Margaret Evelyn Bulloch to David Hartman Johnston, Sc. '41. They will live in Toronto.

**Lyne**—At St. George's Anglican Church, Owen Sound, Ont., on August 17, 1946, Hazel Hurlbut to L. Murray Lyne, Sc. '42. Mr. Lyne recently joined the research department of the E. B. Eddy Company in Ottawa.

**Moir**—On September 7, 1946, at Chalmer's Church, Guelph, Ont., Marie Anderson to Robert Young Moir, Arts '41. R. B. Rose, Arts '43, was an usher.

**Shier**—On August 17, 1946, in Eglinton United Church, Toronto, Margaret Lorraine Shier, Arts '42, to Mr. Alexander Campbell, Galt, Ont.

**Vollmer**—On August 24, in St. Giles United Church, Hamilton, Barbara Anne Bottrill of Hamilton, Ont., to George Latimer Thomas Vollmer, Sc. '38. Margaret Elizabeth "Pops" Vollmer, Arts '42, sister of the groom, was bridesmaid, and W. S. Keating, Sc. '40, was best man.

## Deaths

**Grenfell**—A school teacher of outstanding ability, Miss Mary Elizabeth Grenfell, Arts '99, died at Vancouver, British Columbia, on November 17, 1946. Miss Grenfell

was born at Knowlton, Quebec, in 1879, and received her preliminary education at various schools. She entered Queen's in 1896 and graduated with her B.A. three years later. After attending Hamilton Normal School, Miss Grenfell went to British Columbia, where she spent several years as a teacher in elementary schools in the upper part of the province. In 1910 she joined the staff of Britannia High School, Vancouver, where she remained until her retirement in 1938. Here she devoted her energies to the teaching of French, with great success. All of her methods were of a practical nature, and some of them anticipated by many years procedures that are now standard practice in progressive schools. In her years of retirement Miss Grenfell was joined by her sister Miss Caroline P. Grenfell, Arts '99, who survives to mourn her great loss. "The deceased will long live in the esteem and affection of her Britannia colleagues and the many hundreds of pupils who enjoyed the privilege of daily association with a teacher of rare personal character and charm, enhanced by ability, devotion, and gifts of teaching and inspiration seldom equalled."—M.Y.W.

**Knowles**—Presbyterian clergyman, author and newspaperman noted for "human interest" interviews with many of the world's celebrities, Rev. Robert Edward Knowles, Arts '92, died at his home in Galt, Ontario, on November 15. Mr. Knowles, who was seventy-seven, had lived in retirement for some years, and in recent months had been confined to bed through poor health. Born in Maxwell, Grey County, Mr. Knowles attended Tassie's School in Galt and Peterboro Collegiate Institute. He entered the Arts Faculty at Queen's in 1886, and attended for two years. In 1892 he received his Bachelor of Arts Degree *ad eundem* from Manitoba University. Ordained a Presbyterian minister in 1891, he served at Stewarton Church, Ottawa, from then until 1898, when he went to Knox's Church, Galt, where he remained for the next seventeen years. Mr. Knowles then retired from the active ministry to become a full-time writer. Among his best-known books were "St. Cuthbert's," "The Undertow," "The Web of Time," and "The Singer of the Kootenay." His liking for writing lead him into journalism, and he joined the *Toronto Star*, where he enjoyed more than local renown as an interviewer of well-known people, ranging from prizefighters to pianists, from stage idols to scientists. Mr. Knowles was also known as a lecturer, and he toured Europe and the United States in this capacity with considerable success. Surviving are his second wife, a daughter, and two sisters.

**Leask**—Well-known barrister, judge, and sportsman, Judge Harry Darling Leask, Arts '88, died in an Ottawa hospital on December 7, after a long illness. He was in his seventy-ninth year. Born in Toronto,

Mr. Leask received his primary and secondary education in Orillia. At the age of sixteen he entered the Arts Faculty at Queen's, graduating four years later with a Bachelor of Arts degree. As an undergraduate, he played hockey, soccer and tennis, and was a forward on at least one championship football team. He then went to Osgoode Hall, from where he graduated in 1891. Going to Northern Ontario, he practised law in the mining camps, travelling by canoe and dog sled before the coming of the railway. In the course of a distinguished legal career, Mr. Leask was appointed Judge of the District Court at Sudbury, a position which he held from 1903 until his retirement in 1935. Always an enthusiastic sportsman, Mr. Leask hunted and fished avidly all his life. He was also one of the committee which drew up the first formal rules for hockey, and he played for Queen's against the Royal Military College under these rules. He was one of the founders of the North Bay Curling Club and the North Bay Golf Club. Two sisters survive him.

**McCallum**—Former Liberal Member of Parliament for Frontenac-Addington, Angus Neil McCallum, Sc. '19, died in Kingston General Hospital on December 7. He was fifty-four years of age. Mr. McCallum was born at Sunbury, Ontario, and received his early education at Inverary Public School and Sydenham High School. He enrolled in the Arts Faculty at Queen's in 1909, then after three years changed to engineering. After graduating with his B.Sc. degree in 1919, Mr. McCallum went to South America as a mining engineer. On his return to Canada he went to Timmins, Ontario, in the same capacity. After a short time he returned to Sunbury, and farmed there a number of years. In 1937 Mr. McCallum was elected to the House of Commons by acclamation, and he served as member for Frontenac-Addington until 1940. Mr. McCallum was treasurer of Sunbury Presbyterian Church and a member of the Ancient Order of St. John's Masonic Lodge. Surviving are two sisters and two brothers.

**MacDonald**—At the age of eighty-five, Rev. John Alexander MacDonald, Arts '88, Theol. '91, died at his home in Kingston, Ontario, on December 27, 1946. In failing health for more than a year, he had been retired since 1933. Mr. MacDonald was born at Ramsay, Ontario. He attended school at Almonte and then registered at Queen's. He obtained his B.A. degree in 1888. Shortly after graduation he went to Alberni, British Columbia, where he opened a mission school for Indians. He was forced to give this up after two years because of ill health. He then served at Whitney, Pittsburg, Morton, Ramsayville, Gore Bay, Vala, Kinmount, Chalk River, and other charges in Ontario. His last charge was Coe Hill. Since his retirement

he had made his home in Kingston. Mr. MacDonald's hobbies were gardening and fishing, and he always took an active interest in the affairs of Queen's. The survivors include his wife, a daughter, a son, Neil, Sc. '23, of Barrie; two brothers, of whom Rev. William MacDonald, Arts '99, Theol. '01, is one; and two sisters.

**McMillan**—A retired minister noted for his untiring services, Rev. Archibald McMillan, Arts '98, Theol. '02, died at his home in Rutland, British Columbia, on November 17, 1946. Mr. McMillan was born at Brock, Ontario, in 1868. He attended Port Perry high school before enrolling at Queen's in 1894. An excellent student, he graduated with his B.A. degree in 1899, and his testamur in theology in 1902. Prevented for physical reasons from entering the foreign mission field, he went to Western Canada, and for eighteen years he gave his best to rural charges in Manitoba. When, for reasons of health, he was compelled to seek a milder climate, he went

to British Columbia, where he laboured until his retirement a few years ago. He started his career as a minister of the Presbyterian Church, and later served with the United Church. Survivors include his wife, a daughter, and a sister.

**Sylvester**—A resident of Keene, New Hampshire, for the past twenty-two years, Franklin V. Sylvester, Med. '11, died in Keene on September 11. He was sixty-four years of age. Mr. Sylvester was a native of Boston, Massachusetts, and graduated from the Boston Latin High School before coming to Queen's in 1907. He did not finish his medical course, going into the business world instead. For many years Mr. Sylvester was employed in the office of a garage in Keene, and in recent years as an accountant with the same firm. Active in city government, he had been an alderman and a council representative. He was interested in choral work, belonging to the local choral society, and also was a member of the Sons of the American Revo-

lution. Surviving, in addition to his widow, are two sons and two daughters.

**Weir**—Stricken with a heart attack while curling, William James Weir, Arts '09, died suddenly at Ottawa, Ontario, on December 26, 1946. He was sixty-eight years of age. Mr. Weir was born in Lambton County, near Sarnia. He received his early education in the schools of Perth, and then entered Queen's, where he obtained his B.A. degree in 1909. The following year he taught school in Sydenham and then went to Ottawa where he remained ever since. He taught in various schools, and was Principal of Cartier Street, Osgoode Street, and First Avenue Schools. He retired in June, 1943. Mr. Weir was active in the affairs of Chalmers United Church, and was an elder for thirty-six years. A member of Builders' Lodge, A.F. and A.M., he was a Scottish Rite Mason and member of Rose Croix. Among the survivors are his wife, a brother, and two sisters.

### Notes

#### 1870 - 1879

**P. A. Macdonald**, Arts '76, Winnipeg, one of the two oldest surviving Queen's graduates, celebrated his ninetieth birthday on January 6. He was called to the bar of Manitoba in 1880, and after practising for several years occupied positions of Master of Chancery and Referee in Chambers, was later appointed Public Utility Commissioner for Manitoba. He has been retired for several years, but still enjoys good health and strength and walks considerable distances.

#### 1890 - 1899

**Mrs. Hugh C. Nickle** (Ethel Dickson), Arts '98, Kingston, was bereaved by the death of her husband on December 24. Mr. Nickle was wartime housing administrator and former superintendent of the Kingston Street Railway Company. **Hugh Nickle**, Arts '18 Montreal, and **Donald C. Nickle** Arts '24, Toronto, are sons. **W. F. Nickle**, Arts '91, is a brother.

#### 1900 - 1909

**Rev. Walter Bennett**, Arts '04, is pastor of St. Mary's Church, Lowville, N.Y.

**J. H. McKechnie**, Arts '01, is retired and living at 480 Oriole Parkway, Toronto.

**Rev. Basil Thompson**, Arts '08, Kingston, has been elected chairman of the municipal Board of Education.

#### 1910 - 1919

**W. G. Barrett**, Sc. '16, is general superintendent of the Wakefield, Que., plant of the Aluminum Company of Canada Limited.

**Charles Baycroft**, Sc. '12, is field engineer for Kennco Explorations Limited, Toronto. He lives at 126 Kingsmount Blvd., Sudbury, Ont.

**R. M. Cameron**, Sc. '13, is a member of the firm Cameron and Roberts, Resident Agents and Brokers, Santa Barbara, Calif.

**Dr. R. A. Dick**, Med. '11, after thirty years' practice in Canora, Sask., is now retired and living at 1763 West 58th Ave., Vancouver, B.C.

**P. E. Doncaster**, Sc. '10, retired on January 20 from his position as district engineer at Winnipeg for the Department of Public Works of Canada. He was with the Department for thirty-nine years. Mr. Doncaster is moving to British Columbia, where his address will be Harbour House, Ganges, B.C.

**J. C. Donohue**, Arts '17, is principal of the Vocational High School in Syracuse, N.Y.

**Dr. Hilda Laird**, Arts '18, has been promoted to the rank of associate professor of German at Queen's University.

#### 1920 - 1929

**Miss Lois Allan**, Arts '21 (B.L.S.), is children's librarian at the public library in Hamilton, Ont.

**Dr. A. I. Armstrong**, Med. '22, formerly at North Augusta, is now practising in Brockville, Ont.

**R. H. Bauld**, Sc. '28, is a metallurgical consultant with offices in the Selection Trust Buildings, Masons Ave., London E.C. 2, England.

**Dr. T. J. Curphey**, Med. '21, Garden City, Long Island, N.Y., is president-elect of the American Society of Clinical Pathologists and vice-president of the New York State Association of Public Health Laboratories.

**J. W. Dougherty**, Sc. '21, formerly mine superintendent at the Hollinger Consolidated Gold Mines, Timmins, Ont., was recently promoted to the position of general superintendent, and **J. M. Douglas**, Sc. '24, formerly assistant mine superintendent, was appointed mine superintendent.

**Dr. R. H. Kettle**, Med. '28, has returned to his position as assistant superintendent of the Norwich State Hospital, Norwich, Conn., after four years' service with the U.S. Army Air Forces. He was discharged with the rank of Lieutenant-Colonel.

**W. D. Kirk**, Sc. '28, is now chief engineer for E. G. M. Cape and Company, Montreal.

**J. M. McBean**, Sc. '25, is on the staff of the servomechanisms laboratory at the Massachusetts Institute of Technology, Cambridge, Mass.

**G. F. MacDonnell**, Sc. '26, is vice-president of the International Mining Corporation, Toronto.

**C. W. Morgan**, Sc. '28, is with the Department of Public Works of Canada in Toronto as senior assistant engineer.

**J. L. Mutter**, Arts '27, Com. '28, has taken over his new duties as commercial secretary at the Canadian Embassy in Santiago, Chile.

**E. G. Patterson**, Sc. '24, is assistant manager for the Long Lac Pulp and Paper Company, Toronto.

**Mrs. Homer F. Ray** (Helen Libby), Arts '20, niece of Mrs. W. E. McNeill, is actively interested in the formation of a Pennsylv-

vania Branch of the Queen's Alumni Association. Mr. and Mrs. Ray have offered their home, "The Anchorage," on Providence Great Road, Wallingford, as a meeting place for Queen's alumni in the vicinity. Queen's graduates and their families, when in the Philadelphia area, will be most welcome at "The Anchorage."

H. L. Slater, Com. '26, has been appointed vice-president and treasurer of Canadian Food Products Limited, Toronto. Mr. Slater joined the company in 1944 after spending four years with the Wartime Prices and Trade Board and the Foreign Exchange Control Board in Ottawa.

Dr. E. A. W. Sheppard, Med. '26, eye specialist in Washington, D.C., has announced the removal of his offices from 927 Seventeenth St., N.W., to 1801 K Street, N.W. Dr. Sheppard is professor of Ophthalmology at George Washington University School of Medicine, Ophthalmologist-in-chief at George Washington University Hospital, Associate Surgeon, Episcopal Eye, Ear and Throat Hospital, and Consulting Ophthalmologist, Garfield Memorial, Gallinger Municipal, Columbia and Casualty hospitals.

Dr. G. G. Suffell, Sc. '25 (Ph.D. Stanford), formerly on the geological staff of Noranda Mines Limited, was recently appointed to the staff of the University of Western Ontario as assistant professor in the Department of Geology and Geography.

Dr. Waring Willis, Arts '26, Med. '28, of Bronxville, N.Y., has been elected vice-president of the Westchester County Medical Society.

#### 1930 - 1939

S. E. Alsop, Sc. '36, is with the Northern Electric Company in Montreal.

Dr. Harold C. Beachell, Arts '37 (Ph.D. New York University), has joined the staff of the University of Delaware, Newark, Delaware, as assistant professor of chemistry. From 1941 to 1946 Dr. Beachell was associated with E. I. du Pont de Nemours and Company, Inc., in their experimental laboratory at Cleveland, Ohio, where he conducted research and development work on DDT and was for some time in charge of tanning research for the Grasselli Chemicals Department.

Col. W. A. B. Anderson, Arts '37, is director of military intelligence at Army Headquarters in Ottawa.

Dr. P. E. Auger, Sc. '36, is professor of Economic Geology in the Faculty of Science at Laval University, Quebec City.

Dr. John E. Baker, Med. '34, is with the Canadian Pension Commission as pension medical examiner at Kingston, Ont.

K. F. Bews, Sc. '34, has resigned as assistant plant engineer with Canadian International Paper Company, Three Rivers, Que.,

to accept the position of plant engineer for Kenwood Mills Limited, Arnprior, Ont.

Charles Camsell, Sc. '32, is now manager of the Canadian Sullivan Machinery Company, Haileybury, Ont.

Mrs. John L. Caughey (Winnifred Scott), Arts '30, has moved from New York City to Cleveland, Ohio, where her husband, Dr. Caughey, has been appointed Assistant Professor of Medicine at the School of Medicine of Western Reserve University.

W. A. Clarke, Sc. '30, is division engineer at Kingston for the Ontario Department of Highways.

Mrs. Morris Conway (Helen Matheson), Arts '34, is on the staff of the Bell Telephone Company of Canada, Toronto.

Miss Helen Cram, Arts '36, is a student at the University of Toronto Library School.

L. E. Couillard, Com. '38, has joined the staff of the Commercial Relations Division of the Department of Trade and Commerce, Ottawa. Recently he and J. J. Deutsch, Com. '35, were Canadian delegates to the International Trade and Employment Conference in London, England.

Mrs. Norman A. Donaldson (Helen Eakin), Arts '37, who completed a course at Library School, University of Toronto, last summer, is now on the staff of Oakwood Collegiate Institute, Toronto, as teacher-librarian. Mrs. Donaldson's husband, a captain in the Argyll and Sutherland Highlanders, was killed in Germany in 1945.

J. R. Evans, Sc. '35, is design engineer at Canadian Arsenals Limited (gun division), Longueuil, Que.

Dr. D. O. Ferris, Med. '31, has been head of section in general surgery at the Mayo Clinic, Rochester, Minn., since 1943. He received his M.S. in Surgery from the University of Minnesota in 1941.

Joyce Hemlow, Arts '38, is teaching English at McGill University, Montreal.

F. G. French, Com. '30, is head of the manufacturers' agency, F. G. French and Company, Montreal.

J. W. Hay, Sc. '39, is with the Pacific division of the Dominion Rubber Company as sales engineer. His headquarters are in Vancouver.

Dr. W. M. James, Med. '32, resumed private practice at 669 Tinton Ave., Bronx, New York City, after receiving his discharge from the U.S. Army Medical Corps, in which he served as an orthopaedic surgeon.

R. W. C. Johns, Sc. '39, has been appointed assistant mineralogist at the Royal Ontario Museum, Toronto.

R. L. Johnston, Sc. '39, is on the staff of the American Smelting and Refining Company at their Baltimore Plant, Highland and Eastbourne Aves., Baltimore, Md.

W. H. Kidd, Arts '37, is a student-at-law at the University of British Columbia, Vancouver.

Dr. Arthur Langford, Arts '31, Ph. D. Toronto, who has been a lecturer in biology at Bishop's College, Lennoxville, Que., for the past eight years, was recently promoted to assistant professor.

J. I. McAskill, Sc. '36, has joined the staff of the Frontenac Floor and Wall Tile Company in Kingston.

Dr. J. Gilbert McBroom, Med. '34, eye, ear, nose and throat specialist, formerly of Brockville, Ont., has taken over the practice of the late Dr. H. P. Folger, Arts '17, Med. '22, at 262 Bagot St., Kingston.

D. E. McTaggart, Sc. '34, is research chemist for American Cyanamid Company, Newark N.J.

Norman Muir, Arts '32, recently resumed his duties on the staff of the high school at Ridgetown, Ont., after four years' service in the Canadian Army.

Lt.-Col. E. T. Munro, Sc. '37, has been appointed army instructor at the R.C.A.F. Staff College, Armour Heights, Toronto.

Dr. H. M. Munro, Med. '39, is on the staff of Bonnie Burn Sanatorium, Scotch Plains, N.J.

Mrs. J. M. Purvis (Kathleen Brockel), Arts '38, has resigned from the staff of the collegiate institute in Renfrew and is now living in Kemptville, Ont., where her husband, J. M. Purvis, Arts '40, has been teaching in the Kemptville Agricultural College since his recent discharge from the army.

Dr. K. W. Saunders, Sc. '36 (Ph.D. New York University), is president of the New York Chemistry Alumni Club for the current year. Dr. Saunders is at the Laboratories, American Cyanamid Company, Stamford, Conn.

C. J. Scott, Sc. '35, has joined the engineering staff of the Aluminum Company of Canada Limited in Montreal, where he is doing electrical design and layout work.

Dr. A. L. Segal, Med. '38, has been appointed assistant professor of radiology at the Louisiana State University Medical Centre.

E. P. Thompson, Sc. '31, formerly assistant chief geologist at the Hollinger Consolidated Gold Mines Limited, Timmins, Ont., was recently promoted to the position of assistant mine superintendent.

Mabel Waddell, Arts '33, was bereaved on December 14th by the death of her father, Rev. John A. Waddell, minister of Western United Church in Ottawa.

#### 1940 - 1946

J. E. Armstrong, Sc. '40, is mine superintendent of Beaver and Temiskaming Mines, Cobalt, Ont.

C. N. Baker, Sc. '44, is taking his Ph.D. in chemical engineering at Cornell University.

Adelaide Barnes, Arts '45, has been psychologist with the Public Health Department (Mental Hygiene Division) of the City of Toronto since October, 1945.

H. J. Barton, Sc. '43, is with Northern Electric Company in Montreal as equipment engineer.

J. P. Bonneville, Sc. '41, is on the staff of Sullivan Mines Limited, Sullivan, Que.

Kathleen Butcher, Arts '42 (Ph.D. University of Michigan), has been appointed instructor in mathematics at Wellesley College, Wellesley, Mass.

J. L. Burrows, Sc. '40, is a member of the technical department at the Kingston Works of the Aluminum Company of Canada.

Elizabeth Cameron, Arts '45, has accepted a position on the staff of the British Government High School, Nassau, Bahamas.

A. J. Carlson, Sc. '41, is assistant professor in the Faculty of Engineering and Architecture, University of Manitoba, Winnipeg.

D. A. Carmichael, Sc. '42, is sales engineer in Northwestern Ontario, Manitoba, and Eastern Saskatchewan for the Empire Brass Company. His headquarters are in Winnipeg.

D. B. Carlyle, Com. '46, has joined the staff of Wm. M. Mercer and Company, 672-A Sun Life Building, Montreal.

N. J. Clark, Sc. '41, is with the Barber Die Casting Company, Hamilton, Ont.

I. L. Collins, Arts '45, is principal of the continuation school at Metcalfe, Ont.

Dr. William Cornett, Med. '46, is practising at Stirling, Ont.

T. B. Crawley, Sc. '42, is tool engineer with Canada Line Materials Limited, Scarborough Junction, Ont.

Doreen Denyes, Arts '46, is in the mortality department of the head office of the Canada Life Assurance Company, Toronto.

H. F. Ditchburn, Sc. '41, F. W. H. Wellwood, Com. '41, Arts '42, and R. K. Mackenzie, Sc. '40, are taking postgraduate work in business administration at Harvard University.

Dr. C. R. M. Eaid, Med. '43, has been in private practice at Englehart, Ont., since his discharge from the army last August.

A. E. Fernandez-Davila, Sc. '44, is in the production control department of the International Petroleum Company, Talara Refinery, Talara, Peru.

Dr. M. M. Fraser, Med. '46, is acting medical superintendent at the R. W. Large Memorial Hospital, Bella Bella, B.C.

Thelma Gordon, Arts '45, is doing postgraduate work in psychology at the New School for Social Research in New York City.

John Harris, Sc. '40, has accepted a position with the National Research Council in Ottawa.

E. W. Harrison, Com. '46, has been with Canada Packers Limited, Montreal, since graduation.

W. L. Hayhurst, Sc. '46, is doing postgraduate work at the California Institute of Technology, Pasadena.

B. R. Hepburn, Sc. '41, has been appointed manager of the Hartley Foundry Company, Brantford, Ont.

H. L. Hillgartner, Sc. '44, is project engineer for Universal Plumbing and Heating Company, at Marathon, Ont.

W. A. Hubacheck, Sc. '45, is geologist at the Stadacona Mines, Rouyn, Que.

Carol Hopkins, Arts '46, is assistant professor of Classics at the University of New Brunswick, Fredericton, N.B.

H. R. Kitney, Arts '45, has been organist and choirmaster at St. Stephen's Anglican Church, Calgary, Alta., for the past year.

F. B. Lee, Sc. '45, is test engineer with the General Electric Company, Schenectady, N.Y.

Emily McCaffrey, Com. '44, Arts '45, has been transferred from Winnipeg to the Toronto office of the International Business Machines Company.

Audrey MacEwen, Arts '46, is with the Manufacturers Life Insurance Company in Toronto.

J. L. McIntosh, Sc. '40, is now assistant works manager with the Dominion Tar and Chemical Company, Toronto.

J. W. McLeod, Sc. '43, is field engineer for the Andrew Company, consulting radio engineers, 363 East 75th St., Chicago, Ill.

C. D. Marshall, Sc. '41, is plant superintendent for the Dominion Structural Steel Company, Montreal.

Dr. Macey Milner, Med. '43, formerly with the R.C.A.M.C., has returned to Europe

as a field doctor with the American Joint Distribution Committee.

Grace Mohr, Arts '46, is attending the University of Toronto Library School, Toronto.

Dr. D. C. Montgomery, Med. '45, who has been attending the New York Skin and Cancer Unit of Columbia University since his discharge from the Canadian Army last September, recently began a three years' course in dermatology at the New York Post Graduate Medical School, New York City.

James Nettleton, Sc. '43, Sarnia, Ont., was bereaved by the death of his father on January 13.

Dr. F. G. Palanek, Med. '43, has opened a general practice at 147 Thames St., Chatham, Ont.

Kathleen Penney, Arts '44, teaches in the high school at Cochrane, Ont.

Dr. A. W. Perry, Med. '46, has received a medical fellowship at Lahey Clinic, Boston, Mass.

J. P. Ratledge, Sc. '46, has taken a position with the Aluminum Company of Canada at Arvida, Que.

Florence Rowe, Arts '41, is principal of College Street School in Sudbury, Ont.

Dr. Ian Shaw, Med. '46, is practising at Lanark, Ont.

R. E. Smith, Sc. '43, is chief rubber chemist, Witco Chemical Company, Technical Service Laboratory, 719 First Ave., New York 17, N.Y.

## MODERN TRENDS IN EDUCATION

By Principal R. C. Wallace

FUNDAMENTALLY there is not, nor can there be, anything new about the objectives of education. For it is the process designed to assist in the development of the whole man, spiritual, mental, physical, to play the part for which he is fitted, in the world in which he lives. Man does not change greatly, nor does his world. And so, essentially, the aims of education remain the same. But there is a constantly changing emphasis on the means by which the objective may be attained. The tools of the trade are refashioned for each succeeding age. The curriculum is in constant process of readaptation to what seems to be new needs. And with every change there are those who feel that more has been lost in the sacrifice than has been gained in that which has been introduced as new. And that is, and always will be, the major controversy in the field of education.

More than we realize, we are affected by the prevailing temper of thought of the times in which we live. It affects us in our own mode of thinking. It sets the pattern of our educational processes. It moulds our school curricula. It influences the character of our universities. This is not to say that we are puppets for whom the strings are pulled by influences outside our control. The forces of education do much to influence public opinion. The climate of thought of our time is in part the result of conscious planning on the part of those who have to do with education. But it is much more than that, as all who are in the field of education well know. It may be irrational, it may be swayed by prejudice or by fear, it may have its roots in fundamental human emotions of which too little account is taken by those whose responsibility it is to instruct the young. The fact has to be taken into account that educational institutions respond to the demands of their times, part of which demands, but only part, they have a share in creating.

A glance backwards, in a personal way, will serve to illustrate this process of interaction. In my high school days, now some half century gone past, the education was classical and mathematical, severe and rigid, and excellent of its kind. Later, as a mathematical and science master in high school, I played some part in introducing science into the curriculum. It had taken more than half a century for the words of Thomas Huxley to have effect; but science came in to stay as an essential part of modern education. Then it was felt that the responsibilities of citizenship were not adequately prepared for in education, and civics and government were

introduced to give body and life to what had been the somewhat anaemic treatment of history, which had hitherto done sole duty in the curriculum for the social studies. Still later, the idea gained popular support that the abilities and proclivities of the individual student were not being given adequate opportunity to develop, and the whole school of progressive education, with all its ramifications, came into being. And as a further extension, with emphasis on the co-operative nature of the society in which we live, the project or enterprise gives scope both for initiative and for the teamwork without which any project fails of success. Through all this kaleidoscopic change which has taken place in a single lifetime, but particularly in these latter days, there has been an antithesis between an ideal in education which has no relationship directly with the means of making a living, but much to do with a way of life, and that objective in education which is concerned with preparing directly for a particular vocation. Of this antithesis there will be more to say later.

It is a commentary on human nature that in all new proposals which have in themselves merit there are those—and they are many—who feel that these proposals are in themselves a final solution to all the problems of education. They push the ideas so far that the reaction sets in inevitably, and much that was good is lost. It is, I suppose, the part of the propagandist to see all the good in what he advocates, and wilfully to shut his eyes to merit elsewhere. The pendulum swings far to one side, and swings backwards far to the other. It would almost seem as though nature has decided that it is better to swing from side to side than to remain in the middle position, static. The old Greek adage, “In nothing too much,” has been difficult to achieve. So it has been that with each of these movements in turn there has been disappointment and heartburning, for they claimed too much. But in the long run what is good remains and becomes an integral part of the system of education best fitted for our time. It is well to keep in mind the experience of the past when we consider the tendencies of today. There is little doubt that the same lack of balance will show itself in our endeavours to meet present day needs as has been the characteristic of the experiments in education during the last half century.

So much by way of background. What are the trends of today and the repercussions of tomorrow? We are too close to them to view them in adequate perspective. But this is my assignment, and I shall endeavour to fulfil it without apology. It is well at the outset to emphasize the fact that we have accepted the principle that all should be educated, irrespective of their mental capacities. That has inevitably changed the emphasis. Half a century ago, only those whose mental abilities were considerably above the average were given the opportunity of a high school education. It was possible to make that education rigorous and disciplinary, through the means best adapted to that end—to wit, the classics and mathematics. Now when the high school is open to practically everyone, that procedure is no longer possible. The interest motive is dominant. Education has to be made easy. The wearisome grind of grammar is unnecessary. Visual and

auditory aids, by film and radio, carry in to the passive pupil information of great variety and stimulating interest. There is every opportunity to become alert to present-day problems and well-informed as to the world in which we live. The parochialism from which an earlier generation suffered, and which affected their thinking on world affairs, is gone, never to return. For the world is on the horizon, and by voice and by picture makes itself our neighbour in very truth. What this may do in promoting the understanding without which any basis of peace is insecure we cannot estimate. We can only hope that it will lay surer foundations for an orderly world than seems to have been possible in the past. But all this process of education is easy. There is little effort. The picture on the screen or the voice on the radio are transitory. They are here and they are gone. They leave but little that is permanent. They do not call for hard thought, for that would be too difficult. They do not impel me to take a really hard book on the subject under discussion and to master it. Is it to be wondered at that our thinking is flabby, and that our intellectual and moral fibre leaves something to be desired. There is no other way to reach a measure of stability in our purposes and in our thinking than to work through the issues in our own minds the hard way. This is no puritanical doctrine of austerity, a reflection from a bygone age. It is sound psychology. We can depend on our minds only to the extent that we exercise them. If we do not give ourselves the opportunity to exercise them, we must lean on the minds of others, and we will be carried hither and yon by every blast of opinion that offers itself. Is not this too truly the picture of the world in which we live today? Is it not a world to which the kind of education which we have adopted has in large measure made its contribution? Is it a contribution in which we are satisfied? I leave the answer to you and to me.

It would be unwise, notwithstanding what has been said, to refuse to make use of these newer means of imparting information in the formal procedure of education. They are of very great value. What has not yet been fully worked out has been the integration of this stimulating but easy approach to knowledge with the more rigid discipline which is needed in the training of the mind. Much has yet to be done in the use both of radio and film in close integration with these processes where the student plays an active and positive part. Until this technique has been developed and actively used, the newer tools will have limited value. The film in particular suffers from the fact that it has become a means of recreation and amusement. It has not as yet been called on to do serious work in education. The documentary film—the most serious attempt at visual education—has to find a place, almost by stealth, between a comic strip and a love romance. We have to do our serious thinking in small doses.

The world in which we live is a world in large measure transformed by the achievements of science. Highly specialized functions have to be performed by skilled people in order that the complicated machinery of present-day living may carry on. The simplicity of old world communities of a couple of generations ago has gone, not again to return. There has arisen,

to meet this condition, a demand for highly trained men and women in a multitudinous variety of vocations and callings, based in the main on some scientific or technical foundation. These people must be specialized in their knowledge, intensive in their training, and are consequently limited in their breadth of outlook. There has been a growing apprehension in recent years that with increasing expertness there may come—if it is not already on us—decreasing wisdom; and that the value of the expert is greatly lessened because of his lack of appreciation of the values by which ultimately men live. And so there has been a searching of heart as to the inner significance of education, and a scrutiny of the material through which in college and university that education is imparted. In especial, the function of the humanities, the social sciences and the fine arts is being re-examined to the end that these fields of knowledge and of discipline may play an increasingly important part in the building up of the whole man. Significant contributions have been made by Harvard, by Yale, by Princeton, by North Carolina, and by numerous other universities and colleges. This widespread activity on the part of university planners is significant of a realization of the fact that everything is not well in modern education, and that something must be done to restore the balance between the humanities and the practical subjects in higher education.

The question bears closer analysis. In the world in which we live our concern is with human ideals and human needs. It is also with the non-human surroundings through which we supply our needs and which we adapt to our own ends. The latter is in the domain of science, the former in the domain of the humanities. They are not antithetical; they are complementary. My education is incomplete if I have not some understanding of the laws of nature, and of the method by which the scientist has discovered these laws. It is incomplete if I have not some knowledge of the problems which have been the concern of the philosophers and of the tentative conclusions that they have reached. In both explorations there are intellectual processes of the highest order. It would be futile to attempt to assess their relative importance. The man who lives in the world of ideas may be ineffective in the making of a living. The man who lives in the practical and utilitarian may lack vision, and without vision people perish. We must accept the fact that in a well rounded education the proper study of mankind is not man only but man in his relation to the world in which he lives. Part of our confusion in aims in education comes from the fact that this truth, which should be self-evident, has not been accepted in all quarters. There is at least a lingering remnant of truth in the taunt that the engineer does not know the humanities and regrets it, while the arts man does not know science and is proud of it. Whatever may have a useful purpose is thereby suspect. Doubtless the roots of this attitude go far down to the days of the Greeks, when only slaves did useful work. The world moves slowly.

But it is not so much science in its theoretical aspects, as the numerous applications in the technical or professional field that absorb the attention and interest of people today. It is in this aspect of the matter that a certain

unbalance is apparent, and because of which there is apprehension in educational circles. That is not to say that from a purely educational standpoint, apart altogether from its practical usefulness, there is not real value in the application of theoretical considerations to material ends. It is a very common occurrence to find a young man, who has had in his earlier university years a *blasé* attitude to the academic subjects, come to life when confronted with the practical value of these subjects in medicine, in engineering, in law, or in commerce. We are so constituted that we cannot continue indefinitely in the world of the abstract. We have to descend from the more rarified atmosphere of the heights into the plains where it is easier to breathe and where there is work to be done. To put it in direct language, it is sound education, and good psychology, to knit together the theoretical and the practical in the closest integration. On this ground the prevailing criticism of the modern emphasis on the practical loses a good deal of its force.

But it is on deeper, and more fundamental, considerations that there is real concern. We work with and through materials. It is with these materials that practically all professional and vocational studies are concerned. We are becoming immersed in a world of things. The fact is in danger of being lost sight of that it is through men and women, and only through them, that things can acquire significance; and their significance is in their contribution to the conditions of living men and women, whether on the physical, the mental, or the spiritual level. There has been, and is, the real danger that things be considered as ends in themselves, not as means to an end. It is here that the critic of our modern education is on sure ground. It is here that the uneasiness exists in the public mind. It is here too that those who are most concerned about education on the inside are giving their most constructive thinking.

Modern developments notwithstanding, the fact still remains that "the proper study of mankind is man." Proper, that is to say, in the sense that it is fundamental, not that it is exclusive of other important studies. Proper even on the lower grounds of expediency, for what we can accomplish we can do only through men, and we must understand them in order to be successful. The industrial manager knows this very well. Personnel work is in large measure a study of men and women. But proper too in a deeper sense. For in reality the world of matter is simply an external sheath to our inner being. We bring very little of it with us. We take even less away. It is not ourselves. Essentially our world is within ourselves, in our ideals, our hopes, our faith, our passions and prejudices, our intellectual achievements. And our success with our fellowmen is measured by the extent to which we know ourselves in our inner being, and by the extent to which we can appraise the qualities of those with whom we have to deal. Even more significant, our higher satisfaction comes not from external circumstances or things, but from our own sense of values, and from the stirring within ourselves to reach out to the best that we know.

If these are the important considerations in life, then an education directed solely to materials, no matter how significant in disciplining the mind,

leaves out of the picture the fundamental and essential things. This is the weakness of exclusively scientific and technical education. Good in itself though it be, it lacks the heart and soul of life. It is from philosophy and literature, from the fine arts and language, from the social sciences, that values are assessed and evaluated. There is one reservation. The supreme importance of truth has been a contribution from the scientist much more clearly and specifically than from the humanist, and that has come mainly because of the materials and the method of his work. But science cannot deal with the imponderables, and it is in the realm of the imponderables that values reside.

All of this has been brought home to the minds and hearts of men by the experience of the war and its aftermath. On the one hand, a knowledge of materials and how to use them has been found to be vital to our very existence. Had it not been for what our scientists were able to do, our fate would have been sealed. On the other hand, powers have been placed in our hands by science which we are inadequately fitted to use. We have not the command of ourselves, nor the clear view of our goal, that can come only with a higher appreciation of the values which count in life. We seem to be too immature to drive the powerful car that science has placed in our hands. And so there is a return to philosophy and literature and the arts and religion, and perhaps through the clearer understanding of ourselves and our destiny which these studies may provide we may thereby become more competent to meet the severe demands which the modern world of science has presented to us.

There are many views as to the best method by which this can be achieved. Some exponents have gone to mediaeval philosophy, others to the fundamentals of the Christian religion, others to the world's best books, others to courses on modern civilization, others to a judicious blending of humanistic and scientific studies. The actual mechanics matter perhaps less than the spirit which actuates the educational planning. To some extent at least the method that seems best is determined by local conditions and environment in the educational institution directly concerned. But there is fairly sound agreement that in the professional schools, where the problem is most acute, more effective work can be done in the senior years in directing interest to subjects of humanistic import than in the junior years. The reason is obvious. In the earlier years of the course the men are concerned more about the subjects which, as they think, count for their profession. These they take to be purely technical and professional. It is only later, with more maturity and experience, that they realize that the human factor is all important in professional work, and that it is necessary to have knowledge and understanding in matters which in the earlier years seemed academic and unrelated to the needs of life.

The pendulum swings from side to side. Rarely if ever in human affairs do we keep to the middle of the road. The scientific revolution was in essence a protest against the scholasticism and intellectual verbiage which had stifled thought. It gave reality, precision, and the opportunity to check hypotheses. A fresh stimulating wind came in to sweep away the uncertain-

ties which had perplexed the philosophic mind. With this impetus the pendulum has swung far over, and the technical and vocational have taken control. There are signs that the swing is already in the other direction, and that for the time being at least a better balance will be achieved between the elements that make for sound education and for a satisfying life. The emphasis of the Greek injunction, "Know Thyself," still has the validity that it had of yore. Today we would rephrase it in somewhat ampler form, "Know thyself and thy world." That is the sum and substance of education for our day and generation.

In his "Testament of Beauty," Robert Bridges probed deep into the heart of men:

In truth 'spiritual animal' was a term for man  
Nearer than 'rational' to define his genus;  
Faith being the humanizer of his brutal passions  
the clarifier of folly and medicine of care,  
the clue of reality, and the driving motiv  
of that self knowledge which teaches the  
ethicks of life.

When we dig deep, we come to the spiritual. That there are eternal values, which transcend the temporary and the passing, the experiences of war have burnt into our consciousness. It is because of this consciousness that re-emphasis on the spiritual in education has had widespread acceptance. In translating this demand into practice there are difficulties. Formidable though they be, they are likely to be overcome. Far beyond the passing and the temporal, there are the things that endure, and these are the things that give meaning to life. There is little of good that war can give us. Unless signs mislead, the war has impressed on us the conviction that in life there are few things that really count; and these few things are in the realm of the spirit.

---

## SIX NOMINATED FOR TRUSTEE BOARD

FOR the two vacancies on the Board of Trustees to be filled by the graduate body, six candidates received the necessary number of nominations: Mrs. Grace Campbell, Arts '15, Dr. C. W. Drury, Sc. '09, J. A. Edmison, Arts '26, Dr. J. E. Plunkett, Med. '30, N. B. MacRostie, Sc. '11, Arts '14, and C. A. Robins, Sc. '15.

Ballots have been mailed to the alumni, and must be returned to the Registrar of the University before March 31. Trustees elected will serve until 1950.

---

## Spring Convocation

Spring Convocation has been set for Saturday, May 17, in Grant Hall.

## ELECTED AS TRUSTEES BY UNIVERSITY BENEFACTORS

IN the election of trustees by the benefactors Mr. D. K. MacTavish, Ottawa, Mr. J. M. Campbell, Kingston, and Mr. D. A. Gillies, Braeside, were nominated. Mr. Campbell withdrew his name, and therefore Mr. MacTavish and Mr. Gillies were elected without contest.

A graduate in Arts of 1920, Mr. MacTavish is serving under the Act of 1912. His present term extends to March, 1951. Mr. MacTavish has been a member of the Board since 1937.

Mr. Gillies is a graduate member of the class of Arts '05. A former president of the General Alumni Association, Mr. Gillies is serving under the Act of 1916 which provides for representatives of the School of Mining. His term ends March 31, 1950.

# THE SUMMER RADIO INSTITUTE AT QUEEN'S

By Gwen Morton Herbst, Arts '43

CREATIVE young Canadians are looking more and more to radio for their futures. To answer a growing demand for instruction in acting, producing, writing, and announcing for the air-waves, several schools of the radio arts have opened in recent months. First of these was Queen's University Summer Radio Institute, which completed its second successful season in July and August of last year.

Forty eager students from many parts of Canada and from diverse jobs and schools spent six and a half weeks of intensive work in Kingston under the direction of Dr. William Angus, Director of the Summer Radio Institute and specialist in drama at Queen's. The pace was stiff. Three times a week the pupils went on the air over "Station CFRC Queen's," a 100-watt former commercial station now operated by the University for educational purposes. Meeting these deadlines with polished programmes meant working many evenings and Saturday afternoons, in addition to the full day-time schedule.

CFRC is on the second floor of Fleming Hall, one of the grey limestone buildings that dot the campus. There are two sound-proof studios, a control room, and the transmission room. A regular classroom is available for lectures, as well as a small library for informal round-table discussions.

Dropping in one afternoon, I found a rehearsal under way in the control room:

"John, you're swimming through syrup a bit. The girl, you were off mike completely. Get in closer. And you—the old hag—get the grease paint out of your voice."

Perched on a high stool, the stocky man with greying curly hair and horn-rimmed glasses was Rupert Caplan, using the "talk-back" to give directions to a cast of students in Studio B.

"All right now, give me a scream by itself to establish the pitch."

Rupert Caplan is Supervisor of Productions for the Canadian Broadcasting Corporation. He was one of a number

of "big names" in the producing field who gave time and talent to the school. Howard Milsom, of Buckingham Theatre, and Kay Stevenson, noted for educational work, were two others who came to Kingston as guest producers for short periods. Elspeth Chisholm, also of the CBC, remained four weeks and won the respect and liking of all.

"Don't be afraid of overacting," demanded Caplan. "This is your scene—play it!"

The girl took him at his word, and let loose a shattering scream.

"You nearly blew us off the air," Caplan grinned, "but that's the pitch. Now let's have the footsteps on the board. One length, then on to the gravel."

Just then a head popped in the door, and said in a loud whisper: "Anybody here for the glee club? We're practising in Studio A."

A young man and woman scrambled to their feet and made their way to the door through a circle of students watching Mr. Caplan direct. As the felt-covered door of Studio A admitted them, a burst of the Whiffin Poof Song came out. The glee club was an extra, organized when talent sheets filled in by each student disclosed the fact that many had had choral experience. It proved most useful in making up balanced programmes. Other music, for setting a mood or closing a play, was chosen from the considerable library of orchestral recordings.

I wandered into the transmitting room, and found W. B. Adams discussing some technical point with Ralph Purser, an electrical engineering student-helper. Mr. Adams instructs in radio at Central Technical School in Toronto. He took the Institute course a year ago, and returned last summer at Dr. Angus' request to take charge of transmitting and to give some talks on the mechanical side of radio, rounding out the picture of what goes on in a studio.

A few steps down the hall Professor H. Alexander, director of the Summer School of English, was holding a speech class in the library. Vowel sounds were

being practised. Prof. Alexander would ask one of the students sitting around the big table to read a passage illustrating "eer" or "ure" or "ow." The chosen reader then went to a microphone in an improvised booth in the corner and began: "How now brown cow said the brown owl . . . " and so on.

The introductory lessons in speech for radio were given by Gilbert Harding, BBC representative in Canada.

It was surprising to hear the same words read by students from different parts of the Dominion and to note the little differences of pronunciation peculiar to each. A voice free of local accent, as well as one without sloppy slurring, is required for radio.

School members had plenty of opportunity to hear their own voices, for a recording was made of each drama or talk at the final rehearsal or when it was broadcast. There were adequate facilities for recording, as well as a number of "play-back" machines. Any time the control room was free, several slack-clad students were in there listening to recordings. Not in pride, nor admiration for the sound of their own voices. Few tongues could be sharper in their criticism. They pounced on the slightest flaw in diction, argued timing, emotional quality, and dramatic effect.

A good number of the plays and all of the talks programmes were written by the students. The youthful authors thrilled as much as any professional playwright when their own words came out of the mouths of others. Suffered, too. I watched Howard Milsom casting a tender young love drama written by a student.

"That's not what I meant!" she moaned as a cherished line lost its meaning by a wrong inflection.

In this particular case the authoress settled the problem by auditioning for the heroine's part herself. She won it, too, for I heard the play over my own radio a few hours later.

For practical work the class was divided into three groups. In these groups each student selected or wrote a play; cast it; rehearsed its actors, sound effects, music; and produced it—using the members of the group. The production was recorded and at the end of each week, during a "play-back" period, the productions were heard by all and criticized by staff and students. Some productions were broadcast.

Morning lectures on production and script writing were given to the whole body by Dr. Angus. The director, however, kept formal lessons to a minimum, preferring merely to guide his students lightly, letting them work most things

Front: Rupert Caplan. Back, left to right: George Hickey, Cornwall; Clyde Douglas, Halifax; Bernard Trotter, Kingston; Shirley Elkin, Montreal.

out for themselves. Original thinking was rated a prime virtue, and a wealth of opinions and ideas were poured out from the varied backgrounds of those attending. A number were veterans, some teachers, a few had just graduated from university or high school. One girl was on leave from the National Film Board, two or three young men were from small private radio stations.

The idea of starting a radio school actually began to germinate during the winter of 1943-44, when Dr. Angus and Dr. G. B. Harrison, head of the English Department at Queen's, attempted a radio production of the last act of *Hamlet*, in answer to a challenge from R. S. Lambert, of the C.B.C. educational department.

"We used students of the Drama Guild, and rehearsed it as we would a stage play. It was *not* a successful venture," admits Dr. Angus. "It was obvious that someone at Queen's should learn something about radio." Before the summer session of 1944 Dr. Angus went to New York, where he studied radio pedagogy at Columbia and New York universities, and spent a good deal of time in the studios of the big radio networks.

Principal R. C. Wallace then took up the idea. He and Dr. Angus and Dr. Harrison went to Toronto, intending to try to interest C.B.C. executives in supporting a summer course in radio. The tables were turned on them—C.B.C. urged the course on Queen's. In the fall two C.B.C. men assisted Dr. Angus in drawing up plans. True to its promise, the Canadian Broadcasting Corporation gave the school a great deal of support, when Aurele Seguin, supervisor of educational broadcasts for the French network, instructed the full six weeks at the institute. Fifteen other C.B.C. people paid teaching visits during the summer.

This past year there were not as many outside assistants, and Mr. Seguin was unable to come because of ill-health, but the school was on a firmer footing and didn't need them.

"I know of no other school in this country," Rupert Caplan told this year's class, "where you'd get the training and

experience you get here. Here you get air-time while you're learning; you actually broadcast plays and other programmes from your own station with your own staff from the first week on through the entire course. Why, that alone is worth twice the fee you're paying. Or," he added with a gleam of laughter in his eye, "two days of my instruction and direction itself is worth the fee you pay. Let's get on with the rehearsal!"

Two of this year's graduates are continuing further study in Toronto at Lorne Greene's Academy of Radio Arts, one on a scholarship offered by Mr. Greene. All went away ardent devotees of studio and microphone, with hopes and plans for putting new knowledge to work.

---

### **"Financial Post" Pays Tribute To Ernest C. Gill, Arts '23**

TRIBUTE to the meteoric rise in the insurance world of Ernest C. Gill, Arts '23, was paid in a recent issue of *Financial Post*. Mr. Gill is a director of Canada Life Assurance Company and is one of the youngest general managers in the business. The article said, in part:

"Modest and unassuming, he is regarded as one of the brightest minds in the whole Canadian life insurance business. As general manager he now spreads his attention over agency, actuarial, investment, and administrative departments.

"Active in church and welfare work, he is a member of the Pensions Board of the Presbyterian Church in Canada, a director of St. John's Convalescent Hospital, a member of the Board of Governors of the Ontario Research Foundation, and vice-president of Housing Enterprises of Canada Limited.

"Kingston people, however, recall that some of his church activities were not always religious. Old Kingstonians still chuckle over some of them. One morning, for example, he and some other youngsters got into the tower of St. Andrew's Presbyterian Church and to the horror of staid citizens of the limestone city, from the stately tower of St. Andrew's came chiming out the notes of 'Hail, hail, the gang's all here.'"

## D. E. FINLAYSON CITED FOR BRAVERY

ONE of two winners of the Canadian Institute of Mining and Metallurgy medals for bravery, Donald E. Finlayson, Sc. '36, was given an ovation by 800 members of the C.I.M.M. at a ceremony in Ottawa on January 19. The presentation was made by the Governor-General, Viscount Alexander.

Since the awards were first established in 1933, these medals have been presented to thirty-three men. Known as the "V.C. of the mining industry," they are given for courage and unselfishness far beyond the call of duty.

The citation for the Finlayson award was read by E. A. Collins, Sc. '05, inaugurator of the medals, and former president of the General Alumni Association:

"On May 25, 1946, in a stope of the Hard Rock Mine, two men, working on staging, had drilled no fewer than forty holes in a wide, high breast, had charged each hole with from eight to ten sticks of powder and then made ready to fire. One of these men was Donald Finlayson. He stood by while his partner lit the fuses, finding one or two slow to light.

"When all forty were burning the men took down the staging. Even as they were carrying away the last of the planks the first blast came. For a moment Finlayson was stunned but quickly he realized the deadly peril. Well did he know how few precious seconds were left to him. His every impulse must have been to flee. But he heard his partner calling for help. He searched for him in the smoke and darkness.

"He found him wounded, without hat or lamp, with a broken ankle, unable to walk. So he stayed with him. While yet more blasts ensued, he helped him up over a hundred feet of muck, up a ladderway in an upcast raise full of smoke and gas, and still another hundred feet along the level to clear air and safety.

D. E. FINLAYSON

But for him, assuredly, his partner must have been mutilated, crippled or killed."

Mr. Finlayson attended Queen's prior to the outbreak of World War II. He served overseas with distinction, commanding the 34th Field Company, R.C.E., in Northwest Europe. On his return to Canada, he re-entered Queen's, obtaining his B.Sc. degree in mining last spring.

## SIXTEEN NOMINATED FOR COUNCIL ELECTIONS

SIXTEEN candidates have been nominated by graduates or by the executive committee of the University Council for this year's Council elections. Nine of these nominees are to be elected, to hold office until 1953.

Brief information about each of the nominees is given on the back of the ballots, which are now being mailed to the graduates. They must be returned to the Registrar of the University on or before March 31, 1947.

Five nominees are retiring members of the Council. The complete list is as follows: O. E. Ault, Arts '24, Ottawa, Ont.; M. J. Aykroyd, Sc. '13, Toronto; A. F. G. Cadenhead, Arts '14, Shawinigan Falls, Que.; A. V. Corlett, Sc. '22, Arntfield; Mrs. R. B. Crummy (Ruth Harrop), Arts '18, Vancouver, B.C.; Miss Florence Dunlop, Arts '24, Ottawa, Ont.; Dr. J. F. Houston, Med. '19, Hamilton; Rev. J. R. Leng, Arts '35, Theol. '38, Toronto; Duncan McIntosh, Com. '34, Galt; C. E. V. McKnight, Sc. '33, Kirkland Lake; A. G. MacLachlan, Sc. '22, Kingston; G. C. McNab, Arts '02, Guelph; G. C. Monture, Sc. '21, Ottawa; Dr. Robert Orange, Med. '32, Sudbury; E. M. Patton, Com. '26, Montreal, Que.; Dr. Wallace Troup, Med. '24, Ottawa, Ont.

## To Receive Medal

A MEMBER of the Queen's staff for more than forty years, and formerly Dean of the Faculty of Applied Science, Dr. A. L. Clark has been selected as the recipient of the Montreal Branch Medal for 1947.

# The Bookshelf

## Canadian History

AN understanding of Dominion - Provincial relations is essential to all Canadians imbued with pride of country. Two Queen's alumni have recently made important contributions on different phases of this subject: Wilfrid Eggleston, Arts '26, with *The Road to Nationhood*, and C. Cecil Lingard, Arts '29, with *Territorial Government in Canada*. Mr. Eggleston deals with fiscal matters solely while Dr. Lingard is concerned with the struggle for autonomy of the old North West Territories.

THE ROAD TO NATIONHOOD. By Wilfrid Eggleston, Arts '26. Published by the Oxford University Press, Toronto.

In this history of Dominion-Provincial fiscal relations from Confederation until 1946, Wilfrid Eggleston presents a timely and thoughtful analysis of a subject of keen interest to all thinking Canadians. The tug-of-war between federal and pro-

WILFRID EGGLESTON

vincial governments over tax revenues is a front-page story which has new developments almost daily. This book gives a comprehensive background for a full understanding of the issues involved and serves as a key to negotiations now in progress.

*The Road to Nationhood* examines the intention of the Fathers of Confederation for the federal union they produced, and shows how subsequent events have affected their original plan. In the years between the wars the financial structure on which the union was based broke down completely, and the Rowell-Sirois Commission and two Dominion-Provincial conferences have failed to find a cure. At times, the differences seem irreconcilable. At others, it seems that common sense must eventually prevail.

Of course, it would be well to remember that conditions have changed materially between 1867 and 1946. It was impossible for the founding fathers to formulate a policy that would meet all needs today any more than the statesmen now in Ottawa can hope to provide all-wise legislation for the country seventy-five years hence. For example, social services have grown out of all relation to conceptions that could possibly have been held at Confederation, and it would be a rash person indeed who would predict that the end is yet in sight.

Surprisingly enough, there are occasional flashes of humour in what one might expect to be a humourless narrative. Some of these result from the clever turn of phrase of polished politicians. Others, unfortunately, arise out of the situations created by selfishness and stubbornness.

Such oases in the desert of this account are few and far between, however. The general impression is one of frustration and futility, with no apparent gleam of hope if one permits the events as reported to speak for themselves. But

in his foreword, Mr. Eggleston is more optimistic. He says that he has become convinced that a solution can be found between the conflicting demands of modern nationhood and the advantages of federalism. "It should not be beyond our capacity to find a formula which will reconcile the clash," he says. He believes that in the final test, Canada, having come this far on the road to nationhood, will not turn back to any inferior status.

The author is well qualified to make this study. Since his graduation from Queen's and his entry into newspaper work, he has been almost constantly associated with Dominion Government circles. He was a member of the secretariat of the Rowell-Sirois Commission, and with it he travelled across Canada, hearing the briefs presented in the provincial capitals. He is joint author of two studies of the Rowell-Sirois Commission.

**TERRITORIAL GOVERNMENT IN CANADA.** By C. Cecil Lingard, Arts '29. Published by the University of Toronto Press.

This book deals with the autonomy question in the old North West Territories and gives the first comprehensive account of the actual events leading up to the formation of Alberta and Saskatchewan as provinces. The rights of self-government were not handed out just for the asking, and the account of the struggle to gain autonomy makes interesting reading for the student and general reader.

The driving force of the movement was F. W. G. Haultain, for many years pre-

mier of the North West Territories and later Chief Justice of Saskatchewan. He and his colleagues gave honest and capable leadership, and the ultimate transition from territory to province is a monument to their logic and perseverance and foresight. The Dominion has been strengthened as a result of their efforts.

The road to autonomy would have been considerably smoother but for the crisis which arose over the question of education. The school proposal in the autonomy bills introduced by Laurier loosed a flood of protests from Ontario and Quebec. The crisis ended in compromise, but not before an atmosphere of bitterness was created that tended to mar what should have been a great and happy event.

Dr. Lingard is well known in Western Canada as a teacher, librarian, historian, and journalist. He is at present editor of the new *International Journal*, published in Canada, and research secretary of the Canadian Institute of International Affairs. Many articles by Dr. Lingard on national and international topics have appeared in Canadian periodicals and newspapers.

C. CECIL LINGARD

### Hydraulic Engineering

DEAN D. S. ELLIS, of the Faculty of Applied Science, is the author of a new textbook, "Elements of Hydraulic Engineering." The publishers are D. Van Nostrand Inc., New York.

## Student Activities

### Students Offer Assistance

AN offer of student opinion on such matters as permanent staff appointments and the building programme has been made to Principal Wallace and the Board of Trustees by the executive of the Alma Mater Society. A statement along these lines was prepared in the hope that the administration might like to have the views of the student body. The report was presented as a declaration of responsibility from the students of today, who appreciated their debt to the past and their obligation to the future. Principal Wallace assured the students that he was willing to meet and discuss such matters with the undergraduates and their executive at any time. Later, G. F. Bruce, president of the Alma Mater Society, presented the report in person at a meeting of the executive of the Board of Trustees.

### Queen of Queen's

The Queen of Queen's is Jean Scarth, Arts '48, Cornwall, Ontario. Miss Scarth was the winner in a campus-wide contest sponsored by the *Journal*, and is scheduled to be crowned with pomp and ceremony at the Arts Revue on February 27. Candidates for the honour were selected by the year executives, and Miss Scarth entered as the representative of the junior class. The others were Janet Kerr, Oakville, freshman; Nonie McBride, Barrie, sophomore; and Jean Kendall, Havana, Cuba, senior. Queen of Queen's for the current academic year, Miss Scarth is an honours student in Chemistry and Biology.

### Sunday Hour

Under the direction of Rev. A. M. Laverty, University chaplain, a religious service was held in Grant Hall on the

afternoon of Sunday, January 26. Known as the "Queen's Sunday Hour," it is hoped to make this a regular monthly feature of campus life, with a special appeal for the students, alumni, and members of staff. Participating in the first programme were Mr. Laverty, Principal Wallace, G. F. Bruce, president of the Alma Mater Society, and the Glee Club.

### Sox Appeal

No longer need bachelor students wear open-toed socks, thanks to a new service inaugurated by Levana. Hosiery in need of darning may be deposited in a box in the Douglas Library and public-spirited co-eds make the necessary repairs free of charge. In the event of a special emergency, such as might conceivably confront a man with only one pair of

QUEEN OF QUEEN'S  
Miss Jean Scarth

socks, there is a one-hour service available on request. "Please refrain from sending along holes without socks," read the instructions in the *Journal*.

### Campus Socialists Banned

Operated as a branch of the Public Affairs Club, the Socialist Study Group was banned by the Alma Mater Society from further activity on the campus, at the last meeting of the executive in January. It had been charged by members of the Club that the Socialist Group was using the organization merely as a front for a Communist programme and that the speakers brought for its meetings were definitely Communistic. Last speaker at a Socialist Study Group meeting was Robert Laxar, correspondent for the *Canadian Tribune* and organizer of the L.P.P. of the Ottawa District.

### Won Bridge Championship

Queen's scored a major upset in the first Intercollegiate Bridge meet held at McGill on the week-end of January 25, walking off with the championship. A last-minute entry, the Tricolour won from teams representing McGill, University of Montreal, Carleton College, and University of Toronto. The players were Jack Silman, Sc. '50, Jack Warrell, Arts '50, Les. Voynich, Arts '50, and John Armstrong (captain), Arts '48. As defending champions, Queen's will be hosts for the tournament next year.

### City Title Retained

The Queen's senior hockey team retained its city title in a hard-fought series against strong competition, but in the Intercollegiate series is not faring so well, having yet to score a victory. A peculiar schedule has the Tricolour at home for only three of its nine games. The best showing to date was at the Harty Arena on January 29 when Queen's outplayed the highly favoured University of Toronto team for two periods and led by two goals only to suffer a collapse in the third period and finally lose out by a score of 5-3. On the week-end of January 17, Queen's invaded Montreal, losing to McGill 6-2 and to University of Montreal 8-3.

Two Formals were the highlights of the month's social calendar. On January 24, the Arts Society held its annual dance, with Ken Wynkie, '47, Ottawa, as convener. The music was provided by Enoch Light and his Orchestra. On January 31, the Levana Society presented Hal McFarlane and his Melody Men. Miss Jean Scott, '48, Ottawa, was the convener . . . . L. S. Brockington of Ottawa has accepted the invitation to deliver the Alma Mater Society Lecture. The event is scheduled for March 11 in Grant Hall . . . . Lorne Greene, Arts '36, well-known radio announcer, spoke on "Radio and the Common Man" at the Arts Dinner at the LaSalle Hotel on January 21 . . . . The Levana Society has gone into the lonely hearts business with the establishment of a Date Bureau in Ban Righ Hall. The new organization is said to be meeting a long-felt need . . . . Dr. J. Murray Scott addressed the Aesculapian Society on "Some Metabolic Aspects of Estronogens" on January 20 . . . . N. H. "Crash" Welton, Sc. '49, Castleton, Ontario, was crowned "King of Queen's," as a feature of the Meds. '50 year dance on January 17 . . . . "Harnessing Horsepower" was the subject of the address given before the Engineering Society by Dr. O. Holden, chief hydraulic engineer of the Hydro Electric Power Commission of Ontario, on January 17 . . . . The A.M.S. Tricolour Society awards this year will be accompanied by citations, the Alma Mater Society executive has announced . . . . R. W. Keyserlingk, managing director of the British United Press for Canada, spoke to the Queen's Newman Club on January 12 on "Europe, Our Peace Problem" . . . . In Convocation Hall on January 29, the Drama Guild staged three one-act plays: "Maltese Cross," "Happy Journey," and "The Giant Stair." The latter was selected as the entry for the Drama Festival which will be held at Queen's in February . . . . R. F. Bruce Taylor, Com. '24, spoke to the Commerce Club on January 28 on some aspects of the work of the Foreign Exchange Control Board.

# At the Branches

## Kootenay

AT the recent annual meeting of the Kootenay branch, held at Trail, British Columbia, Joseph Booth, Sc. '37, was elected president for the ensuing year. Other officers appointed included: S. A. Gray, Sc. '13, honorary president; James Atwell, Sc. '24, vice-president; J. M. Cooper, Sc. '32, secretary; executive—James Atwell, Sc. '24, F. C. Ransom, Sc. '30.

## Kingston Alumnae

AT the meeting held in Ban Righ on January 7, students provided a musical programme that was greatly enjoyed. Those taking part included Mr. Ewart Prince, vocalist, with Mr. J. M. Dedrick acting as accompanist; Mr. and Mrs. Robert Woodley, violin and piano solos; and Miss Margaret Peddie, piano solos.

## Victoria

W. H. HUGHES, Arts '12, was re-elected president of the Victoria Branch at the annual meeting held recently. Albert Sullivan, Arts '12, was chosen vice-president, and R. D. Matthews, Arts '26, secretary-treasurer.

The speaker was Dr. Roger Manning, formerly of the biochemistry department of the University of Saskatchewan. Dr. Manning told of his varied experiences in Europe during a prolonged stay there in the mid-thirties, and dwelt at some length on conditions as he found them in Russia and Germany. He also spoke of the prominent part played in this country by the graduates of Queen's.

## Toronto

The annual smoker is scheduled for Wednesday, March 19, in the Royal York Hotel.

KOOTENAY BRANCH PARTY

Front row, left to right: S. Gray, J. Booth, J. M. Cooper, D. McAskill. Second row: Mrs. C. E. Marlatt, Mrs. A. M. Chesser, Mrs. A. G. Cameron, Mrs. L. M. DeLong, Kay Wright, Mrs. F. C. Ransom, Mrs. J. M. Cooper, Mrs. D. McAskill. Third row: Mrs. J. Booth, Mary Wilkinson, Anne Woolf, Marion Tiedje, Mrs. J. Atwell, L. M. DeLong, A. G. Cameron, F. C. Ransom, A. M. Chesser. Back row: J. Atwell, J. McLennan, G. Glover, J. O'Dette, C. E. Marlatt.

# Alumni News

## Births

**Buckles**—On October 27, 1946, to Harry Buckles, Sc. '32, and Mrs. Buckles (Ruth Shaver), Arts '29, a daughter (Susan Ruth).

**Calvin**—On February 9, at the Private Patients' Pavilion, Toronto General Hospital, to A. A. Calvin, Arts '31, and Mrs. Calvin, a daughter.

**Cantrell**—At the Private Patients' Pavilion, Toronto General Hospital, on January 31, to Arthur Cantrell, Arts '42, and Mrs. Cantrell, a daughter (Connie).

**Countryman**—At the Private Patients' Pavilion, Toronto General Hospital, on January 28, to Dr. C. J. Countryman, Med. '37, and Mrs. Countryman, a son.

**Cranston**—At St. Michael's Hospital, Toronto, on February 5, to F. W. Cranston, Sc. '36, and Mrs. Cranston, a son.

**Crozier**—On January 25, at the Ottawa Civic Hospital, to R. B. Crozier, Arts '38, Com. '40, and Mrs. Crozier, a son (Robert Jamieson).

**Horwood**—On September 4, 1946, to Dr. H. C. Horwood, Sc. '31, and Mrs. Horwood, of Port Arthur, Ont., a daughter (Erin Patricia).

**Howitt**—On January 28, at the Ottawa Civic Hospital, to R. B. Howitt, Arts '45, and Mrs. Howitt, a daughter.

**Ireton**—At the Ottawa Civic Hospital, on December 27, 1946, to Capt. C. J. Ireton, Arts '33, and Mrs. Ireton (Dorothy Barrigar), Arts '40, a son.

**MacTavish**—On January 22, at the Ottawa Civic Hospital, to D. K. MacTavish, Arts '20, and Mrs. MacTavish, a son.

**Neville**—At the Winnipeg General Hospital, on October 16, 1946, to W. A. Neville, Arts '38, and Mrs. Neville, a son (Donald Ellis).

**Newby**—On December 26, 1946, at the Private Patients' Pavilion, Toronto General Hospital, to H. D. Newby, Arts '39, and Mrs. Newby, a daughter (Nancy Claire).

**Nichol**—On January 28, at the Ottawa Civic Hospital, to Dr. J. Eric Nichol, Med. '31, and Mrs. Nichol, a son.

**O'Connor**—On January 23, at the Hotel Dieu Hospital, Kingston, to Dr. Laurence O'Connor, Med. '43, and Mrs. O'Connor, a daughter (Laurie Elizabeth).

**Sager**—At St. Joseph's Hospital, Toronto, on January 18, to C. H. Sager, Sc. '36, and Mrs. Sager, a son (Robert Scott).

**Sprague**—At the General Hospital, Belleville, Ont., on February 6, to Alan Sprague, Arts '33, and Mrs. Sprague, a daughter.

**Wilkie**—On January 28, at the Willett Hospital, Paris, Ont., to R. J. Wilkie, Arts '39, and Mrs. Wilkie, a daughter.

## Marriages

**Betcherman**—In Toronto, on October 6, 1946, Leta Rose Vineberg, of Ottawa, Ont., to Irving Betcherman, Sc. '44.

**Biehn**—On February 4, at the home of the bride's parents, Mimico, Ont., Margaret Elizabeth Biehn, Arts '38, to Charles Bertram Walker, of Ottawa.

**Collins**—At Holy Name Church, Kirkland Lake, Ont., on November 27, 1946, Margaret Mary Keeley, daughter of E. C. Keeley, Sc. '16, and Mrs. Keeley, Kirkland Lake, Ont., to George Edward Collins, Com. '37, son of E. A. Collins, Sc. '05, and the late Mrs. Collins, Copper Cliff, Ont.

**Elliott-Mead**—On June 29, 1946, in St. Mary's Anglican Church, Regina, Sask., Kathleen Louisa Mead, Arts '42, to Charles Martyn Elliott, Arts '44. They are living in Copper Cliff, Ont.

**Jeffs**—On December 28, 1946, in St. George's United Chapel, Toronto, Doreen Elizabeth Jeffs, Arts '43, to Daniel Joseph O'Kane, of Long Island, N.Y.

**Lockeberg**—On February 3, in St. Peter's English Lutheran Church, Ottawa, Winnifred Topping of Kindersley, Sask., to Rolf Sigurd Lockeberg, Sc. '40. They are living temporarily in Boston, Mass., where Mr. Lockeberg is attending the Harvard Graduate School of Business Administration.

**Orange**—On January 11, in the Church of Christ the King, Sudbury, Ont., Margaret O'Delia Fyfe to Dr. Robert Orange, Med. '32.

**Park**—In the United Church, Copper Cliff, Ont., on January 28, Barbara Ann Waterbury, Arts '46, to Hugh Ramsay Park, Arts '36, Belleville, Ont.

**Preston**—In First United Church, St. Catharines, Ont., in December, 1946, Jean Madeline Beard to Capt. William Ross Preston, R.C.O.C., Arts '42. They are living in Ottawa.

**Reid**—On December 18, 1946, at Hamilton, Ont., Mary Louise Lockett, daughter of Horace G. Lockett, Arts '12, and Mrs. Lockett, to John Richmond Reid, Sc. '45.

**Smith**—In Edmonton, Alta., on September 11, 1946, Jean I. Morningstar (B.Sc. University of Western Ontario '46) to Dr. Donald Cameron Smith, Med. '46. The

ceremony was performed by Rev. Elgin Turnbull, Arts '31, Theol. '32, assisted by the groom's grandfather, Rev. J. Frazer Smith, Med. '88,, D.D. '37.

**Wickware**—In Zion United Church, Carleton Place, Ont., on December 28, Jacqueline Olive Stunden, Montreal, to Dr. Douglas MacNeil Wickware, Med. '47. They are living in Whitby, Ont.

## Deaths

**Dyde**—Professor emeritus of church history, Queen's Theological College, Dr. Samuel Walters Dyde, Arts '83, died at Edmonton, Alberta, on January 22, at the age of eighty-five. He was fourth on the seniority list of Queen's alumni. Dr. Dyde was born at Ottawa, Ontario, where he received his early education. He entered Queen's in 1879, and graduated after four years with his B.A. degree. In 1884 he received his M.A. and, three years later, his D.Sc. degree. From 1886 to 1889, Dr. Dyde was professor of mental and moral philosophy at the University of New Brunswick. He returned to Queen's in 1889 as professor of mental philosophy, which position he held until 1911. When the position of rector was created in 1912 he was the choice of the students for the first three-year term. In 1911, Dr. Dyde moved to Edmonton, where he was principal of Robertson College. He returned to Queen's in 1918 as principal of the Theological College and professor of practical theology. He resigned the principalship in 1926, but continued as a teacher. He retired from active teaching in 1934, and was appointed professor emeritus. Dr. Dyde is survived by his wife, formerly Jennie Farrell, Arts '88, two sons, one of whom is Dr. W. F. Dyde, Arts '11, and two daughters, Mrs. F. W. Y. Wootton (Christina), Arts '14, and Mrs. Sidney Robbins (Honora), Arts '22. Dr. C. B. Dyde, Arts '94, Med. '97, of Greeley, Col., is a brother. Another brother, Rev. G. E. Dyde, Arts '89, died many years ago.

**Fleming**—An outstanding chemist and engineer, Alexander Greig Fleming, Arts '04, died at Montreal, Quebec, on January 8, in his sixty-fourth year. He was a nephew of Sir Sanford Fleming, for many years chancellor of Queen's. Mr. Fleming was born at Craigleith, Ontario, and received his preliminary education there and at Collingwood. Entering Queen's, he graduated with his B.A. degree in 1904 and spent the next three years in the University's School of Mining. In 1907 he went to the International Cement Company as operating chemist, and rose to the position of chief chemist of the Canada Cement Company after the two organizations were amalgamated. Few Canadian scientists have been more widely known in Canada, the United States, and South America. Probably his outstanding re-

search work was in connection with the deterioration of concrete in alkali soils. In 1932 he developed a special cement, "kali-crete," which has been of great value to the construction industry. He was active on committees of many professional bodies and was a consulting engineer to the Companhia Brasileira de Cimento Portland Perus at Sao Bralo, Brazil. A few years ago he was awarded the Plummer Medal by the Engineering Institute of Canada. Among the survivors are his wife, and two sons, one of whom is M. G. Fleming, Sc. '36.

**Hale**—President of the Medical Society of the State of New York, Dr. William Hale, Med. '10, died suddenly at Utica, New York, on January 16. Dr. Hale was born at Gananoque, Ontario, in 1886. He was educated in the schools of that town and later attended Amherst College in Massachusetts, from where he graduated with his B.A. degree. He entered Queen's in 1906, and four years later obtained his M.D. degree. Dr. Hale interned at a Toronto hospital and then served as surgeon for a railway construction camp in the Lake Superior region. He took up residence at Utica in 1912, and interned in Faxon Hospital and the Utica State Hospital, and did postgraduate work in Manhattan State and Bellevue hospitals. He opened his practice in Utica in 1914, and the following year was commissioned in the British Army. He was with the 42nd Battalion of the Black Watch, Royal Highland Regiment of Canada. After the battle of Vimy Ridge he was invested with the Military Cross by King George V at Buckingham Palace. A year later he was again decorated for exceptional service. On his return to civil life he resumed his practice in Utica. He served as consulting surgeon for Utica and Marcy State hospitals, and was a former president of the Faxon Hospital staff. He was a member of the Utica Academy of Medicine, a diplomat of the American Board of Obstetrics and Gynaecology, and a former president of the Oneida County Medical Society. For twenty years he served as surgeon to the New York Central Railroad, Delaware, Lackawanna, and Western Railroad, and the New York, Ontario, and Western Railroad. An ardent alumnus, he was secretary of the Central New York branch of the General Alumni Association for nearly twenty years. Among the survivors are his wife, a son, and a daughter.

**Macdonald**—While spending a holiday at Savanna, Georgia, Dr. James Orville Macdonald, Sc. '14, Med. '16, died suddenly on January 13. He was in his fifty-fifth year. Dr. Macdonald was born at Strathroy, Ontario, and received his preliminary education in the schools there. He entered Queen's in 1910, and graduated with his B.Sc. degree in 1914. He then enrolled in medicine, obtaining his M.B. degree in

# A Good Investment!

ENJOY THE ADVANTAGES

of

## *Life Membership*

IN THE GENERAL ALUMNI ASSOCIATION

1. Membership dues and *Review* subscription paid up for life. No more bother with annual renewals.

2. One hundred per cent of all the money paid on a Life Membership goes into a permanent trust fund, providing endowment income for an independent alumni programme on behalf of Queen's.

3. Actual dollars and cents saving is made by taking a Life Membership instead of paying fees year after year.

4. You identify yourself with a fine group of leading Queen's alumni who have put their loyalty to the University in permanent and tangible form by becoming Life Members.

5. A Life Membership in the General Alumni Association indicates a faith in the University and an interest in its welfare. Active support of the University by alumni is absolutely necessary to secure support from the public in general.

## UNIVERSITY ENTRANCE REQUIREMENTS FOR EX-SERVICE MEN AND WOMEN AS AGREED UPON BY THE NATIONAL CONFERENCE OF CANADIAN UNIVERSITIES

### FACULTY OF ARTS

#### JUNIOR MATRICULATION:

1. English
2. French or another language
3. Mathematics (Algebra and Geometry)
4. One of: History  
A language not already chosen: Latin, Greek, French, German, Spanish, or Italian  
A science: Physics or Chemistry or Agriculture.

If in addition to Junior Matriculation standing, the student can offer credits at Senior Matriculation level, he will be given allowance up to a total of five subjects.

### FACULTY OF APPLIED SCIENCE

1. *General education*—minimum:  
Senior Matriculation in English  
Junior Matriculation in History and in French (or another language), or, alternatively,  
Senior Matriculation in one of these two subjects.
2. *Pre-requisites for first year work*:  
Senior Matriculation in Mathematics (Algebra, Geometry, and Trigonometry), in Chemistry, and in Physics.

### FACULTY OF MEDICINE

1. *General education*—minimum:  
Senior Matriculation in English  
Junior Matriculation in another language (Latin advised) and in History, or, alternatively, Senior Matriculation in either of these two subjects.
  2. *Pre-requisites for later work*:  
Senior Matriculation in Mathematics (two of Algebra, Trigonometry), Physics, and Chemistry.
- Candidates interested in both the special session and the regular session should write for further information to the Registrar, Queen's University, Kingston, Ontario.*

SUDBURY ASSAY OFFICE

256 OAK ST., SUDBURY, ONT.

1916 and his M.D., C.M. the following year. For a brief period he engaged in mining engineering in Northern Ontario, and then went overseas with R.C.M.C. After the war Dr. Macdonald established a medical practice in Kingston. Later he took post-graduate study at Columbia University, specializing in ear, nose, and throat, and then joined the staff. During the Second Great War, Dr. Macdonald saw service with the United States Navy Fleet Air Arm, and held the rank of lieutenant-surgeon commander. At the time of his death he was again a member of the staff of Columbia. Among the survivors are four sisters.

**McConville**—One of the small band of women who pioneered in medicine, Dr. Isobel McConville, Med. '89, died at Kingston, Ontario, on January 2, after an illness of several months. She had carried on a practice in Kingston for fifty-seven years. Dr. McConville was born at Kingston in 1866, and received her early education at

the Notre Dame Convent and the Kingston Collegiate. She taught for a time in the separate schools of the city before entering Queen's Medical College for Women. She graduated with her medical degree in 1889, and started a practice in Kingston. In addition, she taught nursing classes at the Hotel Dieu Hospital for many years, and was physician to the Sisters at the Hospital and at Notre Dame Convent.

**Munro**—In her sixty-ninth year, Mrs. H. B. Munro (Norval Macdonald), B.A. '00, died at Hollywood, California, on December 14, 1946. Mrs. Munro was born at Ottawa, Ontario. She received her early education at Kingston, and entered Queen's in 1895. As a student she was active in undergraduate affairs, and served on the staff of the "Journal." Her husband, Dr. H. B. Munro, Arts '98, predeceased her in 1929. Among the survivors are a sister and a nephew, both living in Vancouver, British Columbia.

**Wilson**—After a long illness, Mrs. G. H. Wilson (Agnes Mabel Fargey), Arts '08,

died at Boucherville, Quebec, on January 3, in her sixty-fourth year. Mrs. Wilson was born at West Huntingdon, Ontario. After attending Stirling High School, she entered Queen's and graduated with her B.A. degree in 1909. In the autumn of that year she married Gordon H. Wilson, Arts '08. Mr. and Mrs. Wilson lived in Westmount, Quebec, until 1942, when they moved to Boucherville. Mrs. Wilson was always keenly interested in Queen's affairs and for many years was active in the Montreal alumnae branch. A member of Stanley Presbyterian Church, she held various offices in the Women's Missionary Society. She was also a member of the Women's Canadian Club. The survivors include her husband, two sons, and one daughter.

## Notes

### 1890 - 1899

**Dr. Geneva Misener and Mrs. G. E. Story** (Edith Malone), both of the class of '98, are living in the Hainault Apts., 825 Gifford St., Vancouver, B.C.

### 1900 - 1909

**Dr. Charles Camsell, Sc. '01, LL.D. '22**, former Deputy Minister of Mines and Resources and Commissioner for the North West Territories, was elected president of the Canadian Institute of Mining and Metallurgy at its annual meeting held recently in Ottawa.

**Hon. Frank J. Hughes, Arts '07, Toronto**, has been appointed by the Sun Life Assurance Company of Canada as a member of its Canadian Advisory Board and the Advisory Board of affiliated companies.

**H. V. Laughton, Arts '09**, vice-president and general manager of the National Trust Company, was recently elected as a Director of the Canada Life Assurance Company.

**Dr. N. L. Bowen, Arts '07, Sc. '09, LL.D. '41** (Ph.D. M.I.T., D.Sc. Harvard), is a member of the Carnegie Institute of Washington. He was formerly Charles L. Hutchinson Distinguished Service Professor of Petrology at the University of Chicago and head of the Department of Geology. His address is now Geophysical Laboratory, 2801 Upton St., Washington, D.C.

### 1910 - 1919

**Dr. J. W. Campbell, Arts '13** (Ph.D. Chicago), of the University of Alberta, was elected president of the Royal Astronomical Society of Canada at its annual meeting held recently.

**O. B. J. Fraser, Sc. '16**, of the International Nickel Company Inc., New York City, was recently promoted to the position of assistant manager of the development and research division.

**R. D. Harkness, Sc. '13**, Vice-President and General Manager of the Northern Electric Company, Montreal, has been appointed a member of the Interim Defence Research

Board set up recently by the Department of National Defence, as a civilian aid to the defence forces in their efforts to keep pace with modern scientific battle methods.

**A. L. Morgan, Sc. '12**, is in the hydraulic division of Dominion Engineering Works Limited, Montreal.

**Rev. Robert Rayson, Arts '17**, has resigned as Rector of the Church of St. Martin-in-the-Fields, Toronto, to accept the Rectorship of the Cathedral of St. John the Baptist in St. John's, Nfld.

**J. H. Sissons, Arts '17**, was appointed district court judge in Lethbridge, Alta., last October.

**Janet Saunders, Arts '18**, was recently appointed librarian of the International Labour Office, Montreal.

**Col. E. L. Stone, Med. '13**, of Ottawa, has been appointed chief administrative officer of the Edmonton Indian Health Services Hospital. He is also senior administrative officer for Indian Health Services in Alberta, the North West Territories, and the Yukon.

**Dr. Charlotte Whitton, Arts '17**, recently spent several weeks in Edmonton and other parts of Alberta, where she directed an extensive welfare study undertaken in that province by the Provincial Chapter of the I.O.D.E.

### 1920 - 1929

**B. G. Ballard, Sc. '24**, is now officer in charge of the electrical engineering and radio branch of the National Research Council, Ottawa.

**R. H. Bissell, Sc. '28**, for the past fifteen years on the staff of Canadian Industries Limited, was recently named president and managing director of Milqo Limited, of Hamilton, Ont., manufacturers of Vi-Tone and Egg-O Baking Powder.

**L. Chamberlin, Sc. '23**, is president of Chamberlin Management Corporation Limited, Noranda, Que.

**Ernest Collyer, Toronto**, and **Cyril Collyer, London, Ont.**, of Sc. '23, were bereaved by the death of their father, Mr. Charles Collyer on February 17.

**Dr. A. B. Currie, Com. '29** (M.A., M.Educ. Alberta) (Ph.D. London), is now associate professor of education at McGill University.

**Paul Johnston, Com. '25**, is manager of the Bell Telephone Company of Canada at Stratford, Ont.

**Dr. M. T. MacFarland, Arts '28, Med. '30**, Winnipeg, was bereaved by the death of his mother, Mrs. John F. MacFarland, in January.

**Dr. S. W. McIlmoyl, Arts '26, Med. '28**, has been practising at 336 Second St., Troy, N.Y., since his discharge from the American Army. He received his fellowship in the American College of Surgeons last December.

**G. L. McRory, Sc. '23**, is sales representative for the New Jersey Zinc Sales Company at Cleveland, Ohio.

**Dr. Harold Jones**, Med. '44, has been in private practice at Drayton, Ont., since his discharge from the R.C.A.M.C. last June.

"Boy oh boy . . . am I ever ready for a Sweet Cap!"

**SWEET CAPORAL CIGARETTES**

*"The purest form in which tobacco can be smoked"*

Mrs. J. W. Kirk (Gwen Pearson), Arts '44, has a position in the Department of Pharmacology at the University of Western Ontario Medical School, London, Ont.

Dr. W. H. Kindrachuk, Med. '44, and Dr. M. J. Vogel, Med. '42, are practising in partnership at Drumheller, Alta.

G. A. Macartney, Arts '44, is a second-year law student at Osgoode Hall.

J. M. Miller, Arts '46, has been appointed lecturer in history at Dawson College, St. Johns, Que.

H. A. Milliken, Arts '40, and F. A. Rutherford, Com. '44, are attending University of Saskatchewan Law School.

Dorothy Mills, Arts '45, is on the staff of the Bank of Canada, Ottawa.

D. A. Miskelly, Arts '43, who joined the Canadian Army after graduation, is now a member of the Permanent Force, holding the rank of Captain in the R.C.O.C. He is at No. 25 Central Ordnance Depot, Montreal.

Dr. Carman Munro, Med. '40, has started a private practice in Pembroke, Ont.

Dr. E. B. Paul, Med. '44, formerly with D.V.A. at Kingston, opened a private practice in Napanee, Ont., early in December.

C. A. Park, Arts '42, who entered Huron College, London, Ont., in the fall of 1945 to study for the Anglican Ministry, recently transferred to Berkeley Divinity School (Protestant Episcopal) in New Haven, Conn., to complete his theological training.

M. W. Park, Arts '42, formerly doing sales work for the Imperial Life Assurance Company in Barrie, Ont., was transferred last September to the head office of the company in Toronto.

George Percival, Sc. '43, has joined the staff of Monpas Mines Limited at Amos, Que.

Isabel Plant, Arts '43, is secretary to the Director of Naval Information, N.S.H.Q., Ottawa.

Dr. A. L. Pitcher, Med. '43, is assistant-resident on surgery at Garfield Memorial Hospital, Washington, D.C.

G. N. C. Rivington, Sc. '42, has joined the staff of the Montreal Engineering Company, 244 St. James St., Montreal.

A. M. Ross, Arts '40, is on the staff of Oakwood Collegiate Institute, Toronto.

J. A. Robson, Sc. '45, is junior engineer for Cresswell-Pomeroy Limited, Montreal.

R. L. Roscoe, Sc. '44, is with the Anglo Rouyn Mines Limited, Noranda, Que.

W. M. Shufelt, Arts '45, was appointed principal of the high school in St. Lambert, Que., last March.

D. W. Sullivan, Sc. '42, was recently appointed underground superintendent at Canadian Refractories Limited, Kilmar Que.

W. J. Surtees, Sc. '43, is taking post-graduate work at the University of Toronto.

Josephine Sutherland, Arts '45, recently returned from Mexico where she spent the past six months instructing in youth camps of the Society of Friends.

D. A. Whelan, Sc. '44, is assistant city engineer at Burnaby, B.C.

Dr. J. R. Wilson, Med. '40, has been with the Department of Veterans Affairs since his discharge from the Navy. He is at present in the psychiatric department at Shaughnessy Hospital, Vancouver.

G. M. Wright, Sc. '44, is with the National Research Council, Ottawa.

## Alumni Fund

### A MESSAGE FROM THE DIRECTOR OF ENDOWMENT

---

- In 1941 the plan of Annual Contributions was suggested to Queen's alumni as a practical method by which they could render valuable aid to their Alma Mater.
- During the five years that have passed since then, the sum of \$149,180 has been contributed by the individual alumni to help maintain and extend the work of their Alma Mater, an average of \$29,836 a year by an average of 699 donors. The totals contributed by individual alumni over this period have ranged from 25 cents to \$25,620. In addition, various alumni and student organizations have given \$75,340—an average of \$15,068 a year.
- The money thus contributed has been allocated to general endowment or maintenance funds, to scholarships, bursaries or prizes, or to other special projects, in accordance with the donors' desires. The unrestricted gifts have been perhaps the most valuable since they could be used where the need was the greatest. The importance of this "free" money cannot be overstated. It helped to prevent serious damage during the war. It will be of similar assistance during the reconversion period.
- So much has been done for Queen's by a relatively small number of her alumni. So much more would have been done if every one of Queen's 15,000 alumni gave his or her help. Queen's needs this help.
- If you have been contributing, please accept this as a message of thanks. Your past assistance has been very welcome. Your future help will be similarly valued.

THE SIGN OF

## RECENT TRENDS IN INDUSTRIAL RELATIONS

By J. C. Cameron, Head of the Department of Industrial Relations

THE war and the post-war period have set loose a new flood of human energy in the direction of more control by labour over its own life in industry. Before the war the emphasis of labour leaders was upon steady employment, less poverty, higher wages, shorter working hours and better working conditions. Today the emphasis is upon labour's right to participate in the government of industry. The former objective has not been abandoned. It has been merged with a greater objective—better wages, hours and working conditions through control over industrial matters which deeply affect the life and welfare of labour. This being the plain fact of the case, it becomes imperative for employers and the public to realize that beneath the movement for control lies a truly enormous force—a force that has already deprived management of many of its traditional rights and prerogatives, greatly limited the authority of management, and impinged on management functions at many points. Perhaps the present situation will be better understood by examining the position of employers when they took the initiative and determined the conditions under which they employed labour and contrasting that position with the present situation.

Certain legal rights inure to a company by virtue of the charter which it holds and its ownership of the premises—rights which the law will protect against attack by private persons. Possession of property, however (an industrial enterprise for example), does not confer on the owners the right to use the premises in any way they wish, for the law almost invariably hedges about the rights, privileges, and immunities which it confers with many duties and responsibilities. When a factory is being built, for exam-

ple, the owners must obey municipal building by-laws. When the building is finished, they must operate the factory in accordance with the provisions of the Factory Act. They are required to follow certain practices for the protection of their employees against accidents and sickness. Minimum wage acts must be respected; regulations respecting hours of work must be followed. Taxes must be paid if the owners are to continue to enjoy possession of the premises. In short, the state undertakes to allow the owners of a factory to hold a title to the property and operate it only as long as existing laws are obeyed. Furthermore, the state reserves the right to impose further restrictions whenever it seems expedient to do so.

Before collective bargaining became general in Canada, state intervention in industrial relations covered a relatively narrow field. The physical hazards of employment were regulated and there were restrictions on the employment of women and children; minimum wages and maximum hours were fixed in some provinces; machinery for the mediation of industrial disputes was established. In other words, apart from its excursion in the field of mediation, the state, in an attempt to improve the position of the employee, had imposed certain minimum standards on employers. While it may be argued that minimum and "fair wage" legislation is a limitation on free contract, few people will argue that, thus far, it has been an important limitation. Even after the extension in some provinces of collective agreements voluntarily reached by trade unions and employers over an entire industry, employers were not seriously restricted in determining the conditions under which they employed labour.

It must not be supposed that, apart from the restrictions just mentioned, employers could, before collective bargaining became general, impose any conditions they wished on their employees—that labour could, in fact, be treated as a commodity. Efficient operation of a factory has always demanded co-operative effort on the part of management and labour; and co-operation of the employees has not been forthcoming for long unless the employer has paid “fair wages,” has provided “normal” working conditions, and has taken into consideration the wishes of his employees when making decisions on matters which affect their welfare.

When all has been said, however, about “formal” and “informal” regulation of the labour contract, one is forced to the conclusion that before collective bargaining became general, employers took the initiative in determining wage rates, hours of work, and other working conditions, and that their decisions were not seriously contested. Moreover, their authority was seldom, if ever, challenged in such matters as hiring, lay-offs, promotions, discipline, the formulation of plant rules and regulations, the methods of operation, and the direction of the working force.

Even a hasty reading of a few collective labour agreements picked at random forces one to the conclusion that there have been revolutionary changes in the labour contract. Management is no longer in a position to determine whom it will admit to the premises and under what conditions. Management’s rights to direct the working force have been abridged. It no longer has the undisputed right to impose restrictions upon the conduct of the employees while on the premises. Its right to hire, to lay-off, to promote, and to discipline are subject to serious restrictions. Its right to operate the business “efficiently” is challenged at almost every turn.

The extent to which collective bargaining has become a process of transferring authority from management to the bargaining agency and/or the employee group and has necessitated a reconsider-

ation of the “functions” of management will be the main topic in what follows.

Most collective labour agreements contain a broad clause reserving unto management rights not specifically given away by the agreement. For example:

The management and control of the company and its business continue to be vested exclusively in the company subject to the terms of this agreement.

Many companies regard the inclusion of such a clause in a collective agreement as superfluous. They assert that it is well understood by the bargaining agency that management continues to enjoy its former freedom and authority after the signing of the collective agreement unless such authority is specifically curtailed or relinquished in the agreement itself. On the other hand, some companies feel that, when they enter into an agreement, the employees are apt to think that management has abdicated and that complete democratic control of industry has been established. For this reason, they insist that the contract outline the rights of management in a general way. The truth of the matter seems to be that many questions have arisen regarding management functions, and clauses dealing with management rights are inserted in the agreement to clarify the situation.

It should be noted that, in most agreements, the actions of management in matters of hiring, discharging, classifying, transferring, promoting, demoting, and disciplining may be questioned by the bargaining agency. In other words, management no longer has the exclusive right of hiring, discharging, and the like.

While the law places certain restrictions on the employer’s “right to employ,” these restrictions are not serious. Union agreements, however, frequently seriously limit the employer’s right to employ and prevent him from hiring those persons who, in his judgment, are best qualified to do the work available. Any clause which facilitates compulsory unionism interferes to some extent with the employer’s right to employ whomever he selects. Here is an example:

The Employer agrees to hire and retain in his employ no other employee of the classes herein mentioned but

members in good standing in the Union, and to hire them through the offices of the Union. Only if the Union is not in a position to supply a sufficient number of competent employees may the employer engage non-union employees, provided, however, that the non-union employees thus engaged shall not be objectionable to the Union and that they shall perfect their membership in the Union within 10 days after being engaged.

The effect of the above clause—a “closed shop” clause—is to make the union an employment agency for its members, jobs offered being only those with contracting employers.

To a greater or less degree all such clauses make union membership rather than ability the determining factor in selecting and retaining employees. Under the closed shop clause, efficiency is completely subordinated to unionism. Moreover, since an employee's membership in the union is dependent on the union's willingness to accept him and retain him, all such clauses may be used as devices

to prevent the employment of persons selected by the employer.

Discharge of employees at the employer's discretion is now subject to important limitations. In the first place, discharge for union activity is prohibited by law; second, collective agreements place many restrictions on the employer's right to discharge. One form of restriction consists of setting out the causes for which employees may be discharged. Here is an example:

The employer shall have the right to discharge any employee for drunkenness, insubordination, smoking in prohibited areas, violation of safety rules or deliberate destruction of company property.

There is a marked tendency to provide that all disputes concerning lay-offs and discharges may be dealt with as grievances and subsequently submitted to arbitration.

Sufficient has been said to indicate that there are many ways in which discharge of employees at the employer's discretion is subject to serious limitation.

In the absence of clauses allowing union activity on the company's property, it might be concluded that management has the right to prevent it. Some employers have taken and still hold this view. Other employers believe that such a view is unreasonable and that an employer has no cause for complaint about union activity on company premises so long as it does not interfere with efficiency. Accordingly, clauses similar to the following are fairly common in union agreements.

Nothing in this agreement shall be construed to prohibit union officers from looking after matters of membership and dues, provided it is done before or after working hours.

Most agreements make special provision for leave of absence for union officers and/or members without loss of seniority. The significance of all such clauses is that the employer becomes party to a plan which gives special privileges to the union and/or its officers.

Representatives of the bargaining agency are sometimes permitted to visit the plant without special permission from

**PROF. J. C. CAMERON**  
Head of the Department of Industrial Relations

the employer. In other cases, agreements restrict the areas which the union representatives are permitted to visit, or limit the time when they are admitted, or limit the number of visits.

Seniority provisions vary from the simplest clause to a highly complicated arrangement designed to cover special circumstances and groups such as seasonal employees, handicapped workers, students in training, and union officials.

From the point of view of the employees, the adoption of seniority regulations means that management has given up some or all of its rights to make decisions in many areas of the employment relationship, and that a relatively rigid system has been adopted which will tend to eliminate discrimination or favouritism.

From the point of view of management, the adoption of seniority regulations may mean that, to a greater or less degree, management has given up its right to operate the business efficiently. This is true to the extent that the seniority regulations emphasize length of service, rather than efficiency and impede the progress of competent workmen by favouring "time servers."

A few agreements give union officers preferred seniority status, and this practice seems to be increasing. Seniority, which is usually thought of as a plan designed to avoid favouritism, thus used, becomes a device designed to assure more favourable treatment for union officers. Thus the employer becomes a party to a plan which may not only result in dissatisfaction on the part of other employees, but which may not be conducive to efficient operation.

One of the most important sections of the collective agreement is that which outlines the procedure for dealing with grievances. Although there is usually no dispute about the necessity for grievance machinery, there is often serious disagreement about the procedure to be followed as well as about the matters that may be dealt with as grievances.

Examination of a large number of agreements leads one to the conclusion

that four major principles have been accepted by the parties.

1. It is recognized that the prompt settlement of grievances is of supreme importance in the maintenance of peaceful employer - employee relations.
2. Access to the grievance procedure is made easy.
3. Grievances are handled systematically through a carefully worked out multi-step procedure. It has been found that precision in defining the grievance procedure will eliminate a great deal of friction that might otherwise result.
4. The parties agree to submit certain grievances to arbitration for impartial hearing and judicial adjustment.

The procedure to be followed in handling grievances is frequently a fruitful source of strife. Many employers insist that every employee should have the right to present his grievances directly to management. They feel that if the union handles all grievances, it is not likely to deal sympathetically with the grievances of non-union men except at the price of joining the union. Unions, on the other hand, usually oppose a provision which permits an individual to present and discuss a grievance, except through a union representative. This opposition is based on two arguments.

- (a) Such a method undermines the authority of the union.
- (b) The union is interested in uniform treatment. To permit the settlement of disputes by individuals would lead to discriminatory treatment.

The tendency in most collective agreements is to break the link between individual workmen and management, and for management to agree to refrain from negotiating and settling grievances with individuals without bringing the union into the matter.

Generally speaking, employers agree that the grievance procedure should permit all complaints and grievances to be considered, and collective labour agree-

ments usually permit this to be done. Many employers, however, who support the contention that any and all grievances should be handled by the formal machinery provided in the contract, are adamant in their stand that only grievances involving the interpretation or alleged violation of the contract are "legitimate" grievances, and they accordingly insist on the inclusion in the contract of a definition of the word "grievance." For example: "A grievance is a controversy between the company and the union, or between the company and an employee, regarding the interpretation or alleged violation of the contract, but not any controversy as to any matter specifically covered by the contract."

The inclusion of the clause just quoted cannot, however, prevent any and every kind of grievance from being referred to the grievance procedure. The reason is simple. If an employee presents a grievance to his employer and the employer expresses the opinion that this particular grievance is not a "legitimate" one because it does not concern the interpretation or alleged violation of the contract, that is seldom the end of the matter. The bargaining agency may (and it has the right) insist that the employer is wrong. When this happens, the employer is in no position to impose his view of what constitutes a "legitimate" grievance on the bargaining agency. The employer may, it is true, hold firm to his original position as the grievance is dealt with at each step of the procedure. But surely he cannot and would not wish to prevent the case from going through each step of the grievance procedure and finally to arbitration provided in P.C. 1003.

It would thus appear that no matter how carefully one tries to define the term "legitimate grievance," management has, by the mere provision of grievance machinery, given up its right to decide what matters may be dealt with through that machinery.

There is another phase of the matter which is just as important as that discussed above. Most agreements contain clauses similar to the following:

Grievances which are not settled by the above procedure to the satisfaction of both parties to this agreement, may, on the application of either party, be submitted to arbitration. (The method of appointing the arbitrator or arbitrators is then set out).

The arbitrator shall have power to deal only with grievances involving interpretation or alleged violation of this agreement and his decision shall be final and binding on the parties.

He shall not have any authority to alter or change any of the provisions of this agreement, or to substitute any new provision in lieu thereof or to give any decision contrary to the terms and provisions of this agreement.

The intention of the above clauses is to bar the arbitration of all matters except those involving interpretation or alleged violation of the agreement. But only the arbitrator has the power to decide whether the alleged grievance before him is a legitimate and arbitrable grievance. Arbitrators may have no difficulty in deciding whether the matter is "specifically covered by the contract." If the terms agreed upon are precisely stated the matter is quickly disposed of. On occasion, however, arbitrators will have great difficulty in deciding whether the contract has been misinterpreted or breached, since so many clauses in a collective agreement outline, in a general way, the course to be adopted in certain circumstances. That is, the clauses are vague and indefinite rather than precise or specific. For example, an agreement may provide, as some agreements do, that "among those employees qualified to do the job, length of service shall be the determining factor in promotions to a higher-rated job." Now even the best-intentioned and best-qualified arbitrator would have difficulty in construing the above clause, and further difficulty in deciding whether a company had administered it according either to the letter or spirit of the agreement. The clause does not give any direction to the arbitrator who finds that "among those qualified to do the job" there are several persons with varying degrees of ability. One person may, for example, have only the minimum qualifications necessary, another may have slightly higher qualifications than the first; the qualifications of

a third person may far exceed those of the others. Then again, the clause does not state specifically whether the company is the sole judge of qualifications. Nor does it set up an objective standard by which the arbitrator may be guided.

Numerous other instances might be cited to demonstrate the fact that it is very difficult, if not impossible, to confine arbitration only to those matters which the employer thinks are arbitrable.

The inclusion of an "unlimited" or even a "circumscribed" arbitration clause in a collective agreement means that matters on which management formerly had the last word may become subject to decision by a third party who may not possess the qualifications necessary to give an impartial decision, and who does not assume any responsibility whatever after he makes his decision.

When I speak of wages I refer to all payments made to the employees in return for their services—cash in the weekly pay envelope, payments for statutory holidays or vacations, payments for rest periods, hospitalization plans, group insurance, pension plans, and the like.

Employers no longer take the initiative in wage matters. There was a time when an employer was in a position to say, "Here is the wage I offer. If you want to work for me, this is what I propose to pay you." Nowadays, however, the bargaining agency takes the initiative and presents its "demands." Moreover, until December 1, 1946, in spite of wage control, the strong articulate groups were quite successful in getting a good part of what they demanded. To an important extent, collective bargaining on wages was done for employers by the War Labour Boards. Bargaining agencies got all they could by private bargaining with employers, and then proceeded to ask the War Labour Boards for more. And they always got more if they applied pressure in the proper way!

The same method was used and is still being used successfully in other matters. Let us take a look at the process. A union makes certain demands. The employer makes counter-proposals.

When the union is satisfied that the employer has conceded all he is likely to concede, it asks for assistance from a conciliation officer. The conciliation officer suggests a settlement which invariably involves further concessions by the employer. The result is the same whether an industrial dispute inquiry commissioner or a three-man conciliation board handles the case.

The point I want to make is that government boards and government appointed officers (whether temporary or permanent appointees) are not examining cases on their merits. Perhaps it is too much to expect that they ever will. Their job is to mediate, not to give a judicial decision. Under these conditions it is to be expected that they will be used by the unions to extort from employers something over and above the concessions which the unions are able to get by collective bargaining.

One might go on at great length with other examples of ways in which collective bargaining has whittled down the areas in which management may make decisions. I do not think, however, that such a course would serve a useful purpose. Sufficient has been said, I think, to demonstrate conclusively that collective bargaining is an enormous force—a force that has already deprived management of many of its traditional rights and prerogatives, greatly limited the authority of management, and impinged on management functions at many points. Many employers are beginning to wonder if collective bargaining really means co-operation between employers and employees in the settlement of matters of mutual interest. They are confused when, in practice, they see collective bargaining used as a device for transferring authority from management to union.

I shall not deal in this paper with the necessity for better laws and for better law-enforcement in labour matters except to say this: Better laws and enforcement of existing legislation will come only as a result of enlightened public interest in industrial relations. I have no simple formula to offer. Nor have I a simple formula by which we

can make collective bargaining an instrument that will work well in every situation. I have, however, a few comments to make. I submit them in all humility because I realize that while my interest in industrial relations is great, my knowledge is not as extensive as I could wish.

(1) Collective bargaining is here to stay. Properly used it is an appropriate method in a democracy for determining the equities of the parties engaged in production. When employees are represented by bargaining agencies which are democratically constituted, law-abiding in their conduct, and co-operative in their outlook, and when employers accept unions without resentment and conscientiously try to work with them, then we will have the conditions under which collective bargaining will be seen at its best. Under such conditions society will have little to fear from collective bargaining.

(2) The ideal conditions just referred to will not be brought about by laws or through the intervention of government officers. They will be brought about only as a result of a change of attitude on the part of the disputants themselves.

Is one simply dreaming when he speaks in this fashion? Are these but the mutterings of the benevolent professor who has no knowledge of the "rough-and-tumble" of life? I can only reply in this fashion. The conditions I outline are absolutely necessary if what we are aiming at is co-operation in production rather than industrial strife.

(3) Management must assume a very large part of the responsibility for making collective bargaining work. It will be successful in this field if there is devoted to it only a fraction of the time ordinarily given to production and marketing.

(4) Do not look on a labour agreement as a list of things which the union managed to chisel out of you. Look on it rather as a code of ethics

which recognizes that management has responsibilities to the public and the shareholders as well as to the employees, and try to make it such a document.

(5) Hammer out the agreement stroke by stroke. Resist every plan which leads to inefficiency and the destruction of employee morale. Welcome every plan which might improve efficiency and improve morale. Obviously, you cannot pay high wages by doing things inefficiently.

(6) Live up to your part of the agreement meticulously and insist that the bargaining agency follow a like course.

(7) Do not try to "buy" peace in the family by gifts. You will fail in the attempt. Industrial peace rests on this foundation and on this alone: a desire for betterment and a co-operative spirit.

(8) Finally, I want to say this. I do not think that the curtailment in management rights to which I have referred again and again will necessarily ruin Canadian industry. I think in time we ought to be able to adjust ourselves to the new conditions and still bake a big pie.

(9) What the form and procedure of dealings between employers and employees will prove to be in the years ahead seems to me to be quite uncertain. These are human problems, not matters of technology and of mere efficiency; and there is no royal road to the one perfect solution. There are many plans and schemes that are worth while—personnel departments, profit-sharing of one kind or another, compulsory negotiations, even compulsory arbitration with prohibition of strikes. He would be a bold man who predicted which of them or which combination of them, will become the rule in the future. The only thing that is quite clear is that it all depends on the spirit in which they are carried out. Not that the method, machinery, the details of

organization are immaterial. They need to be planned with care and judgment, adapted to the circumstances of different kinds of industries, modified in the light of experience. They must take account of the prejudices, prepossessions, disappointments, suspicions which have been aroused by the experiences of the past or rest firmly on the facts as they stand; and patience and tact are required no less than judgment. The general line of approach which seems most pro-

mising is that of a well-qualified personnel officer within each industrial establishment. But, to repeat, the essential thing is how employers and employees feel about it, and what is the spirit underlying it all. Here the responsibility lies most of all with the employers. Machinery counts not a little; but the essential thing is a real desire for betterment, a disposition to meet the men at least halfway, tolerance and forbearance, pervading and unquestioned goodwill.

---

## FOUNDER'S NAME PERPETUATED GRANDSON AND NAME SAKE NOW AT QUEEN'S

WHEN the January *Review* gave the names of second-generation students attending Queen's, R. J. McDowall was listed as the son of R. J. McDowall, Sc. '12. He is more than that. The third-year Arts student is a great-grandson, and namesake, of one of the founders of Queen's.

Rev. Robert McDowall's name does not appear on the Charter of Queen's, because this pillar of the Presbyterian Church in Canada died sixteen days before the Charter was signed. Yet he was a prime mover in the establishment of a college for the training of young men for the ministry, advocating this in the Synod of 1837, and he served on the committee that set the plan in motion.

An authentic record of the achievements accomplished through the vitality of Mr. McDowall has been compiled by Rev. Stuart Woods, Arts '96, Theol. '00, of Beamsville, Ontario. The account makes impressive reading.

Robert McDowall was born of Scottish parents at Ballston, near Saratoga, New York, in 1768. He grew up to be an earnest, studious youth whose thoughts turned to the Church. After two years at Williams College, Williamstown, he entered Albany University to study for the ministry. Graduating in 1797, he was ordained by the Dutch Re-

formed Classis (Presbytery) of Albany. The following year this body appointed him their missionary to Canada, to minister to the United Empire Loyalists in Upper Canada. He set out for the Bay of Quinte area in the Midland district, where free grants of land had been given to the Loyalists.

Settling in Adolphustown, Mr. McDowall began to minister to Ernestown and Fredericksburg (named for the sons of George III by his loyal subjects), and to a "parish" that stretched from Glengarry in the East to York (Toronto) in the West, and as far North as Newmarket. It was an area of 300 miles. He travelled on foot, by canoe, or on horseback to these scattered communities. As he entered a settlement he would blow his horn, which was the signal for the people to gather for worship and to hear the Gospel of Redeeming Love from the fiery tongue of this great missionary. Generally, he would preach six to nine times a week. During special tours he began to form the nuclei of churches at various points. By 1819 he had established fourteen churches, including the three already mentioned, and those at Elizabethtown, Mathilda, Williamsburg, Osnaburg, Aussenberg, Sophiasburg, Hallowell, Sidney, Markham, Klinville and York. The last was disbanded by the war of 1812, later re-

organized, and now is known as Knox Church, Toronto.

The Dutch Reformed Classis of Albany quietly withdrew from the support of this mission in Canada by the year 1818. That year a meeting of ministers and elders from the various branches of the Presbyterian Churches in Upper and Lower Canada was held in Montreal, and a Union agreed upon. In 1819 Mr. McDowall cast his lot with this new Union, and took with him all the churches he had established. When the Synod met in 1819, he was honoured by being elected its first Moderator.

Although Mr. McDowall was a strong, powerful, athletic man, the strenuous labours of those missionary journeys began to tell upon his health. In 1820 he accepted an invitation from the people of Adolphustown, Ernestown and Fredericksburg to become their regular pastor, a position he held for over twenty years. His death occurred in 1841, one month after receiving a testimonial from the Synod. A memorial church—the McDowall Memorial—was built about 1890 at Sandhurst on the Bay of Quinte, but unfortunately it was later destroyed by fire.

Mr. McDowall was educated in The Dutch Reformed School, which was Calvinistic in doctrine. He was a staunch fundamentalist, true to the Letter of The Law. He preached fervently the Sovereignty of God, published sermons, and at one time publicly debated Calvinism versus the Doctrines of Arminius with his Methodist brethren in the area. A true Sabbatarian, he once threw a plate of warm biscuit out of the door when sitting at dinner with a settler, remarking as he did so that it was too fresh to have been baked on the Saturday!

Among the many people that Mr. McDowall baptised was Oliver Mowat, later Sir Oliver. He married hundreds of couples. The signatures of illustrious men, such as Isaac Brock, are on these records, some 3,000 in all. Many, with volumes of sermons, letters and memoirs, are in the archives at Queen's.

Four sons and a daughter were born to Mr. McDowall and his wife, the former Hannah Washburn, daughter of a U.E.L. leader. There are eleven great-grandchildren living. Five, in addition to R. J. McDowall of Ottawa, mentioned above, are Queen's alumni. They are Mrs. W. L. McFarland (Ethel McDowall), Arts '96, Toronto; Dr. J. A. Polson, Arts '07, Med. '10, of Bronxville, N.Y.; Dr. Stuart Polson, Arts '05, Med. '10, and Miss Jessie Polson, Arts '96, both of Kingston; and Neil Polson, Arts '02, of Montreal.

---

### **DR. H. R. KINGSTON, ARTS '08 APPOINTED DEAN AT WESTERN**

**D**R. HAROLD R. KINGSTON, Arts '08, has been appointed dean of the Faculty of Arts at the University of Western Ontario, succeeding Dr. K. P. R. Neville, Arts '96, who retired this year.

Formerly director of the extramural and summer school department at Western, Dr. Kingston obtained his Master of Arts degree from Queen's extramurally. After teaching for several years in a high school in Indianapolis, he entered the University of Chicago in 1912, and two years later received his Doctor of Philosophy degree. He then went to the University of Manitoba, where he was a member of the faculty in the department of mathematics, until in 1921 he went to Western. Dr. Kingston has also been holding the position of professor and head of the department of mathematics.

---

### **Additions Noted on List Of Second - Generation Students**

**T**HE following names are being added to the list of second-generation Queen's students published in the January *Review*:

G. E. Flanagan—Dr. G. E. Flanagan, Arts '17, Med. '23, Myerstown, Pa.

R. R. Fraser—Dr. J. W. Fraser, Med. '14, Arts '22, Kitchener, Ont.

Desta Leavine—Dr. S. F. Leavine, Med. '20, Arts '27, Kitchener, Ont.

## SAMUEL WALTERS DYDE

An Appreciation by Rev. Dr. George A. Brown, Arts '04, Theol. '07, D.D. '33

A GRADUATE of Queen's who by his scholarship, teaching, writings, and life influence brought honour and distinction to his Alma Mater, Rev. Dr. Samuel Walters Dyde, died in Edmonton on January 15, 1947, at the advanced age of eighty-five years. His death brought sorrow, sense of loss, and grateful memories not only to his immediate family and relatives but to many who had known him as teacher, principal, scholar, and friend.

Samuel Walters Dyde was born in Ottawa, where he received his elementary education. Entering Queen's University at the age of seventeen, he graduated with a B.A. in 1883 and M.A. the following year. Taking the course in Theology, he also pursued other studies and received the D.Sc. degree in 1887, a degree then awarded for additional work in courses taken in undergraduate years.

For three years he was Professor of Mental and Moral Philosophy and Political Economy at the University of New Brunswick. In 1889 Queen's called him to the Chair of Mental Philosophy, which he occupied for twenty-two years. In 1911 the Presbyterian Church in Canada opened Robertson Theological College in Edmonton and invited Dr. Dyde to the Principalship. For seven years he served the rapidly growing West, not only as principal and teacher but as preacher many Sundays of the year in the older and newer churches in the vast area opened up by the new settlers. The First World War was in that period. None was more eager to give assistance that would promote the highest ends to be achieved in the great struggle, and to comfort and encourage all in the forces and those at home. That he was practical is proved by his learning to knit and thus spending part of his time on the long and frequent train trips he made. We have heard him tell with laughter of the amusement and remarks of passengers seeing a man knitting. Had they known that this man was philo-

sopher, theologian, literary critic, professor, principal, their surprise would have been even greater. Best of all, he was a friend of man, seeking to employ every moment effectively. In 1918 Queen's again called her son and servant, this time as principal of Queen's Theological College. He resigned from the principalship in 1926, but continued to occupy the Chair of Church History until 1934 when he retired, having completed forty-eight years of teaching, fifteen of which he carried the added responsibilities of a principal.

Retirement from college halls did not mean retirement from service. Going to Edmonton in order that he and Mrs. Dyde might be with their family, he became Public Servant No. 1 in the realms of learning in which he was a master and an unusually gifted teacher in philosophy, theology, and English literature, particularly Shakespearian drama. In the city and surrounding district he was constantly sought by those interested in higher learning and life's deeper mean-

REV. DR. S. W. DYDE

ings. As late as 1940, when Dr. Tuttle, Principal of Robertson College, was called to the Moderatorship of the United Church of Canada, he filled the chair of lecturer in the Philosophy of Religion, to the profit and delight of the students. One of them, Mr. Hutchison, travelling secretary of the Student Christian Movement, visiting Kingston at the time of Dr. Dyde's death, told of a characteristic reply of Dr. Dyde to a student enquiring anxiously about the coming examinations. "Anyone who will assure me that he has read with care *The Nature and Destiny of Man*, by Reinhold Niebuhr, I will excuse from writing my examinations." Neither that student nor any other was excused.

Dr. Dyde was not a prolific writer; the classroom was his chief interest. Yet even in his undergraduate days he contributed to *The Philosophical Review*. Later he translated and had published Plato's *Theatetus* and Hegel's *Philosophy of Right*. Both are still in use. Recently Harvard University wrote for a copy of the latter work. Some magazine articles, "War Verses" and "From my Gallery," were published later. That the muse did not forsake him is evident in the following verse which was found on his desk a day or two before his death.

We cannot number our days, their span  
Is fix'd by the heavens, not by man:  
But oft at the close of a cloudy day  
The sun is clad in its best array.

No student of Dr. Dyde's can read this without hearing the voice of its author and seeing those eyes which so often looked into the far distances, sparkling with confidence that "The best is yet to be." Surely the end that came so quietly and so peacefully here was the beginning on the other side where trumpets sounded and it was dawn, the dawn of that light which goeth not down.

The contribution which Dr. Dyde made to Queen's mental and spiritual life is immeasurable. He belonged to that galaxy of quickened, adventurous, and scholarly minds, of whom the late Dr. T. R. Glover said that no such combination could be found in any other institution of learning on this continent.

George Monro Grant, John Watson, James Cappon, Nathan Dupuis, W. G. Jordan, John Macnaughton, Adam Shortt, Samuel Walters Dyde. Queen's place in the educational life of Canada has been won by the effectiveness and influence of great teachers. Dr. Dyde held a high place among them. The freshman year was guided into the wider fields of knowledge and through the adjustments this entailed by a sympathetic and wise teacher and counsellor. Truth was the goal, but this teacher followed the way of evolution rather than revolution, to the great good and steady growth of his pupils. But if the freshman owed him much, inestimable was the debt of the final year student. By that time the understanding and friendship which marked this fellowship in search for truth had become welded into a life companionship. One knew that wherever life's way led, one could always turn to this guide and receive friendly, frank and stimulating counsel.

On the seventieth birthday of Dr. Dyde, Reverend Nathaniel Micklem, then professor of New Testament in Queen's Theological College, now principal of Mansfield College, Oxford, wrote the following verse which reveals the inner quality of this life which "being dead yet speaketh."

Das Denken Ist Auch Gottesdienst.  
(Thought too is the Worship of God)  
Full seventy years and yet his step is  
light,  
Nor fails his curler's hand. Philosophy  
He loves and lives—Plato and Seneca  
And wisest Shakespeare; Yet I wot  
from Christ  
Not stoic, learnt he that strong gentle-  
ness  
And scorn of seeming and that patience.  
The first philosopher Canadian bred  
Of British fame he stands. Tho' oft  
compelled  
By buffetings of Providence to leave  
The cloistered path of thought for dusty  
ways  
And jangling tasks and instant cares,  
his heart  
Has sojourned ever mid the harmonies  
(Hegel his master here) where Thought  
and Truth  
Are one, and mortal apprehendeth God.  
Long years be granted him to teach, to  
cheer;  
In days, when who not hurries is  
contemn'd  
Unprofitable, to maintain the faith

That thought itself is liturgy.  
Then, as on night of calm the galleon  
That through long miles of river banks  
    confined  
Has toiled and tacked, at last without a  
    sound,  
Without a tremor, all unnoticed  
Save by the watchful pilot's eye, fares  
    forth  
Upon the untrammelled ocean and is  
    free,  
So be his evening and his fruition peace,  
His time outgrown merge in eternity.

The wish expressed in the closing lines was really a prophecy. Another "Happy Warrior" had "fought a good fight, finished the course, and kept the Faith."

---

### UNIVERSITY RECEIVES \$40,000 BEQUEST

A FORMER Queen's professor, and one of the small band of women who pioneered in medicine, the late Dr. Isobel McConville, Med. '89, willed \$40,000 to the University. Dr. McConville, who died in Kingston on January 2 (see February *Review*), directed that income from the sum be used to encourage medical study and research, with annual prizes of \$100, \$50, and \$25 offered to the students for competition. The first will go to the fifth-year medical student who stands highest in gynæcology, and the others to fourth-year students who write the best essays on any approved surgical subject.

---

### Receives Recognition For Scientific Work

DR. Samuel Alfred Mitchell, Arts '94, LL.D. '24, Ph.D. (Harvard), director emeritus of the University of Virginia's Leander McCormick Observatory, was honoured recently for his scientific work during his thirty-two years as director. He was presented with a large silver dish by two grandsons of the late Leander McCormick, Robert H. McCormick of Chicago and Leander McCormick-Goodhart of Washington, in recognition of their family's appreciation of his work.

Dr. J. S. Wilson, dean of the Department of Graduate Studies, speaking for

the University of Virginia, said: "In my judgment during the period of his activity, Professor Mitchell has been the most widely recognized scholar at the University of Virginia, both in this country and abroad."

---

### ARMY OFFICERS HELPED FOR ENTRANCE TESTS

FIVE members of the Queen's staff were among the lecturers for the five-week intensive study period held at Brockville, Ontario, from February 3 to March 10 for a group of fifty active force army officers from Central Command. The members were Dean W. A. Mackintosh, Dean A. Vibert Douglas, Dr. E. L. Bruce, Dr. A. L. Clark, and Dr. R. G. Trotter.

A large part of the study period was devoted to non-military subjects covering world affairs, United Nations, U.N.R.R.A., Canadian Government, and the International Labour Organization, as well as other topical subjects. At the conclusion of the course entrance examinations to the Canadian Staff College in Kingston were written.

---

### APPRECIATION SHOWN TO CLASS HISTORIAN

IN connection with the Fiftieth Reunion of the Arts Class of '96, which was reported in the November issue of the *Review*, reference was made to the booklets prepared by the class historian, Dr. W. B. Munro, covering the historical records of the year and biographies of the members since graduation. In recognition of his efficient and valued services, an embossed copy of the resolution of thanks passed at the meeting was sent to Dr. Munro. It expressed appreciation of his services on behalf of Arts '96 and the assurance that the records he furnished would be cherished as delightful souvenirs of student days at Queen's and of personal associations over half a century.

A silver tray suitably engraved was also sent as a material token of the gratitude, affection and good will of his classmates of over fifty years ago.

## DR. W. T. CONNELL HONOURED BY ASSOCIATES

**D**R. W. T. CONNELL, Med. '94, was honoured recently when members of the Kingston and Frontenac Medical Society gathered at a dinner in the La Salle Hotel to pay tribute to a man who is celebrating fifty-three years of service to the medical profession.

Dr. Gordon W. Mylks, Med. '97, presented Dr. Connell with an oil painting by R. G. Harris "as a token of appreciation to a distinguished teacher, wise counsellor, and good friend." Dr. W. A. Jones, a member of Queen's staff, proposed a toast to Dr. Connell, while Dean G. S. Melvin, Dr. M. J. Morison, Med. '23, and Dr. W. A. Jaquith, Med. '98, of Chatham, N.J., also spoke briefly.

When he was only twenty years of age, Dr. Connell received his M.D., C.M. degrees from Queen's, and also the class medal. Following graduation he went to London, where he became a Member of the Royal College of Surgeons, and Licentiate, Royal College of Physicians, in 1895. That year he was called back to Queen's, where he was appointed professor of pathology and bacteriology. In 1896 he was appointed professor of

sanitary science, and two years later professor of medical jurisprudence. From 1904 to 1907 he was secretary of the Medical Faculty at Queen's.

He spent some time in Egypt during 1915 doing medical work with the Canadian Army, but was again recalled to Queen's in 1917, when he was appointed to command Queen's Hospital in the New Arts Building and Grant Hall. He served several years as faculty representative on the board of examiners, Ontario Medical Council, from which he resigned in 1918.

In 1920 he was appointed professor and head of the Department of Medicine, and in 1930 was appointed a fellow of the Royal College of Physicians of Canada. He did a good deal of research in cancer work at the request of the Ontario Government, and has been one of the guiding lights in the formation of the Ontario Cancer Institute and in the establishment in Kingston of the cancer clinic.

Dr. Connell retired in 1939 when he was appointed professor emeritus of the Faculty of Medicine.

### MONTREAL MEDAL CEREMONY PLANNED FOR MAY 1

**P**RESENTATION of the Montreal Medal to Dr. A. L. Clark, former Dean of the Faculty of Applied Science, will take place at a meeting planned for the evening of Thursday, May 1, at the Ritz Carlton Hotel, Montreal. The Medal is awarded annually for "meritorious contribution to the honour of Queen's."

Winners to date have been as follows: 1939, Dr. A. Macphail; 1940, the late Dr. John Matheson; 1942, J. G. Bews; 1943, Dr. W. E. McNeill; 1944, the late Dr. L. J. Austin; 1945, Dr. P. G. C. Campbell; 1946, Prof. D. M. Jemmett.

The presentation ceremony is one of the highlights of the Montreal branch's activities. This year's function will take the form of a dinner and dance, with dress optional. Out-of-town alumni will be particularly welcomed and are asked to get in touch with the president, G. V. Knowles, Sc. '39, 4850 Queen Mary Road.

DR. W. T. CONNELL

## *Student Activities*

### **Student Elections Held**

**F**EBRUARY is a big month for election of officers in undergraduate organizations. The following are some executive members chosen for next year:

Engineering Society—President, Scott Dalziel; secretary, John Armstrong; vice-president, Greig Cranna; 2nd vice-president, Norm Simmons; treasurer, Frank McIntyre; assistant secretary, Warren Trotter.

Arts Society—President, Don Milliken; vice-president, Al Beveridge; secretary, Ken Clark; treasurer, Don Chown; athletic director, Bill Burgess.

Levana Society—President, Shirley Johnson; vice-president, Barbara Bews; secretary, Jean McPherson; sophomore, Helen Gougeon; junior, Sylvia Mackenzie; senior, Ann Tracy; house council president, Joan Bronskill; senior curator, Nancy Hawley; social convener,

Ann Janes; Barb Ullett, president of LAB of C.

### **Two Gliders Purchased**

Two Laister-Kaufman sailplanes have been purchased from Washington, D.C., by the Queen's Gliding Club. The aircraft, complete with trailers for towing, have been recently delivered. The forthcoming purchase of a Bren-gun carrier, to be converted into an automobile winch and power unit for launching purposes, has also been announced.

### **Start Theatre Fund**

At the final meeting of the Drama Guild a resolution was passed urging that a high standard of production be maintained in the Drama Guild, in order that the project of the proposed new theatre be carried through. Five hundred dollars was contributed this year by the Guild to the Theatre Fund, and

**SAILPLANE PURCHASED BY GLIDING CLUB**

trustees of the fund have been appointed. These are the A.M.S. president, Drama Guild president, Principal of the University, University Treasurer, Director of Dramatics, and the Head of the English Department.

#### **Present Entertainment**

Two major entertainment events during the month were the Drama Guild's production of Noel Coward's *Hay Fever*, and the presentation of Gluck's opera *Orpheus* by the Glee Club and the Queen's Symphony Orchestra. Principals in the former were Mary McBride, Arts '50, Mark Stern, Arts '49, Leslie McNaughton, Arts '47, and Wyatt MacLean, Arts '49, while Hope Ross, Arts '48, Colin Charron, Arts '48, and Janet Hay, Arts '48, were solo artists in the latter.

#### **Gave Rectorial Address**

Dr. B. K. Sandwell gave his third and final rectorial address on February 21. Dr. Sandwell has represented the students on the Board of Trustees during the past three years, and has taken an interest in undergraduate activities, including holding the position of honorary editor of the *Queen's Journal*.

#### **Won Two Titles**

Although Queen's registered eight wins in the semi-final events, the Tricolour were able to bring home only two championships in the finals of the Intercollegiate Assault at Toronto on February 21 and 22. Mike Milovik won the light-heavyweight boxing championship while Keith Christiansen, a Science freshman, won the heavyweight boxing title. Milovik has been elected president of the Boxing and Wrestling Club for next year.

The senior hockey team pulled the upset of the year when the boys pinned a 3-2 defeat on the University of Toronto on the latter's home ice. Varsity needed that one game for the championship, but the Tricolour had other ideas and came through with their nicest display, and their only win of the season. Varsity and McGill ended the schedule in a tie for first place, and the title ultimately went to the former.

The senior basketball had an unspec-

tacular season, with just one win on the credit side. Queen's lost the opening game to Varsity and the latter, in turn, lost to McGill. When the Red and White came to Kingston on February 8 the Tricolour was not conceded much of a chance, but the locals turned in a convincing 39-25 victory. Incidentally, the title went to Western, who won all games by a wide margin.

#### **Here and There**

The gymnasium was turned into a winter wonderland for the annual Science At Home on February 14. Blake Sewell and his orchestra, from the Ritz Carlton Hotel in Montreal, played from a simulated interior of an igloo. Stan Ellis was the formal convener . . . A variety show, entitled "Comedy in Discord," was staged by the Newman Club on February 4 . . . John Young and Alfred Bader defeated St. Patrick's College, Ottawa, and Ken Rouff and Andy Thompson defeated the University of Western Ontario in the semi-finals of the Intercollegiate debates . . . A Queen's University Duplicate Bridge Club was organized recently by John Armstrong, Arts '48 . . . Two special showings of the Shakespearian film, "Henry V," were sponsored by the Queen's Drama Guild. Tickets were at a reduced price for students . . . The Hillel Foundation, the Jewish students' organization at Queen's, has this winter been publishing a magazine called the *Hillel Scroll*. Maurice Glicksman, Sc. '50, and Alf. Bader, Sc. '47, are in charge . . . Winners of Andrina McCulloch public reading and public speaking scholarships and prizes were Laurence Thornton, Arts '50, Donald Goodspeed, Arts '48, Sandy Webster, Arts '49, Maurice Helperin, Arts '49, Michael Roth, Arts '49, Alf Bader, Sc. '47, and Frank Brodie, Arts '47. The last two named were awarded the Debating Union Cup . . . Dr. K. G. Kohlstaedt, director of the Lilly Laboratory for Clinical Research, Indianapolis, addressed the Aesculapian Society on "Present Day Concepts of Hypertension" . . . Jack Pulford was elected president of Sc. '49, and Dave Myles was elected president of Sc. '48.

# *At the Branches*

## **Peterborough**

WINTER blasts held no terrors for the alumni who gathered for a social evening in the Peterborough Y.W.C.A. Green Room on February 7. Guests were received by President R. G. Corneil, Sc. '23, and Mrs. Corneil (Mildred Tape), Arts '27. The programme of entertainment included tables of bridge, cribbage, Chinese checkers, and other games, and a show of magic by Mr. Ted Bradshaw. Led by Arnold Noftall, Arts '41, with E. C. Dolman at the piano, familiar Queen's songs were sung with enthusiasm.

During the brief business session, the president welcomed the alumni members and announced the plans for the annual dinner to be held Friday, May 2, at the Kawartha Golf and Country Club. A letter was read by the secretary, Constance Wagar, Arts '41, confirming an engagement with Mr. Philip Lin, a member of the Chinese Bureau of Information at Montreal, who will be the special speaker on this occasion.

Refreshments were served from a table centred with spring flowers in Queen's colours, and placed on a Queen's monogram.

On behalf of the guests of the evening, O. J. Frisken, Arts '27, Sc. '29, expressed appreciation to alumni officers and the committee who had made possible this enjoyable gathering. Dr. R. A. Kelly, Med. '38, V. H. Henry, Arts '13, and Mrs. E. C. Dolman (Helen Haldy), Arts '19, were in charge of the programme. The refreshments were planned by Jean Lancaster, Arts '34, and Helen McGregor, Arts '30. Jean Armstrong, Arts '25, was treasurer for the evening.

## **Niagara Peninsula**

TWENTY-THREE people turned out for the bridge party of the St. Catharines alumni, held at the home of J. E. Neilson, Sc. '28, on February 4, and a good time was had by all. Another bridge for alumni of the Peninsula was

held at Niagara Falls, at the home of Merle Ker, Sc. '18. Thirty-six were present.

## **Kitchener - Waterloo**

FIRST woman president in the history of the branch, Mrs. J. L. Collins (Irene Macphail), Arts '30, was elected to this position at the reorganization meeting held in the Walper House on February 22. Approximately one hundred were in attendance.

Others appointed to the executive included W. M. O. Lohead, Arts '96, and Dr. J. W. Fraser, Med. '14, Arts '22, as honorary presidents; Dr. A. E. Broome, Med. '17, vice-president; K. S. Rabb, Arts '20, secretary-treasurer; executive—J. M. Lohead, Arts '32, Mrs. J. R. Dier (Helen Baxter), Arts '17, Mrs. C. S. Wilson (Annie Benson), Arts '29, E. O. D. Nettleton, Arts '30. The guest speaker was Prof. J. A. Roy, of the English Department at Queen's, who spoke on Czechoslovakia. Professor Roy described Czechoslovakia as the only country in Europe to emerge from the war with a full complement of new and up-to-date factories. At the same time it had suffered the loss of a great proportion of its professional and educated classes. Despite pressure which has been brought to bear, Czechoslovakia is democratic in its thinking, said the speaker.

Professor Roy was introduced by W. M. O. Lohead, Arts '96, and was thanked for his excellent address by L. J. Langan, Arts '33.

Also present was H. J. Hamilton, Arts '32, secretary-treasurer of the General Alumni Association, who spoke briefly of conditions at the University today. The toast to sister universities was proposed by Dr. C. S. Wilson, Med. '29, and was responded to by representatives of McGill, Western, and Toronto. During the evening Dr. A. E. Broome, Med. '17, led in the rendition of Queen's songs and yells.

Prior to the meeting a reception was held in the Oak Room of the hotel.

## Hamilton

APPROXIMATELY seventy-five turned out for the "Science Night" stag party at the Wentworth Arms Hotel on February 13, when a varied programme of entertainment was presented. G. E. Pilkey, Sc. '33, served as chairman.

The speaker of the evening was Dr. H. G. Thode of the staff of McMaster University, who spoke on the part played by Canada in the atomic energy development. Dr. Thode was introduced by C. A. Drew, Sc. '21, and was thanked by W. A. Dawson, Sc. '23.

A moving picture, "Portrait of a City," was shown under the auspices of the Junior Chamber of Commerce. The film was an historical account of the growth of Hamilton.

A talented magician, W. Laing, mystified the gathering with sleight-of-hand tricks. He was called back time and time again, and was rewarded with thunderous applause for his efforts.

Guests at the meeting included N. B. MacRostie, Sc. '11, Arts '14, president of the General Alumni Association, and H. J. Hamilton, Arts '32, secretary-treasurer. Both spoke briefly, in bringing greetings and best wishes from the University and other branches.

Prize-winners in the novelty numbers included Mr. MacRostie, J. M. Elliott, Sc. '39, H. E. A. Inman, Arts '26, and

F. J. Veale, Sc. '23. The programme concluded with lunch and sing-song. During the evening copies of the *Queen's Journal* were distributed to all present.

The committee in charge of this highly successful affair consisted of G. E. Pilkey, Sc. '33, D. B. Annan, Sc. '40, R. D. Campbell, Sc. '24, A. A. Hesketh, Sc. '36, F. J. Veale, Sc. '23, R. D. Travers, Sc. '34, L. A. Cook, Sc. '45, W. A. Dawson, Sc. '23, J. M. McDonnell, Sc. '39.

## Montreal

A JOINT meeting of the alumnae and alumni was held in Montreal on February 17 at the Ritz Carlton Hotel. President G. V. Knowles, Sc. '39, presided.

Introduced by E. M. Patton, Com. '26, A. R. Mosher, president of the Canadian Congress of Labour, was the guest speaker of the evening. In his address on "The Outlook of Organized Labour," Mr. Mosher stated that the object of organized labour was to abolish involuntary poverty and to raise the standard of living by developing an economic plan by which the human resources and natural resources of the country could be utilized with greater efficiency. Mr. Mosher discussed several points raised by members of the audience, following which Mrs. H. B. Campbell (Grace Grant), Arts '15, thanked him for his informative address.

During a brief business meeting, Mr. Knowles stated that plans had been made to hold a rugby dance at the Mount Royal Hotel on October 11. Following adjournment, sandwiches and coffee were served.

## Toronto

A VALENTINE dance was held by the Toronto alumni on February 4 in the Eaton Auditorium. In spite of the unfortunate necessity for a mid-week night and the fact that it was Toronto's coldest night of the winter to date, those who ventured forth were fully rewarded with a delightful party. There was bridge for those who preferred it, and a buffet lunch was served.

Prizes of nylons, beauty kits, after-shave set, ties and hankies were awarded

## BRANCH OFFICERS, 1947

MRS. D. B. THOMAS  
President  
Montreal Alumnae

J. S. CORBETT  
Secretary  
Montreal Alumni

for lucky number draws and spot dances. The winners included Barbara Poyser, daughter of B. D. Poyser, Sc. '22, Mrs. John Bell (Doris Heron), Arts '27, Mrs. McCutcheon, wife of C. L. McCutcheon, Com. '26, and Alan Broadbent, Arts '29.

Appreciation of the arrangements was passed on to the committee—Jim Court-

right, Sc. '41, Jack Dewar, Sc. '41, Toive Halme, Sc. '38, Ken Campbell, Sc. '38, Herb Stewart, Arts '31, and Dr. Jack Card, Med. '37—and very special thanks to John Rutledge, Arts '22, the committee chairman and party master of ceremonies.

## LIFE MEMBERS OF THE GENERAL ALUMNI ASSOCIATION

**L**IFE members of the General Alumni Association now number one hundred and forty-seven. Of these, twenty-four joined within the past twelve months. In addition, there are seventeen who are now deceased.

The list of living graduates is as follows:

W. P. Alderson, B.Sc. '29, Montreal, Que.

Mrs. G. D. Atkinson (Edna Henderson), B.A. '13, Malden, Mass.

A. R. Asquith, B.Sc. '40, Toronto, Ont.

Miss Vera Ballance, B.A. '25, Burlington, Ont.

J. E. Barber, B.Sc. '40, Bissett, Man.

J. R. Barker, Arts '43, Kingston, Ont.

Dr. J. W. Barr, M.D., C.M. '40, Kingston, Ont.

Miss Marion Bartlett, B.A. '35, Ottawa, Ont.

R. H. Bauld, B.Sc. '28, London, England.

Dr. E. F. Beach, B.A. '34, Montreal, Que.

Dr. William Beggs, B.A. '07, M.D., C.M., '08, Wellington, Salop, England.

Dr. C. W. Bennett, M.D., C.M. '21, Kingston, Ont.

Viscount Bennett of Mickleham, Surrey, England, LL.D. '26.

H. G. Bertram, B.Sc. '10, Dundas, Ont.

C. R. Blyth, B.A. '44, R.R. No. 5, Guelph, Ont.

Dr. D. W. Boucher, M.D., C.M. '28, Kingston, Ont.

Mrs. D. W. Boucher (Thelma Bogart), B.A. '27, Kingston, Ont.

R. A. Bradford, B.A. '41, London, Ont.

L. S. Brooks, B.Sc. '39, Toronto, Ont.

C. R. Buss, B.Sc. '28, Thorold, Ont.

### Frank Tyndall of Syracuse To Be Head Football Coach

FRANK TYNDALL of Syracuse, New York, has been appointed head football coach at Queen's for next year, it was announced by the Athletic Board of Control just as this issue was ready to be printed.

Tyndall coached at Queen's in the fall of 1940. He took over a team rated as the underdog of the Intercollegiate loop and brought the Tricolour home in second place. A graduate of the University of Syracuse, he is regarded as a master of both American and Canadian types of play.

Tyndall played on the Dominion champions Argonaut of 1933, and has served as line coach for the Varsity Intercollegiate team and the Argonauts. He will assume his duties at Queen's next fall.

# Alumni News

## Births

**Barends**—At the Ottawa Civic Hospital, on February 28, to Dr. H. A. Barends, Med. '45, and Mrs. Barends (Lillian Derry), Arts '37, a daughter (Frances Mary).

**Beach**—At the Royal Victoria Hospital, Montreal, on February 17, to Dr. E. F. Beach, Arts '34, and Mrs. Beach, a son (Charles).

**Brooks**—On July 21, 1946, at Shawinigan Falls, Que., to John A. Brooks, Sc. '42, and Mrs. Brooks, a son (Roger).

**Brownlee**—At the Private Patients' Pavilion, Toronto General Hospital, on February 20, to Dr. J. G. Brownlee, Med. '31, and Mrs. Brownlee, a daughter.

**Campbell**—At Thetford Mines, Que., on March 16, to Ian C. Campbell, Arts '40, and Mrs. Campbell (Beth McNeill), Arts '42, a son.

**Chinnick**—At Grace Hospital, Toronto, on February 13, to R. F. Chinnick, Sc. '43, and Mrs. Chinnick, a son.

**Crawford**—At the Toronto General Hospital, on March 2, to Dr. J. S. Crawford, Med. '39, and Mrs. Crawford, a son (John Robert).

**Dewar**—On February 13, at the Private Patients' Pavilion, Toronto General Hospital, to J. S. Dewar, Sc. '41, and Mrs. Dewar (Constance Ross), Arts '42, a son (John Ross).

**Forsythe**—At Grenfell, Sask., on February 16, to Dr. C. W. Forsythe, Med. '38, and Mrs. Forsythe, a daughter.

**Fulton**—On February 20, at the Ottawa Civic Hospital, to Lieut. (S) R. D. Fulton, R.C.N., Arts '43, and Mrs. Fulton, a daughter.

**McAskill**—On March 2, to J. I. McAskill, Sc. '36, and Mrs. McAskill (Betty d'Esterre), Arts '40, of Kingston, a son (Robert Ian).

**Patton**—On March 17, at the Ottawa Civic Hospital, to Dr. J. O. Patton, Med. '40, and Mrs. Patton, a daughter.

**Peckover**—At the Women's College Hospital, Toronto, on February 22, to Mr. George Peckover and Mrs. Peckover (Mary Mackenzie-Naughton), Arts '40, a son (Gordon John).

**Rannie**—On March 4, in the Lincoln Memorial Hospital, Beamsville, Ont., to W. F. Rannie, Arts '38, and Mrs. Rannie (Kathleen Richardson), Arts '40, a daughter (Jane Ruth).

**Ritter**—At St. Joseph's Hospital, Sudbury, Ont., on February 18, to A. C. Ritter, Arts '32, and Mrs. Ritter (Anne Milne), Arts '31, a son (Allan Paul).

**Sigal**—On February 22 at the Toronto General Hospital, to Dr. B. Sigal, Med. '44, and Mrs. Sigal, of Neilburg, Sask., twin daughters.

**Slone**—At the Jewish General Hospital, Montreal, on November 26, 1946, to M. R. Slone, Sc. '45, and Mrs. Slone, a son.

**Smith**—At the Ottawa Civic Hospital, on March 16, to Dr. Goldwin Smith, Med. '37, and Mrs. Smith, a daughter.

**VanderBurgh**—On March 8, at the Ottawa Grace Hospital, to W. C. VanderBurgh, Arts '46, and Mrs. VanderBurgh, a son.

**Weir**—On February 15, at St. Michael's Hospital, Toronto, to J. T. Weir, Arts '35, and Mrs. Weir, a son.

## Marriages

**Cohrs**—On January 27, at Halifax, N.S., Mary Gulgan, of Windsor, Ont., to Raymond William Cohrs, Sc. '41.

**Graham**—On January 18, in the United Church at North Gower, Ont., Bernice May Graham, Arts '45, to Mr. Alan H. Jewson, of the Ontario Agricultural College, Guelph, Ont. Among the attendants were Joyce Craig, Arts '44, Toronto, and Mrs. J. F. Whiting, Arts '48, Kingston. Mr. and Mrs. Jewson are leaving shortly for Ethiopia, where they both have teaching appointments at the School of Practical Arts at Jima.

**Hayward**—In the Church of St. John the Evangelist, Hamilton, Ont., on February 22, Frances Patricia Hayward, Arts '41, to John Torrance Cloke.

**Jeffery**—On January 25, in Hennepin Avenue Chapel, Minneapolis, Minn., Dr. Mary Elizabeth Jeffery, Arts '42, daughter of Dr. F. H. Jeffery, Arts '14, Med. '14, and Mrs. Jeffery, of Paris, Ont., to Mr. George Henry Collier of Elkhart, Indiana. Mrs. Collier is at present assistant professor of psychology at Macalester College in St. Paul, Minn.

**Macdonnell**—In London, England, on February 15, Anne French Macdonnell, Arts '39, daughter of J. M. Macdonnell, Arts '04, and Mrs. Macdonnell, Toronto, to Mr. Peter Clarke, son of Mrs. Clarke and the late Mr. Nelson Clarke, Park Lodge, East Sheen, London.

**Tuer - Southam**—In Morgan Memorial Chapel, Queen's University, on February 8, Lois Southam, Arts '48, to Arnold Tuer, Sc. '46.

**Waddell**—On December 30, in St. Margaret's Episcopal Church, Washington, D.C., Jean Graham to Murray Paterson Waddell, Sc. '42, of Schumacher, Ont.

**Whitmore**—In January, 1946, in Holy Trinity Church, Brompton, London, England, Shirley Anne Whitmore, Arts '45, to Lieut. (A) Alan Taylor. They are living in Oxford, where Mr. Taylor is reading history at the University and Mrs. Taylor is superintendent of the Oxford Nursery School.

## Deaths

**Barbary**—Mrs. Joseph F. Barbary (Kair-  
een MacKinnon), Arts '43, died suddenly  
of pneumonia early in February, while  
visiting her home in Renfrew, Ontario.  
Many alumni will remember her as one  
of the two co-ed cheerleaders in the autumn  
of 1939, the last year of Intercollegiate  
rugby for the duration of the war. Mrs.  
Barbary was born in Renfrew, graduating  
from the Renfrew Collegiate Institute with  
the Hugh Bryan Memorial Scholarship.  
She attended Queen's for two years, in  
1939-40 and 1940-41. During the war she  
worked in the Dominion Civil Service in  
Ottawa. Less than two years ago she  
married Joseph Barbary, a violinist, and  
formerly with the R.C.A.F., and recently  
had been living in Los Angeles, where her  
husband had an important orchestral en-  
gagement. Surviving, in addition to her  
husband, are her father, Dr. K. L. Mac-  
Kinnon, Med. '15, her stepmother, two  
brothers, and a sister.

**Booth**—Lumberman, sportsman, philan-  
thropist, and "grand old man" of Ottawa,  
C. Jackson Booth, Arts '85, died in the  
Ottawa Civic Hospital on February 20,  
after an illness of eleven days. He was in  
his eighty-fourth year. Mr. Booth was  
the founder of the first rugby team at  
Queen's, for many years a benefactor  
and a member of the board of trustees,  
and honorary president of the Ottawa  
Branch of the General Alumni Associ-  
ation. Born in Ottawa in 1863, he be-  
came a star rugby player while attend-  
ing the Ottawa Collegiate Institute,  
having introduced the rugby game and  
its rules himself. When he came to  
Queen's in 1882 he headed a group of  
freshmen who wished to establish rugby  
at Queen's. Up until that time associ-  
ation football was the chief University  
sport. After much lobbying among the  
students, Mr. Booth, his brother, Fred  
Booth, and R. A. Gordon managed to or-  
ganize a rugby team. The argument that  
it would be a fine advertisement for the  
University—then 275 students—was used.  
Mr. Booth had few equals as a punter  
and drop-kicker of this early squad. After  
two years at Queen's he left to enter his  
father's firm, J. R. Booth Limited, special-  
izing in the office and business sides of  
the enterprise but starting work as a  
logger. Upon the death of his father in  
1925 he became president of this mighty  
lumber establishment on the Ottawa river.  
In 1943 the pulp and paper assets of the  
firm were sold and Mr. Booth returned to  
the original lumber business, holding the  
position of chairman of the board of  
directors. Among his many other interests  
he was a member of the advisory board  
of the Royal Trust Company, president  
of the Upper Ottawa Improvement Com-  
mission, member of the Federal District  
Commission, honorary president of the  
Canada Atlantic Old Boys' Association,

and honorary president of the 43rd Regi-  
mental Association. A keen bicyclist, he  
was the first Ottawa man to win the Cen-  
tury Club's badge for riding 100 miles in  
nine hours. He was also interested in  
hockey, hunting and skiing, and was one  
of the seven original "fathers of skiing"  
who popularized that sport in Ottawa.  
Surviving is a son, Charles Rowley Booth,  
Sc. '38.

**Burns**—The first president of the Mont-  
real branch of the Queen's Alumnae, Mrs.  
S. S. Burns (Nerva D. McDonald), Arts  
'94, died at Sackett's Harbour, New York,  
recently. Mrs. Burns was educated at the  
Model School in Kingston, and then entered  
Queen's in 1886. She received a Bachelor  
of Arts degree in 1894. She married the  
late Rev. S. S. Burns, and resided in Mont-  
real for some years. It was during this  
time that she was president of the Mont-  
real Alumnae, being elected in 1923, the  
first year of the organization's existence.  
After the death of her husband, Rev.  
Samuel Burns, Arts '94, in 1932, she left  
Montreal and went to live in Sackett's  
Harbour.

**Cowan**—A leading educationist in Ot-  
tawa for more than half a century, Miss  
Mary Edith Cowan, Arts '06, died in an  
Ottawa hospital on February 3. She was  
in her seventy-fourth year. Miss Cowan  
was born in Montreal and matriculated  
from Lisgar Collegiate Institute in Ottawa.  
Ill-health compelled her to win her Bachelor  
of Arts degree from Queen's by extra-  
mural study. Proficient in five languages,  
Miss Cowan for many years gave private  
instruction in junior and senior matricula-  
tion subjects to hundreds of persons. She  
entered public life in 1926 when, in answer  
to appeals from Ottawa women teachers  
for a woman to represent them on the Pub-  
lic School Board, she allowed her name to  
be put forth, and she was elected. In 1936  
she served as chairman of the Board. She  
was a trustee for eighteen years, retiring  
in 1944. Her efforts were largely respon-  
sible for forming the first Home and School  
Clubs in Ottawa, and in distributing free  
milk to needy school children. Besides her  
work in education, Miss Cowan was known  
as a writer, having published her memoirs,  
"Rainbow of Life." She was also actively  
interested in the Imperial Order of the  
Daughters of the Empire, the League of  
Nations Society and the Field Naturalists  
Club. Surviving are a brother and an  
adopted daughter.

**Macgillivray**—Minister-designate to  
Czechoslovakia, John Campbell Macgilli-  
vray, Arts '24, died in hospital in Ottawa  
on February 17. He was in his forty-  
ninth year. A son of the late John Mac-  
gillivray, distinguished Heidelberg scholar  
and professor of German at Queen's, Mr.  
Macgillivray was born in Kingston and  
educated at the Kingston Collegiate Insti-  
tute. He served overseas for four years  
during World War I, then in 1920 entered

the Arts Faculty at Queen's. In 1924 he received his Bachelor of Arts degree in geology and economics. He was permanent president of Arts '23. Shortly after entering the Department of Trade and Commerce in 1925 he was sent abroad as assistant trade commissioner and trade commissioner. Besides serving in Rotterdam and Hamburg, he went on special missions to Poland, Switzerland, Austria, and Czechoslovakia. A guest of Hitler and of Hermann Goering during pre-war years, he uncovered, through his excellent knowledge of the German language, many a Nazi secret. On one occasion he sent to External Affairs information obtained when he happened to overhear a long-distance telephone conversation between two North American Nazi agents. Assigned to South Africa just before the outbreak of war, Mr. Macgillivray made many friends through his ability to speak Afrikaans. While at this post he was Canadian representative at the first exchange of prisoners, which took place at Lourenco Marques, Portuguese East Africa. In Ottawa since

last Fall, he had been working for External Affairs in preparation for his new assignment in Prague. Surviving are his wife, two daughters, his mother, formerly Annie Campbell, Arts '91, a brother, Malcolm, Sc. '23, and a sister, Mary, Arts '29.

**McNab**—Public school inspector for Guelph and South Wellington until his retirement in 1945, Dr. George G. McNab, Arts '02, died at his home in Guelph on February 11, following a lengthy illness. He was seventy-one years of age. Born in Renfrew County, he was educated at Renfrew High School. After teaching in public schools for a few years, he enrolled at Queen's, and in 1902 received his M.A. degree. He then taught in Port Arthur and Gravenhurst high schools for five years before being appointed public school inspector in South Renfrew in 1909. In 1924 he received his D.Paed. degree from Queen's. In 1931 he was transferred to South Wellington and served as inspector for Guelph and South Wellington until his retirement. Dr. McNab was well known

By H. Gordon Skilling. "The first complete study ever made . . . It is a definitive work and the author is to be highly complimented on his achievement."—F. R. Scott in *The Canadian Bar Review*. \$3.50.

### **CANADA AT GENEVA**

By S. Mack Eastman. "By far the most interesting analysis of Canada's record in the League of Nations that I have come across."—F. H. Underhill in *The Canadian Forum*. 75 cents.

### **INDIA: FRIEND OR FOE?**

By Harwood Steele. A discussion in simple language of the situation in India today. Important to every business man, because India is one of Canada's best customers. 50 cents.

**THE RYERSON PRESS  
TORONTO**

as an educationist, author, lecturer, and was an active churchman and Rotarian. For many years he served as president of the Guelph branch of the General Alumni Association. A life member of the Ontario Education Association, he was president in 1938. In 1925 he published the book "Development of Higher Education in Ontario." In addition to his wife, he is survived by two sons, K. G. McNab, Arts '27, Toronto, and Dr. J. G. McNab, Arts '33, Elizabeth, N.J.

Singleton—The death of Mrs. Harold Singleton (Evelyn Crawford), Arts '11, occurred suddenly in Rochester, New York, on March 7, after an extended illness. Born in Kingston, she attended the Kingston Collegiate Institute prior to enrolling at Queen's in 1907 and again in 1909. For more than twenty years she had been residing in Rochester. In addition to her husband, she is survived by a daughter and a brother, Mayor Stuart Crawford, of Kingston.

Walker—The death of James Andrew Walker, Arts '25, occurred at a Toronto Hospital on February 19. "Andy" Walker, who was forty-four, was a widely-known member of the Dominion Securities Corporation. He was born at Inglewood, Ontario, and educated at Barrie Collegiate Institute. He worked his way through Queen's by teaching school. After attending Summer School for three years, he enrolled in the winter session in 1923 and 1924, and in May, 1925, graduated with an honours B.A. in economics and history. He was also awarded the medal in political science. He joined the Dominion Securities Corporation, and in 1935 was one of two men picked as the best qualified to go to Alberta when that provincial government was asking bondholders to consent to reduction of interest rates. Shortly after this Mr. Walker decided he could do better work for his company if he took a law course. While maintaining his position at the Corporation, he put himself through Osgoode Hall. A tribute to his ability and popularity was paid by Wellington Jeffers, financial editor of the "Globe and Mail," in the February 24 issue. Surviving are his wife, three sons, two brothers, including Robert Walker, Sc. '30, and a sister.

### **Notes**

**1880 - 1889**

The Hon. Mr. Justice Robert Maxwell Denistoun, Arts '85, LL.D. '27, has retired from the Manitoba Court of Appeal after service of twenty-eight years on the bench.

**1890 - 1899**

A. E. Atwood, Arts '96, former principal of Osgoode Public School in Ottawa, was bereaved recently by the death of his wife.

C. W. Dickson, Arts '99, for many years Government Agent in the Kelowna district in British Columbia, and a former professor of geology and chemistry at Queen's, has retired and is now living in Grafton, B.C.

1900 - 1909

Dr. Charles Camsell, Sc. '01, LL.D. '22, recently attended the American Mining Institute meetings in New York City, where he was made an honorary member of the Institute.

J. V. Dillabough, Sc. '05, Winnipeg, has retired after forty-one years' service with the Canadian National Railways.

Dr. T. B. Williams, Sc. '09, (Ph.D. Wisconsin), was appointed commissioner of petroleum and natural gas for British Columbia last March.

1910 - 1919

Major C. B. Bate, Sc. '15, has been transferred to Canadian Armament Research

## DEEP IN CANADA'S MINES ...as elsewhere

Crane valves, fittings and piping convey and control compressed air thousands of feet underground for rock drills, hoists, loaders and other equipment.

They are also indispensable in dewatering operations and in mill, smelter and refinery processes.

Crane makes valves and fittings in amazing variety for every industrial need. Power developments, chemical plants, oil refineries, railways, ships, factories depend on them for their very life's blood. As new demands develop under the impetus of scientific research and technical advance, Crane keeps pace.

**ENGINEERING STUDENTS**—You will find Crane technical literature helpful in your studies. It is yours for the asking.

and Development Establishment, Valcartier, Que.

Dr. John E. Hammett, Med. '19, has been elected surgical director of Coney Island Hospital, Department of Hospitals, City of New York.

C. A. Kirkegaard, Sc. '13, of Canadian Industries Limited, has been promoted to the position of division manager, explosives division.

Dr. W. S. McCann, Sc. '12, Arts '21 (Ph.D. Yale), recently returned from a visit to Tanganyika, East Africa, where he conducted an examination of some new lead deposits. He is at present on a brief visit to Canada en route to South America and West Africa. He will make a valuation of the mining resources of Northern Nigeria for the British Government, and expects to return to London in August.

Christine MacDougall, Arts '15, has been transferred from Ottawa to Montreal by the Women's Missionary Society of the United Church of Canada. Her address is 3660 Lorne Crescent, Apt. 20.

W. J. McLean, Arts '13, was recently bereaved by the death of his wife at Red Deer, Alta.

Rev. Dr. J. B. Skene, Arts '16 (D.D. Toronto), is minister of Central Presbyterian Church in Vancouver, B.C.

#### 1920 - 1929

Dr. D. Ross Campbell, Med. '24, formerly of Parry Sound, Ont., is now in charge of the new hospital under the Department of Indian Affairs in Nanaimo, B.C.

Dr. Hugh Carmichael, Arts '20, Med. '23, associate professor of psychiatry, University of Illinois College of Medicine, and associate director, psychiatric division, Illinois Neuropsychiatric Institute, Chicago, has been elected treasurer of the Chicago Psychoanalytic Society and a member of its membership and education committee.

L. Chamberlin, Sc. '23, president of Chamberlin Management Corporation Limited, Noranda, Que., has been elected to the board of directors of Ashley Gold Mining Corporation.

Dr. E. G. Claxton, Med. '29, after serving in the United States Forces, is now back at his private practice in Ogdensburg, N.Y.

F. M. Corneil, Sc. '23, is vice-president and director of Iddon and Corneil, Inc., general contractors, 4654 St. Catherine St. W., Montreal.

Dr. Hector Featherston, Med. '21, has been assistant superintendent of the Ottawa Civic Hospital since 1942.

Dr. G. C. Hamilton, Arts '22, Med. '24, after his discharge from the American Army, returned to his practice in Binghamton, N.Y. He specializes in internal medicine.

R. K. Kilborn, Sc. '27, has resigned as mechanical and electrical superintendent at the McIntyre-Porcupine Mines, Schu-

macher, Ont., and has opened an office as a consulting engineer at 67 Yonge St., Toronto.

F. L. LaQue, Sc. '27, of the International Nickel Company, New York City, is now in charge of the corrosion engineering section, development and research division.

A. C. Malloch, Sc. '17 and '21, is on the staff of the department of agricultural engineering, Macdonald College, Que.

G. D. Mallory, Sc. '20, was recently appointed director of industrial development, division of foreign trade service, Department of Trade and Commerce. He was awarded the O.B.E. in the July 1 honours list.

Dr. Leo Palmer, Med. '20, was bereaved by the death of his mother, Mrs. Charlotte Palmer, of Watertown, N.Y., on February 20.

R. N. Ripley, Arts '27 (M.A. Brown University), after his discharge from the Navy a year ago, was appointed to the position of provincial inspector of high schools for Nova Scotia. Before his enlistment in 1940 he was headmaster of Grand Falls Academy, Grand Falls, Nfld.

A. R. Whittier, Sc. '20, superintending engineer of the Rideau Canal, Department of Transport, has been elected president of the Professional Institute of the Civil Service of Canada for 1947-48.

#### 1930 - 1939

R. A. Blay, Sc. '38, of the Aluminum Company of Canada, has been named manager of the Etobicoke Works. Since 1942 he has been associated with the Alcan plant at Long Branch, Ont.

R. C. E. Bray, Sc. '37, is geologist for Pamour Mines Limited, Pamour, Ont.

Dr. Grant Breckenridge, Med. '38, has started practice in Montreal as an orthopaedic surgeon.

S. V. Burr, Arts '39, has become associated with the Geo-Technical Development Company, Bourlamaque, Que., as a partner in the firm and as field manager. He is leaving shortly for Sherridon, Man., to open a new branch office for the company.

Major R. J. Carson, Sc. '37, is Command Engineer Officer, H.Q. Prairie Command, Fort Osborne Barracks, Winnipeg, Man.

Major J. B. Clement, Sc. '36, returned to the Canadian Army (Active Force) last December. He is at present stationed in Ottawa.

J. M. Cormie, Sc. '33, of Malartic, Que., was bereaved by the death of his father, Rev. Dr. J. A. Cormie, on February 26.

Dr. W. P. Earle, Med. '33, has been appointed justice of the peace for the Northwest Territories. He is stationed at Fort Resolution as government medical officer.

J. C. L. Elliott, Sc. '34, has accepted a position with the National Research Council, Ottawa, as plant engineer.

Dr. J. J. Graham, Med. '38, formerly of Prince Rupert, is now practising in Pen-ticton, B.C.

Dr. L. M. Gibson, Med. '38, is practising surgery in London, Ont.

J. M. Hitsman, Arts '39, is still in Lon-don, England, with the Historical Section, C.M.H.Q. His residence address is 64 Eaton Terrace, London S.W.1.

A. G. Kirland, Sc. '37, until recently manager of Mic-Mac Mines, Noranda, Que., is moving to Salt Lake City, Utah, where he will join the staff of the United States Smelting, Refining and Mining Company, the parent company of Mic-Mac Mines.

Dr. A. G. Macdonald, Med. '39, has moved from New Westminster to Qualicum Beach, B.C., where he is in private practice.

M. P. McIndoo, Com. '31, formerly of Sun Oil Company, Toronto, is now treas-urer of Cameron McIndoo Limited (indus-trial interiors-merchandise display), Long Branch, Ont.

Lt.-Col. A. O. Monk, Sc. '35, since his return from Khaki University, has been at Military Headquarters, Kingston, as area electrical mechanical engineer.

D. H. Munger, Com. '34, is with the International Harvester Company, U.S. Highway 41, Evansville, Indiana.

Ella B. Sexton, Arts '30, is assistant director of health and physical education for the Province of Ontario.

Dr. G. B. Sexton, Med. '30, practises in London, Ont., specializing in dermatology.

H. W. Snyder, Com. '30, has left the Bell Telephone Company in Montreal to join the staff of the First Federal Savings and Loan Association in Altadena, Calif.

Wing Cmdr. N. W. Timmerman, Sc. '36, left recently for Edmonton, Alta., to take over his new duties as commanding officer of the R.C.A.F. station in that city.

#### 1940 - 1946

R. J. Beaudry, Sc. '44, has been made head of the sound department of the Na-tional Film Board, Ottawa.

D. R. Beckett, Sc. '45, has been appoint-ed design engineer in the design department of the Great Lakes Paper Company, Fort William, Ont.

S. W. Breckon, Sc. '41, is doing post-graduate work in physics at McGill Uni-versity.

D. C. Brunton, Sc. '40, is now assistant research physicist at the Chalk River laboratories of the National Research Council.

Dr. D. W. Cockburn, Med. '44, is taking postgraduate work in radiology at the Kingston General Hospital.

Joyce Currey, Audrey Elliott, Kay Mac-donald, Margaret McQuaig, Eve Plunkett, Shirley Robinson, and Avonne Sprague, all graduates of Arts '46, are employed as service representatives in the Ottawa office of the Bell Telephone Company of Canada.

K. K. Franz, Sc. '46, is with Procter and Gamble Company of Canada in Hamil-ton, Ont.

"What's this 'Perfection . . . Check ✓' in Sweet Caps?"

"It's the best smoking discovery yet . . .

Light up and enjoy it."

Alan D. Gray, Arts '46, has been appointed copy-editor on the telegraph desk of the Montreal "Daily Star."

Mrs. R. W. D. Hanbidge (Mary Vallentyne), Arts '45, is doing publicity work for the Department of Public Relations at Ontario Agriculture College, Guelph, Ont.

B. A. Hay, Sc. '40, and H. I. Hamilton, Sc. '41, are with Sao Paulo Tramway, Light and Power Company, Caixa do Correo 26-B, Sao Paulo, Brazil.

R. G. Hunt, Com. '41, is still in the Navy as a Lieutenant-Commander, and has been seconded to the new Defence Research Board under Dr. O. M. Solandt, where he is in charge of the financial section. He expects to remain there in a civilian capacity after the present establishment is approved.

D. H. Johnston, Sc. '41, is in the Supply Department of Canadian General Electric Company as assistant manager of the transmitter section, Electronics Division.

R. J. McKeown, Sc. '41, has resigned from the Combustion Engineering Company, where he was employed as service and erection engineer for a year and a half, and has re-enlisted in the Royal Canadian Navy, Permanent Force, as Lieu-

tenant Commander (E). His address is 181 South Park St., Halifax, N.S.

D. D. McLean, Sc. '43, recently left the Canadian Marconi Company to join the engineering department of T.C.A. at Dorval, Que.

R. A. Maguire, Sc. '45, has joined the staff of the Aluminum Company of Canada, Kingston, as a metallurgical engineer.

R. R. McMichael, Sc. '41, and J. G. McCullough and Owen Weightman, of Sc. '42, are on the staff of the Consolidated Mining and Smelting Company at Kimberley, B.C.

Dr. W. Stuart Patterson, Med. '45, is taking a postgraduate course in obstetrics at the Boston Lying-in Hospital, Boston, Mass.

Dr. J. W. Pearce, Med. '47, obtained the highest standing in the recent Physiology examinations of the National Board of Medical Examiners of the U.S.A. More than 1200 candidates wrote the examinations in whole or in part.

Dr. H. J. Pickup, Med. '42, is practising in Dryden, Ont.

M. R. Slone, Sc. '45, is with Stadler, Hurter and Company, consulting engineers, Montreal.

## SPECIAL CONVOCATION

Dr. G. E. Richards, Managing Director of the Ontario Cancer Treatment  
and Research Foundation, and Principal Wallace

## HOPEFUL ASPECTS OF THE FIGHT AGAINST CANCER

Excerpts from the address delivered by Dr. G. E. Richards at a special convocation held in Grant Hall on March 23.

ALL who are in any way familiar with the history of medicine or of the slow rise of our race from ignorance and barbarism will agree that . . . from the earliest days men's greatest handicap has been due to ignorance and superstition. Before we condemn our early predecessors in this matter, we should make very sure that our own record is clear. The truth is, of course, that our record is far from being clear. The known facts about disease and the means which are necessary for its control now in the possession of the medical profession are such that if they were put into effect the incidence of sickness, loss of time, and loss of life could be reduced as much as 50 per cent in one generation. Why then do we not do so? It would appear that the chief or only reason is that our social consciousness has not yet been aroused to the extent necessary. It would require a great, sustained, and costly effort on a national scale. We seek an easy solution which will not cost too much money or personal effort. In the case of cancer it may be that no easy solution of this difficult problem can be found. Does this, therefore, mean that no progress is possible?

Numerous writers and speakers have stated that even if no great and spectacular specific cure were to be discovered, very important progress could be made by putting into effect the knowledge we already possess of ways and means of combatting the disease, and this is therefore one of the hopeful aspects. The second is that very substantial progress has been made in recent years in connection with research into the fundamental nature of cancer and its possible cause or causes. . . But in the very fore-

front of the hopeful aspects of the fight I would place the fact that almost for the first time it may be said that the measures which are being projected are becoming of such a character as to justify the expression, "War against cancer."

Everyone is now familiar with the fact that this disease occupies second place in the list of causes of death in all civilized countries, that it is responsible in our own community for one hundred and thirty out of every thousand deaths, and that there are probably twenty thousand cases in existence in Ontario at all times. In six years of actual war our fighting forces suffered casualties to the number of 38,834, but during the same period of time the toll taken by cancer amounted to 80,000. The cost to this country of six years of actual war was close to \$19,000,000,000, while in the same period we spent on our efforts to combat cancer the comparatively paltry sum of less than \$5,000,000. It is merely a platitude to say that had we carried on our fight in the actual war in the same haphazard and ineffectual manner as we have done and continue to do in the fight against cancer, we should most certainly have lost the war. We should face the sobering fact that up to the present we have been losing in our fight against cancer. Year by year the mortality tables which record the facts show the curve steadily and inexorably rising. And yet reports from all treatment centres are to the effect that a higher percentage of cases are being cured than ever before, giving ground for the belief that a real war could be expected to be followed by a much greater measure of success than was ever previously possible. But to achieve such an end the war must be a real one in the

full modern meaning of that terrible word, in which all who can make any possible contribution will unite for a combined, sustained, and co-ordinated effort towards a single aim. It means a complete mobilization of all the means at our disposal, both human and financial.

\* \* \*

Cancer is essentially a personal problem, and unless some new and radically different facts are found from anything at present known, it is likely always to remain so. There is no simple test known, comparable to mass X-ray surveys, which can be applied to entire communities, by which its presence can be recognized accurately in the early stage. Its recognition depends upon personal observation by the individual patient of symptoms which frequently seem to him to be trifling and of no consequence and, worst of all, are not painful. How difficult it has been for those engaged in the treatment of patients suffering from cancer to convince some individuals that this disease can be a deadly menace to life and yet not necessarily painful. This is perhaps the most dangerous of the inherent, insidious characteristics of cancer.

Then, too, since it is not contagious or transmissible, the disease does not constitute a risk to others, and therefore there can be no compulsion in the matter of treatment. Each patient must make his or her own decision as to what treatment will be accepted and when it will be undertaken. It is frequently heart-breaking to be told by some patient that he does not consider treatment necessary now but will be back later. Usually, when he arrives later, the fleeting moment when cure was possible has passed and the mortality table is enriched by one more misguided individual who has lost his life because of ignorance.

Finally, a realistic attitude towards the subject must not overlook the fact that the discovery of the cause or causes of cancer might not lead directly nor immediately to the discovery of a specific cure. It did not do so in the case of tuberculosis and need not necessarily do so in cancer. Nevertheless, the only

logical approach to the problem is to persevere in our attempt to unravel this great mystery which seems so intimately connected with the fundamental laws governing growth that in the United States the committee which has been assigned the task is known not as a cancer study committee but simply as the committee on growth—as fundamental as that.

\* \* \*

A question constantly asked since the discovery of atomic fission is: "Will not this discovery lead to a solution of the problem?" Some statements have been made which seem to those familiar with the subject to be very rash and exaggerated. Here again the realistic fact is that while the discovery of atomic fission has placed in our hands much more powerful sources of radiation, these substances are still radiations and therefore no new principle has been introduced. The laws which govern the application of radiations to the human body are fundamentally two in number, and nothing which has so far been discovered has modified these laws in any particular. The first is that whether any neoplasm can be successfully influenced by radiations without undue injury to other tissues depends upon the degree to which it is capable of responding to such radiations and the margin which exists between the dose required for its destruction and that which would destroy the normal tissues in which it is developing.

The second law is that which defines the amount and quality of radiation the blood-forming mechanism of the body can tolerate without irreparable damage.

Of these two, the latter is probably the more important. Increasing the intensity and power of the radiations might conceivably result in an improvement in certain cases, and indeed there is considerable evidence that this will be the case. The extent to which such increased power can be utilized, however, will still be determined by the second law, and this is inherent and fundamental. This does not at all mean that greatly improved methods may not come out of this newly acquired weapon. It only means that

this has not yet been proved to be the case, and that in the meantime exaggerated hopes based on false premises will do no good and possibly much harm.

\* \* \*

All cancers may be divided roughly into two great groups; first, those in which the disease gives early and usually quite ample and adequate warning. In this group the diagnosis is relatively easy and should be made accurately at an early stage. . . . In all such cases the disease is giving us a warning of its presence and frequently does so at a quite early stage so that successful treatment is possible. It is in this group of cases that progress and improvement can be brought about at once with proper organization.

The second group includes those cases which develop insidiously, usually in an internal organ, and give no indication of their presence at a stage at which successful treatment can be undertaken. Any progress in this second group will of necessity be slow, and treatment by existing methods will continue to be unsatisfactory. We should delude ourselves and do no service to the cancer patient if we think otherwise.

Therefore, it will be more profitable if we concentrate our attention on the first group, which offers hope of substantial improvement.

\* \* \*

One of the most intelligent women I have known concealed a cancer of the breast for three years, refused adequate treatment, and finally lost her life simply because she was "afraid of cancer." Such fear should be interpreted by us as a vote of want of confidence on the part of the public as to our ability to deal with their particular problem, and unfortunately this is nearly always due to the knowledge they have of some friend or relative who was unsuccessfully treated for some form of cancer. All the propaganda in the world cannot abolish this fear. It is my firm conviction that the only way in which it can ever be diminished and finally removed is by the development at strategic points of centres in which the results

of treatment will be so good as to create confidence in each community served by such a centre that a diagnosis of cancer is not necessarily a death sentence, provided treatment is undertaken during the early and curable stage. The thing the patient should fear is not the disease but delay in having it treated. The motto on the letterhead of this Foundation is a quotation from the writing of Madam Curie: "Nothing in life is to be feared, it is only to be understood." Fear of cancer on the part of the patient can bring nothing but disaster, whereas knowledge of the nature of the disease and of the conditions which are absolutely essential to successful treatment could bring about almost revolutionary changes if adequately applied.

To do this requires certain types of specialized organization which the Ontario Cancer Foundation is trying to develop, and also requires a complete programme for the care of the cancer patient if he will make use of it. The following points are believed to be essential to the success of any such programme:

1. Registration of cancer cases in every community.
2. Expert, early diagnosis.
3. Consultation before any major procedure is undertaken, either surgery or radiotherapy.
4. Complete investigation including all known tests, clinical, biochemical, bio-physical.
5. Facilities for dealing with all complications which may develop during surgical or radiological procedures.
6. Follow-up care by the patient's family doctor and visiting nurse.
7. Accurate follow-up for life of all cases so far as patients can be induced to co-operate.
8. Finally, an impartial statistical evaluation of all methods of treatment by an expert staff of medical statisticians with control of procedures on this basis and adjustment or correction from time to time, as may be indicated.

Are these suggestions too grandiose, too idealistic? My only answer is they

would not be so considered in time of war. If we are going to wage war against cancer nothing less will serve the purpose. It is because I have for years repeatedly urged their acceptance that they are again put forward on this occasion, which we may hope will mark another step forward or, shall we say, another engagement in a general action.

It is with the earnest hope that the centre whose opening in Kingston is being celebrated at this time will prove to

be in this community "the leaven which leaveneth the whole lump" that the Foundation is so glad to have had a part in bringing it into being. If, as a result of the work done here, ignorance can be overcome, superstition broken down, fear abolished, there is no doubt that much good will result throughout the whole area served. In this, the Foundation wishes you the greatest possible measure of success and usefulness.

### DR. G. E. RICHARDS OF ONTARIO CANCER FOUNDATION AWARDED HONORARY DEGREE AT SPECIAL CONVOCATION

DR. GORDON E. RICHARDS, managing director of the Ontario Cancer Treatment and Research Foundation, was awarded the honorary degree of Doctor of Laws at a special convocation held in Grant Hall Friday evening, March 28. The convocation was part of the ceremonies held to mark the opening of the new cancer clinic in the Kingston General Hospital, for which the Foundation was in a large part responsible.

In presenting Dr. Richards to Principal Wallace, Vice-Principal McNeill made the following citation:

"Mr. Vice-Chancellor, in the name of the Senate of this University, I have the honour to present to you for the degree of Doctor of Laws, *honoris causa*, Gordon Earle Richards, doctor of medicine, professor of radiology at the University of Toronto, director of the department of radiology at Toronto General Hospital, managing director of the Ontario Cancer Treatment and Research Foundation, a foremost Canadian scientist in cancer radio-therapy, internationally known as teacher, researcher, administrator, greatly serving mankind."

The degree was conferred by Dr. Wallace, while Dean G. S. Melvin presented the blue-lined hood. Dr. Richard's address is the leading article in this issue of the *Review*.

Prior to convocation, members of the advisory medical board and the staff of

the clinic attended a dinner at the La Salle Hotel as guests of the Ontario Cancer Foundation. Immediately following the ceremony at Grant Hall the same members met for a conference.

---

### FIVE NEW MEMBERS ELECTED TO COUNCIL

FIVE new members and four retiring members were elected to the University Council in the annual elections which closed on March 31. These Councillors will hold office until 1953.

The new members elected by the graduates are: Dr. O. E. Ault, Arts '24, Civil Service Commission, Ottawa, Ontario; M. J. Aykroyd, Sc. '12, plant engineer, Bell Telephone Company of Canada, Toronto, Ontario; Dr. A. F. G. Cadenhead, Arts '14, chemist, Shawinigan Falls, Quebec; Mrs. R. B. Crummy (Ruth Harrop), Arts '18, president, Canadian Federation of University Women, Vancouver, British Columbia; Dr. Wallace Troup, Med. '24, medical director, Metropolitan Life Insurance Company, Ottawa, Ontario.

Re-elected members are: Dr. Florence Dunlop, Arts '24, Ottawa, Ontario; Dr. J. F. Houston, Med. '19, Hamilton, Ontario; A. G. MacLachlan, Sc. '22, Kingston, Ontario; and G. C. Monture, Sc. '21, Ottawa, Ontario.

# CANCER CLINIC OFFICIALLY OPENED

**Dr. R. C. Burr Heads Staff**

**O**FFICIAL opening of the first fully equipped cancer clinic in Ontario was conducted by Hon. Russell T. Kelley, Ontario Minister of Health, on Saturday afternoon, March 29. The new pilot clinic, which is on the ground floor of the recently built Victory Wing of the Kingston General Hospital, is under the direction of Dr. R. C. Burr, Med. '32, who heads a staff composed of professors and associate professors of Queen's, each of whom is a specialist in the branches of medicine and surgery connected with cancer.

The opening exercises were held in the Nurses' Home, where Hon. Mr. Kelley spoke before a capacity audience, after being introduced by Dr. H. A. Stewart, M.L.A. for Kingston.

"The government of the province," he said, "has been conscious of the need for providing costly methods of diagnosis

and treatment for cancer for those who were unable to secure it. This consciousness was further evidenced in 1943 when the Ontario Cancer Treatment and Research Foundation was established. At that time an appropriation of \$500,000 was made by the government to the carrying out of such a programme. During the last three years the government has continued to make annual grants of approximately \$90,000 to the seven previously established clinics. At the time the Foundation came into being, it was not thought that the funds of the organization should be drawn solely from government sources.

"The Foundation was encouraged to seek public assistance. Such an appeal was made about a year ago, and the response was good: about \$1,500,000 was collected. Some \$125,000 has been given to research and an agreement has been

**CANCER CLINIC**

**Dr. R. C. Burr inspects some of the new equipment**

entered into with the Kingston General Hospital to develop what must be considered an experimental approach. Similar agreements are pending with hospital boards in other strategic centres."

The Cancer Clinic, he concluded, was stepping up its public education programme and was working in the closest possible collaboration with the Foundation.

The cost of the clinic, borne by the Provincial Government, the Ontario Cancer Foundation, and the University, was \$125,000 for buildings and equipment, and 590 milligrams of radium worth \$30 per milligram. The radium was a gift of the Ontario Health Department.

The clinic is equipped with two X-ray machines, one of 200,000 volts and the other 400,000 volts, both in lead-lined rooms, the doors of which weigh 600 pounds each. Thirty to forty patients can be treated by the machines daily, while the clinic can handle nearly seventy persons a day.

Prior to the official opening, hundreds of visitors crowded into the clinic to inspect accommodation and equipment.

Arthur R. Ford, chairman of the Ontario Cancer Foundation, presided at the opening exercises. Mr. Ford, who is also Chancellor of the University of Western Ontario and editor-in-chief of the *London Free Press*, said that the clinic was the first of its kind, not only operated by the Foundation itself, but "as far as I know, in Canada or the United States. If it is a success as a model clinic, further clinics will be established in the leading centres of the province."

Principal R. C. Wallace spoke of the therapeutic value and of the stimulation and encouragement to research that the opening of the clinic represented. Dean G. S. Melvin pledged the utmost support of the Medical faculty. Others who spoke briefly were Col. T. A. Kidd, M.P. for Kingston, Prof. Grant Crawford, president of the Kingston unit of the Ontario branch of the Canadian Cancer Society, and R. Fraser Armstrong, superintendent of Kingston General Hospital. Rev. Father J. P. Sullivan, representing

Hotel Dieu, blessed the opening, and invocation was offered by Rev. H. B. Clarke, president of the Kingston Ministerial Association. Guests on the main platform included Dr. G. E. Richards, managing director of the Foundation, and Senator W. Rupert Davies.

Following the programme, tea was served in the Nurses' Home.

---

### PROF. F. A. KNOX CITED AS ECONOMIST

PROFESSOR F. A. KNOX, Arts '23, received high praise as a "gifted economist" in the April edition of *The Monetary Times*. The write-up, under Careers in Cameo, said of this Queen's professor, in part:

"His pronouncements have a way of penetrating the minds of his audience and remaining with them after the utterances of bombastic orators long have been forgotten. Of late, business circles have paid closer attention to this gifted economist. International trade and foreign exchange problems are his special interest, and he has spoken on this theme before more than one foreign trade conference.

"... Of all the men who have influenced the course of his career, Dr. Skelton is probably the most outstanding. He is one of 'Dr. Skelton's boys'—that group of highly selected citizens, the intellectual *élite* of the Dominion—many of whom, like Professor Knox, have had important and responsible roles to play in the development of this Canada.

"... His is one of the few tranquil, sane voices sounding in these chaotic times. He never talks down to an audience, and he certainly never tries to popularize his subject. On the other hand he is plain spoken, and certainly never retreats into the academic ivory tower. The result is that business men have more confidence in his integrity than in that of many another economist, whether of the spoon-feeding or baffling variety. They may not find his quiet statements easy to take, but they know instinctively that here is a man who knows what he is talking about."

## MISS BARBARA ROOKE WINS MARTY SCHOLARSHIP

BARBARA ROOKE, Arts '40, has been awarded the Marty Memorial Scholarship, it was announced recently by Miss Mary White, Arts '29, chairman of the scholarship committee. The award, worth \$1,000, is given annually by the Queen's University Alumnae Association.

BARBARA ROOKE

Miss Rooke entered Queen's in the fall of 1936 with the Forbes McHardy Scholarship of \$120. In 1939 she was awarded the McIver Scholarship in English, \$75, and when she graduated a year later with an honour Bachelor of Arts degree, she received the Medal in English, the Wilhelmina Gordon Foundation in English, \$25, and the Reuben Wells Leonard Resident Research Fellowship, \$500. In 1941 she won her Master of Arts degree and the Leonard Travelling Fellowship, which was postponed.

One of the first group of women to enter the R.C.A.F. (Women's Division), Miss Rooke became a Flight Officer, and was stationed in England from 1943 to 1945. Since her discharge she has been working toward a Ph.D. in English at

the School of Graduate Studies of the University of Toronto.

Miss Rooke plans to spend next year at the University of London, England, working on Coleridge manuscripts which are available only in England.

## SPECIAL SESSION FOR SCIENCE STUDENTS

TWO hundred and twenty-five engineering students registered for the special summer session on April 2. They will be the only students on the campus, once examinations are over for the winter session, until the six weeks' Summer School opens in July.

This summer Science enrolment is made up of second and third years only. Eighty-five are in second year, thirty-one in sections ABCDM, and fifty-four in EFGH. The 140 in third year break down as follows: mining, 8, chemistry, 9; chemical engineering, 22; metallurgy, 8; civil, 19; mechanical, 36; electrical, 21; physics, 17.

Most of these third-year students are those who took first year the winter of 1945-46, second year the summer of 1946, and have been working in the field during the past winter. Second-year students are chiefly those who did not take second year last summer, as advised, and were unable to get in to second year last fall because of overcrowding.

## QUEEN'S RECEIVES \$625,000

A GRANT of \$625,000 to Queen's from the Province of Ontario was announced in March by Hon. L. M. Frost, LL.D. '46, provincial treasurer. The gift is the University's share of \$4,000,000 being distributed to five universities in the province. Of the amount given to Queen's, \$250,000 was especially designated for the Medical Faculty.

"This money will help us to establish additional facilities needed in the Medical Faculty—both in matter of space and research needs," Principal Wallace said. The maintenance grant will help us widen our facilities in the regular work of the University and to maintain the highest possible standard of staff.

"We are most grateful for this action on the part of the government, which is recognizing in this budget the great part the universities are playing and must continue to play in the life of the community and the nation."

## GRADUATE CELEBRATES HIS "GOLDEN JUBILEE"

A GRADUATE of fifty years ago, making a gift of \$5,000 to the University this spring in addition to many generous donations during previous years, wrote a moving letter accompanying his fine gesture. The *Review* has received permission to print parts of this letter, the author of which has requested that he remain anonymous.

Addressed to the Director of Endowment, the letter begins as follows:

"The fiftieth anniversary of my graduation at Queen's is at hand. I do not recall the exact date of the grand ceremonial in that particular year—probably in late April or early May. For some time past I have thought that the fiftieth return of the occasion should be marked by a special gesture on my part, one grand salaam with financial obligato to match.

"For each of my undergraduate years Alma Mater handed me the equivalent of one hundred dollars, a truly magnificent sum in those days. Today I come with an accounting of my stewardship of these prized talents, presenting one hundred dollars for each of the graduate years. This sum represents a small tithe of the amount by which my life was enriched in the 'golden prime of good Haroun Alraschid'—alias George Monroe Grant. Nothing in all literature better conveys my impression of the *clan* of the Queen's days than Tennyson's *Recollections of the Arabian Nights*. And those far-off semi-centennial memories have survived all the shocks, stresses and disillusionments of the after years until, in this decadent age, my heart still leaps up when I behold the *Queen's Review* or *Quarterly* among my mail. Last week I was thrown into a delightful dither when a copy of Professor John MacNaughton's *Essays and Addresses* came to my desk.

"I like to think of Queen's as one of the modern universities where sound scholarship and serious thinking still prevail; where not too much of the 'liberalizing' trends in education has been countenanced; where our old teachers would not feel utterly repudiated if they should

return, but where their sturdy spirit goes marching on. The best I could wish for the University is that her students continue to come up from the farm and hamlets with great expectations, with not too ample means, and with singleness of purpose, like Ulysses, to follow knowledge like a sinking star beyond the utmost bound of human thought. Students, like the ancient Israelites, are tempted to follow after false gods, and to make of their golden opportunities golden calves. New and beguiling deities are born to each new generation, but I have always put my trust in the rugged prophets on the Old Ontario Strand to denounce the interlopers. In these days we have a great prophet in Principal Wallace.

" . . . I wish it (this gift) may constitute a talent to be disbursed among faithful stewards in whose hands it will fructify ten, twenty or even a hundred fold."

### J. A. LITTLE TO DIRECT HUGE MINING OPERATIONS

JOHN A. LITTLE, Sc. '27, has been appointed general manager of a mining development in Labrador which will involve expenditure running into hundreds of millions of dollars.

The development will be carried out by the Hollinger Consolidated Gold Mines and subsidiary companies, which have spent two million dollars during the past fifteen years thoroughly exploring the 23,000 square miles of territory in Labrador and Northern Quebec to which they have sole rights. The largest deposit of high-grade iron ore in the world is reported to lie in this area.

Mr. Little, who is from Barrie, Ontario, graduated from Queen's in 1927 with a B.Sc. degree in mining. He went first to the Keeley Mine near Cobalt, then to Central Patricia as mine superintendent. After some time at the McIntyre Mine at Timmins, he went to Northern Quebec as manager of Nor-metal Mining Corporation, where he was until he was selected for this important new position.

R. W. Little, Sc. '42, is a brother.

## SUMMER RADIO INSTITUTE TO BE HELD THIS YEAR

THE Summer Radio Institute will be held from July 3 to August 16. This is the third year that the Institute, under the direction of Dr. William Angus, has been in operation. Among the experts and lecturers to be heard during the season will be: Elsie Park Gowan, free lance script writer; Lorne Greene,

Director of the Academy of Radio Arts; Elspeth Chisholm, C.B.C. director; R. S. Lambert, Supervisor of Educational Broadcasts for the B.B.C.; Michael Barkway, Canadian representative of the B.B.C.; Rupert Caplan, C.B.C. Supervisor of Production; Kay Stevenson, C.B.C. producer; Howard Milson, of Buckingham Theatre; W. B. Adams, radio instructor at Central Technical School, Toronto.

## GRADUATES ELECT TRUSTEES

CASTING the largest vote on record, Queen's graduates have elected Mrs. H. B. Campbell (Grace Grant), Arts '15, of Montreal, Quebec, and J. A. Edmison, K.C., Arts '27, to the Board of Trustees of the University.

Mrs. Campbell, the wife of Rev. Harry B. Campbell, Arts '16, is well-known for her two Canadian novels, *Thorn-Apple Tree* and *The Higher Hill*, as well as for numerous short stories. She is a member of the National Executive Committee of the Canadian Authors' Association, and belongs to the Montreal P.E.N. Club and New York Pen and Brush Club.

Mr. Edmison is executive secretary of the John Howard Society of Ontario. During the war he served with the Judge Advocate General Branch, Canadian Army Overseas, and later as Senior Officer in Charge of Displaced Persons' Operations in Europe. He is a past president of the Montreal Branch of the General Alumni Association, a member of the Board of Management of the Queen's Theological College, and has been a member of the University Council since 1939.

Three other women have served as trustees: Mrs. G. H. Ross and Mrs. James Richardson, both present members, and Dr. Charlotte Whitton.

MRS. GRACE CAMPBELL

J. A. EDMISON

## GLIDING CLUB INTRODUCES NEW SPORT

THE Tricolour is "airborne" these days, thanks to the Queen's Gliding Club. Two Laister-Kaufman sailplanes, which arrived early in March, have taken their fifty-foot wingspread and brilliant red, gold and blue fuselages into the sky above Kingston. Seventy-five club members are eager to show the rest of the campus what is *real* sport.

The big day was Saturday, March 22. More than a thousand people, including Principal and Mrs. R. C. Wallace, Dean Ellis, and many other University officials, went to Norman Rogers Airport and saw eight students "checked out" by Chief Instructor Don MacClement, Arts '31. That is, Dr. W. D. MacClement, Veterans' Counsellor and gliding enthusiast since a postgraduate sojourn in England, declared eight students capable of gliding solo.

These eight were all but one air force veterans with hundreds of hours of what gliders call power flying. The remaining one already had gliding experience. They had to pile up ten hours of solo gliding before they in their turn were eligible to check out other novices.

There were two gliders, both Laister-Kaufman craft, in use that opening Gliding Day. United States Army surplus property—intermediate type of sailplane—they were purchased through a private dealer in Washington, D.C., who brought

them as far as Elmira, New York. After some tariff red tape which ate up several weeks, two cars finally set off March 1 to pick up the sailplanes and bring them to Kingston. As ill-luck would have it, that week-end there was one of the worst snow storms in years and the roads became blocked for miles. One car got back as far as the Ivy Lea bridge, the other was abandoned forty miles from the U.S.-Canadian border. The following week-end the students returned and brought the craft on their canvas-covered trailers the rest of the way.

Valued at \$2,000, the two gliders were purchased by the club for \$1,500. The club also purchased a Bren gun carrier which will be used in conjunction with a winch for ground launching. This sounds like big money for an undergraduate organization to be handing out. It was. But the club was extremely fortunate in qualifying for a \$3,000 fund left by the University Air Training Corps (a wartime R.C.A.F. counterpart of the C.O.T.C.) to be used to finance any campus club connected with flying deemed worthy by the trustees of the fund.

Recently the club scraped the bottom of the barrel to buy a Tiger Moth airplane from the Kingston Flying Club, at a cost of \$500. In the long run, the members feel, this will be more economical and satisfactory than renting a

One of the new sailplanes is given a try-out

power aircraft at eleven dollars an hour. Two Q.G.C. members are qualified civilian pilots.

Twelve trips an hour is the maximum number of air-tow launchings. The light glider needs to be towed only a short distance to become airborne. During the initial stages of the take-off the tips of the wings are held level by ground men as the glider races along on its single-wheel undercarriage. When sufficient momentum is gained, the ship wins stability and the pilot takes over complete control. After the two aircraft have gained safe altitude—about a thousand feet—the glider pilot disconnects the towing line and five minutes later has glided back to his starting place on the ground.

This is straight gliding, when the craft does not rise above the height at which it is launched. Soaring is something else again. If the sailplane does rise above the launching height, taking advantage of rising masses of warm air, or "thermal currents," then it is soaring. Thus soaring is a sort of advanced gliding, or rather, gliding is training for soaring. An experienced pilot can soar for hours and cover hundreds of miles if he strikes good thermal conditions. Another technical distinction is between gliders and sailplanes. The former can only glide, while the latter can both glide and soar. The Queen's craft are sailplanes.

Another glider, a Grunau Baby, is to be lent to the Gliding Club by the National Research Council. This is an advanced German sailplane, part of the spoils of war, upon which the club members will do research and development work under the direction of the Council.

The Gliding Club just got under way when examinations descended upon its members. Some of them will only have the pioneer's pride in foundation for the five dollar membership they paid this year. Others will have to wait until the fall to fly. Not a few have managed to arrange summer employment in or near Kingston, planning to get in a lot of hours during the months of ideal gliding weather.

The executive of the club has told the *Review* that the membership is not restricted to undergraduates. Several faculty members are keen on the sport, and alumni are more than welcome to join. Any time they are in Kingston they can have a glide or two—and to hear the gliders tell it, horse-racing may be the sport of kings, but gliding is the sport of Queen's !

---

### **Resident Artist Shows Ten Non-Objective Paintings**

TEN non-objective paintings by Resident Artist André Biéler attracted considerable attention when they were hung in the Senate Room for a week. They were colour studies illustrating the music of various composers.

According to Mr. Biéler, all the paintings were done at the dictates of subconscious reaction to music. A Tschai-kowsky musical composition brought forth sweeping lines in violent colours; a Kreisler concerto was illustrated chiefly in rich browns with fine wavering lines; a Beethoven symphony suggested more subdued colours, brought together to form a rich background.

---

### **Flt. Lieut. R. N. Bassarab Cited by Netherlands**

FLT. LIEUT. R. N. BASSARAB, formerly Sc. '40, now Sc. '47, has been awarded the Netherlands Flying Cross. Attached to No. 299 Squadron, 38th Group of the R.A.F., he was twice mentioned in despatches. The citation of the Netherlands award reads as follows:

"As navigator of a Stirling aircraft, this officer has participated in 25 sorties, which included the dropping of SAS troops and supplies in support of the resistance movements in Holland and France. Throughout, Flt. Lieut. Bassarab has displayed outstanding skill and initiative, and has inspired all with whom he has had contact."

"Rusty" Bassarab returned to Queen's last fall to take his final year of mining engineering.

## FRANK TINDALL RETURNS AS FOOTBALL COACH

**A**PPPOINTMENT of Frank Tindall as senior football coach was announced recently by the Athletic Board of Control. He succeeds Doug Monsson, who retired last fall after a six months' term as director of athletics.

Tindall is no stranger to Queen's, as he coached the senior football entry here in 1939. He took over the remnants of a team that had gone through a winless season the previous year and brought it home in second place with three wins and three losses. He proved to be a highly popular mentor, and would have continued at Queen's if the war had not intervened.

A graduate of the University of Syracuse, where he made his football reputation as a linesman, Tindall was named All Eastern guard and given honorable mention for All American in 1931. The following year he won the most valuable player award. He made his debut in the Canadian game as a middle wing with the 1932 Toronto Argonauts, and soon earned all-star rating. He was also line coach of the Argos, and acted in a similar capacity at the University

of Toronto. He is credited with perfecting the system which gave the Argonauts several Dominion championships.

Tindall is mortgage tax clerk for the County of Oneida, New York State, and has obtained leave of absence to look after the destinies of the Tricolour next fall. He recently made a trip to Kingston to meet the students and the members of the Athletic Board.

Next year, McGill will have a new coach, Vic Obeck, also an American. Johnny Metras and Bobby Coulter will again be in charge at Western and Toronto respectively.

### Football Schedule

Oct. 11 .....	McGill
Oct. 25 .....	Western
Nov. 8 .....	Toronto

FRANK TINDALL

### DENNY MEDALS ADDED TO LIBRARY COLLECTION

Three medals, won for metallurgical achievements by the late James J. Denny, have been placed in the medal collection in the Douglas library by his widow.

Mr. Denny started his professional career as a laboratory assistant at Queen's in 1907. Later, while working in Cobalt, Ontario, he discovered methods of making quick ore assays for nickel content. In 1921 Queen's recognized his work with an honorary M.Sc., and a few days before his death in 1940 he had been offered an honorary LL.D.

Mr. Denny was also widely known for his research under the direction of Sir Frederick Banting, work which led to the discovery of a metallic aluminum preventive treatment for silicosis.

Two sons are Queen's alumni: J. R. Denny, Arts '39, and D. A. Denny, Arts '44.

## Student Activities

### To Govern A.M.S.

**K**EN PHIN, Arts '44, Med. '49, of Whitby, Ontario, was chosen 1947-48 president of the Alma Mater Society by the electoral college. He succeeded Geoff Bruce, Arts '46. Ted White, Arts '48, of Lakeview, Ontario, is the new vice-president.

Other members of the executive are: Shirley Johnson, Arts '48, Winnipeg; Jean Scott, Arts '48, Ottawa; Willie Dowler, Arts '49, Billings Bridge; Don Milliken, Arts '49, Regina; John Chance, Arts '49, Ottawa; Scott Dalziel, Sc. '48, Toronto; John Ellis, Sc. '48, Kingston; Eric Jorgenson, Sc. '49, Toronto; Bill Wedlock, Med. '49, Peterborough; Sid Segal, Med. '50, Montreal; Clare Kellogg, Theology, Port Hope.

Scott Dalziel, president of the Engineering Society, is the son of William Dalziel, Sc. '13, who held that office during 1912-13.

### Want Fee Continued

Since 1930, the students have been paying an athletic fee of \$12, of which \$7 was used to retire the debt on the Gymnasium. The debt will be wiped out in the near future, but at the annual meeting of the Alma Mater Society on March 12, the student body unanimously agreed to ask the Senate to continue the fee indefinitely. The money will be used to pay for increased coaching and athletic facilities and equipment.

KEN PHIN

### Colour Night

A.M.S. Colour Night established itself as the popular wind-up to the year's activities with a highly successful dinner and dance on March 7. Athletic and extra-curricular awards were made to those who won them for activity during the year.

Tokens of membership in the Tricolour Society were presented by Vice-Principal McNeill to Geoff Bruce, Doug. Dale, Dave Slater, Rod Grey, Dorothy Wilson, Kate Macdonnell, Jerry Barclay, Murray Gill, Art Fee, Cy Morris, Norm Brown, Bill Henderson and Jim Nelson. Gerry Stoner, editor of the *Journal*, was also appointed to the Society, but declined to accept the honour, because he felt that the method of selection was not fair to all deserving students.

In addition to "Q's," the following athletic awards were made by Prof. D. M. Jemmett of the A.B. of C.: Bews Trophy (intramural champions), Science '48, Stan Price; Johnny Evans Trophy, senior football team award, James Crothers; Jack Day Trophy, boxing and wrestling, Max Axford; Royal Dodd Trophy, intramural football, M. Hriskevich; R.A.F. basketball cup, J. McNiven; "Senator" Powell Trophy, senior hockey, Lorne Smith; ski trophy, Sc. '49, John Pulford; Megaffin Trophy, city league championship, senior hockey team.

### Co-ed Pipers Win

For the first time in Queen's history, co-eds received awards for piping in the Queen's University Pipe Band. Betty Virtue, Arts '50, of Burford, Ontario, was awarded the Pipe Band scholarship of \$25 for the best solo piper in the University. Medal for proficiency, donated by P. A. Bennett, Kingston, was

awarded to Lois MacMartin, Arts '47, of Martinville, in Glengarry County. Two other Bennett Medal awards were made, one to T. M. Hamilton, Sc. '48, of Windsor, and the other to Arthur Densmore, Arts '47, Red Deer, Alberta.

#### **L. W. Brockington Spoke**

Leonard W. Brockington, K.C., C.M.G., LL.D., D.C.L., gave the annual A.M.S. Lecture on March 11. With his great oratory and wit, this famous speaker captivated an audience of students who packed Grant Hall. Mr. Brockington appealed to his listeners for a greater awareness of their Canadian inheritance.

#### **Here and There**

Jim Barker, Arts '48, formerly Arts '43, was appointed 1947-48 editor of the *Journal*. Jim Easterbrook, Arts '49, will be associate editor . . . Don Heap, Arts '48, will be one of Canada's delegates to the Oslo Conference of World Christian Youth, held in Sweden the end of July . . . International Student Service sponsored a barn dance or "hoe-down" in Grant Hall on March 15 . . . The 1947 Aquacade was put on for three evenings in the gymnasium pool, to sell-out audiences . . . Dr. Wilder Penfield, top man in Canada in the field of neurology and neurosurgery, was guest speaker of the Aesculapian Society . . . Queen's will join the National Federation of Canadian University Stu-

**L. W. BROCKINGTON**

(Karsh

dents, an organization to which sixteen universities already belong . . . A Baccalaureate Service honouring those students who will graduate this spring was held on March 16 in Grant Hall, with Rev. A. M. Lavery, Queen's Chaplain, officiating.

#### **REV. W. E. L. SMITH APPOINTED TO STAFF**

THE Chair of Practical Theology and Church History of Queen's Theological College has been filled by Rev. W. E. L. Smith, M.C., M.A., Ph.D. The appointment was made at the annual meeting of the Board of the College.

A graduate in Arts of the University of Toronto, and in Theology of Victoria College, Dr. Smith obtained the degree of Doctor of Philosophy from the University of Edinburgh. On his return to Canada he was engaged first of all in teaching and later entered the pastorate. He left to become a chaplain in 1940, serving with the Canadian troops at Dieppe and with the First Corps in Italy. For great gallantry in this latter theatre he was mentioned in despatches and awarded the military cross.

#### **ROBERTA BRODIE WINS \$750 SCHOLARSHIP**

ROBERTA JESSIE BRODIE, Arts '40, has been awarded a \$750 scholarship by the Canadian Federation of University Women. The scholarship, offered for the first time this year, will permit Miss Brodie to study at a professional school during the coming year.

During her undergraduate career Miss Brodie won several scholarships in German and the classics. She graduated with a B.A. degree in German and French in 1940, receiving first class honours and the medal in German. Offered a fellowship by Bryn Mawr, she did graduate work there, obtaining her M.A. degree in German in 1941.

At present librarian at the Aluminum Laboratories in Kingston, Miss Brodie plans to study for the degree of Bachelor of Science at the School of Library Service, Columbia University, New York City.

# At the Branches

## Middle Atlantic

ON March 9, 1947, a group of Queen's alumni met in the Conference Room of the Hotel Whittier, Philadelphia, Pennsylvania. Dr. George E. Flanagan, Arts '17, Med. '23, of Myerstown, Pennsylvania, who had been instrumental in organizing the group, acted as chairman of the meeting.

The earlier part of the afternoon was devoted to introductions and renewal of old friendships. Election of officers for the newly organized branch resulted as follows: president, Dr. Flanagan; vice-president, Dr. John Lansbury, Med. '26, Philadelphia; secretary-treasurer, Mrs. H. F. Ray (Helen Libby), Arts '20, Wallingford, Pa.; executive committee, N. C. Cooper, Sc. '22, Marshallton, Delaware, Dr. A. B. Dixon, Med. '39, Baltimore, Maryland, and H. S. Campbell, Sc. '28, Bryn Athyn, Pennsylvania.

Because the alumni of this group represent so many different Eastern States, it was decided to name the branch "Middle Atlantic," and to apply to the General Alumni Association of Queen's for official recognition as a branch.

Plans were discussed for an outing or picnic in June, and an annual dinner at some later date.

The branch is hoping for a much larger attendance of Queen's alumni to enjoy the fellowship of future meetings. It is requested that all alumni who have recently come to the vicinity notify the secretary so that their names may be placed on the mailing list.

At the conclusion of the business meeting many of the group enjoyed dinner together in the hotel dining-room.

MRS. H. F. RAY

Alumni present at the gathering, in addition to the listed executive, were:

Rev. Dr. A. V. Brown, Arts '21, Dr. R. W. Bailey, Med. '04, Dr. F. S. Clarke, Med. '37, Dr. W. R. Conn, Arts '32, Mrs. Simon Kuznets (Edith Handler), Com. '23, Dr. C. T. C. Nurse, Med. '08, all of Philadelphia, Pa.; J. E. R. Fox, Jr., Sc. '41, Neshaminy, Bucks. Co., Pa.; J. M. Judge, North Wales, Pa.; Dr. C. E. Moore, Med. '27, Harrisburg, Pa.; Mrs. J. J. Outland (Hannah Starr), Arts '23, Media, Pa.; C. U. Peeling, Sc. '09, Camp Hill, Pa.; M. L. Thompson, Sc. '24, and Mrs. Thompson (Nellie Evelyn Throop), Arts '25, of Huntingdon Valley, Pa.; and A. M. Wallace, Sc. '22, of Bethlehem, Pa.; Dr. E. M. Bohan, Med. '31, and D. O. Notman, Sc. '21, both of Wilmington, Delaware; and Dr. E. A. W. Sheppard, Med. '26, of Washington, D.C. Dr. T. E. Brown, Med. '26, of Lethbridge, Alberta, was also present, as guest of Dr. Lansbury.

## Montreal

AT the regular meeting of the Montreal branch in the Ritz Carlton Hotel on March 20 it was decided to establish a bursary, on a motion made by Rupert Lazarus, Arts '38, and seconded by K. D. Little, Com. '34. The following were appointed to the bursary committee to report back at the next branch meeting: E. A. Thomas, Com. '26, E. M. Patton, Com. '26, G. V. Roney, Sc. '26, and G. R. Maybee, Sc. '25, Arts '27.

President G. V. Knowles, Sc. '39, announced that the speaker, who was to have been Dr. T. H. Coffey, Med. '39, advisor of physical medicine for the Department of Veterans Affairs, had wired that he would be unable to attend due to pressure of business. Two sport films, by courtesy of Associated Screen News, and arranged by E. A. Thomas, were therefore shown instead.

## Kingston Alumnae

MISS MAY CHOWN, Arts '11, was elected president of the Kingston Alumnae at the annual meeting held in

Ban Righ Hall Common Room on April 1. She succeeds Miss Etta Robinson, Arts '29.

The retiring executive gave their annual reports, Miss Caroline Mitchell, Arts '26, reading the minutes, Miss Agnes Percival, Arts '39, the treasurer's statement, and Miss Jean Richardson, Arts '35, the report of the social convener.

The following list of officers, as read by Mrs. F. H. Lapp (Shirley Jackson), Arts '44, chairman of the nominating committee, was adopted: past president Miss Etta Robinson; president, Miss May Chown; first vice-president, Mrs. Reginald Jackson (Clara Farrell), Arts '24; second vice-president, Miss Helen Ireland, Arts '29; secretary, Miss Caroline Mitchell; treasurer, Mrs. H. J. Cross (Frances Flynn), Arts '38; social convener, Miss Jean Richardson; programme convener, Miss Melva Eagleson, Arts '25; press reporter, Mrs. H. J. Herbst (Gwen Morton), Arts '43; membership convener, Miss Diana Blake, Arts '45; councillors, Miss Dorothy Dyde, Arts '28, Mrs. Ian MacLachlan (Sybil Spencer), Arts '26, Miss Dorothy Taylor, Arts '41, and Miss Jean Tweddell, Arts '12.

Mrs. A. F. Meiklejohn (Jean Ramsay), Arts '30, was named convener of the tea scheduled for after Convocation in May.

### Lakehead

**D**R. R. R. MUTRIE, Med. '34, was elected president of the Lakehead branch at the annual dinner held March 24 at the Prince Arthur Hotel, Port Arthur. The guest speaker was Major Rev. John W. Foote, V.C., Arts '33, who was introduced by the new president and thanked by L. T. Slichter, Arts '37. Seventy-three alumni and friends of Queen's attended the dinner.

Major Foote said that educated people, those who have had the benefit of a university education, owed a lot to the country in the way of enlightened leadership. In Canada today the Communists did not preach a guiding philosophy, but attacked the things in the present mode of life that should not be there. "So in our country, with its great resources and

grand way of life, it is up to us to see that things do not exist that Communists can criticize," he said.

Paying tribute to Queen's grads he had known overseas, the speaker praised particularly a doctor (Capt. Wesley Clare, Med. '40) who had been with him at Dieppe, and who deserved the Victoria Cross for his activities.

The dinner tables were decorated with daffodils, red tulips and blue iris, and place cards had Queen's ribbons attached by chrysanthemum stickers. Grace was said by Alex. McNaughton, Arts '92. Dr. B. C. Hardiman, Med. '14, proposed the toast to the King, and Mrs. G. H. Young (Lillian Gardiner), Arts '39, proposed the toast to the University. Dr. C. C. McCullough, Med. '04, replied. Representatives of other universities brought greetings.

A singsong of Queen's songs was led by Dr. R. G. Miller, Med. '37, with Clark MacDonald at the piano. Mrs. R. G. Miller gave two whistling solos; Mrs. Millicent Peacock sang two songs, accompanied by Mrs. L. T. Slichter; and Dr. Peter Wanger, Med. '35, accompanied by Mrs. Douglas Laidlaw, played two violin selections.

MAJOR J. W. FOOTE, V.C.

Other officers are: past president, H. B. Burns, Arts '31; vice-president, D. R. Beckett, Sc. '45; secretary-treasurer, Miss Olive Langley, Arts '44; committee, Dr. R. G. Miller (convener), J. G. Cross, Sc. '13, Miss Margaret MacLeay, Arts '43, and L. T. Slichter, Arts '37.

### Ottawa Alumnae

**M**ISS MARJORIE GORDON, Arts '38, was elected president of the Ottawa branch of the Queen's Alumnae Association at the annual dinner meeting held in the Chateau Laurier on March 24. She succeeds Miss Myra Tilley, Arts '29.

Guest speaker at the meeting was Dr. E. P. Weeks, of the economic research branch Department of Reconstruction. He sketched basic factors in the present world situation, saying that never had there been a greater need for a positive philosophy of life. Dr. Weeks was introduced by Miss Gordon and thanked by Miss Jean Burrows, Arts '37.

Officers elected for 1947-48 were: president, Miss Marjorie Gordon, Arts '38; past president, Miss Myra Tilley, Arts '29; vice-president, Mrs. N. M. Sanders (Jennie Shields), Arts '14; secretary-treasurer, Miss Mary Reid, Arts '27; councillors, Miss Mae Burnett, Arts '21, and Miss Marjorie Rice, Arts '39; and membership convener, Miss Dorothy Mills, Arts '45.

### Toronto

**A** SPARKLING address by Lance Rumble of General Products of Canada was the highlight of the annual smoker held in the Royal York Hotel on March 19. The president, Ernest Collyer, Sc. '23, was in the chair.

Introduced by D. A. Stott, Sc. '30, Mr. Rumble gave a humorous and vivid account of his personal experiences as a salesman, and he kept his appreciative audience in gales of laughter with his anecdotes. At the conclusion of his address he was thanked on behalf of the meeting by N. A. Grandfield, Sc. '42.

Another popular feature was the Royalties Quartette which was brought back repeatedly for encores. Selections included old favourites, spirituals, popu-

lar ballads, and several barber-shop arrangements.

Billed as the dancing sensation of 1947, Zabuza brought the audience to its feet with an intricate tap dance routine, followed by an acrobatic number.

A new venture this year was the President's Hat competition, in which the guests were invited to provide their own entertainment, with J. T. Gow, Arts '22, acting as master of ceremonies. Most of those who participated contributed stories, but the prize went to Howard Griffin, Sc. '23, who played a piano number. It is hoped to make this competition an annual affair.

The committee in charge was composed of A. J. Strain, Sc. '25 (chairman), C. L. McCutcheon, Com. '26, A. P. Clark, Arts '40, H. B. Bleecker, Com. '25, and J. M. Ehmann, Sc. '31.

### Niagara Peninsula

**U**NDER the sponsorship of the Niagara Peninsula branch, a film on the Queen's University Biological Station at Lake Opinicon was shown on ten different occasions to gatherings with a total attendance of 1,660. Many viewers were glad to learn of the valuable research work into wild life and fisheries that is being conducted by the University.

Among those assisting President M. C. Aikens, Sc. '33, of St. Catharines, in arranging showings to varied groups were C. R. Buss, Sc. '27, of Thorold, and Kenneth Kleinsteuber, Arts '33, of Port Colborne. The audiences were largely senior high school age boys and girls.

### TO GET DEGREES

**D**ONALD GORDON, of Ottawa, former Prices Board chairman, will receive an honorary LL.D. at Convocation on May 17. Others who will be so honoured are E. A. Collins, of Sudbury; Dean K. P. Neville, of London, Ontario; Senator W. Rupert Davies, and J. M. Farrell, K.C., both of Kingston, Ontario.

Honorary degrees of Doctor of Divinity will be conferred on Professor T. J. Meek, University College, Toronto, and Rev. M. N. Omond, North Bay.

# Alumni News

## Births

**Allmark**—At the Ottawa Civic Hospital, on April 15, to Gordon Allmark, Arts '33, and Mrs. Allmark, a son.

**Anderson**—On April 3, at Columbia Hospital, Washington, D.C., to Lt.-Col. F. E. Anderson, Com. '33, Arts '34, and Mrs. Anderson, a daughter.

**Binks**—In Toronto, on April 14, to W. R. Binks, Sc. '40, and Mrs. Binks, a son (John Reynolds).

**Bleecker**—At the Private Patients' Pavilion, Toronto General Hospital, on March 22, to H. B. Bleecker, Com. '25, and Mrs. Bleecker, a son.

**Breckon**—On March 28, at the Royal Victoria Hospital, Montreal, to S. W. Breckon, Sc. '41, and Mrs. Breckon, a son (Sydney Lawrence).

**Brook**—On March 15, at the Cottage Hospital, Niagara-on-the-Lake, Ont., to J. B. Brook, Sc. '40, and Mrs. Brook, a son (David).

**Carmichael**—At the Kingston General Hospital, on April 4, to E. G. Carmichael, Sc. '41, and Mrs. Carmichael, a daughter (Jennifer Ann).

**Carther**—On February 22, at Grace Hospital, Windsor, Ont., to J. R. Carther, Arts '43, and Mrs. Carther (Doris Smith), Arts '43, a son (Bruce Allan).

**Cooper**—At St. Mary's Hospital, Kitchener, Ont., on April 9, to A. E. Cooper, Sc. '35, and Mrs. Cooper, a son (David Arthur).

**Davies**—On April 6, to Robertson Davies, Arts '36, and Mrs. Davies, of Peterborough, Ont., a daughter.

**Egan**—At the Kingston General Hospital, on April 14, to Dr. C. F. Egan, Med. '41, and Mrs. Egan, a daughter.

**Elkin**—On January 28, in Montreal, to Mr. F. Victor Elkin and Mrs. Elkin (Rosetta Wolff), Arts '45, a son (Brahm Andrade).

**Fulton**—At the Ottawa Civic Hospital, on February 20, to Lieut. R. D. Fulton, R.C.N., Arts '43, and Mrs. Fulton, a daughter (Nancy Lee).

**Jenkins**—At the Kingston General Hospital, on March 19, to Dr. Jack Jenkins, Med. '40, and Mrs. Jenkins, a son.

**Marans**—At the Kingston General Hospital, on April 8, to Mr. Harold Marans and Mrs. Marans (Katie Ryan), Arts '31, a son.

**Nesbitt**—At Brighton, Ont., on March 21, to R. S. Nesbitt, Arts '37, and Mrs. Nesbitt (Jean Booth), Arts '37, a son (Robert Samuel).

**Playfair**—At the Women's College Hospital, Toronto, on April 9, to Dr. P. F. Playfair, Med. '44, and Mrs. Playfair, a son.

**Prentiss**—At the New Liskeard Hospital, New Liskeard, Ont., on April 5, to Mr.

Lorne Prentiss and Mrs. Prentiss (Helen Farrelly), Arts '29, a daughter (Mary Eileen).

**Salton**—On March 17, to A. E. Salton, Arts '34, and Mrs. Salton, of Toronto, Ont., a daughter (Andrea Florence).

**White**—At the Kingston General Hospital, on March 24, to Dr. E. Perry White, Med. '34, and Mrs. White, a son.

## Marriages

**Bennett**—In Grace Church on-the-Hill, Toronto, on April 5, Pamela Mary Gilmour to James Walton Bennett, Arts '41. B. C. Heintzman, Arts '44, and Peter Macdonnell, Arts '40, were ushers.

**Gray**—In Glebe United Church, Ottawa, on April 12, Elsie Jean McNaughton to Dr. Roland Charles Victor Gray, Med. '38. Dr. J. A. Beggs, Med. '42, was best man, and the ushers were Dr. J. T. M. Fraser, Med. '43, and Dr. C. A. Richardson, Med. '43. Dr. and Mrs. Gray are living in Westboro, Ont.

**Halme**—On February 28, in The Evangelical Church, La Paz, Bolivia, Jean Louise Elliott to Sulo Halme, Sc. '44.

**Lane**—On November 2, 1946, in St. Andrew's United Church, Sudbury, Ont., Jean Burton to Lenox Thompson Lane, Sc. '43.

**McDonald**—On April 12, in Kensington Presbyterian Church, Montreal, Patricia Mary Duffie to Alexander John McDonald, Sc. '36. Dr. D. C. Brunton, Sc. '40, brother-in-law of the groom, was best man.

**Shisko**—On April 5, in Sixth Street United Church, Regina, Sask., Wilma Mabel Powell, R.N., to Alexander Shisko, Arts '46. They will live in Toronto.

**Susman**—On July 14, 1946, Dr. Florence Carol Levin to Dr. Benjamin Susman, Arts '30, Med. '33, of New York City.

## Deaths

**Bourgoing**—The death of Sylvio Bourgoing, Sc. '12, occurred at the Royal Victoria Hospital in Montreal on February 1. He was sixty-three years of age, and had been assistant district engineer with the federal government Public Works' Department for eighteen years, prior to his retirement a year ago on account of ill-health. Mr. Bourgoing was born in Tadoussac, Quebec, and attended Chicoutimi College and Laval University before entering Queen's in 1907. After receiving his B.Sc. degree in civil engineering, he worked for the Quebec government, in 1913 supervising the construction of Hydraulique Power at Les Cedres, Quebec. For the next four years he was assistant engineer for the waterworks department and technical service of the City of Montreal. He did naval construction for Port Arthur Shipbuilding in 1917-18, and in

1919 was with the naval architects of the Imperial Shipbuilding Board at Montreal, returning to the City of Montreal water-works department the following year. Mr. Bourgoing was chief staff surveyor for this city for a year prior to taking the position of engineer for the municipality of Argenteuil and Labelle County. From 1925 to 1928 he worked with La Cie Foundation and Canadian International Pulp and Paper in charge of their hydraulic construction project. Included among those surviving him is a brother, L. P. Bourgoing, of Montreal.

**Campbell**—Dr. Colin A. Campbell, Med. '38, died in Memorial Hospital in St. Thomas on March 15 after a short illness. He was thirty-four years of age. Dr. Campbell was born in St. Thomas, and graduated from the high school in that city prior to entering Queen's in the fall of 1932. He received his M.D., C.M. degrees in 1938, and interned at Kingston General Hospital and Victoria Hospital in London. He took a postgraduate course

at Minneapolis University Hospital, Minneapolis, before enlisting in the R.C.A.M.C. After six years with the army, he returned to St. Thomas from overseas, just a year ago. Surviving are his wife and son and two brothers.

**Edwards**—Outstanding as a chartered accountant throughout Canada, Dr. George Edwards, LL.D. '22, died in Toronto Western Hospital on February 12 at the age of eighty-four. It was Dr. Edwards who collaborated with Queen's in establishing a course of studies for the Chartered Accountant degree. During the First World War he was awarded the C.B.E. for his services as auditor and comptroller of the British Treasury in Canada for the Imperial Munitions Board. He was founder of the firm of Edwards, Morgan and Company in Toronto. Dr. Edwards became a member of the Institute of Chartered Accountants of Ontario in 1889, and was elected to Fellowship the same year. He served four terms as president of the Institute and in 1902 was made a life

member. He was a past president of the Dominion Association of Chartered Accountants, and was a life member of the Institutes of Manitoba, Alberta and Saskatchewan. Five sons and one daughter survive.

**Gourley**—A veteran of service in Africa, Sicily and Italy in World War II, with the rank of captain, Donald Alexander Gourley, Med. '37, died in hospital in Ottawa on March 11. He was in his thirty-sixth year. Mr. Gourley was born in Cayuga, Ontario, and received his preliminary education at the Kingston Collegiate Institute. He enrolled in the Medical Faculty at Queen's, and attended the 1931-32 session. On his return to civilian life, after serving with the R.C.A.S.C. from 1941 to 1944, Mr. Gourley had gone into business for himself, operating a grocery store at 71 Preston Street in Ottawa. Surviving are his wife, a daughter, his mother, three brothers, including Dr. I. M. Gourley, Arts '28, Med. '31, and a sister.

**McDermott**—The death of Dr. Michael Francis McDermott, Med. '87, occurred in Detroit, Michigan, on February 26. Dr. McDermott was born in Kingston and educated privately. He entered the Medical Faculty at Queen's at the age of eighteen, and graduated with his M.D., C.M. degrees in 1887. He then went to Toronto and obtained his degree in dentistry from the Ontario Dental College. After practising in Kingston for a short time with the late Dr. J. T. Davis, he moved to Detroit, where he resided until his death. Surviving are two sisters.

**Orr**—The death of Frederick Ormond Orr, Sc. '07, occurred on March 23, while he was living in retirement on Salt Spring Island, British Columbia. Mr. Orr was born in Emily Township, Ontario, in 1887. He graduated from the Peterboro Collegiate Institute and entered the Science Faculty at Queen's, studying mining engineering for three years. After he left Queen's he farmed for a period in Manitoba, and later engaged in the lumber business, before returning to the practice of engineering. He carried out an investigation of peat deposits for the Ontario Government, then went to British Columbia and set up a consulting engineering practice, specializing in mining. For the past few years, until he retired on Salt Spring Island to enjoy his favourite recreations of boating and fishing in Gulf Islands waters, Mr. Orr was associated with the British Columbia Appraisal Company and travelled extensively in connection with that firm's work. He is survived by his wife and a brother.

**Purvis**—Word has been received of the death of Mrs. G. S. Purvis (Lillian Walls), Arts '17, at her home in New Westminster, British Columbia, on June 8, 1946. She had been ill several weeks. Mrs. Purvis was born in Clifford, Ontario, where she attended public school, receiving the governor-general's medal in the entrance

examinations. Prior to enrolling at Queen's she graduated from the Harrison Collegiate Institute with her senior matriculation. She attended Queen's in 1914-15, passing the examinations of the Faculty of Education with honours. Mrs. Purvis taught public school near Napanee, Ontario, and later public and high school in Thamesville. In 1919 she married Dr. G. S. Purvis, Med. '16, on his return from overseas, and they moved to British Columbia. Prominent in musical and social affairs of her community, Mrs. Purvis was past president of the local Red Cross Society, past president of the local chapter P.E.O., and a member of the Vancouver Symphony Society. She is survived by her husband, two daughters, and a son.

**Scott**—The first Science graduate of Queen's, Thomas Smythe Scott, Arts '94, Sc. '97, died on April 14 at Huntingdon, British Columbia. Mr. Scott was born at Glenmorris, Ontario, in 1871, and received his preliminary education at the Galt Collegiate Institute. In 1890 he entered Queen's, where he took a prominent part in athletics, belonging to the Canadian championship football team of 1893. After receiving his Bachelor of Arts degree in 1894, he enrolled in the Science course which was then being established. Since for the first year he constituted the whole class, he had the benefit of personal instruction from such sterling educators as Dr. Dupuis, Professor Carr-Harris, and Dr. Goodwin. When delivering the valedictory address on his graduation with a B.Sc. degree in 1897, Mr. Scott stood beside the aged Dr. George Bell, who had registered with the first Queen's class in 1841. Dr. Bell's life and that of Mr. Scott span the history of Queen's. Mr. Scott's work in the heavier lines of engineering, such as railroad building, power plant construction and road building, took him into all parts of Canada and some districts of the United States. He did a great deal to help develop an expanding country before he retired in 1932. For the past fifteen years he had been living quietly in Huntingdon. Surviving are his wife, a son, H. A. Scott, Arts '22, a sister, and a brother.

**Tory**—A man who was behind the building of four Canadian colleges and the creation of the National Research Council, Dr. Henry Marshall Tory, LL.D. '38, died in Ottawa Civic Hospital on February 6 in his eighty-fourth year. He had been at his desk as president of Carleton College in Ottawa a few weeks prior to his death. A truly dynamic personality, he was the generating spark in many educational, scientific and cultural ventures from the east to the west of Canada. A native of Nova Scotia, he graduated from McGill with the gold medal in mathematics and physics. As a member of the McGill staff, he went to Vancouver in 1905 and assisted in the founding of the University of British Columbia. He then founded the University of Alberta, and was president of that col-

## Alumni Fund

### A MESSAGE FROM THE DIRECTOR OF ENDOWMENT

---

- In 1941 the plan of Annual Contributions was suggested to Queen's alumni as a practical method by which they could render valuable aid to their Alma Mater.
- During the five years that have passed since then, the sum of \$149,180 has been contributed by the individual alumni to help maintain and extend the work of their Alma Mater, an average of \$29,836 a year by an average of 699 donors. The totals contributed by individual alumni over this period have ranged from 25 cents to \$25,620. In addition, various alumni and student organizations have given \$75,340—an average of \$15,068 a year.
- The money thus contributed has been allocated to general endowment or maintenance funds, to scholarships, bursaries or prizes, or to other special projects, in accordance with the donors' desires. The unrestricted gifts have been perhaps the most valuable since they could be used where the need was the greatest. The importance of this "free" money cannot be overstated. It helped to prevent serious damage during the war. It will be of similar assistance during the reconversion period.
- So much has been done for Queen's by a relatively small number of her alumni. So much more would have been done if every one of Queen's 15,000 alumni gave his or her help. Queen's needs this help.
- If you have been contributing, please accept this as a message of thanks. Your past assistance has been very welcome. Your future help will be similarly valued.

lege from 1908 to 1928. From 1917 to 1919 he was colonel director of Educational Services. Primarily through Dr. Tory's effort, the National Research Council Act was passed, and in 1928 Dr. Tory became the first permanent chairman, holding the position until his retirement in 1935. Seven years later, at the age of seventy-eight, he headed a group of Ottawa citizens in establishing a night college for wartime Civil Service employees. This grew to be Carleton College. Nine Canadian universities and colleges paid tribute to Dr. Tory's achievements with honorary degrees.

## Notes

1890 - 1899

Rev. David L. Gordon, Arts '97, who retired from the ministry a few years ago, is at the present time acting as minister's assistant in Chalmers United Church, Guelph, Ont.

1900 - 1909

Dr. L. M. Dawson, Med. '09, formerly with the Travellers Insurance Company in Hartford, Conn., is now retired and living in La Luz, New Mexico.

Dr. Frederick Etherington, Med. '02, LL.D. '43, formerly dean of the Medical Faculty at the University, was recently appointed to the executive and discipline committee of the College of Physicians and Surgeons of Ontario. Dr. J. F. Sparks, Arts '00, Med. '05, Kingston, has been appointed to serve on the legislation, advisory and regulation committee.

L. P. Stiles, Sc. '07, is assistant district manager of the Northern Electric Company, Toronto.

Dr. M. Y. Williams, Sc. '09, of the University of British Columbia, has been elected second vice-president of the Geological Society of America.

1910 - 1919

Dr. E. W. Boak, Arts '13, Med. '15, has practised surgery in Victoria, B.C., for many years. He is on the surgical consulting staff of the Royal Jubilee Hospital, and gynaecological chief on the surgical staff of St. Joseph's Hospital.

R. A. Bolton, Sc. '14, is doing electrical engineering work at the United States Naval Air Missile Test Centre, Point Mugu, Calif. During the war he served as inspector of electrical construction for the U.S. Navy, 11th Naval District, San Diego, Calif.

J. C. Bonham, Sc. '15, is now assistant chief engineer with the Ford Motor Company of Canada Limited, Windsor, Ont.

Norman B. Davis, Sc. '11, Ottawa, recently retired as administrator of non-ferrous metals (primary) under the War Prices Board and as deputy co-ordinator of resources development (mines) under the Department of Reconstruction and Supply.

N. J. Goebelle, Sc. '18, is city engineer at Galt, Ont.

Hilda Hague, Arts '16, has returned to China as English Secretary in the Harvard-Yenching Institute at Yenching University, Peiping.

Dr. M. D. Kinsella, Med. '12, Toronto surgeon, has been appointed a member of the Toronto Harbour Commission.

J. B. Stirling, Sc. '11, and J. A. H. Henderson, Sc. '22, have been elected vice-president and member of the executive, respectively, of the Corporation of Professional Engineers for the Province of Quebec.

R. C. Brehaut, Sc. '27, is manager of the Sherritt-Gordon Mines Limited, Sherridon, Man.

D. H. Craighead, Sc. '29, after four and a half years active service with the Canadian Navy, joined Canadian Vocational Training over a year ago and is now director of the Training Re-establishment Institute in Windsor, Ont.

F. C. Doak, Sc. '29, is chief engineer of the telephone division, Quebec Telephone and Power Corporation, Rimouski, Que.

D. F. MacRae, Arts '29, is production manager for J. H. Stafford Industries Limited, Toronto.

W. F. Mainguy, Sc. '28, formerly personnel manager for the Shawinigan Water Power Company, Montreal, was recently promoted to the position of vice-president in charge of distribution.

Mrs. Walter Murch (Katharine Louise Scott), Arts '28, who was married in 1930 to Walter Tandy Murch, an artist in New York City, is now living at 456 Riverside Drive.

H. H. Snyder, Sc. '25, who for the past fourteen years has been with the Shell Oil Company of Canada, latterly as chief engineer of the Montreal East Refinery, resigned last November in order to take up fruit-farming in the Niagara district. His address is Niagara-on-the-Lake.

C. H. Simpkinson, Sc. '29, of the National Research Council, has been transferred from Ottawa to Chalk River, Ont., where he is in the engineering division, atomic energy project.

J. A. Strong, Com. '26, has been appointed Canadian Ambassador to Peru. Mr. Strong has spent twenty years with the Foreign Trade Service of the Department of Trade and Commerce, first as assistant trade commissioner at Liverpool and since 1929 trade commissioner at Panama, Buenos Aires and New York respectively. He is at present treasurer of the New York Society of Queen's University.

Bruce Wert, Arts '20, Avonmore, Ont., and Mrs. George Dingle (Grace Wert), Arts '21, Camlachie, Ont., were bereaved by the death of their father, Mr. John W. Wert, on February 21.

R. M. Winter, Arts '26, former senior education officer with the R.C.A.F. overseas, has resigned as director of the Ontario Adult Education Board, Toronto, and returned to private business.

**S. V. Burr**, Arts '39, formerly with Siscoe Gold Mines, is now with Geotechnical Development Company, Bourlaimaque, Que., as partner and field manager.

**A. D. Carmichael**, Sc. '39, is geological assistant for Noranda Mines Limited, Noranda, Que.

**John Carruthers**, Sc. '39, is in the engineering department of Trans-Canada Air Lines at Winnipeg, Man.

**Olive Cleland**, Arts '30, is teaching at the Normal School in Peterborough, Ont.

**H. H. Cox**, Sc. '36, is assistant manager of Malartic Gold Fields Limited, Halet, Que.

**Rev. K. J. Crawford**, Arts '39, Mountain Grove, Ont., was bereaved by the death of his mother, Mrs. Robert J. Crawford, Kingston, on April 11.

**G. W. Cushnie**, Arts '33, is teaching at Appleby College, Oakville, Ont.

**Sqdn. Ldr. T. L. Doolittle**, Com. '30, of the permanent force, is stationed at Clinton, Ont.

**Catherine Fraser**, Arts '39, was bereaved by the death of her mother at Kingston on February 17.

**F. E. Grimshaw**, Com. '38, has resigned from the Royal Bank of Canada after eight years service, to become secretary-treasurer and director of the Clairmonte Company Limited, exporters, Montreal.

**Dr. E. A. Johnson**, Med. '38, was recently awarded a Hermant fellowship in ophthalmology at the University of Toronto. He will begin the appointment on July first. Dr. Johnson has been in general medical and surgical practice at Elfros, Sask., for the past few years. His work in Toronto will be largely clinical, but he will also do research at the University of Toronto.

**G. V. Knowles**, Sc. '39, has left the employ of Canadian Vickers Limited and joined the staff of the United Shoe Machinery Company in Montreal.

**Dr. W. M. S. Lauder**, Med. '37, Toronto, has joined the staff of the Bureau of Tuberculosis Control in Charleston, West Virginia, as field clinician.

**H. H. Lockwood**, Sc. '39, is with the Aluminum Company of Canada Limited in the Arvida plant.

**Dr. J. G. McBroom**, Med. '34, and Mrs. George Dimitrieff (Winona McBroom), Arts '33, Geraldton, Ont., were bereaved by the death of their mother on March 29.

**Dr. J. A. Macdonald**, Med. '38, was recently appointed resident medical officer

and superintendent of the Indian Hospital in Port Simpson, B.C.

**P. J. McNally**, Sc. '39, of E. G. M. Cape and Company, Montreal, is at present job superintendent on the construction of the Fraser Company's pulp mill at Newcastle, N.B.

**A. E. Morton**, Arts '30, has joined the staff of the Veterans Land Act and is now assistant to the superintendent of the Land and Loans Branch.

**Mrs. G. O. Saunders** (Pauline Martin), Arts '33, and **Marion Martin**, Arts '36, Kingston, were bereaved by the death of their father, Mr. Charles J. Martin, on April 6.

**A. E. Smith**, Sc. '34, is works engineer for the Electro-Metallurgical Company of Canada, Welland, Ont.

**S. E. Smith**, Arts '35, is assistant commissioner of works for the township of East York, Toronto.

**Dr. A. E. Thoms**, Med. '36, has been appointed director and senior medical officer of the newly organized Leeds and Grenville Health Unit. **Dr. W. P. Earle**, Med. '33, is assistant medical officer.

**Shirley Ann Van der Voort**, Arts '38, is teaching music at St. Margaret's School for Girls in Victoria, B.C.

**Ruth Walker**, Arts '33, has joined the staff of the Aluminum Company of Canada at Arvida, Que.

**E. B. Wright**, Sc. '38, was recently appointed mine superintendent of American Nepheline Limited, Lakefield, Ont.

## 1940 - 1947

**R. S. Allison**, Sc. '46, since graduation has been with the Canadian Pacific Railway Company as transitman at London, Ont.

**R. J. Beaudry**, Sc. '44, has been made head of the sound department of the National Film Board, Ottawa. He lives at 25 Mutchmor Road.

**Colin R. Blyth**, Arts '44, who has been doing graduate work this year at the University of North Carolina and the North Carolina State College, has been awarded his twentieth scholarship. This latest award is a \$900 prize from the National Research Council in Ottawa.

**Gary Bowell**, Arts '41, **R. F. Elliott**, Com. '43, **R. K. Mackenzie**, Sc. '40, **J. S. Maxwell**, Com. '41, and **F. W. H. Wellwood**, Arts '42, are attending the Graduate School of Business Administration at Harvard University.

**R. A. Bradley**, Arts '44, London, Ont., has been awarded a \$1,200 scholarship by the Ontario Government. It is one of fifty-two scholarships set up recently by the Government to assist in the provision of adequately-trained research specialists for the province.

**B. W. Burgess**, Sc. '44, formerly with the E. B. Eddy Company, is now with the Canadian Pulp and Paper Association, Montreal.

**Jean Carmichael**, Arts '43, who received her Bachelor of Physical Health and Edu-

cation degree from the University of Toronto in 1946, has been on the staff of the University of British Columbia during the past year.

Stuart Clark, Sc. '44, recently joined the staff of the Thunder Bay Paper Company in Port Arthur, Ont.

E. J. Connor, Sc. '44, has left the International Ecuadorian Petroleum Company, Ecuador, to join the staff of the Tropical Oil Company in El Centro, Colombia, as petroleum engineer.

B. C. Craig, Sc. '42, is office manager for D. Craig and Son, grain merchants, Arnprior, Ont.

R. S. Cuthbertson, Sc. '41, after spending the past two years in Canton, Ohio, with the Tinker Roller Bearing Company, has returned to the company's plant in St. Thomas, Ont., as tool engineer.

Arliss Denyes, Arts '45, who did post-graduate work last year at the University of Michigan, and is at present engaged in research work in wild life management and conservation in the Texas Desert, under the auspices of the University of Michigan, has been awarded one of the new Ontario Government scholarships set up recently to assist in the provision of adequately-trained research specialists for Ontario. Her award is valued at \$1,200, and entitles her to study in Ontario, Great Britain, or the United States.

J. R. Dumoulin, Sc. '46, is assistant engineer for the Quebec Telephone and Power Corporation at Rimouski, Que.

C. M. Elliott, Arts '44, is teaching mathematics at the high school in Copper Cliff, Ont.

Dr. R. A. Fortye, Med. '40, is anaesthetist at the Royal Jubilee Hospital in Victoria, B.C.

J. E. R. Fox, Sc. '41, is with the Naval Aircraft Modification Unit, Johnsville, Penn.

Betty Garbutt, Arts '44, is in charge of the bacteriology department at Colonel Belcher Hospital, Calgary, Alta.

Mrs. J. M. Gillespie (Jean Calvert), Arts '42, who spent the past few months in Kingston, returned recently to her home in England. Her address in International Flat, High Street, Honinton, Devonshire.

W. H. Henry, Sc. '44, is doing post-graduate work in nuclear physics at McGill University.

D. H. Hill, Sc. '42, of Williams and Wilson Limited, has been transferred from Montreal to the Toronto office of the firm.

Bernard Issenman, Sc. '43, is secretary-treasurer and executive plant manager of Electrolier Manufacturing Company, Montreal.

D. G. Kilmer, Com. '44, is principal of the continuation school in Port Burwell, Ont.

Dr. D. R. Johnston, Med. '42, is at the Vancouver General Hospital, where he is specializing in obstetrics and gynaecology. Mrs. Johnston (Peggy Clark), Arts '43, and their young son, Bobby, joined him there recently.

"Oh you darling . . . How simply perfect!"

"Perfection . . . Check ✓ . . . As they say about Sweet Caps."

# ATTENTION ALUMNI

Membership in the General Alumni Association includes subscription to the "Queen's Review."

---

Keep in touch with Queen's and with your fellow alumni through the pages of the "Review."

---

Membership fee is \$3.00 for the year (life membership is \$50. Combined annual fee for husband and wife is \$4). All fees include branch membership.

---

Fees may be paid either direct or to your branch secretary.

---

News items are always welcome.

L. T. Lane, Sc. '43, is a member of the firm, Lane and Lane, registered professional civil engineers in Sudbury, Ont.

W. B. McCaskill, Sc. '41, is with the Goodyear Synthetic Rubber Corporation in Houston, Texas.

D. H. McCorkindale, Sc. '41, is with the Canadian Breweries Limited, Toronto, as construction engineer.

John Matheson, Arts '40, is the new president of the Osgoode Hall Legal and Literary Society. Norman McLeod Rogers, Arts '43, was elected secretary-treasurer and Marion Smith, Arts '43, is the second-year representative.

R. K. Motherwell, Sc. '42, has joined the staff of Imperial Oil Limited as a petroleum engineer. He is at present stationed at the company's properties in Leduc, Alberta.

Mrs. Daniel J. O'Kane (Doreen Jeffs), Arts '42, and her husband are attending Cornell University, where they are both candidates for Ph.D's in bacteriology.

J. P. Ratledge, Sc. '46, recently left for Tsumeb, South West Africa, to take the position of assistant mill superintendent with the Tsumeb Corporation Limited.

H. C. Sheffield, Sc. '45, is with F. T. Fisher's Sons Limited, consulting engineers, Montreal.

R. L. Sanders, Sc. '40, since his discharge from the R.C.N.V.R., has been with the Power Corporation of Canada, Montreal.

Dr. G. K. Stillwell, Med. '42, has gone to the University of Minnesota to study physical medicine for the next three years on a Baruch fellowship.

Mrs. Hubertus Van Zwamen (Jean Sharp), Arts '43, returned to Canada recently with her husband, after living in The Hague for a year and a half. They are now in Ottawa.

W. S. Walker, Sc. '40, formerly in Mackenzie, British Guiana, is now in London, England, with Aluminum Union Limited.

J. C. Webb, Arts '44, Com. '45, took his M.B.A. from the University of Chicago in 1946, and is now doing further postgraduate work towards his Ph.D. at Syracuse University.

Margaret Grace White, Arts '45, teaches in the high school at Winchester, Ont.

H. D. Wightman, Com. '47, is in the economic research branch of the Department of Reconstruction and Supply, Ottawa.

R. G. Wilson, Sc. '46, who was with the Goodyear Tire and Rubber, New Toronto, after graduation, recently left the company to join the Carnation Company at their Berlin, Wisconsin, factory.

Dr. Omar Younghusband, Med. '44, and Dr. George Meissner, Med. '43, are at present in Boston, Mass., taking postgraduate courses, the former in medicine and the latter in pathology.

## THE TRUE HAPPINESS

Principal Wallace's Address to the Graduating Class at Spring Convocation,  
Grant Hall, May 17, 1947

**I** PRIZE greatly the opportunity to say a few words—a very few words—to the men and women who are graduating today. I have asked myself what it is that you crave above everything else as you go out from this place into the world which will so soon demand from you your time, your energies, and your skill and knowledge. Probably you are not articulate in your wishes. Somehow, vaguely, you think of position and of place, of financial competence, of opportunity to use your particular gifts and training, of service rendered to your fellowmen. But these are after all only expressions of something that is deeper and more profound. What you are groping for is what we who are older have learned to place above much fine gold. In all our striving and our doing, we are seeking for happiness, for that inner serenity of mind and spirit that gives to life its true meaning and deep contentment. And I wish to speak to you about this happiness not in spite of the unrest and uneasiness with which we are surrounded in the world today, but because of it. Living will become scarcely worth while if by our own attitude of mind we add, even unconsciously, to the stresses and strains that bear so hardly on the structure of world relationships. Living will become so much more worth while if our own attitude of mind may make a contribution, even ever so little, to the easing of the pressures that seem sometimes to crush the spirit of man.

But how can this happiness be found? It would be idle to think that I can produce for you a golden key that may unlock a door at which mankind through the ages has been standing expectantly. But there is a clue in the reference to Sir Walter Scott, which Lady Tweedsmuir has used so happily for a volume of selections from the writings of Lord Tweedsmuir, whose balanced outlook on life and letters came to us as a gift from heaven during his all too short stay with us in Canada. Tweedsmuir's words are these: "There was a clearing house in his soul where all impulses were ordered and adjusted, and this repose gave him happiness." There is profound meaning in these simple words. For we are the creatures of impulses, some good, some less good, and no system of education will eradicate them, for they are part of the human quality. But they may be ordered and adjusted, if we see to it that we provide for them a clearing house in our souls. You may find yourselves envious of the success of others, jealous of your rights, suspicious of the motives even of your best friends. But if you do not permit of a clearing house for envy, jealousy, suspicion, happiness will elude you and your life, and even your successes, will be barren. These are easy words. But you may already have learned to rejoice in the success of your fellow students, and to remove all trace of envy from your rejoicing. If you have so learned, you are on the way to true happiness.

Not that the success of our fellowmen may not be a stimulus to greater effort on our part to be worthy of them and of ourselves. But that stimulus is the kind of incentive which a player feels when a team-mate depends on him to play up to him. For the human race is a great team, and we depend one on the other for our ultimate success in reaching the goal. And if, in the field of world affairs, we believe the best rather than the worst about the aims and objectives of the nations of the world, we shall have contributed something to the easing of the strain that surrounds us today.

For from that clearing house of the soul whose impulses are ordered and adjusted, there comes a repose which paves the way to true happiness. In all the business of modern life, where emphasis is laid on doing rather than thinking, we need above everything else to find time for communion with ourselves. Out of the quietness of thought there comes strength and resolution and fairminded judgment. The man whose personality ultimately counts is he who gives himself time for repose. In the process he resolves his impulses and discovers the core of goodness in the inner frame of things. He has time to look

beyond appearances into reality.

But, you may ask, why should I take your time on this eventful day to speak of contemplation and repose? To you, who are full of vigour and ready for the strenuous life, my words may seem foolish and unreal. They have this deep justification. You have enriched your minds with the wisdom of the past, with the realities of the present, and with the aspirations of the future. You have acquired a sense of perspective. You are specially equipped to appraise and evaluate. Yours should not be hasty judgments and unbalanced actions. You have a clearing house of the soul, well furnished for its task. Through it, your prejudices and your passions may be filtered clear of dregs, and issue moderate, temperate, kindly. In your unhurried strength you will impart strength to those with whom you have to deal. And in so doing you will be well on the way to true happiness, for there is no other road.

Can I wish for you anything better, as I congratulate you on your achievements here on this, your high day, than that you find the way to happiness and serenity of spirit, and that you play your part in conveying happiness to others. We wish you Godspeed.

### **Benefactions Total \$1,056,585**

**D**URING the year ending March 31, 1947, the University received in grants, gifts and bequests the sum of \$1,056,585:

From 829 individual alumni—for general funds, \$18,022; for scholarships, bursaries and prizes, \$7,252; for other projects, \$189,405. Total, \$214,680.

From fourteen alumni and student organizations—for general funds, \$71; for scholarships, bursaries and prizes, \$35,315; for other projects, \$12,350. Total, \$47,736.

From 218 other individuals and organizations—for general funds, \$110,875; for scholarships, bursaries and prizes, \$38,544; for other projects, \$172,418. Total, \$321,838.

From Dominion and Provincial Governments—for general funds, \$442,907; for scholarships, bursaries and prizes, \$100; for other projects, \$29,323. Total, \$472,330.

## *Dr. McNeill Retires*

### BOARD OF TRUSTEES APPOINTS DR. W. A. MACKINTOSH AS VICE-PRINCIPAL AND G. J. SMITH AS TREASURER

**A**FTER thirty-eight years' association with Queen's, Dr. W. E. McNeill, vice-principal and treasurer, is retiring September 30. Succeeding him as vice-principal is Dr. W. A. Mackintosh, Dean of Arts, and as treasurer Gordon J. Smith, director of endowment and assistant treasurer. Dr. McNeill will not sever all connection with the University, however, as he has been elected to the Board of Trustees.

These major administrative staff changes were decided upon by the Board of Trustees at the annual meeting on May 17. Another highlight was the announcement that in October a new degree course will be instituted at Queen's, that of Bachelor of Physical and Health Education. The course will qualify a student for a pass Bachelor of Arts and a Bachelor of Physical Health Education at the end of his fourth year. This fourth year will be exclusively occupied with special work in physical and health education. It is hoped that the course will be an aid both to high school teachers and in community health and recreation programmes.

The Board decided to use the income from the \$100,000 Chancellor Dunning Trust to bring a noted scholar or public man to Queen's each year for the next three years. Each year the man chosen, one whose interests are mainly in the field of humanities as broadly interpreted, will be asked to give a series of public lectures and to have informal discussions with groups of staff members and students over a period of several weeks, the emphasis to be on the responsibility of the individual in a modern world.

In making this decision, the Board was acting on the letter of gift, which read: "... that once in every three years the trustees of Queen's University read this letter and decide, in the light of then existing conditions, how best the income from the trust may be expended to promote understanding and appreciation of the supreme importance of the

dignity, freedom, and responsibility of the individual person in human society."

Dr. McNeill presented the audited financial report for the year ending March 31. Total revenue was \$1,491,972, with a surplus of \$2,618. He submitted estimates for the year 1947-48, providing for an expenditure of \$1,394,605. Insurance on University buildings was greatly increased to be in line with present replacement costs. The total coverage now amounts to \$5,988,096.

T. A. McGinnis, chairman of the building committee, submitted a report of the activities of his committee with special attention to the progress of the work on McLaughlin Hall and on the extension of facilities for the production and distribution of electrical power.

On the *Quarterly* Board, Prof. W. E. C. Harrison was substituted for Dr. G. S. Graham, who has resigned. Dr. G. H. Clarke and Dean Mackintosh were re-elected for a further term of three years. On the Ban Righ Hall Board, Miss Eleanor Tett and Mrs. W. A. Mackintosh were appointed to succeed retiring members.

Elmer Davis and A. J. Meiklejohn were re-elected to the Board of Trustees. The resignation of Mrs. George Ross was received and the executive committee was given power to fill her position. Dr. McNeill was appointed to succeed Sir Edward Peacock and W. A. Newman to succeed John Irwin. In the election by benefactors D. K. MacTavish was re-elected and David Gillies was elected in succession to J. M. Campbell, who had resigned. Rev. Dr. G. A. Brown was re-elected by Queen's Theological College.

J. M. Macdonnell was re-elected chairman of the Board and J. M. Farrell vice-chairman. The executive committee was constituted as follows: Chancellor, Chairman, Principal, Rev. Dr. G. A. Brown, J. M. Farrell, K.C., J. C. Macfarlane, R. D. Harkness, M. N. Hay, T. A. McGinnis, A. E. MacRae, A. J.

Meiklejohn, Elmer Davis, and W. E. McNeill.

The following out-of-town trustees attended the meeting: Hon. C. A. Dunning, Mrs. H. B. Campbell and J. B. Stirling, all of Montreal; D. H. Laird, K.C., of Winnipeg; J. M. Macdonnell, Hon. Mr. Justice Cameron, A. E. MacRae, D. K. MacTavish, of Ottawa; J. A. Edmison, and D. I. McLeod, of Toronto; Dr. J. G. Dwyer, and Dr. B. M. Stewart, from New York; Dr. T. H. Farrell, Utica, N.Y.; E. A. Collins, Copper Cliff; H. G. Bertram, Dundas; and D. A. Gillies, Braeside.

---

## STAFF CHANGES APPROVED BY BOARD

A LARGE number of retirements, promotions, and new appointments to the teaching staff were approved at the Board of Trustees meeting held Convocation week-end.

The following resignations were accepted: A. A. Day (classics), J. R. Bristow (physics), W. M. Campbell (chemical engineering), B. M. Springbett (psychology), and H. I. Marshall (drawing).

Several members of the staff were granted leave for the 1947-48 session. Prof. G. H. Humphrey, head of the department of philosophy, will have sabbatical leave. Special leave has been given Prof. Israel Halperin (mathematics) to teach and study at Princeton University; to A. M. Fox (Spanish) to study at Columbia University; and to Prof. H. Henel (German), who is going to the University of Wisconsin for one year as a visiting professor. In Dr. Henel's absence Dr. Hilda Laird, associate professor, will be acting head of the department, and C. H. Cardinal, M.A. (McGill) will be assistant professor. In the absence of Professor Humphrey, Brother Roger Philip, M.A. (Toronto), Ph.D. (Catholic University, Washington), will serve as professor of psychology.

Dr. William Angus, assistant professor of English and director of dramatics, has withdrawn from the Department of English and has been made

director of dramatics with the rank of assistant professor. J. G. L. Pearson is to be lecturer in philosophy instead of English.

The following are new appointments: H. P. Gundy, M.A. (Toronto), librarian; Dr. A. R. M. Lower, M.A. (Toronto), M.A. (Harvard), Ph.D. (Harvard), professor of history (Dr. Lower's latest book, *Colony to Nation*, won the Governor-General's prize for academic literature); S. E. Smethurst, M.A. (Cantab), professor of classics; A. L. Phelps, B.A. (Victoria), now assistant general supervisor, International Service, C.B.C., professor of English; W. H. Poole, M.A. (Alberta), professor of marketing in commerce; Rev. W. E. L. Smith, M.A. (Toronto), Ph.D. (Edinburgh), assistant professor of mediaeval and church history; Dr. C. R. McLean, M.D., C.M. (Queen's), M.Sc. (Queen's), assistant professor of pathology; John Houck, M.A. (Queen's), lecturer in psychology for medical students; Dr. Joseph Greenblatt, M.D., C.M. (Queen's), clinical tutor in the Department of Medicine; Miss Jenny Weir, B.Sc.N. (Alberta), M.A. Public Health (Columbia), lecturer in public health; H. W. Ellis, M.Sc. (Acadia), Ph.D. (Toronto), lecturer in mathematics; D. W. Marshall, B.A.Sc. (Toronto), M.Sc. (Toronto), lecturer in chemical engineering; Miss Pauline Jewett, M.A. (Queen's), instructor in political science.

The following promotions were made: associate professor to full professor, Gleb Krotkov, biology; assistant professor to associate professor, K. G. Crawford, head of the Institute of Local Government, C. V. Armour, civil engineering, H. S. Pollock, electrical engineering, H. W. Curran, biology, Dr. P. A. McLeod, obstetrics and gynaecology, Dr. R. C. Burr, radiology, and H. J. Styles, drawing; instructor to assistant professor, R. L. Fauconnier, French.

---

## Principal's Report Available

Copies of the *Principal's Report* may be obtained on application to the Principal's secretary, Queen's University.

# RECORD NUMBER GRADUATE AT CONVOCATION

457 STUDENTS RECEIVE DEGREES

**D**EGREES were awarded to 457 graduates at the 106th annual Spring Convocation held in Grant Hall on May 17. This was the largest number of graduates ever to receive degrees at one time in the history of Queen's. In addition, seven honorary degrees were awarded.

A feature of the ceremony was the unveiling of a portrait of Sir Edward Beatty, chancellor of the University between 1919 and 1923. The painting, which was unveiled by Vice-principal McNeill, was presented to the University by Dr. H. A. Beatty, brother of Sir Edward, and Miss Mary Beatty.

For the first time, two degrees of Bachelor of Nursing Science were awarded. Miss Dorothy M. Riches, director of the School of Nursing, presented the graduates—Joanne Langdon, of Timmins, Ontario, and Margaret Stevens, of Davidson, Saskatchewan. S. C. Robinson, M.A.Sc., of Duncan, B.C., received the degree of Doctor of Philosophy in mineralogy, being presented by Dr. E. L. Bruce, director of graduate studies. Dean Melvin present-

ed two graduates, Gertrude E. Chaplin, M.D., Toronto, and R. W. Dingwall, M.D., C.M., Kingston, for Master of Science degrees in medicine. One graduate of the Queen's Theological College, J. B. Adams, was presented for the Bachelor of Divinity degree by Principal Kent.

In his position of vice-chancellor, Principal Wallace presented those receiving honorary degrees to Chancellor Dunning. Doctor of Laws degrees were conferred on E. A. Collins, Sc. '05, formerly assistant to the vice-president of the International Nickel Company; Hon. Senator William Rupert Davies, publisher of the Kingston *Whig-Standard*; J. M. Farrell, Arts '89, Kingston lawyer; Donald Gordon, former head of the Wartime Prices and Trade Board; and Dr. K. P. R. Neville, Arts '96, former dean of Arts and registrar of the University of Western Ontario, London. Doctor of Divinity degrees were conferred on Dr. Theophile James Meek, professor of oriental languages at the University of Toronto, and on Rev. Malcolm N. Omond, Arts '09,

Front row, left to right: Principal Wallace, Dr. Donald Gordon, Dr. E. A. Collins, Senator W. R. Davies, Dr. J. M. Farrell, Dr. K. P. R. Neville, Chancellor Dunning, Rev. Dr. M. N. Omond, Dr. T. J. Meek, Mr. J. M. Macdonnell. Second Row: Dean Ellis, Dean Melvin, Dean Douglas, Dr. McNeill, Mayor S. J. Crawford, Dean Mackintosh, Principal Kent, Rev. A. M. Lavery.

Theol. '13, minister of St. Andrew's Church, North Bay.

The citations read as follows:

EVERETT ALFRED COLLINS—"Whose distinguished services to the mining industry have been matched by a long record of community service and by an unwavering devotion to his Alma Mater."

WILLIAM RUPERT DAVIES—"Who has represented the press of Canada, both at home and abroad, with vigour and distinction, as a fellow citizen."

JAMES MACALISTER FARRELL—"Whose wise judgement and enviable prestige in his profession and his community have been a valuable asset to this University over many years."

DONALD GORDON—"A man who has done much to hold the price structure in Canada stable during the stress of war. In appreciation of this difficult task the Senate desires that he receive the Doctor of Laws."

KENNETH PERCIVAL RUTHERFORD NEVILLE—"Who comes back to his Alma Mater after long and outstanding service in a sister institution, both in teaching and administration."

THEOPHILE JAMES MEEK—"Whose high reputation in the study of oriental civilization the Senate desires to honour."

MALCOLM NORMAN ORMOND—"A minister of the Gospel whose distinction of mind has been continuously dedicated to the needs of the common man."

Dr. Meek spoke briefly in acknowledgement of the honour conferred upon the recipients of the honorary degrees. Principal Wallace addressed the graduating class. The benediction was pronounced by Rev. A. M. Laverty, university chaplain, and Dr. Graham George, resident musician, played the processional and recessional marches on the organ.

Degrees by examination were awarded as follows: Ph.D., 1; B.D., 1; M.A., 11; B.A. (honours), 57; B.A. (pass), 160; B.Com., 34; M.Sc., 19; B.Sc. (honours), 25; B.Sc. (pass), 135; B.N.Sc., 2; diploma in nursing, 1; diploma in laboratory technique, 1.

Following laureation, scholarships, medals and prizes were presented.

## ALUMNI BOARD TO BUY WAR RECORD PAINTINGS

**P**URCHASE of seven paintings for the University was decided upon at the semi-annual meeting of the Board of Directors of the General Alumni Association in the Douglas Library on May 17. The paintings will be of representative members of the armed forces and will constitute a record of World War II. Miss Marion Long, R.C.A., Toronto, has been commissioned as artist.

The purchase was authorized on recommendation of a committee, headed by Mrs. D. G. Geiger of Toronto, which had studied the proposal. The intention is to place the seven paintings in panels on a forty-foot wall in one of the University buildings together with the names of alumni who died in the last war.

Twenty-one directors were present for the meeting. In the unavoidable absence of the president, N. B. MacRostie of Ottawa, First Vice-President Mrs. D. W. Boucher was in the chair.

The report of the secretary-treasurer showed that there are now 10,870 living Queen's graduates. One final canvass is now being made in connection with the alumni military records. According to the present tabulation, 3080 graduates and students were in the various services, and 167 were killed in action, died on active service, or were officially presumed dead.

At the end of March the paid-up membership in the Association was 2,432, an increase of 234 for the corresponding six months in the previous year and constituting a new record. There are now 147 life members, of whom ninety-five, or 64 per cent of the total, joined since 1940.

With reference to the work of the Employment Service, it was reported that the facilities had been strained during the past academic year because of the record number of students, graduates, and employers who sought its assistance. There were far more positions available than could be filled, and the outlook, particularly for engineers, looked bright for at least the next few years.

J. E. Wright and Dr. D. W. Boucher, both of Kingston, were appointed alumni representatives on the Athletic Board of Control for the ensuing two years, and W. P. Holdcroft and J. L. Murray, also of Kingston, were named for a one year period. A suggestion that the branches be asked to appoint honorary representatives to the Athletic Board was approved.

The following members of the Board or branch representatives were present: First Vice-President Mrs. D. W. Boucher; Second Vice-President Dr. J. E. McAskill, Watertown, N.Y.; Miss Mary L. Macdonnell, Mrs. D. G. Geiger, Dean W. A. Mackintosh, Drs. E. L. Bruce, K. P. R. Neville, Wallace Troup, J. H. Orr, O. A. Carson, Prof. D. M. Jemmett, Messrs. C. R. Buss, H. G. Bertram, Walter Little, W. H. Slinn, W. A. Newman, D. G. Geiger, M. J. Aykroyd, G. C. Monture, M. N. Hay, J. B. Stirling, and the Secretary-treasurer.

### Principal in England

PRINCIPAL WALLACE is now in England on an extended visit. He sailed from Halifax on May 24.

While in England the Principal will attend the Council of Vice-Chancellors of British Empire Universities being held at Oxford in July. Acting in his position as chairman of the Ontario Research Council, he will investigate conditions of industrial research in Britain.

Dr. Wallace will sail for Canada on August 6.

### Represented Queen's

DR. D. R. G. COWAN, Arts '17, of Cleveland, Ohio, represented Queen's at the inauguration of William Edwards Stevenson as president of Oberlin College. The ceremony was held in the Oberlin chapel on May 3, and was attended by delegates from scores of institutions of higher learning.

## GENERAL REUNION PLANNED FOR THIS FALL

BECAUSE there is still a marked shortage in the housing and dining accommodation in Kingston, a set schedule of class reunions will not be attempted this fall, it was decided with reluctance at the semi-annual meeting of the Board of Directors of the General Alumni Association on May 17.

Instead of individual class gatherings, a general Reunion programme will be provided. The Reunion will be held on the week-end of the Queen's-Varsity game on October 18, and it is hoped that many alumni will be able to attend. Every assistance will be given to classes that can make their own arrangements.

This decision was prompted by the fact that there are few small dining rooms available for class dinners at the present time, and also because the La Salle, Kingston's largest hotel, is already booked solid for the week-end of October 18 as the result of an international plowing match which is attracting many visitors to the city.

The Dix Reunion Plan, under which specific classes hold reunions each year

according to a set schedule, has not been in operation since 1939, when it was dropped because of the war. A general reunion was held in 1941, on the occasion of the University's centenary celebration, and a general reunion took place in 1945 and 1946.

Because the Dix plan has not been in operation for eight years, all classes are due for a reunion. Under present conditions it would not be possible to accommodate the normal schedule, and any increase would only further complicate the situation. One solution to the problem would be to encourage classes to hold their reunions on the occasion of one of the other two home football games, namely, Western at Queen's on November 1 and McGill at Queen's on November 15. Two Science classes are already proceeding along these lines, with a reunion scheduled for the Western game.

Officers of classes considering a reunion this fall are asked to get in touch with the Alumni Office.

## HON. C. A. DUNNING RE-ELECTED AS CHANCELLOR

**H**ON. CHARLES A. DUNNING, P.C., LL.D. '40, of Montreal, was re-elected to the chancellorship of Queen's University at the annual meeting of the University Council on May 17. Mr. Dunning has occupied this high post since 1940, having succeeded the late Dr. James A. Richardson.

Other elections which took place at the council meeting were those of Dr. J. E. McAskill, Med. '14, of Watertown, New York, and of A. G. MacLachlan,

CHANCELLOR DUNNING

Sc. '22, of Kingston, to the Board of Trustees of the University. They succeeded Dr. T. H. Farrell, Arts '90, Med. '95, of Utica, N.Y., and Dr. G. C. Bateman, C.M.G., O.B.E., Sc. '05, LL.D. '44, of Montreal, both of whom wished to retire after many years of service.

Reports were presented to the Council by Principal Wallace, Vice-Principal and Treasurer McNeill, and Director of Endowment G. J. Smith. These reports showed that in the last year Queen's had had the largest student registration, the largest income and expenditure, and one of the largest benefaction totals in the history of the University. The unprecedented registration—almost double that of any year in the past—had presented many difficult teaching, administrative, housing, and other problems, but these had all been met with reasonable success.

Among other subjects discussed were the Chancellor Dunning Trust Fund and intercollegiate athletics. Of the latter, Principal Wallace said that recent moves had been made by the Intercollegiate Athletic Union to ensure that athletics in Canadian universities would not savour of professionalism in any way. "Students at a university should play the game for its own sake, and not for anything that there may be in it for them. Any other attitude will discredit intercollegiate sport so quickly that no university will desire to continue to participate. In this the universities are as one," he said.

### HELP WANTED

**T**HE Queen's Drama Guild will celebrate its fiftieth anniversary in 1948-49. Plans are already underway, including those for a small booklet on the history of the Queen's Drama Guild. To publish this the Fiftieth Anniversary Committee of the Guild is asking the help of the alumni who have any information about former productions, actors, directors and stage workers, including reminiscences about important occasions, trials and troubles. Old programmes will be gratefully received, and pictures of productions and executives—which will be returned—are particularly desired. Please address all communications to Mrs. William Angus, Queen's University.

### Leads Engineering Institute

**A**SSOCIATE professor of engineering in the Faculty of Applied Science and a graduate of Queen's, Lt.-Col. L. F. Grant was recently elected president of the Engineering Institute of Canada.

### Has Popular Address

**"M**ONAGUA, Nicaragua, is a wonderful place . . ." How about that, J. W. D. W. Harding, Sc. '43? With such an address, you ought to know the truth of the current ditty.

## ACADEMIC AWARDS MADE AT SPRING CONVOCATION

**K.** A. MOON, Kitchener, Ontario, was awarded the Governor-General's Medal as the graduating student with the best record in the Faculty of Science, and D. M. Cornett, Oshawa, received the Prince of Wales prize, a corresponding honour in the Arts Faculty, at Spring Convocation on May 17.

Mr. Moon, who graduated with honours in chemistry, received the C.I.L. Fellowship in Chemistry and Chemical

K. A. MOON

D. M. CORNETT

Engineering, \$1000, and the medal in chemistry. Mr. Cornett, an ex-service student who graduated with first-class honours in history, won the medal in history, the Andrina McCulloch award for acting in the Drama Guild play, "Much Ado About Nothing," \$35, and shared with R. B. Farrell, Ottawa, the Alexander MacLachlan Peace Prize in History 27, \$30.

Other awards to members of the post-graduate and final-year classes in Arts were as follows: Arts Research Traveling Fellowship, \$500, R. B. Farrell, Ottawa (who also won Medal in Politics); Duncan McArthur Memorial Fellowship in History, \$500, D. W. Maddocks, Kingston; Reuben Wells Leonard Resident Fellowships, \$500 each, A. A. Smith, Rochester, N.Y. (also Medal in Psychology), T. G. Donnelly, Simcoe (also Medal in Mathematics), and J. R. Allen, Kingston (also Medal in Physics); Sir James Aikins Fellowship in Canadian History, \$400, K. B. Smith, Mount Forest; Western Ontario Graduates Fellowship in History, \$320, T. E. Layng, Kingston; Special Fellowship for use at the Summer School of Inter-

national Relations, Katharine Macdonnell, Toronto; Wilhelmina Gordon Foundation, \$25 (established by I.O.-D.E.), W. F. Sherwood, Oshawa (also Roberta McCulloch Scholarship in English, \$100, and McIver Scholarship in English, \$50); Medal in Biology, Helen Stock, Woodstock; Medal in Chemistry, K. F. Staples, Port Hope; Medal in Latin, Honor Ince, Barbados, B.W.I. (also Andrina McCulloch Scholarship in Acting, \$25); Medal in Greek, W. L. Lemoine, Ottawa; Medal in English, N. K. Crowder, Renfrew; Medal in Economics, D. G. Buckley, Ottawa; W. W. Near Scholarship in Classics, \$50, Heather Logan, Kingston; W. W. Near Scholarship in French, \$100, and in German 2, \$50, Eileen Abrams, Wallaceburg (also Edgar Forrester Scholarship in Oral French, \$20); Carnegie Fellowship for use at French Summer School of the University of Western Ontario, Mary Bogdanic, Kirkland Lake; W. W. Near Scholarship in Spanish 10, \$50 (shared), E. Mazzuca, Timmins; McIver Scholarship in English, \$50, C. W. Martin, Fredericton; Gowan Foundation No. III, \$20 in books, H. Wiseman, Outremount; E. D. Merkley Prize in Mathematics 2, \$5 in books, F. R. Forsyth, Russell; W. T. MacClement Prize in English, \$16, Joyce Fielding, Smiths Falls, and in History (shared), Ida Dhami, Montreal; Andrina McCulloch Scholarship in Debating, \$15, F. Brodie, Liverpool, England, in Acting, Leslie McNaughton, Ottawa; Andrina McCulloch Award for Presentation of Essay Material, \$15, J. L. Field, Ottawa. G. F. Bruce, Kingston, was awarded the Prize in Social Engineering, \$50.

In the Faculty of Science the following awards were made: Orvil Dryfoos Fellowship in Applied Science, Spruce Falls Power and Paper Company, Limited, \$750, C. N. Lund, Sarnia (also Medal in Chemical Engineering); Shell Oil Fellowship, \$750, M. A. Clark, Ottawa (also Medal in Physics); L. M. Arkley Prize, \$40, A. H. Baker, Winnipeg; Major James H. Rattray, M.C., Scholarship, \$100, M. E. Hriskevich, Timmins; J. B. Tyrrell Scholarship in Economic Geology, S. M. Roscoe, Noranda; E. T.

Sterne Prize in Chemical Engineering, \$25, M. E. Grimes, Ottawa; Medal in Mining Engineering, V. A. Haw, Kingston; Medal in Mineralogy and Geology, H. A. Laine, Sudbury; Metallurgical Engineering, L. F. Barnhardt, Port Colborne; Civil Engineering, C. J. Morris, B.A., Elmira; Mechanical Engineering, A. B. Harris, Riverside; Electrical Engineering, J. L. McKelvie, Saskatoon. Andrina McCulloch Scholarships for Presentation of Essay Material, \$20, and Debating, \$20, were won by A. F. Bader, Westmount.

The Jenkins Trophy, awarded annually to the student who brings most honour to the University by his athletic and scholastic ability, was awarded to J. D. Crothers, Kingston.

---

## SUMMER SCHOOL OPENS JULY 3

THE thirty-eighth session of the Summer School will open on July 3 and close August 16. Dr. H. L. Tracy, head of the classics department, will be the director of the school.

In addition to degree courses, there is the School of Fine Arts, with instruction in art, drama, ballet, and music. Instruction in puppetry has been added to the Fine Arts curriculum this summer. The Summer Radio Institute will be operating again, under the direction of Dr. William Angus. A refresher course in English will be given, mainly for teachers, by Dr. E. J. Pratt from July 23 to August 13. From July 10 to August 16 a special School of English will be held for French-speaking students. A course in community leadership will be offered July 7 to July 18 by the Ontario Adult Education Board in conjunction with Queen's.

Credit courses for those working towards degrees will be offered in art, biology, chemistry, commerce, drama, economics, English, French, geography, German, history, Latin, mathematics, music, philosophy, physics, politics, psychology and Spanish.

Ban Righ Hall and the five annexes will be open to accommodate women students.

## CALIFORNIA INSTITUTE HONOURS DR. W. B. MUNRO

FROM the trustees of the California Institute of Technology has come a copy of a brochure printed to honour Dr. W. B. Munro, Arts '96. The finely printed folio was published on the occasion of the hanging of Dr. Munro's portrait in the lounge of Dabney Hall of the Humanities. The folio contains a reproduction of the oil painting, an outline of the many achievements of this widely known educationist, and tributes by the president and vice-president of the Institute's board of trustees.

At present treasurer and a trustee of the Institute, Dr. Munro was a pioneer in the creation of the humanities division. In 1925, while he was still Jonathan Turnbull Professor of American History and Government at Harvard, Dr. Munro was asked to aid the California Institute of Technology in setting up a humanities section. He not only gave lectures and organized courses, but he planned and promoted a special building for the purpose—Dabney Hall, where his portrait now hangs over the central fire-place. In 1929 he left Harvard to devote his full time to the growing Institute, serving as professor until he took up his present duties in 1945.

Summarizing the contributions of Dr. Munro to the Institute, the vice-president of the board of trustees said in part: "... As a teacher, scholar, writer, financier, businessman, promoter, wise counsellor, able administrator and great humanitarian, William B. Munro rates as one of the most important builders of the California Institute of Technology, and it is hoped that this Seymour Thomas portrait of him will help keep his spirit and his influence alive on this campus throughout the decades and the centuries that lie ahead."

---

## Toronto Golf Tournament

THE first post-war golf tournament of the Toronto branch is being held on June 2 at the St. Andrew's Golf and Country Club. Tee offs are at 1.30 and 3.30, dinner at seven o'clock.

## STUDENTS BUILD THEIR OWN HOME

**H**AVEN'T got a place to live? Build your own! say two Science students at Queen's. The men, both R.C.A.F. veterans, point to the attractive six-room house pictured below as an example of what two rank amateurs accomplished in four months last year.

Harry Pyke, of South Porcupine, and Raymond Desjardins, of Calgary, Alberta, met while taking pre-science courses at Queen's in 1945-46. Unable to get accommodation for their wives and two children, they considered joining forces and buying a house. Prices prohibiting that solution, they decided to build one themselves.

After drawing up their own plan, the two young men set to work in April, 1946, to dig the foundation on the 110 by 40 feet lot purchased from the City of Kingston. They met with a number of problems, such as a scarcity of building materials, but all were solved by persistence. At the outset, they felt themselves incompetent to build a foundation adequate to support a house. When

they approached a mason to do the job they got the answer "too busy." Finally the impatient novices persuaded the mason to give them an hour's time one morning. The man checked the corners, laid a stone or two, and left instructions. From there on they did everything themselves except the plastering, for which they engaged a professional.

Whenever the amateurs came up against a construction problem, they would take time off to wander around the district and inspect other new houses being built. Eventually they would find a building in which their problem had been solved—then they went back and did likewise.

As for the total cost of the house, the students say there is no comparison between it and the prices asked by builders. They don't count their labour, of course, which amounted to "anywhere from ten to fourteen hours a day—considerably more than we would work for anybody but ourselves."

A HOME-MADE SOLUTION TO THE HOUSING PROBLEM

This labour, plus the initiative of the two veterans, has earned a nice new home for their families, one in which they can live within the veterans' allowance, which is more than most students are able to do. They are assured of selling the house—situated in the newest residential section of the city—if they wish to do so when they graduate in 1950. In fact, they are so well pleased with their effort that this summer the team of Pyke and Desjardins is building a second house, this time for sale.

---

### Social Events Round Out Convocation Week-end

PRINCIPAL and Mrs. Wallace entertained the recipients of honorary degrees, their wives, and Chancellor Dunning, at a luncheon prior to Convocation on May 7. Following Convocation, graduates, their families and friends, and members of the staff were guests of the University at a tea in the gymnasium. The tea was put on for the University by the Kingston alumnae, under the convenership of Mrs. A. F.

Meiklejohn (Jean Ramsay), Arts '30, assisted by Mrs. H. W. Harkness (Maude Brownlee), Arts '13.

Another feature of Convocation week-end was the preview showing of the annual spring exhibition of the Kingston Art Association, held in the Senate Room of the Old Arts Building. The fifty pieces on display, varying from portrait to purely abstract canvasses, were the work of students at classes conducted by Resident Artist André Biéler.

Saturday evening a dance for graduates and their friends was held in Grant Hall under the auspices of the General Alumni Association.

---

### New Yorkers Plan Picnic

A PICNIC for the New York alumni and their families is being held on June 7 at the 140 acre farm of Dr. J. E. Hammett, Med. '19, president of the New York branch. Boating, swimming, fishing, and games are some of the attractions promised to make the outing a success.

### STAMP COLLECTION LEFT TO QUEEN'S

QUEEN'S possesses the nucleus of what should some day be a valuable collection of stamps, left to the University eighteen months ago in the will of Dr. John Austin. The fifteen albums in the specialized collection are most notable with regard to the stamps of the British West Indies.

There are also collections in varying degrees of representation, of Africa, Australasia, and French Colonies. Canadian stamps are in two albums, and are of a general nature.

Two general collection volumes, probably made between 1880 and 1900, are divided into European and non-European. The Mexico, Nicaragua, and Salvador are notable in the latter, while excellent specimens of such countries as Tuscany, Modena, Switzerland, Sweden, and Turkey are found in the former. In

addition to the albums there are several thousand miscellaneous stamps, loose or roughly arranged.

The policy of the sub-committee—Librarian E. C. Kyte (chairman), Professor P. G. C. Campbell, and Rev. J. D. MacKenzie Naughton—is to complete as far as possible the collection of stamps relating to the British Empire, and to retain and improve, for a time at least, the South Central Americans and the stamps of the French Colonies. From the miscellaneous European collection it is hoped to dispose of a few specimens: sufficient to enable the sub-committee to purchase a showcase. The stamps will then go on exhibition in the Douglas Library.

The collection will be improved only by means of exchange, and the Librarian will welcome offers and inquiries from alumni with regard to what is available.

# At the Branches

## London

THE annual dinner was held at the Hotel London on April 15, with approximately fifty alumni and friends in attendance. The president, A. L. Furanna, Sc. '39, was in the chair.

Introduced by Canon K. E. Taylor, Arts '20, Prof. J. C. Cameron, head of the Department of Industrial Relations at Queen's, gave an interesting and informative address on "Some Friends in Industrial Relations in Canada." Professor Cameron described the work of his Department in some detail. The thanks of the meeting were expressed by Dr. H. R. Kingston, Arts '08.

Grace was proposed by Rev. L. Lawson, Arts '32. The toast to Queen's was proposed by Dr. G. B. Sexton, Med. '30, and the response was made by Mrs. E. F. J. Holden (Mary Carmichael), Arts '45. Mrs. O. S. Fells (Mabel Anderson), Arts '34, presented the annual report of the secretary-treasurer.

The report of the nominating committee, as brought in by T. W. Latta, Arts '33, Com. '34, was as follows: honorary presidents, Principal Wallace, J. H. Sexton, Arts '02, Strathroy; past president, Mr. Furanna; president, Mrs. H.

B. McMahon (Dorothy Mickle), Arts '20; vice-president, Mrs. Fells; secretary-treasurer, W. L. Gilliland, Com. '30; committee—Dr. Sexton, W. A. Spencer, Com. '32, G. W. McCracken, Arts '28, H. J. Simmons, Sc. '31, Miss Clunas McKibbin, Arts '40, Miss Winifred Balfour, Arts '16.

## Montreal

PRESENTATION of the Montreal Medal to Dr. A. L. Clark, formerly Dean of the Faculty of Applied Science at Queen's, was the highlight of the meeting held in his honour at the Ritz Carlton on May 1. The Medal is awarded annually for "meritorious contribution to the honour of Queen's."

In presenting Dr. Clark, W. A. Newman, Sc. '11, paid tribute to his reputation as a scholar, educationist, administrator, and made particular reference to his research work. He said that Dr. Clark's real reward lies in the thousands of men and women of Queen's to whom he has been an inspiration, both as an example and by the quality of his instruction that has helped to mould their lives to the benefit of Canada and to the renown of Queen's University.

## Newly Elected Branch Officers

MRS. H. B. MacMAHON  
President  
London

W. L. GILLILAND  
Secretary-Treasurer  
London

W. A. DAWSON  
President  
Hamilton

MISS MARJORIE GORDON  
President  
Ottawa Alumnae

Dr. Clark was cited as follows: "Who for forty-one years rendered a service, surpassed by none, as an educationist and administrator at Queen's; who has added to the lustre of Queen's by his initiative and devotion to research; who is responsible for translating his vision into reality and for insuring its continuity by being instrumental in founding the Chown Science Research Chair; whose qualities as a teacher with freshness and simplicity of presentation were of inestimable value to his students; whose kindness, judgment, and personality made him an able administrator, admired and respected by his fellow staff members; for having brought from comparative low standards to one of the highest, the Department of Physics of Queen's University; and, lastly, for his qualities of mind and heart which have so made of him a well-rounded example of all that is ideal as a man that he might well be the one of whom Shakespeare said:

the elements  
So mixed in him that Nature might  
stand up  
And say to all the world, "This was  
a man."

The Medal was then conferred on Dr. Clark by G. V. Knowles, Sc. '39, president of the branch.

In his remarks, Dr. Clark traced the history of the Faculty of Applied Science since its humble beginning as a School of Mining and Agriculture more than fifty years ago. His anecdotes brought vividly to mind some of the outstanding personalities who served on the staff at the turn of the century, and time and time again he made his audience laugh with humorous asides. In conclusion, he outlined briefly some of the plans for the future.

The remainder of the evening was spent in dancing.

Credit for the success of the meeting is due to the committee in charge, particularly A. S. E. Duncan, Sc. '39, and E. A. Thomas, Com. '26. The effective floral decorations, in Queen's colours, had been arranged by the alumnae. Rev. H. B. Campbell, Arts '16, asked the blessing before the guests sat down to dinner.

## Toronto

SEVEN monthly meetings of the Queen's University Luncheon Group were held during the past winter at the Royal York Hotel in Toronto. Average attendance at the luncheons, held on the first Monday of each month from October to April, was forty persons. J. R. Rutledge, Arts '22, was the chairman, assisted by T. J. Halme, Sc. '38, vice-chairman, N. E. Butler, Com. '30, and C. E. McRoberts, Sc. '33.

The following speakers were heard: George Hemmerick, Sc. '16, "Magnesium from the Sea"; Dr. J. A. Hannah, Arts '26, Med. '28, "Health Insurance"; M. J. Aykroyd, Sc. '13, "Cedar Ants of Penetang"; W. H. Paterson, Sc. '34, "Progress Report on Rapid Transit"; Major J. W. Grimmon, Arts '32, "Audio-Visual Aids"; H. S. Griffin, Sc. '23, "Canada's Export Trade"; and H. F. Ryan, "Electric Trolley Coaches."

Any alumni who want to be placed on the luncheon group mailing list are asked to get in touch with T. J. Halme, next season's chairman, at the Canadian General Electric Company, Toronto.

## Peterborough

A FINE attendance of alumni and their friends marked the spring reunion held at the Peterborough Golf and Country Club on May 10. About seventy guests gathered at the tables, gay with spring flowers, Queen's colours, and clever place-cards—replicas of Grant Hall—to enjoy one of the most successful events held by this branch.

Grace was offered by the Chaplain, F. E. Kerr, Arts '13. During the dinner hour all enjoyed the singing of the beloved college songs, under the leadership of Arnold Nofall, Arts '41, with Mrs. W. R. Moore (Maude Cooper), Arts '34, at the piano.

The guests were welcomed in a brief address by the president, R. G. Corneill, Sc. '23. The treasurer's report was presented by Miss Jean Armstrong, Arts '25, and showed a small balance.

H. J. Hamilton, secretary-treasurer of the General Alumni Association, brought

greetings from the Alma Mater and introduced the speaker of the evening, Dr. H. M. Estall, of the Department of Philosophy at Queen's. Dr. Estall gave a graphic picture of the current situation in Palestine, not only clarifying the problem for his audience, but also challenging them to do constructive thinking on similar questions. Dr. Estall was thanked on behalf of the gathering by Rev. Dr. D. B. Gordon, Arts '28.

The report of the nominating committee was brought in by Miss Alexandria Howson, Arts '09, and was accepted as follows: honorary president, R. G. Corneill, Sc. '23; president, Dr. R. A. Kelly, Med. '38; first vice-president, Miss Helen McGregor, Arts '30; second vice-president, Rev. Dr. D. B. Gordon, Arts '28; secretary, Miss Constance Wagar, Arts '41; treasurer, O. J. Frisken, Arts '27, Sc. '29; executive committee—Dr. A. G. Howson, Med. '15, Mrs. A. R. Stevenson (Betty Murray), Arts '27, R. L. Hale, Arts '28, Eric Shiner, Com. '35, G. L. Woodruff, Arts '40.

After the formal part of the programme was concluded, the remainder of the evening was spent in visiting and in playing bridge.

Credit for the success of the meeting is due in large measure to the work of the following committee members: Miss Helen McGregor, Arts '30, Mrs. E. C. Dolman (Helen Haliday), Arts '19, Rev. Dr. D. B. Gordon, Arts '28, Dr. R. A. Kelly, Med. '38, C. M. Krug, Arts '37, and Miss Jean Lancaster, Arts '34.

—C.W.

### Montreal Alumnae

THE annual meeting and luncheon of the Montreal Branch of the Alumnae Association was held on May 10 at the University Women's Club. The following slate of officers was unanimously elected for the year 1947-48:

Past president, Mrs. G. V. Roney (Kathleen McNamee), Arts '21; president, Mrs. D. B. Thomas (Roberta MacLean), '20; first vice-president, Miss Eleanor Holland, '28; second vice-president, Mrs. G. R. Woolsey (Florence Munroe), '22; treasurer, Mrs. Paul

Mosely (Mary Shields), '19; assistant treasurer, Miss Jean Ransom, '43; recording secretary, Mrs. C. F. Young (Mildred Jardine), '21; corresponding secretary, Mrs. F. A. Bailey (Virginia Hume), '32; membership convener, Miss Mardi Greig, '45; social convener, Mrs. H. B. Hanna; assistant social convener, Miss Jane MacPherson, '46; programme convener, Mrs. Arthur Nadon (Helen Smith), '28; associate membership convener, Mrs. G. V. Knowles; out-of-town membership, Mrs. W. E. Patterson.

### Hamilton

SUCCEEDING C. H. Drew, Com. '25, W. A. Dawson, Sc. '23, was elected president of the Hamilton branch for the ensuing year at the annual meeting held in the Winter Gardens on May 6.

The complete slate of officers is as follows: honorary president, Dr. W. R. Jaffrey, Med. '13; past president, Mr. Drew; president, Mr. Dawson; first vice-president, Dr. W. S. Glass, Med. '35; second vice-president, G. R. Force, Arts '39; secretary, F. J. Veale, Sc. '23; treasurer, Dr. R. A. Stewart, Med. '34.

The nominating committee, comprising five past presidents, included K. F. Ettinger, Arts '16, C. H. Drew, Com. '25, Dr. L. T. Williamson, Med. '27, J. C. Cooper, Arts '30, Dr. H. T. D. Ewart, Med. '35.

The programme for the meeting was prepared by the Arts members of the branch, with G. R. Force, Arts '39, serving as chairman and master of ceremonies. On his committee were James Cameron, Arts '28, J. G. Hazen, Arts '31, J. J. Wood, Arts '24, J. C. Cooper, Arts '30, Elliott McKnight, Arts '28.

F. F. Hicks, Arts '16, director of career planning for Hamilton's secondary schools, spoke on "Choosing Your Life Work." He described modern methods in vocational guidance, and told many interesting stories of current developments. A sound film was shown in conjunction with the address.

Frank Tindall, recently appointed Tricolour football coach, was a guest at the meeting and was introduced by H. J.

Hamilton, secretary-treasurer of the General Alumni Association, and by Dr. O. A. Carson of the Department of Metallurgy at Queen's. All three visitors spoke briefly, with particular reference to the new athletics policy of the University.

The entertainment included several dance numbers by the Waite Sisters, which were well received. Violin selections and comedy routines by William Andrews rounded out a well-balanced programme.

### Ohio

A NUMBER of Queen's alumni were present on May 3 at the first meeting of the Canadian University Association of Ohio. Dr. B. K. Sandwell, LL.D. '42, rector of Queen's, and editor of *Saturday Night*, was the guest speaker at the dinner, which was held at the Hotel Carter in Cleveland.

Graduates and former students from nearly every Canadian university were present. Dr. D. R. G. Cowan, Arts '17, is one of the five executive members. Six hundred Canadian graduates answered the questionnaire which was sent out, and 150 attended the dinner. The senior Queen's graduate was Rev. W. D. Wilkie, Arts '91, while Joyce Davies, Arts '46, was the most recent.

### Winnipeg

PRINCIPAL R. C. WALLACE addressed the members of the Winnipeg branch at a dinner meeting in Moore's Restaurant on April 8. Dr. Wallace explained the efforts made by the University to accommodate veteran students, outlined the plans for future building on the campus, and told of the activities of members and former members of staff.

Professor G. H. Herriot, Sc. '07, presided at the opening of the meeting, then turned the chair over to the newly elected president, Professor L. A. H. Warren, Arts '03. Other members of the executive for the coming year are: honorary president, Rev. J. S. Watson, Arts '95, Theol. '98; first vice-president, Mrs. R. A. Macpherson, Arts '28; second vice-president, C. H. Attwood, Sc. '12; secretary-treasurer, T. S. Webster, Arts

'43; committee—Miss Agnes Richardson, Arts '41, Mrs. W. Moore, Com. '41, C. A. Hansen, Sc. '23, Dr. D. H. Laird, Arts '98, LL.D. '45, E. G. Berry, Arts '36, and D. B. Shaw, Arts '30. Dr. P. T. Pilkey, Arts '10, D.D. '44, led the seventy members in a Queen's yell.

### Ste. Anne de Bellevue

FORMER staff members and students of Queen's residing in the Ste. Anne de Bellevue district were entertained on April 19 by Mrs. W. M. Goodwin and Mrs. R. F. Kelso (Alexina Carlyle), Arts '12, at the home of the former. Miss Barbara Goodwin, L.Mus. (McGill), entertained with a number of piano solos, and accompanied the singing of Queen's songs. University colours and old photographs added to the reunion spirit of the gathering.

The Queen's group in the Ste. Anne district includes: Col. G. G. Archibald, Arts '01; Dr. R. H. Angrove, Med. '16, and Mrs. Angrove (Vera Dix), Arts '16; Dr. D. C. Bews, Med. '35, and Mrs. Bews (Mary Woodsworth), Arts '36; Miss Novah Brownrigg, Arts '32; Mr. J. G. Coulson, Arts '19; Mrs. J. D. Davidson (Dora Snell), Arts '31; Dr. Donald Fairbairn, Arts '38; W. M. Goodwin, Arts '09, Sc. '11; A. M. Goodwin, Sc. '49; K. M. Goodwin, Arts '50; J. H. Harpell, Arts '01; Miss Jean Harpell, Arts '35; Mrs. L. G. Heimpel (Blanche MacLeod), Arts '15; Miss Ruth Heimpel, Arts '46; E. M. Howarth, Arts '48; Dr. R. F. Kelso, Arts '10, Med. '13; Dr. Sinclair Laird, staff, Educ. '10-'13; Mrs. F. MacLean (Laura Layng), Arts '31; A. C. Malloch, Sc. '21, and Mrs. Malloch (Flora Abernethy), Arts '17; W. M. Martin, Sc. '41; Dr. M. J. Miller, Med. '44; Miss Norma McCuaig, Arts '47; Dr. F. B. McIntosh, Med. '08; J. W. Popkin, Com. '30; Miss Jessie Snaden, Arts '44; Mrs. W. H. Snary (Signe Ilkka), Arts '45; Mrs. J. Stafford (Julie Woodburn), Arts '37; R. C. Ness, Arts '39; Miss Elizabeth Steeves, Arts '49; Miss Margaret Stewart, Arts '38; Mrs. John Turner (Dorothy Strong), Arts '44; and Mrs. E. M. Van Koughnet (Margery Booth), Arts '24.

Mrs. D. B. Thomas (Roberta McLean), Arts '20, president of the Montreal alumnae, and G. V. Knowles, Sc. '39, with Mrs. Knowles, from the Montreal alumni, attended the meeting.

### Ottawa

"OIL Thigh na Banrig-hinn" and the skirl of the pipes echoed through the halls of the Chateau Laurier on April 15 as three hundred distinguished graduates and guests attended the annual dinner of the Ottawa branch.

The function served as an introduction for Dr. D. L. C. Bingham, professor of surgery, a recent addition to the staff of Queen's. As guest of honour, Dr. Bingham delivered an illustrated address on historical developments leading to the Second Great War and aspects of the North African campaign as seen by a medical officer.

The banquet opened in traditional manner when the head table guests were led in by John Sutherland of the Cameron Highlanders playing a spirited *Bonnie Dundee*. During the early part of the colourful programme, those seated at head table were introduced by Dr. Wal-

lace Troup, Med. '24, president. Representatives of other universities were called upon to lead in the rendition of their respective college yells.

Dr. Troup referred to the late C. Jackson Booth, Arts '85, honorary president of the branch and a most loyal alumnus. Tribute was also paid to Rev. Dr. Hugh Cameron, Arts '76, at the top of the seniority list of living graduates.

In introducing the guest of honour, J. M. Macdonnell, Arts '04, LL.D. '41, M.P., described Dr. Bingham as a great medical man and a most welcome addition to the staff at Queen's. The speaker was thanked by Dr. J. J. McCann, Med. '09, minister of national revenue, who referred to the fact that Queen's had produced many men and women for Ottawa and that these had done an outstanding job for Canada.

Among those seated at the head table were Donald Gordon, formerly head of the Wartime Prices and Trade Board. Mr. Gordon received an honorary degree at the Spring Convocation.

During the evening, Miss Jean Burrows, Arts '37, led the gathering in the

SECTION OF THE TURNOUT AT THE OTTAWA ANNUAL DINNER

singing of Queen's songs. The proceedings were enlivened by a snake dance in which the head table guests participated.

The committee in charge of this highly successful function consisted of Miss Helen Lynton, Arts '41, Miss Mary Rowland, Arts '26, Com. '28, J. L. Shearer, Sc. '28, P. E. H. Brady, Arts '41, D. H. W. Henry, Arts '39, W. H. Showman, Arts '30, and Dr. W. P. E. Paterson, Med. '26.

### Toronto Alumnae

**A**N outline of the year's activities of the Toronto Alumnae has been received recently, covering March, 1946, to March, 1947.

On May 18 last year the branch held a spring luncheon at the Old Mill, with a guest speaker and a soloist. In October Miss Martha Murphy, Arts '24, spoke on "Problems in the Placement of Women Workers." Mrs. R. E. Dowsett (Jean Rose), Arts '19, Miss Kathleen

Elliott, Arts '26, Mrs. A. L. Scace (Jean Simmons), Com. '26, Mrs. J. E. O'Farrell (Anne McAllister), Arts '22, and Miss Dorothy Wilson, Arts '13, told of work of the Alumnae. Fifteen recent graduates were introduced and welcomed.

In November the executive entertained eighteen recent graduates at a Sunday tea in the home of Mrs. J. M. Hazlett (Flora Fair), Arts '16. In January, 142 members and guests heard Mrs. J. Davidson speak at the Art Gallery and also enjoyed a special exhibit of French paintings. Forty tables turned up for the bridge held at the Sherbourne House Club in February. In March Mr. Herman Voaden, Arts '24, spoke on the United Nations Educational, Scientific, and Cultural Organization.

Each month two alumnae executives were the guests of the alumni executive at the latter's regular supper meeting programme.

---

### MRS. R. E. DOWSETT HEADS QUEEN'S ALUMNAE

**M**RS. R. E. DOWSETT (Jean Rose), Arts '19, Toronto, was elected president of the Queen's Alumnae Association for the ensuing year, at the annual meeting held in Ban Righ Hall on April 26. Mrs. Dowsett succeeds Mrs. J. E. Mackay (Eleanor Minnes), Arts '14, who had served for the past two years.

Other officers appointed were as follows: first vice-president, Mrs. W. R. Hambly (Edna McGill), '12, London; second vice-president, Miss Jean Royce, '30, Kingston; third vice-president, Mrs. A. G. Racey (Phyllis Leggett), '31, Montreal; secretary, Mrs. A. R. Foster (Margaret Porteous), '23, Toronto; treasurer, Miss Kathleen Elliott, '26, Toronto; archivist, Miss Jean Richardson, '35, Kingston; councillors—Miss Vera Ballance, '25, Burlington; Miss Mary McCallum, '16, Smiths Falls; Mrs. J. T. Barker (Isobel Shaw), Arts '38, Hamilton; Mrs. D. W. Smith (Dorothy Sutherland), '23, Windsor; Miss Muriel Smith, '32, Strathroy; Mrs. S. J.

Schofield (Florence Tait), '12, Vancouver; Miss Evalina Thompson, '38, Kingston; Alumnae liaison representative with the Alumni Association, Miss Melva Eagleson, '25, Kingston; representative on the *Review*, Mrs. H. W. Harkness (Maude Brownlee), '13, Kingston; Levana representative, Miss Edith Kent, '47, Kingston.

---

### McLaughlin Hall To Be Ready By Middle of November

**W**ORK on McLaughlin Hall, the new \$300,000 mechanical engineering building donated by Col. R. S. McLaughlin, of Oshawa, has been under way since last September. Although construction is somewhat unpredictable these days, it has been estimated that the classrooms and offices of the building will be ready to use by the middle of November, but the laboratories will not be available during next winter's session. McLaughlin Hall is being raised on the site of the University Observatory at the corner of Stuart Street and University Avenue.

# Alumni News

## Births

**Bond**—At the Kingston General Hospital, on May 13, to Mr. Gordon Bond and Mrs. Bond (Dorothy Marett), Arts '35, twin daughters.

**Brady**—On May 2, at the Ottawa Civic Hospital, to P. E. H. Brady, Arts '41, and Mrs. Brady (Margaret Jean Nesbitt), Arts '42, a daughter.

**Card**—On May 5, to Dr. J. R. Card, Med. '37, and Mrs. Card (Jean Truscott), Arts '34, of Toronto, a daughter.

**Clarke**—At the Hotel Dieu Hospital, Kingston, on April 25, to J. J. Clarke, Sc. '41, and Mrs. Clarke (Julie O'Grady), Arts '42, a daughter.

**Clare**—On May 3, at the Hotel Dieu Hospital, Windsor, Ont., to Dr. D. W. Clare, Med. '40, and Mrs. Clare, of Essex, Ont., a son.

**Conybeare**—At Edmonton, Alta., in August, 1946, to Eric Conybeare, Arts '47, and Mrs. Conybeare (Verna Glaholt), Arts '49, a daughter (Stephanie).

**Davoud**—At the Winnipeg General Hospital on April 25, to Group Captain Paul Davoud, Sc. '34, and Mrs. Davoud, a son (Michael Gordon).

**Elliott**—At Mount Hamilton Hospital, Hamilton, Ont., on April 8, to Dr. R. C. Elliott, Med. '44, and Mrs. Elliott (Catherine Rowland, Arts '43, a daughter (Judith Catherine).

**Finley**—On May 5, to Dr. J. C. Finley, Med. '35, and Mrs. Finley (Alison Mitchell), Arts '38, of Meaford, Ont., a son (John Richard).

**Graves**—At the Ottawa Civic Hospital, on April 29, to H. A. Graves, Sc. '28, and Mrs. Graves (Maidie Baker), Arts '32, a son.

**Gordon**—At the Ottawa Civic Hospital, on April 29, to Dr. Alan Gordon, Med. '44, and Mrs. Gordon, a daughter.

**Green**—At the Kingston General Hospital, on May 3, to Dr. O. R. Green, Med. '43, and Mrs. Green, a daughter.

**Honey**—On April 29, at Grace Hospital, Toronto, to J. C. Honey, Sc. '33, and Mrs. Honey (Dorothy Mayhew), Arts '34, a daughter (Janet Ellen).

**Iveson**—At the Ottawa Civic Hospital, on April 29, to Mr. L. B. H. Iveson and Mrs. Iveson (Agnes Ritchie), Arts '43, a son.

**Londerville**—On December 28, 1946, at Peterborough, Ont., to J. J. D. Londerville, Arts '41, and Mrs. Londerville (Margaret Whittaker), Arts '41, a daughter (Margaret Anne).

**McCourt**—At the Kingston General Hospital, on March 8, to Garry McCourt, Sc. '43, and Mrs. McCourt (Barbara McWilliam), Arts '42, a son (Peter).

**McIntosh**—At the Ottawa Civic Hospital, on May 5, to D. C. McIntosh, Arts '44, and

Mrs. McIntosh (Norma Jean Hamilton), Arts '47, a son (Douglas Wilson).

**McQuay**—At the Kingston General Hospital, on April 20, to Dr. J. R. McQuay, Med. '45, and Mrs. McQuay, a son.

**Neumann**—At the Maternity Hospital, Val D'Or, Que., on March 23, to G. W. Neumann, Sc. '40, and Mrs. Neumann, a son (Brian Everett).

**Park**—On March 10, at the Private Patients' Pavilion, Toronto General Hospital, to M. W. Park, Arts '42, and Mrs. Park, a son (Ian Gregory).

**Reynolds**—At Camberley, Surrey, England, on May 23, to Lt.-Col. W. B. G. Reynolds and Mrs. Reynolds (Barbara Lowe), Arts '32, a son (Michael Roderick Lowe).

**Robinson**—On January 22, at the Mount Hamilton Hospital, Hamilton, Ont., to Dr. H. C. Robinson, Med. '30, and Mrs. Robinson, a son (Cameron).

**Robson**—On April 30, at the Ottawa Civic Hospital, to B. C. Robson, Arts '33, and Mrs. Robson, a daughter.

**Rust**—At St. Mary's Hospital, Kitchener, Ont., on April 25, to T. G. Rust, Sc. '42, and Mrs. Rust, a son (Thomas).

**Savory**—On May 1, at Mount Hamilton Hospital, Hamilton, Ont., to J. A. Savory, Sc. '41, and Mrs. Savory, a daughter (Linda Mary).

**Stollery**—At Haileybury, Ont., on April 30, to A. W. Stollery, Sc. '39, and Mrs. Stollery, a son.

**Trull**—At the Kingston General Hospital, on April 20, to L. A. Trull, Arts '32, and Mrs. Trull, a daughter.

**Upham**—At the St. Mary's Hospital, Timmins, Ont., on May 3, to M. A. Upham, Sc. '41, and Mrs. Upham, a daughter (Margaret Kathryn).

**Whyte**—On May 3, at the Ottawa Civic Hospital, to Dr. D. W. Whyte, Med. '40, and Mrs. Whyte, a son.

**Williams**—On January 19, at Grace Hospital, Ottawa, to A. R. Williams, Sc. '42, and Mrs. Williams, a daughter (Janet Leslie).

**Williams**—In January, to C. T. Williams, Sc. '41, and Mrs. Williams, of Guayaquil, Ecuador, a son (Ronald Cameron).

## Marriages

**Campbell**—On May 17, in the chapel of Bishop Strachan School, Toronto, Florence Marguerite Isobel Campbell, Arts '44, to Mr. Donald MacKay Deacon.

**Davey - Geiger**—At Deer Park United Church Chapel, Toronto, on May 24, Shirley Geiger, Arts '47, daughter of D. G. Geiger, Sc. '22, and Mrs. Geiger (Goldie Bartels), Arts '22, to Peter William Davey, Med. '49. Miss Barbara Ettinger, Arts '48, was bridesmaid, William Beattie, Med. '49, was a groomsmen, and D. W. Geiger, Med. '52, and M. A. Gill, Arts '47, were ushers.

**Elgee - Dyke**—In Morgan Memorial Chapel, Queen's University, on April 21, Katharine B. Dyke, Arts '43, to Harold Earl Elgee, Sc. '47.

**Holloway - McGaughey**—On May 24, in Morgan Memorial Chapel, Queen's University, Grace McGaughey, Arts '48, daughter of the late Charles S. McGaughey, Arts '10, and Mrs. McGaughey, of North Bay, Ont., to Arthur Francis Holloway, Sc. '44, of the mathematics staff at the University.

**Jaquith**—On April 27, at Bexley, Ohio, Wilma C. Long, of Columbus, Ohio, to Dr. Walter A. Jaquith, Med. '98. Their address is Apt. 903, 926 East Broad St., Columbus.

**Leitch - Smith**—On March 29, at Vancouver, B.C., Bernice P. H. Smith, Arts '46, to Henry C. B. Leitch, Sc. '46. Mr. Leitch is doing postgraduate work at the University of British Columbia and Mrs. Leitch is psychologist at the Vancouver Child Guidance Clinic.

**Newman**—On May 17, in Chalmers United Church, Kingston, Elizabeth Cameron Broom to Fred Stevenson Newman, Sc. '42. They will live in Kingston, where Mr. Newman is on the staff of Canadian Industries Limited (nylon division).

**Slater - Bell**—In Walmer Road Baptist Church, Toronto, early in May, Lillian Margaret Bell, Arts '42, to David Walker Slater, Arts '47.

**Steacy**—In St. Michael's Cathedral, Toronto, on May 3, Wenonah Carroll Seitz to Douglas Edward Steacy, Arts '43, of Kingston. His Eminence, James C. Cardinal McGuigan, officiated.

## Deaths

**Carmichael**—District chief medical officer of the Department of Veterans' Affairs in Regina, Saskatchewan, Dr. Malcolm Alexander Carmichael, Med. '08, died in Regina Hospital on April 21. A native of Cape Breton Island, Dr. Carmichael came to Queen's in the fall of 1902. Six years later he graduated with his M.D., C.M. degrees, and moved to Strassbourg, Saskatchewan. In 1913 he married Miss Helena McMahon, of Kingston, who predeceased him. Dr. Carmichael served with the R.C.A.M.C. from 1916 to 1918, when he returned to Strassbourg and resumed his practice. In 1928 he was appointed to the Department of National Health and Pensions. Until he took the position he held at his death, Dr. Carmichael had been medical examiner for pensions, district administrator and chief medical officer of the department. He was sixty-six years of age. Surviving are a son, a brother and a sister.

**Fetterly**—Formerly principal of the Ontario School for the Deaf at Belleville, Ontario, H. B. Fetterly, Arts '04, died in the Belleville General Hospital on May 10 after a four months' illness. Mr. Fetterly retired from educational work in 1934. He had taught in many places, and held positions at Avonmore, Winchester and Corn-

wall. He was principal of Cornwall Collegiate Institute from 1911 till 1918, when he was appointed inspector of public schools in Dundas County. In 1931 he assumed the principalship of the School for the Deaf. Working extramurally, Mr. Fetterly received his B.A. degree from Queen's in 1904, and his M.A. degree in 1906. For a number of years Mr. Fetterly was a member of the Board of Education in Belleville, serving as chairman in 1941. He was a former chairman of the Association of Ontario Public School Trustees and Ratepayers Association of Ontario, and at the time of his death was vice-president of the Association. He was a member of the editorial board of the Argus, published by the Association. Mr. Fetterly held high offices in the A.F. and A.M., the Loyal Orange Order and the I.O.O.F., belonged to the Belleville Rotary Club, and was past president of the Children's Aid Society. In addition to his wife, he is survived by two daughters, Dr. Muriel Cuykendall, of Ithaca, New York, and Miss Jean Fetterly, Arts '26, chief librarian at the Oshawa Public Library.

**Jacobson**—Caldwell Jacobson, principal of Kensington School, Montreal, died suddenly April 25 while on his way to school. Mr. Jacobson was fifty-two years of age, and had held the Kensington post for the past eighteen years. Educated at Bath, Maine, and later at Macdonald College, Ste. Anne de Bellevue, he enrolled for extramural courses at Queen's a number of years ago. Prior to moving to Montreal twenty-nine years ago, Mr. Jacobson had teaching posts in the Gaspé and at Farnham. He was a veteran of the Royal Flying Corps.

**McIntosh**—After an illness of many months, Dr. Frank Blake McIntosh, Med. '08, died in Ste. Anne's Military Hospital, Ste. Anne de Bellevue, on May 16. Dr. McIntosh was born at North Williamsburg, Ontario, and received his early education at Kingston and Morrisburg Collegiate Institutes. In 1904 he entered the Faculty of Medicine at Queen's, graduating in 1908 with M.D., C.M. degrees. Until the outbreak of World War I he practised medicine on Manitoulin Island. From 1915 to 1919 he served with the R.A.M.C. in England and Salonika. After his return he joined the staff of the Selkirk Mental Hospital. From 1924 to 1941 he was engaged in private practice in Emerson, Manitoba. In 1941 he joined the medical staff of the Ste. Anne's Military Hospital. Dr. McIntosh was a great student of history and of Shakespeare, and was considered by all who knew him to be an authority on these subjects. He is survived by his wife, a daughter and a son. An elder daughter, Estelle, Arts '47, predeceased him in 1944.

**McKay**—The death of Dr. M. H. McKay, Med. '00, occurred in Antigonish, Nova Scotia, on March 26. He was seventy-seven years of age. Dr. McKay was born

at Lake Ainslie, Cape Breton, and received his early education at Sidney Academy. He attended Queen's from 1895 to 1899, and after graduating went immediately to West Bay, Nova Scotia, where he practised continuously until his death. Keenly interested in public affairs, in the 1920 provincial elections he was a Conservative candidate for Inverness county.

**Nute**—Smelter efficiency engineer at the International Nickel Company in Copper Cliff, Ontario, Clarence William Nute, Sc. '28, died on May 16 in the Copper Cliff Hospital. He had been in poor health since the start of the year, but did not enter hospital until a few days before his death. Mr. Nute was born in Brockville in 1905, and received his preliminary education at the collegiate institute there. He entered Queen's in the fall of 1924, and in 1928 graduated as a metallurgical engineer. Until 1931 he was employed in the Inco refinery at Port Colborne, and then he moved to the position in Copper Cliff which he held at his death. A prominent

curler, Mr. Nute was the immediate past president of the Copper Cliff club, and also a former secretary of the Northern Ontario Curling Association. Surviving are his widow, two sons, and a daughter.

**Perney**—Widely known for his work in the field of education, Frank E. Perney, B.A. '02, B.Paed. '10, died at his home in Hamilton on April 29, in his seventy-eighth year. Mr. Perney received his degrees extramurally from Queen's, while engaged in the teaching profession. He was principal of a number of schools, including Norwood Model School and a public school in Ottawa, and was on the staff of the Hamilton Normal School. In 1920 he was appointed a public school inspector in Hamilton, in 1925 a chief inspector, and in 1942 he was named supervisor of education for Hamilton, with jurisdiction over all schools. Mr. Perney also served as an alderman on the Ottawa city council, and he was a member of both the Ottawa and Hamilton library boards. He was a past president of the Hamilton Rotary

Club and belonged also to the Canadian Club and the Scottish Rite Club, as well as reaching the highest attainment in the Masonic Order.

**Sherk**—President of the Erie Plastics Company, Pennsylvania, Harold C. Sherk, Sc. '15, died in hospital in Erie on January 9, following an operation. He had been ill since Christmas Day. Mr. Sherk was born in Sherkston, Ontario, and received his preliminary education at the high school in Welland, Ontario. He was enrolled in the chemistry course of the engineering faculty for two years, a member of the class of 1915. His first position was at the Electro Metals, Welland, of which he was assistant manager when he left to go to California. After a year and a half he moved to St. Mary's, Pennsylvania, where he was production manager for the Speer Carbon Company. In 1929 he went to Erie, and became vice-president and general manager of the Erie Resistor Company until 1938, when he became president of the Erie Plastics Company. Mr. Sherk is survived by his wife, three daughters, his mother, a brother and four sisters.

**Stewart**—Medical practitioner for forty years, and past president of the College of Physicians and Surgeons of Ontario, Dr. John Robertson Stewart, Arts '04, Med. '06, died May 26 at his home in Toronto after a prolonged illness. Dr. Stewart was born at Waba, Ontario, sixty-seven years ago. He received his early education at Carleton Place Collegiate Institute, prior to enrolling in the Arts Faculty at Queen's in 1900. In 1904 he received his Bachelor of Arts degree, and two years later his M.D., C.M. degrees. He practised thirteen years in Cobden, then in 1922 moved to Toronto. Dr. Stewart was active in the Academy of Medicine, a past president of the Toronto East Medical Association, and a member of the Masonic Order and the C.O.F. In 1945 he was elected president of the College of Physicians and Surgeons of Ontario. In addition to his widow, the former Lulu Reid, Arts '05, he is survived by a daughter, two sons, a sister, Mrs. G. A. Brown (Lily Stewart), Arts '07, and four brothers, including William Stewart, Sc. '14.

### Notes

#### 1890 - 1899

**Dr. W. S. Kirkland**, Arts '98, LL.D. '32, has given up his position as registrar of trade schools in the Ontario Department of Education to become Educational Director of the Canadian Institute of Science and Technology. He has recently been devoting considerable time to the opening of an American division in Washington, D.C.

**Rev. J. S. Watson**, Arts '95, Theol. '98, honorary president of the Winnipeg branch of the General Alumni Association, is now retired and living at 929 Byng Place, Winnipeg. For many years he was field secretary of the Lord's Day Alliance in Manitoba and Saskatchewan. On April 20 the United College in Winnipeg conferred upon him the degree of Doctor of Divinity at its annual convocation.

#### 1900 - 1909

**M. U. Ferguson**, Sc. '04, Port Hope, Ont., was bereaved by the death of his wife on May 8.

**Herbert T. White**, Arts '07, Sc. '09, is retired and living at 642 Roycroft Ave., Long Beach, Calif.

**G. W. Mason**, Arts '02, Toronto, has been elected treasurer of the Law Society of Upper Canada. Mr. Mason is senior member of the law firm of Mason, Foulds, Davidson and Gale.

#### 1910 - 1919

**Dr. L. Noble Armstrong**, Med. '16, was recently elected to the board of directors of the Ontario Society for Crippled Children.

**W. G. Barrett**, Sc. '16, is general superintendent for the Aluminum Company of Canada at their plant in Wakefield, Que.

**H. C. Craig**, Sc. '15, is with the Department of Mines and Resources, Ottawa.

**Col. R. D. Harkness**, Sc. '13, Montreal, was recently elected a director of the Howard Smith Paper Mills Limited. Colonel Harkness is now vice-president, general manager, and a director of the Northern Electric Company.

Dr. W. H. Lloyd, Med. '16, has opened an office for the practice of medicine at 159 Wellington St., Kingston. After leaving Queen's Dr. Lloyd did postgraduate work at the New York Postgraduate Medical School and Hospital and at the Lying-in Hospital and the Willard-Parker skin and cancer hospital in New York. For a number of years he was chief of the department of internal medicine at Jeannes Cancer and Diagnostic Hospital in Philadelphia.

Dr. K. L. MacKinnon, Med. '15, who has practised in Renfrew, Ont., since 1919, recently announced his retirement. He will live in Napanee, Ont.

Mrs. George McLeod (Muriel Waterhouse), Arts '19, was bereaved on May 25 by the death of her father at Kingston.

J. N. Stinson, Sc. '14, was bereaved by the death of his mother on April 21.

T. K. Waddell, Arts '16, has been elected honorary president of the Ottawa Secondary Schools Men Teachers' Association.

#### 1920 - 1929

Mrs. J. E. Brink (Glee McRory), Arts '23, has moved from Athens to Brockville, Ont., where her husband has been appointed to the science staff of the collegiate institute.

A. J. G. Campbell, Sc. '23, of the staff of Imperial Oil Limited, has been transferred from Hamilton to Toronto.

## RIDLEY COLLEGE FOR BOYS

Ridley College—for boys 8 to 18—combines the advantages of supervised residential life in modern buildings, with sound academic, athletic and character training. Over 50 acres of playing fields for organized recreation. Generous entrance Scholarships and bursaries.

For information and illustrated prospectus, write the Headmaster—H. C. Griffith, M.A., LL.D.

Applications are now being entertained for boys who will be ready to enter Ridley College in 1947 and later years.

## PICKERING COLLEGE

NEWMARKET, ONTARIO

*A Residential School for Boys*

### Your Boy's Future

The development of the total personality of the child is the aim of a modern educational programme. Therefore, besides academic instruction it is our endeavour at Pickering to inculcate a knowledge and understanding which prepares students for citizenship in a changing world. In addition to the usual academic programme, school life at Pickering promotes the physical, social and spiritual development of its students by offering a wide range of interests and supplementary activities—lectures and discussion groups on current problems, civic and economic—specialized library service—hobby clubs—vocational guidance—musical, artistic and dramatic interests. Seasonal athletic activities throughout the year.

For full information, write the Headmaster.

The Autumn Term Opens Sept. 11th

Elsie Davidson, Arts '23, Gananoque, Ont., was bereaved by the death of her mother, Mrs. Henry Davidson, on April 27.

W. A. Dawson, Sc. '23, Hamilton, Ont., was elected national secretary of the American Society of Tool Engineers at the recent annual meeting held in Houston, Texas. He is manager of the F. F. Barber Machinery Company of Hamilton and president of the Hamilton alumni branch.

R. E. Dimma, Arts '28, of the Mutual Life of Canada staff, has been transferred from Halifax to Peterborough, Ont.

Miss Melva Eagleson, Arts '25, of the Queen's Library staff, was bereaved by the death of her mother at Ottawa on May 6.

Dr. Amos Friend, Med. '23, Manchester, Conn., Dr. Austin Friend, Med. '24, Seattle, Wash., and Dr. William Friend, Arts '27, Med. '29, Minneapolis, Minn., were bereaved by the death of their father at Kingston on April 22.

F. D. McPherson, Com. '29, is on the staff of the Ontario Hospital at Hamilton, Ont.

Dr. N. A. MacRae, Arts '28, has been appointed chief, tobacco division, Central Experimental Farm, Ottawa. After graduating from Queen's Dr. MacRae attended Macdonald College, where he received the degree of M.Sc. He obtained his Ph.D. at the University of California. He has been with the tobacco division since 1930.

H. R. Osborne, Sc. '24, has been appointed chief engineer of Ferranti Electric Limited, Toronto.

H. S. Rees, Sc. '29, has been appointed chief aeronautical engineer in the Department of Transport. He will act as technical adviser to the controller of civil aviation on all matters relating to the design, construction and performance of aircraft, aircraft engines and accessories for government, commercial or private use. For the past two years Mr. Rees has been research aeronautical engineer with the Air Transport Board.

Dr. A. D. Roberts, Med. '22, has returned to his practice in Sault Ste. Marie, Ont., after an illness of several months. He is an eye, ear, nose and throat specialist.

Paul Sykes, Com. '23, formerly of Bombay, India, has been appointed Canadian Government Trade Commissioner at Singapore. His address is Union Building, Box 845, Singapore.

#### 1930 - 1939

K. B. Andre, Sc. '37, has gone into business with his father, Mr. Thomas A. Andre, general contractor, Kingston. The firm will now be known as Thomas A. Andre and Sons.

G. A. Antenbring, Sc. '37, is mine superintendent at Cochenour-Willans Gold Mines, McKenzie Island, Ontario.

R. H. Bray, Sc. '32, is attending the graduate school of aeronautical engineering at Cornell University, Ithaca, N.Y.

M. A. Buell, Sc. '34, has been named general sales manager of Roofers Supply Company, Toronto. He has been associated with the company for eleven years.

J. B. Callan, Arts '32, has been elected vice-president of the Ottawa Secondary Schools Men Teachers' Association. J. W. Fawcett, Arts '30, Com. '32, was elected treasurer.

K. C. Field, Sc. '37, formerly of Niagara Falls, Ont., is now in the draughting department of the Aluminum Company of Canada in Arvida, Que.

J. C. Honey, Sc. '33, was elected to the Board of Directors of the Chemical Institute of Canada in June, 1946, and shortly afterwards was made director of membership. Mr. Honey joined the Institute as a student member while at the University.

K. M. MacIlraith, Arts '30, is an actuary with the Department of Insurance, Dominion Government and is at present stationed in Toronto.

A. G. McColl, Arts '31, has resigned as principal of Kirkland Lake High School, in which position he served for nine years, to become director of a five-year research programme being undertaken by the Canadian Education Association.

Dr. B. C. Miller, Med. '37, has opened an office for the practice of Medicine on Stone Street South, Gananoque, Ont.

V. A. Oille, Sc. '35, is with Noranda Mines, Noranda, Que.

Dr. J. C. Pinch, Med. '33, is practising in Guelph, Ont.

W. A. Roberts, Arts '35, principal of Buckingham High School, Buckingham, Que., has been appointed supervisor of the new Compton County Protestant Central School Board in Quebec.

D. M. Shepherd, Arts '39, has been awarded a \$1200 scholarship in classics by the University of Chicago. Mr. Shepherd is at present on the teaching staff of Dalhousie University. He expects to attend the University of Chicago this fall, where he will do work towards his Ph.D.

Dr. A. E. Thoms, Med. '36, Kingston, was bereaved in April by the death of his father.

Dr. G. K. Trotter, Med. '39, is practising in Woodstock, Ont.

E. B. Wright, Sc. '38, has been appointed mine superintendent of the American Nepheline Company, Lakefield, Ont.

#### 1940 - 1947

T. J. Barry, Sc. '41, has joined the staff of the Polymer Corporation in Sarnia, Ont.

Harrison Burbidge, Sc. '44, has joined the staff of the Provincial Paper Company in Port Arthur, Ont.

Dr. W. J. Donevan, Med. '47, has started in private practice at Marmora, Ont.

Dr. W. J. Flay, Med. '41, has been appointed resident medical doctor of North Gower, Ont., and the surrounding territory.

Dr. W. G. Green, Med. '46, has established a medical practice in Port Burwell, Ont.

W. G. Greenwood, Com. '41, has gone to Bogota, Colombia, where he is in the audit department of the Tropical Oil Company.

Peter Haridge (Herisch), Sc. '46, has been on the staff of the Canadian International Paper Company, Gatineau, Que., since graduation.

J. G. Jarvis, Sc. '45, is with the Eastman Kodak Company, Rochester, N.Y., as research physicist.

V. F. Harrison, Sc. '43, and H. D. Woods, Sc. '47, have entered the photographic business in Kingston under the name of "Harrison Woods, Photographers."

J. H. C. Houston, Com. '40, is on leave of absence from RCA Victor Company, Montreal, to attend the Advance Management Association, Harvard Graduate School of Business Administration.

Dr. Ian McNeill, Med. '45, is taking a course in internal medicine at Toronto Western Hospital.

J. A. Maguire, Arts '42, is on the staff of the Children's Aid Society in Detroit, Mich.

G. J. Mantell, Sc. '45, has been awarded a du Pont postgraduate fellowship in chemistry for the 1947-48 academic year. Mr. Mantell recently completed his second year of graduate work in the field of organic chemistry at New York University.

J. M. Miller, Arts '46, is lecturing in history at McGill University.

Dr. L. J. Mulvihill, Med. '42, is practising at Little Current, Ont., in partnership with Dr. C. R. Young.

L. A. Page, Sc. '44, is doing postgraduate work in nuclear physics at Cornell University, Ithaca, N.Y.

S. P. Patzalek, Sc. '44, is in Hamilton, Ont., where he is in the photographic supply business with his brother.

Dr. Nathan Shklov, Med. '40, has established a medical practice in Vernon, B.C.

J. C. Webb, Arts '44, Com. '45, (M.B.A. Chicago), has been appointed assistant professor in the department of economics at Mount Union College, Alliance, Ohio. During the past year he was doing work towards his Ph.D. at Syracuse University.

A. R. Williams, Sc. '42, is with the International Paper Company at Dalhousie, N.B.

C. T. Williams, Sc. '41, returned to Ecuador early in May with his family after having spent seven months on vacation in Canada. He is continuing his work as mine foreman for the South American Development Company.

Anne Elizabeth (Betty) Wilson, Arts '40, recently left the employ of the Aluminum Company of Canada Limited, Kingston, and is now on the staff of the National Research Council Atomic Energy Project at Chalk River, Ont. Her address is Staff Hotel, Deep River, Ont.

"Oh you darling . . . How simply perfect!"

"Perfection . . . Check ☒ . . . As they say about Sweet Caps."

*"The purest form in which tobacco can be smoked"*

## Alumni Fund

### A MESSAGE FROM THE DIRECTOR OF ENDOWMENT

---

- In 1941 the plan of Annual Contributions was suggested to Queen's alumni as a practical method by which they could render valuable aid to their Alma Mater.
- During the five years that have passed since then, the sum of \$149, 180 has been contributed by the individual alumni to help maintain and extend the work of their Alma Mater, an average of \$29,836 a year by an average of 699 donors. The totals contributed by individual alumni over this period have ranged from 25 cents to \$25,620. In addition, various alumni and student organizations have given \$75,340—an average of \$15,068 a year.
- The money thus contributed has been allocated to general endowment or maintenance funds, to scholarships, bursaries or prizes, or to other special projects, in accordance with the donors' desires. The unrestricted gifts have been perhaps the most valuable since they could be used where the need was the greatest. The importance of this "free" money cannot be overstated. It helped to prevent serious damage during the war. It will be of similar assistance during the reconversion period.
- So much has been done for Queen's by a relatively small number of her alumni. So much more would have been done if every one of Queen's 15,000 alumni gave his or her help. Queen's needs this help.
- If you have been contributing, please accept this as a message of thanks. Your past assistance has been very welcome. Your future help will be similarly valued.

DR. W. A. MACKINTOSH  
VICE-PRINCIPAL

## DR. W. E. McNEILL TO RETIRE THIS FALL

DEAN MACKINTOSH TO BE VICE-PRINCIPAL AND G. J. SMITH, TREASURER

AT the May meeting of the Board of Trustees, it was announced that on September 30 Dr. W. E. McNeill, vice-principal and treasurer of Queen's, would retire. Dr. McNeill is to be succeeded by Dr. W. A. Mackintosh, dean of Arts, as vice-principal, and by Gordon J. Smith, director of endowment and assistant treasurer, as treasurer.

With Dr. McNeill's retirement Queen's loses, to quote Principal Wallace, "an extremely wise financial adviser. He has meant much to this University."

The retiring treasurer has guided Queen's through many years of financial difficulties since he relinquished his post as acting head of the Department of English to assume the responsibilities of treasurer in 1920. This is the more remarkable in view of Dr. McNeill's lack of special training for such work. His valuable counsel will not be entirely lost, however, as he has been appointed a member of the Board of Trustees.

Dr. McNeill came to Queen's in 1909 as assistant professor of English. Born in 1876 in Prince Edward Island, he graduated from Acadia University in 1900 with the degree of Bachelor of Arts and the Governor General's medal. He then enrolled at Harvard University, where he obtained his B.A. in 1902, his M.A. in 1907 and his Ph.D. in 1909. He also studied at Oxford. Prior to coming to Queen's in 1909 he had taught for some time at Harvard.

At Queen's Dr. McNeill became acting head of the English Department, which post he gave up when asked to become secretary of the Board of Trustees and registrar and treasurer of the University. In 1930 he was made vice-principal.

Since becoming affiliated with Queen's Dr. McNeill has received many distinctions. He received an honorary

D.C.L. from Acadia in 1933 and an honorary LL.D. from the University of Western Ontario in 1936. In 1936 he was also elected a fellow of the Royal Society of Canada. In 1943 the Montreal branch of the General Alumni Association awarded him the Montreal Medal "for meritorious contribution to the honour of Queen's."

Dr. McNeill had charge of the successful centenary celebrations at Queen's in 1941. At that time in his "History of Queen's" address he used a couplet expressing aptly his attitude toward the University:

"Though I am not a Queen's man  
born, nor a Queen's man bred,  
"Yet when I die there's a Queen's  
man dead."

It is to be hoped that when he is freed from the demands of his many duties, Dr. McNeill will turn his clear and

DR. W. E. McNEILL

polished English to the task of preparing a written account of his years at Queen's.

\* \* \*

Dean Mackintosh, the new vice-principal, has also had a long and distinguished career as member of the Queen's staff. He graduated in 1916 from Queen's with a Master of Arts degree. After teaching some time at Brandon College, he returned to Queen's in 1920 to be assistant professor of economics. In 1922 he obtained his Ph.D. from Harvard.

He has been associated continuously with the University, although his recognized ability in economic matters has resulted in occasional leave of absence to work with government and private bodies, including important service to the Rowell-Sirois commission. In 1939 he went to Ottawa to become special assistant to the deputy minister of finance, Dr. W. C. Clark, and did not return to Queen's until the fall of 1946. From the spring of 1945 to January, 1946, during Dr. Clark's illness, Dr. Mackintosh was acting deputy minister of finance.

Dr. Mackintosh's positions in Ottawa also included: vice-chairman of the economics advisory committee; director of economic research for the period of reconstruction; author of the "white paper" on unemployment issued by Hon. C. D. Howe in April, 1945; framer of the Dominion proposals for the Dominion Provincial Conference which began in August, 1945; Canadian delegate to, and chairman of, the most important committee of the Bretton Woods conference; member of the Wartime Prices and Trade Board; chairman of the Canadian section of the Joint United States-Canada over-all economic committee. In October, 1946, he was chosen, along with Trygve Lie, secretary-general of the United Nations, to represent the Economic and Social Council of the United Nations on the preparatory commission of the World Food Board.

In addition to becoming Dean of Arts upon his return to the University last fall, Dr. Mackintosh also resumed his position as head of the Department of

Political and Economic Science, as director of the School of Commerce and Administration, and as Sir John A. Macdonald professor of economics.

\* \* \*

Gordon J. Smith, the new treasurer, was influential in making the General Alumni Association the active body it is today. He was secretary-treasurer of the organization from its inception in 1926 until 1939, at which time he was appointed director of endowment. When he left the General Alumni Association it had grown to thirty-five active branches. During this period he founded the *Queen's Review* and was its editor and business manager for twelve years. He also edited the *Proceedings of the Engineering Society* from 1930 to 1937. A member of the Queen's University Council since 1930, he has been that body's secretary for fourteen years.

Mr. Smith secured his Bachelor of Arts degree in 1912 and his Bachelor of Science degree in civil engineering in 1915. From 1915 to 1917 he was assistant professor of civil engineering at the Nova Scotia Technical College, Halifax. From 1918 to 1926 he was a partner in a private business firm in Kingston.

G. J. SMITH

## NEW COURSE IN PHYSICAL AND HEALTH EDUCATION OFFERED AT QUEEN'S THIS FALL—UNIQUE IN CANADA

THE new course in Physical and Health Education being introduced at Queen's this fall is the only one of its kind in Canada. Leading to the degrees of Pass B.A. and B.P.H.E. in four years, it has the dual purpose of providing a prospective teacher with academic standing fully equivalent to that of any graduate in Arts and with qualifications for special work in physical and health education.

This means that the physical training teacher may later revert to class-room teaching if he or she desires, and will be fully qualified to do so. Also, many teaching positions demand both academic and physical training qualifications.

At present a graduate of Queen's who wants a specialist's certificate in physical training may take the teachers' course at the Ontario College of Education, with physical training as a supplementary course. In addition, a special summer course prescribed by the Department of Education must be taken. Under the new course, a teacher will emerge with a Type A certificate in physical training at the end of a year at O.C.E.

Entrance requirements for the new course are: secondary school graduation diploma, including English, history, mathematics, a language, physics and chemistry; Grade XIII in English, one of biology, physics or chemistry, plus one or two other subjects. Candidates are advised to take mathematics as one of the Grade XIII subjects.

The programme provides for the full pass B.A. course, with concentration and distribution of academic work as required by the Faculty of Arts. The work of the fourth year is entirely in the field of physical and health education.

Work taken the first year includes: a science (biology, physics and chemistry at the Grade XIII level must all be taken eventually); English; psychology; and a language. Three hours of physical education will be made up of seasonal sports and aquatics, with fundamental gymnastics and folk dancing for women and Danish calisthenics and apparatus

gymnastics for men. Total number of hours a week will be from twenty-two to twenty-four.

In second year there will be seventeen hours of academic work, in child psychology, vertebrate anatomy, pure philosophy, politics, economics, or history, and an advanced pass course in English, French, or some other field in which the student wishes to concentrate. The seven hours of physical training will be spent in learning rules and officiating, seasonal sports, and aquatics. Women will also learn the theory of dancing, rhythmical gymnastics, and elementary modern dancing, while men will take training and conditioning and gymnasium teaching (rope climbing, club swinging, tumbling, pyramids, etc.).

There are eighteen hours of academic work scheduled for third year, plus seven hours' physical training. There will be experimental psychology, physiology, an advanced pass class in the field selected for concentration, and two optional classes. Physical training will be, for women, the theory of teaching, apparatus, and tumbling, elementary school activities, and modern dance. Men will take the theory of coaching, advanced coaching, self-defence (boxing, wrestling, fencing) and minor sports (softball, tennis, water polo, handball, etc.).

The fourth year is entirely physical and health education, twenty-six hours a week for men and twenty-eight for women. Courses taken will include: history and principles of physical education, hygiene and preventive medicine, theory of coaching, organization of minor sports, tests and measurements, applied anatomy and kinesiology, corrective therapy, first aid and care and prevention of injuries, recreation, including playground programme and administration; and six hours a week of practice coaching, officiating and teaching.

It is hoped that some persons now teaching physical education in schools may be interested in improving their qualifications by taking the final year. Students who already have specialist

certificates in physical education with the Department of Education should be able to make up requirements for the degree of B.P.H.E. by doing the fourth year of the course as outlined, plus any work in physiology, anatomy and psychology that they may not have covered in courses taken previously.

It will be seen that the course not only provides for students entering the field of physical education but also gives teachers already in the field an opportunity to complete a degree.

---

## H. PEARSON GUNDY SUCCEEDS E. C. KYTE

**A**PPOINTED as librarian, to succeed E. C. Kyte who retired this year, H. Pearson Gundy has assumed his new duties.

Mr. Gundy comes to Queen's from Mount Allison University, where he was head of the Department of English and director of library service. He went to Mount Allison in 1937 as assistant professor of English, having previously been on the English staff of the University of Chicago. A graduate of the University of Toronto, where he obtained his Master of Arts degree in 1930, Mr. Gundy did postgraduate work at Chicago and Columbia universities. In 1939 he became associate professor of English at

H. PEARSON GUNDY

Mount Allison, and three years later head of the Department. He directed the Department of Extension from 1941 to 1946. In 1944 he studied library administration at Columbia University Library School. He was elected to membership in the English Institute and in the Modern Language Association of America in 1946.

The new librarian is married and has two daughters, both students at the Mount Allison Conservatory of Music.

Mr. Kyte, who is now living in Toronto, was a familiar figure in the Douglas Library to many generations of Queen's students. He held the post of librarian for nineteen years, coming to the University in June, 1928, after serving for some years as secretary of the British Library Association. During his term of office he saw the Douglas Library double in size, and a large volume of rare manuscripts and historical documents amass.

As an aid to students, Mr. Kyte prepared several catalogues, including the Canadian Catalogue of 1932, the Theology Catalogue published in 1935 and the catalogue to the Lorne Pierce Collection, which is now being published. This last mentioned is a noteworthy collection of the manuscripts of nineteenth and twentieth century writers who have laid the foundation for Canadian literature.

The former librarian also had published several guide books to general reading. One especially, "Thirty-One Trails," has been circulating among students for the past several years. There is also a hand list of encyclopedias for the use of students new at the University, and Mr. Kyte's catalogue of the McNichol collection of works on telegraphy, telephony and radio, which has had wide use among practising scientists as well as students.

---

### Elected President

**D**R. BRUCE HOPKINS, assistant professor of medicine at Queen's, was elected president of the Canadian Tuberculosis Association for 1948 at the annual meeting held in Quebec City.

## TWO WOMEN IN LIST OF THIRTY-NINE WHO RECEIVED DEGREES AT MEDICAL CONVOCATION

ON June 19 in Grant Hall there began another chapter in the history of the Medical Faculty at Queen's. With the words "Rise, Doctor of Medicine, and Master of Surgery," two young women became the first members of their sex in

DR. ALICE BERTRAM DR. MARGARET ELLIOTT

forty-three years to graduate in medicine from Queen's. They were Alice Winnifred Bertram, Arts '43, of Dundas, Ontario, and Sarah Margaret Elliott, of Tweed, Ontario.

Queen's was the first university in Canada to offer to women the facilities for studying medicine. Women were accepted in 1880, but because of hostility on the part of their fellow students and of some of the instructors, it was decided to open a separate women's medical college in 1883. The Women's Medical College merged with the Toronto Women's Medical College in 1895, although as late as 1904 the Queen's Medical College continued to grant degrees to women students.

Only two of these medical alumnae remain, Mrs. Adam Short (Dr. Elizabeth Smith), Med. '84, one of the first three women graduates, and Mrs. G. Silverthorne (Dr. Victoria Reid), Arts '00, Med. '04, the last woman medical graduate.

This spring's young women did more than master the six years of intensive study. Dr. Elliott headed the list of thirty-nine graduates, winning the medal in medicine and the honour of the medal in surgery, as well as the Dean Fowler Scholarship of \$40 for the highest marks in the examinations of the sixth year, and the Hannah Washburn Polson Prize

of \$50 for proficiency in clinical diagnosis in medicine, surgery and obstetrics. Dr. Bertram, who is the daughter of H. G. Bertram, Sc. '10, won the Ontario Medical Association Prize of \$25 for the highest marks in preventive medicine.

Another interesting feature of the ceremony was the laureation of George E. Hayunga, III. He is the son of Dr. George E. Hayunga, Jr., Med. '40, and the grandson of Dr. George E. Hayunga, Sr., Med. '90, and became the third medical graduate of Queen's to bear the name.

Candidates for degrees were presented to Dr. W. E. McNeill, vice-principal of the University, by Dr. G. S. Melvin, dean of Medicine. After the former had conferred the degree, Dean Melvin hooded the candidate and Dr. G. H. Ettinger presented the diploma. The vice-principal addressed the graduating class.

Rev. A. M. Laverty, University chaplain, gave the Scripture reading and led in prayer. Dr. H. L. Tracy played Handel and Bach selections on the organ. The academic procession included members of the staff, the General Alumni Association, the University Council, the University Senate, the Board of Trustees, special guests and representatives of civic and military bodies. Rector B. K. Sandwell was seated beside Dr. McNeill during the ceremony.

Other medals, prizes and scholarships awarded were as follows:

Medal in surgery, William Robert Ghent; Mylks medal in obstetrics and gynaecology, W. W. Near and Susan Near prize of \$100 to student making highest standing throughout the medical course, professor's prize in obstetrics and gynaecology, professor's prize in surgery and clinical gynaecology, and Neil Currie Polson Memorial prize of \$50 to student judged best adapted to apply his training in practice, all to James William Pearce; W. W. Near and Susan Near prize of \$70 to student standing second throughout medical course, Lionel Resnikoff; Edgar Forrester scholarship, \$40, for the highest marks in final year

medicine and clinical medicine, and the professor's prize in preventive medicine, Thomas James Bresnahan; David Edward Mundell prize, \$40, for highest aggregate marks in surgical applied anatomy, Paul Kowalishin; John Franklin Kidd essay prize for the best essay on a surgical topic, James Howard Nelson, B.A.; Victor Lyall Goodwill Memorial prize, \$100, for essay on some aspect of mental disease, Herbert William Henderson.

### J. A. STRONG TO BE AMBASSADOR TO PERU

THE leading biographical sketch in the Post Scripts section of a recent issue of the *Financial Post* is devoted to the career of James Alexander Strong, Com. '26, recently appointed Canadian Ambassador to Peru. Of this year's treasurer of the New York Alumni, the *Post* says:

"When tall, tanned James Alexander Strong leaves Ottawa next month to take over his post as Canada's ambassador to Peru, the journey south will be no novelty to him.

"The 46-year-old trade expert, who was taken from the Department of Trade and Commerce to fill the ambassadorial chair, spent ten years on the other side of the South American continent, at Buenos Aires. Fluent Spanish and knowledge of the trade and customs of

South America will be among the assets he takes into his new position.

"He joined the Trade Department April, 1927, after spending a year with the foreign exchange department of the Bank of Montreal. In December of the same year he was promoted to Assistant Trade Commissioner at Liverpool, remaining there until June, 1929, when he was posted to Panama and promoted to the full rank of Trade Commissioner.

"His attachment for South America continued when in May, 1935, he was transferred to Buenos Aires and named Commercial Attaché when the Canadian Legation was opened there in 1941. He remained there until September, 1945, when he was appointed Canadian Trade Commissioner and Consul at New York City.

"The variety of his work, Strong says, has always kept him too busy to engage in hobbies, though he enjoys a game of golf. His chief interest has been the enlargement of Canada's trade with Latin America, which has reached a total of \$218 million."

### INCREASED ENROLMENT AT SUMMER SCHOOL

ATTENDANCE at Summer School, which opened July 3 for six weeks, was 585 this summer, as compared to 557 enrolled in 1946 and 446 in 1945.

Four hundred and nineteen were registered in academic courses, nineteen at the Radio Institute, forty-eight at the School of English, and nine in the refresher course in English. Those attending the School of Fine Arts, not for credits, were registered as follows: art, 31; ballet, 27; junior ballet, 14; drama, 16; and music, 2.

#### Old Copies Wanted

WANTED, for completing Queen's *Journal* files: copies of the *Journal* before 1930; old copies of the *Tricolor* and other undergraduate publications; any other Queen's material, published or unpublished, which would be of interest to future students, including the *Review*, annual reports, and the like.

The *Journal* is setting up a library of publications, cuts and other sources of information about the past and present of Queen's students and staff, and will be pleased to pay shipping charges on any such material received.

#### Represented Queen's at Inauguration

DR. ROBERT WIGHTMAN, Med. '07, of Seattle, Washington, represented Queen's at the inauguration of Raymond Bernard Allen as president of the University of Washington. The ceremonies lasted three days, from May 22 to May 24.

## QUEEN'S MEDICAL GROUP TO STUDY ESKIMO DIET

ON August 1 four men from Queen's began a six weeks' sojourn among the 140 Eskimos on Southampton Island, at the northern end of Hudson Bay. They are seeking to determine why the Eskimo can thrive on the limited Arctic diet while the white man must have supplementary foods.

To do this the expedition, headed jointly by Dr. G. M. Brown, Med. '38, associate professor of medicine, and Dr. R. G. Sinclair, Arts '24, professor of bio-chemistry, assisted by Dr. L. B. Cronk, Med. '47, and G. C. Clark, Med. '49, is travelling about the isolated island, mingling with the native population. Samples of Eskimo food will be put into a deep-freeze unit and brought back to Queen's in the fall for chemical analysis. Thorough health examinations will be made, and medical care provided for those Eskimos needing it. Intelligence tests will also be made.

The party will put to scientific test the theory that the fat metabolism of the Eskimo is different from the Caucasian (white) peoples. While the Caucasian is unable to absorb his own or animal fat for any appreciable time before the end-products poison his blood, the Eskimo apparently has this ability and consequently can live for long periods on animal fats alone.

Another reason for the interest in the Eskimo is that in the eastern part of Canada, where they number only about 4,000, the Eskimo seems to suffer from contact with the white man. This is in contrast to the Eskimos in the western section, where they have either intermarried with the whites or have adapted themselves to white man's food. In addition to this, some authorities express anxiety over the fact that the Eskimo, armed with a high-powered rifle, is kill-

MAKING PLANS

Left to right: Dr. L. B. Cronk, G. C. Clark, Dr. G. M. Brown, and Dr. R. G. Sinclair are shown looking over a map of the Eastern Arctic

ing off the fur-bearing animals, his only source of income.

Dr. Sinclair left July 5 from Montreal on the *Nascopie*. He will conduct biochemical observations on Eskimos met on the trip to Southampton Island, where the ship will arrive about July 28. The

Although the foundering of the veteran northern supply ship *Nascopie* in July, with the consequent loss of thousands of dollars worth of medical and chemical equipment, was a severe handicap to the Queen's medical expedition to the Arctic, the expedition proceeded as scheduled. Supplies and equipment to replace those lost were secured in a rush order, and the three members of the party who were to fly to Southampton Island from Trenton did so on August 1. They joined Dr. R. G. Sinclair, who got safely ashore when the *Nascopie* ran aground in Hudson Strait.

other three members of the party will fly to the island from Trenton on August 1. Dr. C. H. Ettinger, professor of physiology, has assisted in making plans for the venture.

The expedition is wholly under the University's control, this being the first time Queen's has been engaged in such an undertaking. However, several government bodies have taken an interest in the trip and have donated funds or services. These are the National Research Council and the Departments of National Health, National Defence and Transport.

The trip is the first of several to be carried out by Queen's personnel. It is hoped that over a period of years a body of scientific information about the Arctic and the Eskimo will be collected which will have medical and economic value.

### Professor Connacher Retires

FOR thirty-two years a member of the French department at Queen's, Professor W. M. Connacher is retiring September 30. After obtaining a B.A.

with honours at London in 1908 and studying at the University of Lausanne in France, he came to Queen's in 1915 as a lecturer in French. J. B. Connacher, Arts '38, and D. J. Connacher, Arts '41, are sons.

### REV. DR L. H. HOUGH TO ADDRESS ALUMNI

REV. LYNN HAROLD HOUGH, A.B., D.D., of Drew University, Madison, New Jersey, will be the Chancellor's Lecturer at the fifty-fifth annual conference of the Queen's Theological Alumni Association, October 27 to October 30 inclusive. His four lectures will be on "Christian Humanism and the Modern World."

Dr. Hough has filled prominent rôles in religious preaching and teaching, both in the United States and Canada. A graduate of Scio College, Drew Theological Seminary, and New York University, he was ordained a minister of the Methodist Episcopal Church in 1898. From 1928 to 1930 he was pastor of the American Presbyterian Church in Montreal, and during this period he was president of the Religious Education Council of Canada. Since 1934 he has been dean of the theological seminary at Drew University. Ten colleges and universities have awarded him honorary degrees.

REV. DR. L. H. HOUGH

Widely known as an author and speaker on theological, literary and philosophical topics, Dr. Hough, on the invitation of the British government, spent eleven weeks in England during the summer of 1942, preaching and speaking.

Other speakers at the conference include: Rev. J. A. Lyttle, North Bay; Rev. Victor Fiddes, Toronto; and Principal Kent, Professor C. J. Vincent and Professor W. E. L. Smith, all of Queen's.

---

### AUSTIN CROSS JOINS RANKS OF OLD TIMERS

**M**OST of us slide along year after year without paying too much attention to old Father Time. Suddenly something jolts open our eyes and we see a new generation has arrived. The *Review* hates to think it was instrumental in such an awakening—but read what Austin F. Cross, Arts '23, had to say in a recent 'Cross Town column in the *Ottawa Evening Citizen*:

"Move over, Methusaleh, and make room for another Old Timer. The current copy of *Queen's Review* shows that Goldie Bartels' daughter got married. Now Goldie went to college in my day. As far as I know, Goldie, now Mrs. Douglas Geiger of Toronto, is the first person of my vintage to have a child who not only graduated from Queen's, but who got married.

"I have been reading the *Queen's Review* now for some time. It used to be that you saw the Arts '20 to Arts '27 people getting married. Then for the most part, they stopped appearing in the marriage column. Those that were going to get married did; those that weren't, didn't. Next, the birth column got active. That continued for some years. Now it seems that nobody in Arts '23 is having a baby any more.

"Meanwhile, us ancients, like Scotty Troup and Slim Monture, saw the alumni creep up into the '30's, and then one day we woke up, and you read of the class of '40. Now, I believe, they are in the '50's. It just seems like yesterday that I heard somebody throw up their hands with horror when they heard there was

actually a class at Varsity labelled '1 T 7', as they used to call it. In other words, these young married folks of the Naughty Nine (1909, U of T) professed horror at a class as recent as 1917. Well, we're in the 1950's now.

"There is a grim inevitability about growing old by reading the *Queen's Review*. For instance, I said we are all washed up as to marriages. The stork has passed us by. Now our children are getting married. Next time I meet some of the old gang, the salute will be: 'Hi, Grandpappy!'"

---

### Portrait of Col. E. A. Baker Unveiled in Ceremony at Toronto

**A** PORTRAIT of Col. E. A. Baker, Sc. '14, was unveiled at a garden party on June 27 for guests and families attending the first postwar reunion of the Sir Arthur Pearson Association of War Blinded. The fête was held at Castle Frank in Toronto, the home of Lady Kemp.

Col. Baker is secretary of the association, as well as managing director of the Canadian Institute of the Blind. The picture will hang in Baker Hall.

---

### Alumni and Staff Take Part In Royal Society Sessions

**A**LUMNI and members of the University staff were prominent in the proceedings of the Royal Society of Canada which met at Quebec City in May. Among those participating were Dr. Bruce Rose, retiring president of the Geological Section; Dr. G. B. Reed, who was presented with the Flavelle Medal; Prof. A. R. M. Lower, presented with the Tyrell Medal; Prof. Frank Knox, Dr. G. M. Furnival, Arts '33, Dr. J. F. Henderson, Sc. '29, and others.

---

### No Increase in Fees

**N**O increase in tuition fees will be made at Queen's this year, it has been announced. Several other Canadian institutions have found it necessary to raise fees, owing to increased instructional and administrative costs.

## 1947 REUNION PLANS WELL UNDER WAY

**P**LANs are well under way for the Reunion programme which will be held at the University on the week-end of the Queen's-Varsity game, October 18.

In addition to the football game, events already arranged or under consideration include Autumn Convocation, University Reception, Reunion Address, Alumni Luncheon, annual meeting of the General Alumni Association, and fall meetings of the University Board of Trustees and Board of Directors of the General Alumni Association.

The Reunion will be of a general nature, with all graduates and former students welcome, and no set schedule of class gatherings. This policy was adopted of necessity because of the continued shortage of housing and dining accommodation in Kingston. The situation has been further complicated by the fact that the LaSalle, the city's largest hotel, has been booked solid for the week-end of October 18 by visitors to an international plowing match being held in the vicinity at the same time.

The Dix Reunion Plan, under which specific classes hold reunions each year according to schedule, will be resumed as soon as conditions warrant. The Plan was dropped in 1939, because of the war. As a result of the lapse, all classes are due for a reunion, and judging from the enquiries which have reached the Alumni Office, most of them are eager and anxious for one. It is regretted that present conditions are not more favourable.

Despite the many difficulties, a few years are proceeding with reunion plans on their own initiative. The following classes and organizers are planning to convene on the week-end of October 18: Science '17, Keith Light; Science '30, Dave Jack and H. P. Dickey; Science '40, W. M. Newby; Arts '36, C. C. Hillmer. Several others, including Medicine '46, have reunion plans under consideration. In addition, at least two classes are meeting on the week-end of the Western-Queen's game on November 1: Science '22, with D. D. Findlay and J. F. Comer in charge of arrangements, and

Arts '22, with C. M. Sutherland; and others are considering this week-end too or the one of the McGill-Queen's game on November 15.

### Hold Twenty-Fifth Anniversary

**W**ITH Goldie Bartels Geiger as hostess and Doreen Lavell Sutherland giving a helping hand, Arts '22 made a good start in gathering the clan together in Toronto to plan for an all-out reunion at Queen's in the Fall. Mr. and Mrs. Doug. Geiger opened their beautiful home at 90 Dunloe Road on Sunday afternoon, May 11, for this friendly get-together.

From away off in Renfrew came the year president, Murray Chown, lugging sundry photographic horrors reminiscent of those happy carefree days of 1918 to 1922. Murray reported that in the years since graduation he had become a lawyer and the proud father of three children, one son now in Science at Queen's.

Vi Gibson McArthur had come down from Ottawa and brought one of her three sons with her—Don, who had just graduated from Queen's (Commerce '47).

Gertrude Deadman Freeman of Battersea won the corsage for distinguished service, with seven children, including one son now at O.A.C. and a daughter just graduated in Nursing Science from the Kingston General Hospital.

Andrew Wallace and his good wife Gladys reported in from Islington, where Andy is principal of Etobicoke High School. They are the proud parents of two sons, one of whom has graduated from university. Accompanying the Wallaces were the Runnings, J. Byron C., now teaching at Leaside High School, and his wife Marie. They have two children.

While we are dealing with teachers, let us say that Edna L. Shaw is on the staff of Runnymede Collegiate; Anne McAllister O'Farrell, after teaching in Brantford and Humberside Collegiates, has settled down to married life in Toronto; Bertha Bassam with five years in library work and twenty years teaching experience, is on the staff of the

Library School of the University of Toronto; H. V. Tancock (better known as "Bert") is head of the History Department at Humber College. He and his wife Edythe report a family of two daughters.

Our career girls, Margaret H. Wilton and Anita Martin, have been doing things too. Margaret is on the staff of the Ontario Department of Health, and has gained further fame by winning the Canadian Club Award in Poetry (1945) for her book of poems, *Pageantry of Days*. Anita is with the Canadian Bank of Commerce in Toronto doing advertising work.

Classed as stay-at-homes were Doreen Lavell Sutherland, Georgina Ettinger Logan and Goldie Bartels Geiger. Doreen and husband Marshall won fame at the annual dinner in 1946 by acquiring the prize of the evening, a pressure cooker. After eighteen years in Quebec Province they are now living in Toronto, have two children—one attending university. Marshall is in the paper box business. Georgina Logan, after marriage, has lived in Virginia, London (Ontario), and is now making her home in Toronto. Her husband is on the staff of the Uni-

versity of Toronto. They have three children. Goldie Geiger, after teaching for a while, has settled down to the quiet life such as holding reunion parties for her year one week before her daughter's marriage. The daughter, Shirley, graduated from Queen's in May, 1947. A son is also attending Queen's.

J. Trevor McNeely is with the Manufacturer's Life and he and wife Martha have one child. John R. Rutledge and wife Kay reported a family of three. John is in personnel work with Eaton's.

These seventeen originals with six "better halves" and two Queen's graduates of the second generation, made up the party which celebrated the twenty-fifth anniversary of Arts '22 graduation. This event is but a fore-runner of a grand reunion planned for everyone who can be located before university opening in the Fall. Present plans are for a reunion when Western plays Queen's in Kingston.

The committee in charge is: G. Marshall Sutherland, 125 Dinnick Crescent, Toronto, chairman; Doreen Sutherland, Goldie Geiger, and John Rutledge.

Watch for further announcements in the *Review*!—J.R.R.

---

## UNIVERSITY CONCERTS TO FEATURE CANADIANS

IT has always been the policy of the Department of Extension to include one Canadian artist in the University Concerts offered each winter in Kingston. This year the policy is being broadened to bring in only Canadians in the Young Artists' Series that makes up three of the seven University Concerts.

By means of an understanding with the Senior School of the Toronto Conservatory of Music, with the Conservatoire de Musique et d'Art Dramatique in Montreal, and with the sponsors of "Singing Stars of Tomorrow" radio programme, the concert committee has endeavoured to secure the most interesting features that rising young Canadian professionals can provide. It is hoped to continue to draw Canadian performers from their source and also from advanced music schools in the United States.

The following artists will be heard in the 1947-48 series:

Mack Harrell, baritone, October 9.

\*Senior String Quartette, Toronto Conservatory, November 4.

Baltimore Symphony Orchestra, November 21.

\*Pincusoff and Pizzolongo, clarinet and piano, December 4.

Nikita Magaloff, piano, January 12.

\*Marie Jose Forque, 1947 Singing Star Winner, February 10.

Joseph Szigeti, violin, March 24.

Tickets for the regular series cost \$6 and \$5, with the Young Artists' Series (marked by \*) \$1 extra. Applications are now being accepted.

---

## Building Nearing Completion

Construction of McLaughlin Hall, the new mechanical engineering building, is proceeding rapidly, and it is thought that the classrooms and offices will be available for use this fall.

## FOOTBALL TEAMS START PRACTICE SEPTEMBER 8

WITH the first football practice at Queen's scheduled for September 8, another Intercollegiate season rolls round.

Appointed last spring as head football coach, Frank Tindall will arrive early in September. Tindall coached the Tricolour in 1939, and was a highly popular mentor. A graduate of the University of Syracuse and a former player and coach with the Dominion champion Toronto Argonauts, Tindall knows both American and Canadian-style football. In 1939 he took on a team that had been winless the previous season and brought it home in second place. Last year, the Tricolour was successful in only one game, so that he faces another major rebuilding job.

Holdovers from 1946 include the following: Jim Charters, Jim Southey, Don Delahaye, Bill Burgess, Mel Carson, Jack Cummings, Jack Patterson, Bob Stevens, Roy Fardell, Ken Parkinson, Andy Kniewater, Bruce Williams, Hal Pringle, Stu Pearce, Mickey McGuire, Frank McIntyre, Jack Faulkner, Al Lenard, Dave Rozumniak, Ted Porter, Jeff Peat. Mike Halliday is a doubtful starter, owing to

examination difficulties, while Lorne Smith, Prevost, and Glyn Stanger are in the same category.

According to rumour, several promising players will be entering Queen's this fall. Some of these may not be eligible to play this year, but it is hoped that there will be at least a few who will be able to make the 1947 squad.

Last year's champions, Western, will again be the team to beat for top honours. The Purple and White have a well-balanced and experienced outfit, coached

### 1947 Football Schedule

October 11 — Queen's at McGill  
October 18 — Toronto at Queen's  
October 25 — Queen's at Western  
November 1 — Western at Queen's  
November 8 — Queen's at Toronto  
November 15 — McGill at Queen's

by Johnny Metras, and in Parry, former Tricolour player, one of the outstanding half-backs in the country. Toronto, with a wealth of material at its disposal, may be counted on to field a strong squad. Head Coach Bobby Coulter will have as his assistant this year an American, Bob Masterson, of Bergensfield, N.J. Like Queen's, McGill is an unknown quantity, but is undergoing an athletic revival with the well-publicized Vic Obeck of Columbia University as the new head football coach.

### Guild Offers Prizes

IN connection with its fiftieth anniversary, the Queen's Drama Guild wishes to produce new plays by Canadian playwrights during the season of 1948-49. To encourage writers to submit manuscripts, the Guild is offering two prizes, \$100 for a full-length play and \$50 for a one-act play. Detailed information about the rules of the contest may be secured by writing to: Playwriting Contest, Queen's Drama Guild, Queen's University, Kingston, Ont.

The closing date for submitting manuscripts is May 1, 1948.

FRANK TINDALL

## M. J. AYKROYD CITED IN "FINANCIAL POST"

THE *Financial Post* singled out M. J. Aykroyd, Sc. '13, for the leading biographical sketch of the regular Post Scripts column in a recent issue. The write-up read as follows:

"Maurice James Aykroyd of Bell Telephone has been elected president for 1947-48 of Canada's eleven-year-old Dominion Council of Professional Engineers—consultative and advisory federation of eight provincial associations with registration totalling over 10,000 professional engineers plus 5,000 students and trainees in industry.

"Born at Kingston, Ontario, and 1913 graduate of Queen's University there with a science degree in civil engineering, Aykroyd was with the Imperial Ministry of Munitions in the United States and Canada from 1915 to 1918, then for four years European manager for a commercial export business styled Exporters' Association of Canada.

"He joined Bell Telephone at Montreal in 1923 in the office of the system's chief engineer, was transferred to London, Ontario, back to Montreal, and finally to Toronto in 1929, and in 1935 was appointed to his present position as outside plant engineer for the western area.

"Past president (1944) of the Ontario Association of Professional Engineers, Aykroyd is an Anglican, a director of the Alumni and member of the Council of Queen's University, member of the

Engineer's, Granite, and Electric clubs of Toronto. Two graduate civil engineers are in construction, one in Toronto, the other in Vancouver. A daughter is in school in Toronto.

"When he takes time off for recreation it more often than not means a bee-line for his 100-acre, 150-year-old Oak Roads farm near Kingston, where he and his tenants raise grain on crop share basis. When neither there nor on duty in his extensive territory with Bell, curling and fishing are frequent pursuits."

## Second Generation Students At Special Summer Session

SEVEN students enrolled in the special summer session of the engineering faculty this year are children of Queen's alumni whose names did not appear in the January *Review* list. They are:

G. B. Asselstine—E. B. Asselstine, Arts '04, Calgary.

J. F. Baker—H. S. Baker, Sc. '02, Niagara Falls.

J. A. McKillop—A. F. McKillop, Arts '16, London.

B. D. Poyser—B. D. Poyser, Sc. '22, Toronto.

J. A. Ramsay—J. H. Ramsay, Sc. '11, and Mrs. Ramsay (Jean Hay), Arts '13, Ottawa; Rev. John Hay, Arts '82, Theol. '85.

Francis Slingerland — Mrs. Ethel Slingerland, Arts '34, Odessa.

J. R. O. Walli—O. E. Walli, Sc. '25, Haileybury.

## Athletics

MUCH thought was given by the student administration, and by the Athletic Board of Control, to reorganization of administration of athletics at Queen's. The purpose of athletic activity is not to win games, but to enjoy healthful sport, and to cultivate teamwork and good sportsmanship. But it is an unsatisfactory situation when no games are won; and Queen's has been in practically that position during the past season. It seemed

necessary to establish the position of athletic director, who would be responsible for the general oversight of all sports in which men engage, and have the necessary coaches for the various individual sports; and that a similar arrangement as to director be made for women students. In this way all the athletic activity, whether intercollegiate, interfaculty, or interyear, would be under unified direction and would be closely integrated.

—Principal's Report.

## The Bookshelf

### War and Women

FRESH WIND BLOWING. By Grace Campbell, Arts '15. Published by William Collins Sons and Company Canada Limited, Toronto.

IN her third book, Grace Campbell forsakes Glengarry as a locale and produces a war novel which is still entirely Canadian in setting except for two brief passages. It is war from the viewpoint of women—sisters and sweethearts and wives and mothers—who wait it out at home without the sustaining excitement of actual combat. Such a rôle calls for heroism of a high order, recognition of which has never been too abundant, and to which Mrs. Campbell's writing talent lends itself well.

The story opens in the valley of the Qu'Appelle and moves to Regina and thence to Montreal. The central figures are twins Kirk and Kari Andreson. No highland types these, with an Irish mother and a Scandinavian father, but equally Canadian. War breaks out, and Kirk

joins the air force. Soon afterwards he is lost on a mission to Norway.

Spiritually shaken, Kari goes to Montreal to work. A young English flight-lieutenant on leave enters her life and love follows swiftly, spurred on by the urgency of the times. After a romantic interlude in the Laurentians, Eric returns to conflict and Kari waits impatiently at home. Eric, too, is reported missing, but Kari never loses faith, beset although she is by the inevitable temptations. The book ends on a strong note of hope.

More than one critic has commented on the fact that Grace Campbell writes of a world that is essentially good, that evil has little place in her novels, the inference being perhaps that such an outlook is limited. In a day and age when so many writers probe the basest depths of mean, unnatural, and inhuman characters in the name of realism, it is a relief to have an author of Mrs. Campbell's competence find her material in normal people who lead normal lives and experience normal emotions. Such sources may not be productive of as much drama, colour, and sensationalism, but it is comforting to think they are just as true to life.

*Fresh Wind Blowing* is sincere, honest, and wholesome, and deserves a wide audience.

### Gridiron Textbook

CANADIAN FOOTBALL. By John F. Edwards, Arts '37. Published by the Copp Clark Company Limited, Toronto.

FOOTBALL is a pastime that inspires national hysteria every fall despite the fact that most of what takes place on the playing field is an enigma to all but a chosen few. Even sportswriters are limited in their appraisal because they are often quite ignorant of the intricacies involved. Of course, it doesn't call for a high I.Q. to recognize a for-

GRACE CAMPBELL

ward pass, a punt, or a flying tackle, and with a little practice most people can spot the ball-carrier nine times out of ten, but what all those other players are trying to do and why the referee blows his whistle just as the home team breaks loose for a big gain and practically everything else about the game is shrouded in mystery.

Director of physical education at Queen's and a former Tricolour and Argonauts' scatback, Johnny "Jake" Edwards lifts the veil in this, the first book on Canadian football ever written, in a manner that should earn the gratitude of fans, players and coaches. For the average fan it will mean the first time that anyone who knew that he was

talking about tried to explain the game in simple terms. For the players and coaches the book may well serve as a textbook. It should prove a godsend to the young English teacher at some isolated high school who has never played a game of anything in his life but who has been selected by his principal to coach the football team because it is a chore that has to be done and there is no one else to do it.

*Canadian Football* will have a particular appeal for Queen's alumni, as most of Johnny's playing and coaching experience have been with the Tricolour and he has stuck closely to his own contacts for anecdotes and examples. Queen's players have posed for all the pictures illustrating the various plays and stratagems. Oldtimers may gag a little at the appellation, "Gaels," which Johnny insists on labelling the Tricolour, but then some people feel there hasn't been any real Intercollegiate football played since the 'twenties.

An attractive format, including highly decorative cartoons by Audrey Brown, adds considerably to the merit of the volume. Its usefulness may be gauged from Coach Lew Hayman's comment: "I agree most heartily with the author's fundamental instructions about how to play and how to coach the game correctly . . . . If you are a football fan I can think of no better way to increase your football pleasure than to read this book."

### Staff Publications

**D**URING the past year, ten books and at least 125 articles and brochures were written and published by members of the Queen's staff.

Authors of books included H. Alexander, *Four Plays by Holberg*, translated from the Danish; J. A. Corry, *Democratic Government and Politics*; D. S. Ellis, *Elements of Hydraulic Engineering*; H. M. Estall, *Rights and Liberties in Our Time*; G. H. Ettinger, *History of the Associate Committee on Medical Research, Ottawa, 1938-46*; Elizabeth Harrison, *A Whip for Time* (verse); G. B. Harrison, *Introducing Shakespeare*; J. M. Shaw, *Life After Death* (second edition); R. G. Trotter, *Charters of Our Freedom*; A. R. M. Lower, *Colony to Nation*.

In addition, three members of the staff contributed to encyclopaedias: Prof. H. Alexander, an article on "New Words and Meanings," to the *Encyclopaedia Britannica Book of the Year, 1946*; W. M. Conacher, "Canadian Literature—French," to the *Encyclopaedia of Literature*; C. J. Vincent, "Canadian Literature—English," "Haliburton," "Lampman," "Leacock," and "Pratt," all to the *Encyclopaedia of Literature*.

JOHN EDWARDS

# At the Branches

## Hamilton

THE Hamilton branch held a golf stag at the Cedar Springs Community Course on Saturday, June 14. This was made possible by the kindness of C. H. Drew, Com. '25, in extending an invitation to all members of the Hamilton branch to play at his home club.

All members who were present spent an enjoyable afternoon and evening playing an interesting course. Dinner was served at the club house in the evening.

## Ottawa

J. L. SHEARER, Sc. '28, was elected president of the Ottawa Alumni at the annual meeting held in Knox Presbyterian Church on June 10.

The president of the General Alumni Association, N. B. MacRostie, Sc. '11, Arts '14, spoke briefly on the work of the association during the past year. P. E. H. Brady, Arts '41, gave the secretary's report, while the treasurer's report was read by D. H. W. Henry, Arts '39. Dr. Wallace Troup, Med. '24, the retiring president, was in the chair. The report of the nominating committee was presented by W. I. Garvock, Arts '13.

Three films, "Around the Village Green," "Rivers of Canada," and "Easy Street," were shown.

Officers elected were: honorary vice-presidents, Dr. R. K. Paterson, Med. '06, A. H. Brown, Arts '06, and A. E. MacRae, Sc. '14; president, J. L. Shearer; vice-presidents, Rev. A. P. Menzies, M.C., Arts '10, Theol. '12, Dr. L. D. Wilson, Med. '28, and Miss Marjorie Gordon, Arts '38; secretary, P. E. H. Brady, Arts '41; treasurer, W. H. Showman, Arts '30;

Committee: N. B. Davis, Sc. '11, R. W. Southam, Arts '36, H. I. Marshall, Sc. '41, Dr. C. A. Richardson, Med. '43, Dr. H. B. Kidd, Med. '29, Dr. J. E. Plunkett, Med. '30, Miss Mary Rowland, Arts '26, Com. '28, Miss Mary Reid, Arts '27, H. C. Redfern, Arts '38, H. R. Welch, Sc. '18, Miss Helen Lyn-

ton, Arts '41, C. B. Mohr, Arts '17, W. G. C. Lawrence, Arts '41, Com. '46, Miss Phyllis Wilson, Arts '40, Miss Beth Paterson, Arts '31, D. H. W. Henry, Arts '39, and K. A. Lachance, Sc. '47. Miss Dora Helmikay, Arts '18, and A. T. Batstone, Arts '17, were elected auditors.

## Toronto

THE first postwar golf tournament of the Toronto Branch was held on June 11 at St. Andrew's Golf and Country Club, the event having been postponed from June 2 because of the all-day rains.

Although the course was heavy and the golfers comparatively few, the event was a most enjoyable one. The two main prizes for "low gross" and "low net" were won by non-members, guests for the occasion. The other prizes were won by W. H. Shortill, Com. '33, and R. K. Kilborn, Sc. '27.

Dinner was served at 7.30 in the club house, and was presided over by the branch president, Ernest Collyer, Sc. '23. Brigadier Colin Campbell, Sc. '22, awarded the prizes, and N. G. ("Pat") Stewart, Arts '11, Sc. '15, kept the gathering in a typically happy mood as master of ceremonies.

Those present voted the party a great success and in discussion at the dinner table made suggestions and drew up plans for a bigger and better golf party for next June. Details of these plans will be forthcoming at a later date.

## Vancouver

A QUEEN'S gathering at the home of Dr. F. C. Bell, Arts '05, president of the Vancouver alumni, and Mrs. Bell, was the occasion to extend a welcome to J. C. Macfarlane, Arts '11, of Toronto, vice-president of the Canadian General Electric Company and a former president of the General Alumni Association.

\* \* \*

At the annual meeting of the Vancouver alumnae, held this spring, Mrs.

C. B. Huyck, Arts '13, was elected president. Other officers chosen were: honorary president, Mrs. Daniel Buchanan; vice-presidents, Miss Esther Harrop, Arts '16, and Miss Emma Embree, Arts '24; secretary, Mrs. A. W. Brodie, Arts '17; treasurer, Mrs. Edna Page, Arts '19; correspondent to *Review*, Miss Janet Greig, Arts '20.

### Kingston

**I**AN MACLACHLAN, Sc. '25, Arts '26, was elected president of the Kingston branch for the ensuing year at the annual meeting held in the north plant cafeteria of the Aluminum Company on June 25. Mr. MacLachlan succeeds J. L. Murray, Arts '20.

Other officers elected were as follows: vice-president, Dr. G. R. W. Mylks, Jr., Arts '27, Med. '29; secretary, H. F. Gibson, Arts '37, Com. '38; treasurer, W. W. Farrell, Com. '35; directors—Dr. S. M. Polson, Arts '05, Med. '10, W. P. R. Holdcroft, Arts '21, Sc. '23, D. J. Day, Arts '23, J. M. Hickey, Arts '19, W. J. O. Henderson, Arts '38, A. C. Hanley, Sc. '18, Dr. D. W. Boucher, Med. '28, Philip Roy, Sc. '29, D. L. Rigsby, Sc. '40, Graham Thomson, Arts '34, Robert Seright, Sc. '31, Prof. Arthur Jackson, Sc. '16, Prof. O. A. Carson, Sc. '23, C. E. Craig, Sc. '38, W. G. Cunningham, Arts '39, J. A. M. Woodside, Sc. '37.

The meeting took the form of a smoker and approximately one hundred were in attendance. The retiring president, Mr. Murray, served as chairman.

Frank Tindall, newly appointed head football coach at Queen's, was introduced to the gathering by Professor Carson. Mr. Tindall spoke briefly, promising his listeners a fighting football team this fall. Memories of the Tricolour's feats on the gridiron were recalled with old newsreels showing highlights of notable games in the 'twenties.

A half-hour display of magic by Michael Roth, Arts '49, was another popular feature. Mr. Roth delighted his audience with a variety of sleight-of-hand tricks.

Serving of refreshments brought the programme to a close.

### Niagara

**T**HE annual dinner dance was held at the Club Henley, St. Catharines, on June 11, with approximately one hundred alumni and friends in attendance.

Introduced by S. S. MacInnes, Arts '25, Dr. W. A. Mackintosh, vice-principal of Queen's, addressed the gathering on "Canada in a New World." Politically, there have been many changes in the world, he said. Outstanding are the all-but-complete disappearance of Germany and Central Europe as a world factor, the precarious position of the United Kingdom, and the emergence of Soviet Russia and the United States as dominant world powers. The States towers above the rest of the world and has become in Europe a sort of myth with respect to wealth, prestige, and luxury.

Economically, the changes have been equally marked. Because of the need for

KINGSTON ALUMNI MEETING

Left to right: J. L. Murray, Dr. A. L. Clark, D. J. Day, Dr. W. E. McNeill, M. N. Hay

reconstruction in devastated areas an almost insatiable demand for capital is being turned on this continent. The big question is whether Canada and the United States can get through this crisis without a breakdown.

Canada's own position has changed as a result of great industrial achievements and proud military record during the war. The country has been able to take a prominent place among the United Nations, which has added to her prestige but has also increased her responsibilities abroad. In a measure, Canada is a leader among the so-called middle powers, said Dr. Mackintosh. "We are recognized as a people not tied to any group, and interested in peace and all projects that promote peace," he said. "We are considered a link between the U.S.A. and Soviet Russia."

The speaker was thanked for his excellent address by E. W. Henderson, Sc. '05.

The alumni were welcomed to the meeting in a brief address given by the president, M. C. Aikens, Sc. '33, who served as chairman. The head table

guests were introduced by J. E. Neilson, Sc. '28.

J. G. Stephenson, president of the Canadian Cancer Society, spoke briefly regarding the work of his organization. Special reference was made to the establishment of a new cancer clinic at Queen's. He expressed the opinion that the universities of Canada will eventually solve the cancer problems.

H. J. Hamilton, secretary-treasurer of the General Alumni Association, described conditions at the University during the post-war period. The remainder of the evening was spent in dancing.

### Toronto Alumnae

**G**UEST speaker at the spring luncheon of the Toronto Alumnae on May 3 was J. A. Edmison, K.C., Arts '26. The meeting was held at Chez Paree. Mr. Edmison's topic was "Crime Problems—Old and New." Mrs. Joseph Dyer (May Sharpe), Arts '27, presided at the meeting.

## Births

**Barkley**—At the Grace Hospital, Ottawa, on June 16, to S. G. Barkley, Arts '37, and Mrs. Barkley, a daughter.

**Beaudry**—At the Ottawa Civic Hospital, on May 27, to R. J. Beaudry, Sc. '44, and Mrs. Beaudry, a daughter.

**Bishop**—On May 18, at the Ottawa Civic Hospital, to Col. J. W. Bishop and Mrs. Bishop (Mary Fraser), Arts '25, a daughter (Ann Josephine Louise).

**Bray**—At the General Hospital, South Porcupine, Ont., on June 7, to R. C. E. Bray, Sc. '37, and Mrs. Bray (Phyllis Nunn), Arts '37, a daughter, Lucinda (Linda).

**Brewster**—At the General Marine Hospital, Owen Sound, Ont., on June 30, to Dr. John Brewster, Med. '41, and Mrs. Brewster, a son (John David).

**Bridger**—At the Youville Hospital, Noranda, Que., on June 23, to John R. Bridger, Sc. '32, and Mrs. Bridger, a daughter.

**Bright**—On June 8, at Victoria Hospital, London, Ont., to W. J. Bright, Sc. '34, and Mrs. Bright, a son (David Milner).

**Browne**—At Wellesley Street Hospital, Toronto, on June 19, to Eric Browne, Sc. '36, and Mrs. Browne (Marion Hayes), Arts '35, a son.

**Campbell**—On May 31, at the Kingston General Hospital, to Dr. H. M. Campbell, Med. '42, and Mrs. Campbell, a daughter.

**Clifford**—On July 14, at Montreal, to Mr. L. B. Clifford, and Mrs. Clifford (Mary Reid), Arts '40, a daughter.

**Connolly**—At the Halifax Infirmary, on July 18, to E. C. Connolly, Com. '37, and Mrs. Connolly, a son.

**Cunningham**—At Campbell River, B.C., on May 20, to R. A. Cunningham, Sc. '41, and Mrs. Cunningham, a son.

**Currier**—At the Toronto General Hospital, on June 16, to Dr. T. E. Currier, Med. '40, and Mrs. Currier, a son.

**Davidson**—At the Kingston General Hospital, on July 12, to Mr. G. K. Davidson, and Mrs. Davidson (Carol Cays), Arts '41, Com. '42, a daughter (Carol Anne).

**Dodd**—At the Nuttall Hospital, Kingston, Jamaica, on July 18, to Mr. Geoffrey E. Dodd and Mrs. Dodd (Margaret Farquharson), Arts '41, a daughter.

**Elliott**—On July 12, at Mount Hamilton Hospital, Hamilton, Ont., to J. M. Elliott, Sc. '39, and Mrs. Elliott, a daughter (Mary Elizabeth).

**Ferguson**—On June 25, at London, Ont., to Major M. S. M. Ferguson and Mrs. Ferguson (Katherine Inkster), Arts '40, a daughter.

**Forde**—On May 24, at the Grace Hospital, Ottawa, to E. R. Forde, Arts '42, and Mrs. Forde, a daughter.

**Fulton**—At the Joyce Memorial Hospital, Shawinigan Falls, Que., to H. F. Fulton, Sc. '35, and Mrs. Fulton, a son.

**Gluck**—At the Ottawa Civic Hospital, on May 17, to Elliott Gluck, Com. '38, and Mrs. Gluck, a daughter (Sherril Ruth).

**Grabb**—On May 14, at the Toronto East General Hospital, to John E. Grabb, Arts '33, and Mrs. Grabb, a son.

**Hansen**—On May 31, at the Private Patients' Pavilion, Toronto General Hospital, to Clarence Hansen, Sc. '34, and Mrs. Hansen, a daughter (Ellen).

**Heath**—On June 1, at the Toronto Western Hospital, to D. W. Heath, Sc. '39, and Mrs. Heath, a daughter (Elizabeth Anne).

**Iveson**—On April 29, at the Ottawa Civic Hospital, to Mr. L. B. Iveson and Mrs. Iveson (Agnes Ritchie), Arts '43, a son (Peter Ritchie).

**Johnston**—At the Kingston General Hospital, on July 21, to Dr. Eric Johnston, Med. '43, and Mrs. Johnston, a son.

**Kee**—At the Toronto Western Hospital, on May 27, to J. A. C. Kee, Arts '40, and Mrs. Kee, a son.

**Kirkpatrick**—At the Kingston General Hospital, on June 19, to Clare Kirkpatrick, Arts '35, and Mrs. Kirkpatrick, a son (John Charles).

**Lossing**—On May 25, to Dr. Edward H. Lossing, Med. '30, of the Indian Medical Service, Calcutta, and Mrs. Lossing, twin daughters.

**Lyons**—On July 27, at St. Michael's Hospital, Toronto, to Capt. E. F. Lyons, Arts '40, and Mrs. Lyons, a son.

**MacAlpine**—At the Toronto Western Hospital, on July 19, to R. T. MacAlpine, Sc. '39, and Mrs. MacAlpine, a daughter.

**McColl**—On July 19, at the Memorial Hospital, St. Thomas, Ont., to A. D. McColl, Arts '43, and Mrs. McColl, a son (Donald Gordon).

**McConnell**—On June 26, at the Private Patients' Pavilion, Toronto General Hospital, to Major W. W. K. McConnell, Sc. '39, and Mrs. McConnell, a daughter (Sandra Jane).

**McCracken**—At the Royal Victoria Hospital, Montreal, on July 27, to Mr. John McCracken and Mrs. McCracken (Isabel McQuade), Arts '44, a daughter (Shirley Leslie).

**MacKenzie**—At the Royal Victoria Hospital, Barrie, Ont., on July 12, to W. E. MacKenzie, Arts '43, and Mrs. MacKenzie, a son (Bruce Rodgers).

**MacLean**—At the Wellesley Hospital, Toronto, on June 12, to Mr. W. E. MacLean and Mrs. MacLean (Molly Noonan), Arts '45, a daughter (Shelagh Mary).

**Macpherson**—On June 27, at the Kingston General Hospital, to C. E. Macpherson, Com. '26, and Mrs. Macpherson, a daughter.

**Main**—On May 22, at the Mount Hamilton Hospital, Hamilton, Ont., to Hardy L. Main, Sc. '40, and Mrs. Main, a daughter.

**Murphy**—On June 1, at the General Hospital, St. Catharines, Ont., to Glenn Murphy, Sc. '40, and Mrs. Murphy, a daughter.

**O'Brien**—At the Catherine Booth Hospital, Montreal, on May 19, to R. C. O'Brien, Sc. '40, and Mrs. O'Brien, a daughter.

**O'Dette**—At the Hotel Dieu Hospital, Kingston, on July 27, to J. H. O'Dette, Sc. '44, and Mrs. O'Dette, a daughter (Cheryl Anne).

**Parkinson**—On July 15, at the Kingston General Hospital, to Kenneth Parkinson, Com. '47, and Mrs. Parkinson (Wilda Baker), Arts '43, a daughter (Margaret Anne).

**Partridge**—At the Kingston General Hospital, on June 6, to Robert E. Partridge, Arts '36, and Mrs. Partridge, a son (William George).

**Peart**—At the Grace Hospital, Ottawa, on May 29, to D. R. Peart, Com. '39, and Mrs. Peart, a son (John Douglas).

**Percival**—On June 18, at the Private Patients' Pavilion, Toronto Western Hospital, to E. G. Percival, Arts '43, and Mrs. Percival, a daughter (Mary Catherine).

**Rutherford**—At St. Joseph's Hospital, Sudbury, Ont., on July 7, to J. G. Rutherford, Sc. '37, and Mrs. Rutherford, a daughter (Nancy Jane).

**Saunders**—On May 24, at the Hotel Dieu Hospital, Kingston, to G. O. Saunders, Sc. '40, and Mrs. Saunders (Pauline Martin), Arts '33, a son (George Martin).

**Scott**—At Montreal, on May 5, to A. E. Scott, Arts '43, and Mrs. Scott, a son.

**Smith**—On July 2, at the Wellesley Street Hospital, Toronto, to Douglas L. Smith, Sc. '42, and Mrs. Smith, a son.

**Smith**—On June 2, at the Private Patients' Pavilion, Toronto General Hospital, to J. M. Smith, Sc. '41, and Mrs. Smith, a son.

**Stinson**—At the Ottawa Civic Hospital, on May 23, to Mr. H. S. Stinson and Mrs. Stinson (Margaret Leach), Arts '38, a daughter.

**Thompson**—On May 21, to Mr. Andrew Thompson and Mrs. Thompson (Elizabeth Soper), Arts '33, of Bowmanville, Ont., a daughter.

**Upham**—At St. Mary's Hospital, Timmins, Ont., on May 3, to M. A. Upham, Sc. '41, and Mrs. Upham, a daughter (Margaret Kathryn).

**Wilcox**—At the Women's College Hospital, Toronto, on June 17, to W. J. Wilcox, Arts '43, and Mrs. Wilcox, a son.

## Marriages

**Booth**—In Glebe United Church, Ottawa, on May 24, Elizabeth Grace Roberts to Frederick Lorne Booth, Sc. '45. They will live in Ottawa.

**Butcher**—On June 7, in University Chapel, Princeton University, Princeton, N.J., Kathleen Ethelwyn Butcher, Arts '42, daughter of C. W. Butcher, Arts '17, and Mrs. Butcher, Paris, Ont., to George William Whitehead.

**Byers**—In Knox Presbyterian Church, Moose Creek, Ont., on July 19, Catherine Irene Blair to Dr. William Mason Byers, Med. '41, son of Dr. J. C. Byers, Med. '08, and Mrs. Byers (Mary MacMichael), Arts '08. They will live in Winchester, Ont.

**Campbell**—On June 14, in Crescent-Fort Rouge United Church, Winnipeg, Mary Conquest Harris to Keith Wilson Campbell, Com. '42.

**Casey**—On June 28, in St. Joseph's Church, Ottawa, Marion Margaret O'Brien to Francis Leo Casey, Sc. '36.

**Charlesworth**—On June 7, in St. Matthew's Anglican Church, Quebec City, Erma Madeleine Olsen to Edward Frank Charlesworth, Sc. '44.

**Cliff**—On June 13, Diana Dolores McIntyre to Frederick Lynwood Cliff, Com. '47, son of Mrs. G. F. Cliff (Alma Mundell), Arts '02, and the late Dr. Cliff, Med. '06.

**Cornett - Lindsay**—In Montreal, on December 30, 1946, Alena Marjory Lindsay, Arts '40, to Donald Macalister Cornett, Arts '47, son of Rev. Dr. A. D. Cornett, Arts '07, Theol. '11, and Mrs. Cornett (Jean Macalister), Arts '10. They are living in Ottawa, where Mr. Cornett is in the Department of External Affairs.

**Crossley**—On June 14, at the Metropolitan United Church Chapel, Toronto, Marguerite Catharine Shaughnessy to Edward L. Crossley, Arts '31, of Fenwick, Ont.

**Smith**—On July 5, in Memorial Park United Church, Carleton Place, Ont., Ruth Isabel Fleming to Harold Armstrong Smith, Sc. '40.

**Stephens**—On May 31, Lorna Maxwell to Herbert Richard Stephens, Sc. '47. They are living in McMasterville, Que.

**Stoness**—On June 26, in Flushing, New York, Faye Stoness, Arts '42, daughter of Mrs. J. F. Stoness (Mildred Turnbull), Arts '18, and the late Dr. Turnbull, Arts '14, Med. '19, to Mr. Clarence Bernard Hortenstine.

**Storey**—In Erskine Presbyterian Church, Ottawa, on July 30, Margaret Vesta Danby Storey, Arts '29, to Dr. Francis J. DeLima, former Consul General of Chile. The bride was given in marriage by her uncle, Dr. L. W. Nixon, Med. '15. They will live in Toronto.

**Straiton**—In High Park United Church, Toronto, on July 19, Helen Kemp to John Straiton, Arts '44.

**Taylor**—On May 24, in Bridge Street United Church, Belleville, Ont., Agnes Grace Taylor, Arts '31, to William H. Cullen.

**Teskey**—On May 31, in Stewarton United Church, Ottawa, Olive Jean MacTavish to Dr. William Lloyd Teskey, Med. '40. Miss Margaret Rose, Arts '46, was bridesmaid and Dr. C. G. Teskey, Med. '35, brother of the groom, was best man.

**Thompson**—In Queen Street United Church, Kingston, on June 28, Peggy Thompson, Arts '43, to Mr. William Donald Devitt. Rev. Basil Thompson, Arts '08, father of the bride, performed the ceremony. Miss Evalina Thompson, Arts '38, was bridesmaid.

**Tupper**—In St. Bartholomew's Church, Ottawa, on May 31, Joan Margot Gillies to David Wilson Hibbert Tupper, Arts '44.

**Valliant**—In Chalmers United Church, Ottawa, on July 26, Dorothy Margaret Bannister to Handford James Valliant, Arts '39, Ottawa.

**Van Steenburgh-Laird**—In Glebe United Church, Ottawa, on July 19, Doris Joan Laird, Arts '45, daughter of Mrs. J. Stewart Laird and the late Mr. Laird, Arts '11, to

William Elgin van Steenburgh, Sc. '48. The bride was given in marriage by her brother, Burns Laird, Arts '49, and Harold Caldwell, Sc. '47, was best man. Mrs. Frank Judge (Bonnie McCloskey), Arts '45, was matron of honour.

**Webb - Cunningham**—On May 26, in the Morgan Memorial Chapel, Queen's University, Camilla Marguerita Cunningham, Arts '44, to Garth Sparling Webb, Com. '47. Mrs. Irvine Theal (Helen Webb), Arts '43, was matron of honour.

**Wilson**—In the United Church, Westboro, Ont., on June 28, Lily Ellean Magee to Omar Clarke Wilson, Sc. '33, of Montreal.

## Deaths

**Cameron**—The senior graduate of Queen's and the senior minister of the Presbyterian Church in Canada, Rev. Dr. Hugh Cameron, Arts '76, died in an Ottawa hospital on June 12. He was ninety-two years of age and had served his church faithfully all his life, fifty-three years as an active minister. In 1932 he retired, but remained an active and familiar figure in Ottawa streets until shortly before his death. Two days before he had been elected honorary president of the Ottawa branch of the Queen's Alumni. The mantle of seniority now passes to Patrick A. MacDonald, of Winnipeg, the remaining member of the class of '76. Dr. Cameron was born in Huntingdon County, Quebec, the eldest of nine children in a family where scholarship was honoured, and in a Scottish community where it was customary for the eldest son to enter the ministry. After preliminary education at public schools and at Huntingdon Academy, it was almost inevitable that he should go to Queen's, the

REV. DR. HUGH CAMERON

college that had been founded not so many years before to train young Presbyterians for the pulpit. At that time—1872—the entire University was housed in one building, what is now known as the Old Medical. In 1876 Dr. Cameron received his Bachelor of Arts degree, and then enrolled in theology. In 1879 he was ordained, and after serving as a missionary at Huntsville, Muskoka, Carluke, New Glasgow, and Rodney for a short while, went to his first charge at Glencoe, Ontario, where he remained five years. For several years he served in Watford, and then he went to Morrisburg. For the next thirty-two years he was minister of Knox Church there. In 1920 he retired and moved to Ottawa. He assisted in founding several Ottawa valley churches. After moving to Ottawa he was supply minister at Maxwell for a year and then at Westboro, a suburb of Ottawa. At the latter community he was prevailed upon to remain until 1932. For seventeen years he was clerk and treasurer of the Ottawa Presbytery, which gave a luncheon in his honour in December, 1929, when he observed the fiftieth anniversary of his ordination. He was elected Moderator of the Synod of Montreal and Ottawa in 1915, and was also clerk of the Presbytery of Brockville. Fourteen years ago he received his Doctor of Divinity degree from Knox College, Toronto. Through the Church Union struggle in 1925 Dr. Cameron was a valiant defender of the faith and order of Presbyterianism, and throughout his life rendered valuable service in promoting the interests of his beloved church. Surviving are two sons, A. R. Cameron, Arts '03, and Judge C. A. Cameron, Arts '13, and two daughters. A third generation is now represented at the University by Eileen and R. G. Cameron, granddaughter and grandson.

**Cooke**—Dr. Alfred Benson ("Ted") Cooke, Med. '12, died suddenly on June 17 at Lloydminster, Saskatchewan, where he had a medical practice with his brother, Dr. George L. Cooke, Med. '10. Dr. Cooke was born in Kingston and educated at Kingston Collegiate Institute. He entered Medicine at Queen's in 1908 and graduated with his M.D., C.M. degrees in 1912. He did post-graduate work in Brooklyn, N.Y., then went overseas with the Canadian Army Medical Corps in the First Great War, later transferring to the Imperial Army for the duration. After discharge Dr. Cooke took up his practice in Lloydminster. He is survived by his wife, two sons and two daughters, as well as his parents, a sister and four brothers, including N. M. Cooke, Sc. '21. Another brother, Dr. H. M. Cooke, Arts '19, died in 1945.

**Farrell**—President of the General Alumni Association from 1933 to 1935, a member of the University Council for forty-three years, and a representative of the Council to the Board of Trustees, Dr. Thomas H. Farrell, Arts '89, Med. '95, was killed in an automobile accident at Lowville, New York,

on June 28. His wife, the former Janie Gage, of Kingston, and his wife's sister were killed in the same accident. They were driving from their home in Utica to their summer home at Thousand Islands Park, and it is believed the brakes failed while the car was going down a hill and the vehicle plunged off the road into a large rock. A fourth passenger survived the crash. Dr. Farrell was born in Detroit, Michigan, of a family that has been associated with Queen's since 1841. In 1869, on the death of his father, he moved to Kingston and completed his education there, entering Queen's in 1885. In 1889 he received his Bachelor of Arts degree, and a year later his Master of Arts degree. After teaching high school in Ontario for two years he decided to become a doctor, and returned to enroll in the Medical Faculty. He graduated from there in 1895, then went to New York City, where he did post-graduate work at the Post Graduate Medical School and the Manhattan Eye, Ear, Nose and Throat hospital. In 1897 he moved to Utica, and during his years of practice there attained a high reputation throughout the State. He belonged to many Central New York medical societies and was on the staff of Faxton hospital and of Utica General hospital. During the 1918 influenza epidemic he headed a temporary hospital and received wide praise for his service. Dr. Farrell had resigned from the Board of Trustees this spring, after being a member since 1923. He remained, however, a member of the University Council, on which he had served continuously since 1904. In addition to a son and a daughter, he is survived by two brothers, J. M. Farrell, K.C., Arts '89, LL.D. '47, of Kingston, and Judge A. G. Farrell, Arts '84, of Toronto.

**Kerr**—A retired public school principal, Francis E. Kerr, Arts '13, died suddenly at his home in Peterborough on June 8. Mr. Kerr had been on the staff of the Peterborough schools for forty-two years, retiring two years ago. Born at Cold Springs, Ontario, he graduated from Cobourg Collegiate Institute. By studying extramurally and attending Summer School during 1907 to 1913, he earned his Bachelor of Arts degree from Queen's. In 1918 and 1919 he took a number of other extramural courses from the University. Mr. Kerr was active in church work, giving a lifetime of service to St. Andrew's United Church and the Bay of Quinte Conference. For twenty years he was clerk of his church's session, and he taught in the Sunday School and sang in the choir. Surviving are two sisters both of Peterborough.

**Langford**—A member of the Simcoe, Ontario, town council for ten years, Thomas Eli Langford, Arts '98, died in Norfolk General Hospital on March 15. A native of Middlesex County, Mr. Langford graduated from Orangeville High School. He taught public school for six years, then in 1894 entered Queen's at the age of twenty-three.

Four years later he received his Master of Arts degree and the Gowan Foundation in Botany. For fifteen years he taught high school in Shelbourne, Arthur, Ingersoll and Smithville, retiring from the teaching profession and moving to Simcoe in 1914. At that time he entered the insurance business and journalism, being local representative of the Brantford Expositor for several years as well as writing for other papers and magazines. In 1916 he became a member of the town council and served seven years as an alderman and three years as deputy-reeve. He was a member of the Masonic and Odd Fellows' Lodges. Besides his widow, he is survived by two sons, including Dr. A. N. Langford, Arts '31, two brothers and two sisters.

**MacInnis**—The death of John A. MacInnis, Arts '15, occurred on May 16 in Sault Ste. Marie, where he had been practising law since 1919. Mr. MacInnis had been in poor health since last fall due to a heart condition. Born at Bognor, near Owen Sound, Ontario, in 1889, Mr. MacInnis received his preliminary education at the Owen Sound Collegiate Institute. He entered Queen's in 1911, graduating with a Bachelor of Arts degree in 1915. While a student at Queen's he was on the debating team and the boxing team. After graduating, he attended Osgoode Hall, then moved to Sault Ste. Marie. In the latter city he was a Mason and a Shriner, at one time president of the local Liberal Association, an original member of the Rotary Club and an ardent curler. A staunch supporter of Queen's, during the 1920's and 1930's he took a keen interest in the alumni of Sault Ste. Marie. Mr. MacInnis is survived by his wife, a daughter, Mhora, Arts '45, now at Osgoode Hall, and a son, a student at the University of Western Ontario.

**Ryan**—A member of the second class to graduate from Queen's Medical College for Women, Dr. Helen Ryan (Helen Reynolds), Med. '85, died on July 6 in Victoria, British Columbia. She was eighty-seven years of age, and was one of the first women to be admitted to the Canadian Medical Association. With her death, only two women graduates of that early medical college survive—Mrs. Adam Shortt, Med. '84, and Mrs. G. Silverthorne, Med. '04. Dr. Ryan was born in Mount Forest, Ontario, and received her early education there and at the Ottawa Normal School. When her brother became a doctor, she too decided to enter medical school. It was by no means easy for a woman at that time, as there was hostility from both faculty members and male students. Dr. Ryan entered Queen's in 1881 and graduated in 1885 with an M.D. degree. She practised for a short time in Toronto, then joined her brother in a practice in Mount Forest until her marriage to Thomas John Ryan in 1890. Mr. and Mrs. Ryan went to Sudbury to live after their marriage, remaining there

until they moved to Victoria in 1907. During the years in Sudbury Dr. Ryan carried on an extensive practice while taking care of a home and raising five children. Dr. Ryan did not practise in Victoria, but she took an active part in public affairs, contributing much to early efforts to achieve the women's franchise. She joined the local Council of Women and travelled extensively throughout British Columbia. She was a member of the original convocation of the University of British Columbia, and the fourth president, charter and life member of the University Women's Club. At the time of her death she was living quietly with a son, Horace, her husband having predeceased her. Two sons and three daughters survive.

**Shaw**—Prominent in athletics at Queen's, and for some years after leaving the University, William J. G. Shaw, M.M., Arts '23, died suddenly at his home in Kingston on July 16. He was forty-eight years of age. Born in Kingston, he enrolled at Queen's at the age of sixteen, and left the same year with the Queen's University Battery. He saw action at the Somme and at Passchendaele, and was decorated with the Military Medal for outstanding heroism at Vimy Ridge in April, 1917. He re-entered Queen's when he returned to Kingston, and in 1921 and 1922 played on the second football team and on the basketball team. In 1923 and 1924 he played for the Ottawa Roughriders and the Ottawa "Gunners" championship team. He maintained his contacts with sport at Queen's by coaching the junior football team from 1925 to 1927, after he had left the University to enter a clothing business in Kingston in 1923. Mr. Shaw was a keen curler and lawn-bowler, and also a member of a number of fraternal organizations. For some years he had been employed with National Breweries Limited, and at the time of his death he was supervisor of sales in Kingston. He is survived by his wife, his mother, three sons and a sister, Mrs. Kenneth Woods (Vera Shaw), Arts '21.

**Smith**—One of four brothers, all medical graduates of Queen's, Dr. Alexander Lorne Smith, Med. '02, died on July 1 at Lyons, New Jersey. Dr. Smith was born in Kingston in 1878. He graduated from the Kingston Collegiate Institute, and entered Queen's in 1898. In 1902 he received his M.D. After graduation he was doctor on location at the Michipicoten mines of the Algoma Steel Company. He then served his internship in St. Mary's Hospital, Rochester, New York. In World War I he went overseas as a captain in the United States Army Medical Corps. On his return to civilian life he specialized in eye diseases at Jersey City, acquiring an excellent reputation for fairness as an expert witness in Workmen's Compensation cases. He is survived by one brother, Dr. William Smith, Med. '05, and a sister. Two brothers predeceased him, Dr. George

Smith, Med. '12, and Dr. Norval Smith, Med. '04.

**Smith**—A lineman star with Queen's teams of the thirties, and a former player in Big Four football, Maxwell Marshall ("Tiny") Smith, Sc. '37, was killed in an airplane accident on June 1. Mr. Smith was flying to Labrador with two companions in connection with a mining venture. The seaplane developed instrument trouble and, when a landing was attempted on the choppy St. Lawrence River at Longueuil, Quebec, the craft plunged into the river. All three passengers were killed. A few weeks before the accident Mr. Smith had been told by physicians that a heart ailment left him only two years to live. Mr. Smith was born in Winnipeg and attended the University of Manitoba prior to entering third year mining engineering at Queen's in the fall of 1935. He graduated in May, 1937. During the war Mr. Smith enlisted in the engineering section of the R.C.A.F., and served overseas with No. 6 Bomber Group. He rose to Wing Commander and the fliers paid so much tribute to his maintenance leadership that "Tiny" was eventually awarded the O.B.E. After the war he went into the mining business with two other veterans.

**Spankie**—An active worker in the Baptist Church, Mrs. A. T. Spankie (Jennie Davison), Arts '11, died in hospital in Calgary on May 18. Mrs. Spankie was born at Delta, Ontario, and graduated from Athens High School prior to entering Queen's in 1906. In 1911 she received her Bachelor of Arts degree, and in 1912 her permanent first class public school and high school assistant's certificate. Before she moved to Calgary with Dr. Spankie in 1916 she taught high school. Mrs. Spankie served two years on the Calgary school board. She was a member of the Canadian Baptist Foreign Mission Board, the Women's Mission Auxiliary of the Baptist Union of Western Canada and the official

board of Baptist Union of Western Canada. Surviving are a daughter, a sister, and a brother. Her husband, Dr. A. T. Spankie, Med. '07, predeceased her in 1944.

**Smiley**—Struck by a falling bucket while working on the 300-foot level of New Calumet Mines, near Bryson, Quebec, Stewart Smiley, Sc. '49, of Perth, Ontario, was killed instantly on June 17. A second-year mining engineering student, he had been employed at the mine five weeks. Mr. Smiley was brought up and educated at Perth. He also attended Carleton College in Ottawa. During the war the thirty-year-old student served four years on H.M.C.S. *Cobalt* as a leading seaman, and prior to the war he worked for several years at mines in the Sudbury district. He attended the special summer session at Queen's in 1946 and the winter 1946-47 session. Besides his wife and his parents, he is survived by two brothers and two sisters.

### Notes

1890 - 1899

**Dr. E. L. Pope**, Arts '95, professor emeritus of medicine at the University of Alberta, is at present director of cancer clinics for the Province of Alberta. He received this appointment in July, 1944.

1900 - 1909

**Hon. J. J. McCann**, Med. '09, Minister of National Revenue, received the honorary degree of Doctor of Laws at the special convocation held at the University of Ottawa on June 21 in conjunction with the Marian Congress.

**Prof. F. H. MacDougall**, Arts '02 (Ph.D. Leipzig), formerly chief of the division of physical chemistry at the University of Minnesota, recently left for Honolulu to become associated with the chemistry department of the University of Hawaii.

Rev. A. P. Menzies, Arts '09, Theol. '12, Ottawa, was recently elected to the office of president of the Montreal and Ottawa Conference of the United Church of Canada. He succeeds Rev. R. M. Pounder, Arts '11.

Lt.-Col. Stuart N. Polson, Arts '05, Med. '10, has been presented with an award for service certificate by the Kingston Branch of the Navy League of Canada. He is past president of the branch.

#### 1910 - 1919

P. E. Doncaster, Sc. '10, who has been living temporarily in Ganges, B.C., since his retirement from the Department of Public Works of Canada, is now permanently established in Victoria, where his address is 117 Wildwood Avenue.

Dr. Bruce E. Knapp, Arts '19, Med. '22, is in general practice in Victoria, B.C.

A. L. Lewis, Sc. '12, formerly with the Braden Copper Company in Chile, is now farming in that country. His address is Casilla 44, Rengo, Chile.

W. C. Miller, Sc. '17, city engineer for St. Thomas, Ont., has been re-appointed a member of the Council of Huron College for another four-year term.

Rev. Canon K. E. Taylor, Arts '17 and '20 (B.D. University of Western Ontario), has

been appointed principal of the Anglican Theological College at the University of British Columbia. Rev. Canon Taylor received his licentiate in theology at Oxford in 1923, and from 1924 to 1930 was curate of Trinity Memorial Church in Montreal. From 1930 until 1937 he was rector of St. Mark's in London, Ont., and from 1937 until he enlisted in the chaplaincy service he was rector of St. John's Church in St. Thomas. He served overseas as principal chaplain (Protestant) of the First Canadian Army.

Howard J. Williams, Sc. '17, has been made a partner in the firm of Fay, Spofford and Thorndike, consulting engineers, Boston, Mass. Mr. Williams has for more than twenty years been associated with this firm, which is well known in the field of civil engineering.

N. R. Wright, Arts '15, Theol. '25, has retired from the ministry of the United Church of Canada. He is living at 931 Holly Ave., Fort Garry, Manitoba.

#### 1920 - 1929

Myrtle Adams, Arts '25, is on the staff of York Memorial Collegiate Institute, Toronto. During the summer of 1945, while on the staff of Harvard Workshop on Social Studies, she helped prepare a report on the Canadian content in American history textbooks. This report, together

with one which was prepared at the same time in Canada on the American content in Canadian history text books, is now ready for publication by the Canadian-United States Committee on Education.

Bertha Bassam, Arts '22, of the Library School, University of Toronto, spent the month of June in Western Canada where she attended the Canadian Library Association meetings in Vancouver.

Dr. Florence Dunlop, Arts '24, psychologist and supervisor of special classes in the Ottawa public schools, presided at the convention of the International Council for Exceptional Children which met in Ottawa May 11 to 14. Dr. Dunlop is in her second term as president of the Council and is the third Canadian to hold the office.

J. D. Forin, Arts '27, is practising law in Vancouver, B.C.

H. J. Fraser, Sc. '23, has been placed in charge of all plant operations of the International Nickel Company Inc., United States subsidiary of the International Nickel Company of Canada. Mr. Fraser continues as a vice-president of the company, a post he has held since March of this year. He is also an assistant vice-president of the parent company.

Mrs. J. E. Glen (Jessie Elliott), Arts '21, has been principal of the continuation school in Lansdowne, Ont., for the past year.

J. M. Hambley, Sc. '29, is now director of operations for the Hydro Electric Power Commission of Ontario.

Allen C. Knapp, Sc. '27, Queenston, Ont., was bereaved by the death of his father, Mr. Clifton A. Knapp, Sydenham, who was killed in an automobile accident on June 1. The late Mr. Knapp was a brother-in-law of Dr. W. A. Jacquith, Med. '98, of Columbus, Ohio.

K. H. Munger, Sc. '29, is production forecaster for the Tractor Works of the International Harvester Company, Chicago, Ill.

Mrs. T. H. Neville (Helen Carroll), Arts '29, was bereaved by the death of her

mother, Mrs. John K. Carroll, in Kingston on June 30.

Dr. C. R. Salsbury, Med. '24, is with the Workmen's Compensation Board in Vancouver, B.C.

Miss Marie Stock, Arts '26, has accepted a position at McMaster University, Hamilton, Ont., lecturing in French and German.

Dr. Ross Wong, Med. '24, is director of the Hackett Medical Centre at Canton, China. During the war he was a surgeon in a government hospital at Hong Kong.

*A Residential School for Boys*

## Your Boy's Future

The development of the total personality of the child is the aim of a modern educational programme. Therefore, besides academic instruction it is our endeavour at Pickering to inculcate a knowledge and understanding which prepares students for citizenship in a changing world. In addition to the usual academic programme, school life at Pickering promotes the physical, social and spiritual development of its students by offering a wide range of interests and supplementary activities—lectures and discussion groups on current problems, civic and economic—specialized library service—hobby clubs—vocational guidance—musical, artistic and dramatic interests. Seasonal athletic activities throughout the year.

For full information, write the Headmaster.

The Autumn Term Opens Sept. 11th

## 1930 - 1939

**John Albulet**, Sc. '32, is district radio aviation engineer for the Department of Transport at the Montreal Airport, Dorval, Que.

**Major J. R. Allen**, Com. '38, R.C.O.C., has been promoted to the rank of lieutenant-colonel and appointed assistant director of Ordnance services at N.D.H.Q., Ottawa.

**Dr. J. D. Bankier**, Arts '37 (Ph.D. Rice Institute), joined the staff of McMaster University two years ago and was recently appointed assistant professor of mathematics.

**Dr. H. C. Beachell**, Arts '37 (Ph.D. New York University), formerly of the duPont research laboratories in Cleveland, Ohio, is now assistant professor of chemistry at the University of Delaware, Newark, Del.

**Dr. A. P. Beavan**, Sc. '32 (Ph.D. Princeton), is at present chief geologist for the Trans American Mining Corporation Limited, Toronto.

**Major C. E. Brown**, Sc. '38, resident staff officer at Queen's University, has been promoted to the rank of acting lieutenant-colonel and has been transferred to the directorate of works and accommodation in the quartermaster-general's branch, Ottawa.

**H. F. Crain**, Sc. '32, was bereaved on June 3 by the death of his father, Mr. Rolla L. Crain, founder and president of the nationally known printing firm in Ottawa.

**Dr. J. G. Davoud**, Arts '37 (Ph.D. Oxford), is now assistant director of the Cortaulds high-polymer research laboratory in Coventry, England.

**Dr. D. J. Dewar**, Sc. '37 (Ph.D. McGill), is a technical adviser to the Atomic Energy Board in Ottawa.

**Major J. K. M. Flexman**, Sc. '33, has been promoted to the rank of lieutenant-colonel and appointed as assistant Quartermaster General in the Directorate of Works and Accommodation, Ottawa.

**M. A. L. Fusee**, Arts '39, formerly principal of the Osgoode Street School in Ottawa, has been named principal of the Percy Street school in that city. He is succeeded at Osgoode School by **Percy Seymour**, Arts '41.

**E. R. Hodgins**, Sc. '36, is chief chemist for Canadian Durex Abrasives Limited, Brantford, Ont.

**J. M. Neilson**, Sc. '36, recently received his M.Sc. from McGill University.

**W. A. Neville**, Arts '38, has been appointed advertising manager of the Great-West Life Assurance Company.

**Z. S. Phimister**, Arts '30, superintendent of secondary schools in Toronto, is attending the United Nations Educational, Scientific and Cultural Organization seminar being held in Paris from July 21 to August 30.

**H. C. Pocock**, Arts '39, has been appointed principal of Lady Evelyn School in Ottawa.

**Dr. R. T. Potter**, Med. '39, Belleville, Ont., has been appointed coroner for the County of Hastings.

**Mrs. J. M. Purvis** (Kathleen Brockel), Arts '38, was bereaved by the sudden death of her father in Kingston on May 24.

**Dr. A. Gerald Racey**, Sc. '34 (Dentistry McGill '37), Montreal, was chairman of the conference session on the teaching of Oral Diagnosis at the meeting of the American Association of Dental Schools in Chicago in June. Dr. Racey is assistant professor of Oral Pathology and Oral Diagnosis at McGill University and professor of Oral Pathology at the University of Montreal. **Mrs. Racey** (Phyllis Leggett), Arts '31, was elected a vice-president of the Queen's Alumnae Association at the annual meeting in April and is a past president of the Montreal branch.

**G. W. Robinson**, Sc. '36, is now manager of Consolidated Beattie Mines Limited, Duparquet, Que.

**Rev. Howard C. Scharfe**, Arts '31, of Shadyside Presbyterian Church, Pittsburgh, received the degree of Doctor of Divinity at Rutgers University, New Brunswick, N.J., on June 11.

**Lt.-Col. W. P. Shirreff**, Sc. '35, a recent graduate from the staff college, R.M.C., Kingston, has been appointed commandant of Vimy Barracks, Kingston. Colonel Shirreff was officer commanding the 4th Armoured Division Signals during the invasion of Normandy. He is the son of Dr. W. T. Shirreff, Med. '03, Ottawa.

**Graham Thomson**, Arts '34, Kingston, and **B. M. Thomson**, Arts '41, Montreal, were bereaved by the death of their father in Kingston on June 16.

**Rev. Horatio Todd**, Arts '34, Theol. '37, City View, Ont., has received a unanimous call from the congregation of Western United Church in Ottawa.

## 1940 - 1947

**D. J. Bailey**, Arts '40, has received his M.A. degree in economics at the University of California.

**R. L. Bartlett**, Sc. '42, after spending some time on leave in Canada, has returned to his position with the Bahrein Petroleum Company, Bahrein Islands, Persian Gulf.

**R. L. Blackett**, Sc. '43, recently transferred from the Tropical Oil Company, Barranca-Bermeja, Colombia, to the International Petroleum Company, Talara, Peru.

**Dr. Marcel Blanchaer**, Arts '45, Med. '47, is with the Department of Medical Research, Provincial Nutritional Research Laboratory, Winnipeg, Man.

**Rev. R. R. Bonsteel**, Arts '41, has been inducted as minister of the Odessa pastoral charge of the United Church of Canada.

A. C. Cameron, Arts '41, has joined the staff of Imperial Oil Limited, Toronto.

G. C. Campbell, Sc. '45, is on the staff of Central Patricia Gold Mines, Central Patricia, Ont.

Hector Chaput, Sc. '41, has joined the staff of the English Electric Company in St. Catharines, Ont.

N. E. Currie, Arts '45 (B.Sc. Manitoba; M.A. Toronto), is now assistant professor of political economy at the United College, Winnipeg, Man.

H. F. Ditchburn, Sc. '41, who recently graduated from the Graduate School of Business Administration of Harvard University with the degree of Master of Business Administration, has accepted a position with Falconbridge Nickel Mines Limited, Falconbridge, Ont.

Dr. C. R. M. Eaid, Med. '43, is now living at 145 Pim St., Sault Ste. Marie, Ont.

Barry Farrell, Arts '47, has been awarded a graduate fellowship of \$750 by Harvard University for the study of political science at the Harvard Graduate School of Arts and Sciences.

John O. Gage, Sc. '42, is field engineer for the Procter and Gamble Company of Canada, Hamilton, Ont.

N. A. Grandfield, Sc. '42, has been appointed assistant manager of the hydro and waterworks systems of the public utilities commission in Brantford, Ont.

John M. Hamilton, Com. '42, has been admitted to the Harvard School of Business

Administration. He will begin his studies in October.

R. N. E. Haughton, Sc. '46, Toronto, won the first prize at the annual students' and juniors' night of the Engineering Institute of Canada for his paper on "Lightning Effects on Buried Cable." Mr. Haughton is a member of the transmission group of the western area, general engineering department, Bell Telephone Company of Canada.

J. R. Kenney, Sc. '47, has been appointed to the staff of the electrical engineering and radio branch of the National Research Council, Ottawa.

L. R. Klink, Sc. '46, has joined the staff of Canadian Resins and Chemicals Limited in Shawinigan Falls, Que.

L. M. Lyne, Sc. '42, is with the E. B. Eddy Company, Hull, Que.

William Low, Arts '46, recently received his Master of Arts degree at Columbia University. The Physics Department at Columbia has asked him to continue his studies for his Ph.D. at the University and to teach as a full-time instructor.

K. A. McCaffrey, Sc. '43, has joined the staff of Thunder Bay Paper Company, Port Arthur, Ont.

H. I. Marshall, Sc. '41, has joined the staff of A. E. MacRae, consulting engineer and patent solicitor, 56 Sparks St., Ottawa. Mr. MacRae is a 1914 graduate in Science.

R. K. Mackenzie, Sc. '40, and John Maxwell, Com. '41, graduated this spring from

## VEINS FOR INDUSTRY

Oil refineries depend on Crane valves, fittings and fabricated pipe to control and convey petroleum through various processes, often at punishingly high pressures and temperatures. In bulk stations and service centres, Crane

equipment is equally indispensable.

Some of these valves and fittings require special alloys. Crane makes more than 30,000 varied units from which all industry is supplied to control the flow of oil, gas, steam, air and water. As scientific research and technical advance make new demands, Crane supplies the need.

**ENGINEERING STUDENTS**—You will find Crane technical literature helpful in your studies. It is yours for the asking.

R. L. Motard, Sc. '47, has accepted a teaching assistantship at the Carnegie Institute of Technology, Pittsburgh, Pa., where he will do postgraduate work and research in chemical engineering.

Dr. A. C. Odell, Med. '42, has started a practice at 514 Lyon St., Ottawa.

L. D. Offer, Sc. '45, left recently for Melbourne, Australia, to join the staff of the Shell Company of Australia as a technical adviser.

J. G. Simonton, Com. '40, has been taken into partnership by Mr. C. P. Mackintosh, C.A., in his Calgary office. The partnership is under the firm name of Mackintosh and Simonton, chartered accountants, and the address is 207 Insurance Exchange.

Arnold Tuer, Sc. '46, and his wife who was formerly Lois Southam, Arts '47, have moved to Kirkland Lake, Ont., where Mr. Tuer has been appointed Northern Ontario representative for Canadian Allis-Chalmers Limited.

G. N. Whyte, Sc. '46, is doing postgraduate work at Princeton University.

## 1947 Queen's Graduates!

You are now members of the  
General Alumni or Alumnae  
of Queen's.

The purposes of these Graduate organizations are to provide a means for Queen's men and women to meet together socially and, to promote as far as we are able the welfare of our Alma Mater.

Queen's very much needs the Alumni Association, and if a good job is to be done for Queen's the Association needs the support of everyone.

The Alumni or Alumnae branch of your district cordially invites you to get in touch with it.

*We of the Toronto Branch will be delighted to welcome you to our clan. Our next events are the Football game and Dance on Nov. 8 and the Graduates Dinner on Nov. 29.*

## DEAN OF WOMEN HONoured

DR. A. VIBERT DOUGLAS ELECTED I.F.U.W. PRESIDENT

IN August of this year Queen's was proud to learn that the University's Dean of Women, Dr. A. Vibert Douglas, had been elected president of the International Federation of University Women. Dr. Douglas is the eighth president of this organization representing women of thirty nations, and she is the first Canadian to hold the office.

The meetings of the I.F.U.W. were held in Toronto, and were declared to have been eminently successful in every way. "Except for the weather," added Dean Douglas, who recalled that the conference unluckily coincided with the record heat wave which held the country in its grip for most of August.

During her three-year term of office the new I.F.U.W. president will be supported by an executive including representatives of Great Britain, France, the United States, Poland, and Switzerland. All are women prominent in the national and international life of their countries, and Dean Douglas was enthusiastically confident in the strength and ability of her co-workers.

"Eleven of the countries represented at the conference had been under Nazi domination," Dean Douglas told the *Review*. "Some of the Eastern European delegates, from nations where economic conditions barred taking money out of the country, travelled on money raised by the I.F.U.W. None of them had any trouble getting permission to leave, however."

Dr. Douglas has been associated with the I.F.U.W. as a member of the Canadian Federation of University Women since 1920. She has been a member of the I.F.U.W. committee for awarding international fellowships since 1938 and convener of that committee since 1946.

A leader in the world of women, Dean Douglas has also made her mark in the world of science. She received her B.A. degree in mathematics and physics from McGill, following this with an M.Sc. in physics and a Ph.D. in astrophysics from the same University. During World War I she served in the War Office and in the Ministry of National Service in London from 1916 to 1918. For her work as head of the women clerks of the statistical section, which had the manpower of Great Britain under its eyes, Dr. Douglas was made a member of the Order of the British Empire. She is also a Fellow of the Royal Astronomical Society (London).

After the war she returned to Canada and to lecturing in physics and astrophysics at McGill, remaining there for eighteen years except for a two-year interval at Cambridge. In the fall of 1939 she accepted the position of Dean of Women at Queen's, and took up residence at Ban Righ Hall. This has been her headquarters ever since.

"Doctor D." to Queen's women for the past eight years, her cheery "Come in!" has always been the forerunner of a sympathetic hearing for problems brought to her little office by the five hundred young women in her charge. Every difficulty, no matter how trifling, receives careful consideration and each suggested solution is in line with the Dean's shining reputation for fairness.

While devoting the major part of her energies to the undergraduate women attending Queen's, Dean Douglas has continued to fill her place in other spheres. Last year she took over the course in Astronomy 1 from Professor K. P. Johnston, and this year she is again acting professor. In the summer of

1946 she was in Europe, and on her return made at least fifty addresses in aid of world student relief, a cause she heavily endorses. The Dean has lectured over a good deal of Canada on astronomical topics, and in Great Britain and Sweden for the International Federation of University Women.

In 1943 she was a member of Mrs. R. F. McWilliams' committee which prepared a report on Postwar Problems of Women for the government's Advisory Committee on Reconstruction.

Some fifty published articles have come from her pen, as well as nineteen scientific papers and a number of shorter pieces in newspapers. The scientific and philosophic essays have appeared in such periodicals as the *Atlantic Monthly*, *Hibbert Journal*, *Discovery*, *University of Toronto Quarterly*, *Queen's Quarterly*, *Proceedings of the Royal Society of Edinburgh*, *Nature* (London), *Astrophysical Journal*, and the publications of the Royal Astronomical Society of London.

---

### Queen's Alumnae Prominent At I.F.U.W. Conference

WHEN the ninth conference of the International Federation of University Women met in Toronto during the second week in August, many Queen's alumnae were in attendance. This, the first meeting of the Federation since 1939 and the first ever to be held outside Europe, was called to reorganize the work of the I.F.U.W. after its interruption by war, and to extend its activities to meet the new conditions of the post-war period.

Among the events which were of special interest to Queen's women, the first was the tea on August 8, arranged by the Alumnae Association and the Toronto branch, when about fifty alumnae were present to honour Mrs. R. B. Crummy (Ruth Harrap), Arts '19, of Vancouver, the president of the Canadian Federation of University Women, and the hostess to the conference.

At the formal opening on August 11, Mrs. Crummy extended greetings from the Canadian Federation to the guests from many countries. She expressed

the pride and happiness felt by Canadian women in being associated with the European women who had served and suffered so courageously during the war, and she mentioned the "Canadian mosaic," a fitting background for an assembly of delegates representing so many national associations. In closing she called upon all to go forward with "unwavering faith, high courage and a quiet heart."

As leader of the group of Canadian delegates, Mrs. Crummy took an active part in all the sessions of the Conference. On Thursday evening, when overseas members were guests of the Canadian Federation and almost six hundred sat down together at the banquet in the Royal York Hotel, Mrs. Crummy presided over what proved to be one of the most inspiring occasions of the week.

Dr. A. V. Douglas, Dean of Women at the University, also took a very significant part in the work of the conference. Her report announcing the award of six international fellowships to provide for research in widely different fields was very convincing evidence of the valuable work undertaken by the Federation.

Dr. Douglas was in the chair for the public meeting in Convocation Hall on Tuesday evening, when Dr. Helen C. White, Professor of English at the University of Wisconsin, spoke on U.N.E.-S.C.O. Among Canadians, and among McGill and Queen's women in particular, the unanimous election of Dr. Douglas as president of the I.F.U.W. for the ensuing three years was the occasion for justifiable pride and rejoicing.

For individual members, twelve Special Interest Circles discussed such topics as archaeology and art, biology, history, economics, law, libraries, and social welfare. Two stimulating sessions of the circle on population problems were directed by Mrs. Cora T. Casselman, Arts '12, of Edmonton.

During the five days of the conference a good many Queen's alumnae shared with university women from around the world the many opportunities which the conference brought to their doors: the inspiration of the formal

opening; the food for thought and reflection in the public addresses by Principal Taylor of University College, University of Toronto, Dr. White and Dr. Frances Moran of Trinity College, Dublin; the challenge to university women to "pull their weight," in the discussion led by Dr. R. F. McWilliams of Winnipeg; the exchange of ideas facilitated through the Special Interest Circles; and the happy acquaintance and friendly association with the distinguished guests made possible through the many social functions.

To Dr. Ursilla Macdonnell, Arts '00, past president of the C.F.U.W., who was in Toronto for special committee meetings prior to the conference, and to an untiring group of Queen's women, who served on committees in Toronto and who bore more than their share, perhaps, of the responsibility of entertaining the guests, the thanks of all Queen's alumnae are due. To Dr. Douglas, newly elected president of the International Federation of University Women, the Alumnae Association wishes to extend sincere congratulations.  
—M.M.

## THE LATE MRS. CHRISTINA MURRAY GOODWIN

An Appreciation by Miss Mary L. Macdonnell

MRS. C. M. GOODWIN, who died after a long illness on May 28, though not a graduate of Queen's, as the wife of the Dean of Science played a very vital part in the life of the University for many years.

She was born in 1860 in Canning, Nova Scotia, the daughter of Rev. William Murray, a Presbyterian minister and a missionary in Jamaica. There his eldest daughter spent her childhood. For more advanced education she was sent to Canada where she lived for some time in Halifax at "Studley" (now part of Dalhousie University), the home of her uncle, Rev. Robert Murray, well known as the author of several familiar and beautiful hymns. Later she attended Mount Allison Ladies' College at Sackville, and there she met Dr. W. L. Goodwin who was attending the university. After Dr. Goodwin's return from study abroad in Britain and Germany they were married and came to Queen's, where they remained until his retirement in 1920.

The variety of Mrs. Goodwin's experience in her younger days proved a very real intellectual stimulus to a naturally gifted mind. Those who knew her well will remember her as a woman of unusually alert mind, keenly inter-

ested in all that was happening, both in her immediate community and in the world at large. In the midst of unusually absorbing family responsibilities she took what part she could in the activities of the University and the city, always eager to encourage and assist in any worthy venture. But her chief role was that of hostess in her own house. Graduates in Science especially will have cause to remember her as the presiding genius of what is now "Goodwin House," where every year, until their number exceeded forty, definitely beyond the capacity of her moderate *ménage*, she would entertain the graduating class at dinner. Nor were students of other faculties overlooked; sons and daughters of old friends or graduates, and fellow students of her own young people, were familiar with her kindly hospitality. During the University session hers was indeed a well-worn doorstep.

Those who were fortunate enough to belong to her intimate circle will remember her as a warm and loyal friend endowed with unusual strength of mind and heart, in whose life 'two things' stood 'like stone,'

"Kindness in another's trouble,  
Courage in her own."

## UNION PARTIALLY GUTTED BY FIRE

EXCAVATION ALREADY STARTED FOR NEW BUILDING ON SAME SITE

THE Students' Union, berated and beloved by Queen'smen since 1929, and just redecorated, was partially gutted by fire on September 4, the day before it was to open for the incoming students.

As a temporary measure, kitchen equipment and other furnishings salvaged from the Union have been moved to the south wing of McLaughlin Hall, the new mechanical engineering building. This takes care of the 400 students who normally eat at the Union.

Meanwhile, less than a week after the fire, steam shovels were at work excavating around the severely damaged Union. A new building, incorporating and refacing the old structure, is under way, and it is hoped that by doing preliminary excavation and foundation work this fall the new Union will be ready for use in the fall of 1948.

The cause of the fire, which was first noticed at 5.30 in the morning, has not been determined, although it is believed to have started above the ceiling of the large dining room. The seventy-year-

old building, formerly an orphanage, had undergone extensive renovations during the summer months. Painters had been working there for three months, and the lounge on the second floor had been completely re-equipped with new furniture.

When the fire department arrived the entire corner of Union and University avenues was covered by smoke, and the fire chief said the fire must have been smouldering in the building for at least two hours before it was noticed. One great circle on the second floor was completely eaten away by the time firemen had penetrated the thick, acrid clouds of smoke.

Most of the damage was confined to the central part of the building and the top floor. In the basement the chief damage was caused by the tons of cascading water, particularly in the *Journal* offices. Valuable old back issues of the *Journal* were saved by students who clambered in through windows. New band uniforms, also in the basement, were salvaged, although somewhat dirty and water-soaked.

UNION SUFFERS HEAVY FIRE LOSS

M. N. Hay

On the first floor the main vestibule and the dining room suffered burnt beams and fallen chunks of plaster, as well as great destruction by water. The large lounge on the second floor was also badly damaged, and the billiard tables at the west end were considered nearly a total loss. The top floor, and the west and centre, was almost completely destroyed by fire and water, while the whole west part of the roof and the tower at the southwest corner were wiped out. Fortunately, the spacious memorial room on the second floor escaped serious damage.

---

### TO EXPAND PROGRAMME OF TUTORIAL CLASSES

**E**XPANSION of the programme of extramural tutorial classes this session has been announced by the Department of Extension. At no extra cost to those enrolled in certain extramural courses, there will be at least six tutorial classes during the winter at each of eight centres. The additional help will be a valuable supplement to the correspondence work which will be done in the usual way.

Designed particularly for teachers, the tutorials will be held at intervals throughout the winter on Saturday mornings from nine to twelve. Such help will be given in only one specified course at any one centre.

The plan was begun in a small way before the war, discontinued for the duration, and revived last year by opening three centres. Harry Hutton, Director of Extension, hopes to extend the service steadily. He is particularly interested in Northern Ontario, as a result of a visit made to Fort Frances last fall to speak at a teachers' convention.

All tutorials are being conducted by Queen's alumni, with the exception of the Philosophy 1 course at Belleville. A member of the Philosophy Department at Queen's will go from Kingston to Belleville for each of these. The other centres operating, with the name of the tutor and of the courses, are: History 6—Fort Frances, P. G. Reid, Arts '38;

Sudbury, Miss Alix Edge, Arts '31; Peterborough, Miss Verna Burgess, Arts '36; Kingston, F. J. Wilson, Arts '35; Brockville, Douglas Grant, Arts '33; and Kirkland Lake, Ross Babion, Arts '44; French 2—Fort William, Miss Sadie Miller, Arts '27.

---

### FIVE ELECTED TO ALUMNI BOARD

**I**N the annual election to the Board of Directors of the General Alumni Association which closed on September 30, two new members were elected and three retiring members were re-elected. There were sixteen nominees. A record number of votes was cast.

The directors, who will serve three years, are: C. R. Buss, Sc. '28, Thorold, Ont., and Dr. Wallace Troup, Med. '24, Ottawa, Ont., both newcomers to the Board; Mrs. W. C. Clark (Margaret H. Smith), Arts '14, Ottawa, Ont., M. N. Hay, Sc. '23, Kingston, Ont., and Miss Mary L. Macdonnell, Arts '10, Kingston, Ont., all re-elected.

---

### RECEIVE GRANT FOR CANCER RESEARCH

**A**N award of \$7,000 to Queen's to carry on cancer research has been announced by Arthur R. Ford, chairman of the Ontario Cancer Treatment and Research Foundation. The work will be directed by Dr. R. G. Sinclair, professor of biochemistry, and Dr. E. N. Robertson, professor of obstetrics and gynaecology.

Throughout the province the foundation has granted awards for 1947 totalling more than \$75,000. Of this, \$53,800 went to the University of Toronto, \$11,500 to the University of Western Ontario, and \$2,500 to the Mountain Sanatorium, Hamilton.

---

### To Receive Degree

Mrs. Franklin Delano Roosevelt will receive an honorary degree of Doctor of Laws at a special convocation to be held at Queen's on January 8.

## IMPORTANT STAFF APPOINTMENTS ANNOUNCED BY EXECUTIVE COMMITTEE OF BOARD OF TRUSTEES

**F** L. BARTLETT, M.M., B.A. (Toronto), director of the physical and health education branch of the Ontario Department of Education since 1942, was appointed director of the School of Physical and Health Education at Queen's at a meeting of the executive committee of the Board of Trustees on September 6. A number of other appointments were announced at the same time.

M. C. Tillotson, M.B.E., B.Com. (Queen's '26), M.B.A. (Harvard), has been named assistant treasurer of the University. The resignation of Dr. George Humphrey, head of the department of philosophy, was accepted, also that of Dr. M. L. Keith. R. D. MacDonald, B.Sc. (Alberta), M.Sc. (Alberta), M.A. (Queen's '38), Ph.D. (Princeton), will be assistant professor of geology in place of Dr. Keith. W. R. Thompson, M.A. (Toronto), will be Fellow in Psychology. E. L. Dauphin, B.Sc. (Queen's '43), has been appointed lecturer in civil engineering for one year, while completing work for an M.Sc. L. H. Shibley, B.Sc. (Queen's '44), is to

teach two sections of English I (Science). A. M. Ross, B.A. (Queen's '40), is to teach two sections of English I (Science). Arnold Edinburgh, an honor graduate in the tripos course in English Literature at Cambridge, will lecture in English.

The new director of the physical and health education school, Mr. Bartlett, is a graduate of the University of Toronto and of the Ontario College of Education. During World War I he was awarded the Military Medal for action at Cambrai. Before joining the Ontario Department of Education he was for many years in charge of physical and health education work in the schools under the Toronto School Board. He is married and has two children.

Mr. Tillotson, assistant treasurer, received his B.Com. degree from Queen's in 1926 and an M.B.A. degree from the Harvard Graduate School of Business Administration in 1929. His career includes sales promotion, various phases of banking and investment experience, the setting up of accounting and statistical systems for financial and industrial

F. L. BARTLETT

M. C. TILLOTSON

organizations, and operating his own retail business, dealing in fine arts. For five and a half years he was with the Department of Munitions and Supply in Ottawa. He was appointed executive assistant to the controller and secretary in 1940, and later assistant secretary of the department. In his capacity in the Department of Munitions and Supply he dealt with such matters as tenders, communications, insurance, expropriations, transportation, and other duties which were delegated to him from time to time. On Dominion Day, 1946, Membership in the Order of the British Empire was conferred upon Mr. Tillotson by His Majesty the King.

Prior to taking his present position he was secretary-treasurer of an importing and exporting corporation with head offices in Toronto.

### LT.-COL. L. F. GRANT HEADS ENGINEERING INSTITUTE

A BIOGRAPHICAL sketch of Lieutenant-Colonel L. F. Grant, associate professor of engineering at Queen's, appeared recently in *The Engineering Journal*. Colonel Grant, who received a B.Sc. with honours from Queen's in 1926, while teaching at the Royal Military College, has been elected president of the Engineering Society of Canada for 1947-48.

The write-up gave a detailed account of Colonel Grant's military and engineering achievements at R.M.C., in both World Wars, as a civil engineer and surveyor, and as a member of staff at Queen's. After outlining his activity in the Engineering Institute, the article concludes:

"The election of Colonel Grant as President of the Engineering Institute of Canada will be welcomed by a wide circle of friends, colleagues, comrades, and former students. Looking back on his career as engineer, soldier and professor, it is difficult to say which of these branches of work is the one in which he has been of the greatest service to the community and to the engineering profession.

"Greatly esteemed in private life, he is a man who has never sought publicity.

His sound judgment and wide range of experience will enable him to take a prominent part in guiding the present rapid growth and development of The Engineering Institute of Canada."

### McLAUGHLIN HALL AVAILABLE SOON

CLASSROOMS and drafting rooms in McLaughlin Hall, the new mechanical engineering building, are expected to be available during the late fall. Laboratory equipment will not be installed before next summer in the \$300,000 building donated by Col. R. S. McLaughlin, president of General Motors of Canada, Ltd. Colonel McLaughlin, with Mrs. McLaughlin as co-donor, is also supplying funds for the equipment.

The new building is one of the most up-to-date buildings of its kind on the North American continent. Situated on the corner of Stuart Street and Lower University Avenue, it is a handsome structure of Queenston stone, in harmony with the other grey buildings on the University grounds. Where the Observatory once stood will be the front lawn, facing the lower campus.

There will be a floor area of approximately 30,000 square feet. Frontage on Stuart Street will be 114 feet. This portion of the building will be four storeys high, and will extend to the rear a distance of fifty feet. There will be a one-storey section extending back from the main portion a distance of 140 feet. The basement under this section will be the only basement in the building.

In the front, or main part of the building there will be machine shops on the first floor; heating, ventilating and air conditioning laboratories, fuel testing laboratories, offices and one lecture room on the second floor; three lecture rooms, offices, research workshop and library on the third floor; and two large drafting rooms on the fourth floor.

In the basement at the south end of the building will be found the internal combustion laboratories. This will include extensive laboratories for welding, thermodynamics, and coal and fuel oil analysis.

Walls in the laboratories will be of glazed tile to a height of about seven feet, with plaster to the ceilings. Seventeen rooms will have acoustic ceilings finished in light ivory acoustic plaster. Floors will be terrazzo finish in the hallways, and cement finish in the laboratories. Linoleum will cover floors in most of the offices and classrooms. Other flooring materials are being considered for some other offices and classrooms.

The building will be of fire-resistant construction, steel reinforced throughout. The roof of the front portion will be covered with non-fading green slate. Main entrance will be the front west end of the building, with additional entrances at the side and rear.

Equipment will be bought on a programme basis covering a period of several years. This will enable purchases of new equipment to be made as it appears on the market.

The new facilities will make possible tests and studies previously out of the question, including tests on automotive engines, all types of refrigeration equipment, modern welding equipment, and practically every type of air compressor.

In the compact machine shop located on the first floor of the main section, new machines will include heavy lathes, radial drills, assorted bench drills, universal grinders, assorted pedestal grinders, hardness testers, about a dozen standard engine lathes, a turret lathe, a universal milling machine, a planer with side head, a shaper and modern blueprinting equipment.

The heating system is designed to be a laboratory in itself, since many different types of heating systems will be installed. There will be hot air heating, low pressure steam radiators, unit heating, with a heating unit hung from the ceiling and air circulated by fans, and new type panel or radiant heating. In the latter system, water-pipes are laid underneath the flooring, and warm water circulates through them. Pipes are laid close together.

The building will be liberally supplied with hot and cold water, gas, and com-

pressed air. Electric power will be available from 110-volt and 220-volt AC and DC, and 550-volt three phase AC power. Included in the plans is an elevator for the use of the staff.

Mechanical engineering students will have the most use of the new facilities. Once the present rush of veterans is over, enrolment in third and fourth year is expected to drop from the present sixty to thirty each year. These will take all their machine work in the building. Fourth-year chemical engineering students will take a half course in shop work in the machine shops, and all second-year civil, mechanical, and electrical engineering students will use the building for shop work. General lectures in thermodynamics and mechanical engineering will be given various groups of students in their third and fourth years.

---

### DR. W. J. SIMPSON, MED. '99 STILL IN PRACTICE

MEDICAL friends of Dr. William John Simpson, Med. '99, believe that he is the oldest practising physician in Canada. The eighty-three-year-old great-grandfather is still carrying on a full-time practice in the village of Millet, thirty miles south of Edmonton.

An account of Dr. Simpson's activities appeared in a recent issue of the *Edmonton Bulletin*. It told how the doctor, for all his forty-eight years of practice, still has the instincts of a young physician. He never misses the annual refresher course in medicine at the University of Alberta, attends all conventions of the Canadian Medical Association, and spends every spare moment studying the latest developments in his profession.

Prior to entering Queen's, Dr. Simpson taught school for a number of years. After graduation he went to Alberta and started a practice at Lacombe. He remained there thirty-one years, and then moved to Millet. Although he had been turned down by military authorities for being over age in World War I, Dr. Simpson tried again to enlist in World War II. Despite his insistence that he felt as young as many in the army, he

was compelled to turn to the chairmanship of the Millet Red Cross as his war effort.

Last winter Dr. Simpson contracted double pneumonia. It was his own determination to live and return to his practice that pulled him through. Within a few weeks he was back at work with all his former vigour, refusing to retire or even slacken off.

---

## DR. GEORGE HUMPHREY RETIRES FROM STAFF

AFTER twenty-four years as head of the Department of Psychology at Queen's, Dr. George Humphrey has resigned to become head of a newly created chair of psychology in the Honour School of Philosophy, Psychology and Physiology inaugurated this year at Oxford University. A successor to Dr. Humphrey will not be named until next spring.

Principal Wallace said that it was an honour to Dr. Humphrey, "a distinguished psychologist," to have been invited to assume the important new post in Great Britain.

Dr. Humphrey was born in England and received a B.A. in mathematics and classics in 1912 from Oxford and an M.A. in 1920. He also studied at the

London School of Economics and the University of Leipzig. Coming to Canada during World War I, from 1915 to 1923 he was tutor, assistant professor, and professor at various colleges, including St. Francis Xavier in Nova Scotia. In 1920 he was awarded his doctorate in psychology and education at Harvard University.

During World War II Dr. Humphrey was chairman of a committee of psychologists appointed to develop psychological services for the armed forces of Canada. The author of many books, including the popular *Story of Man's Mind*, he wrote novels under a nom-de-plume as well as articles for psychological periodicals. During the summer of 1938 he read a paper at the British Association for the Advancement of Science. He is a member of the American Psychological Association and was the original secretary of the Canadian Psychological Association.

Mrs. H. S. Scorer (Anne Humphrey), Arts '41, is a daughter.

---

## QUEEN'S ENGAGEMENT PAD NOW AVAILABLE

ON October 17 there went on sale a Queen's engagement pad that any alumnus will want to own. Sponsored by the Alumnae Association, with all proceeds to go to the Ban Righ Building Fund, the booklet is useful, lovely to look at—and for a good cause.

Twenty fine photographs of the best-known and most beautiful views of the University buildings are included in the seven-by-eight inch pad, which opens flat for entering memos easily. The stiff cover has a vertical picture of Grant Hall tower and the University's name. Inside on the frontispiece is the Queen's crest and the year 1948. Each page has room for a week's entries.

Queen's people everywhere, noted for their many activities and interests, will find the pad just what they want. It is an ideal gift, too, for graduates and undergraduates, loyal alumni, and interested friends. The Queen's engagement pad may be purchased from alumnae and alumni branches across Canada. Price, \$1.00.

DR. GEORGE HUMPHREY

## BOB ELLIOTT SUCCEEDS FRANK TINDALL AS HEAD FOOTBALL COACH

ONE week before the first scheduled football practice, the Tricolour plans for 1947 were given a rude jolt when Head Coach Frank Tindall of Syracuse, New York, received a state civil service appointment which precluded his coming to Queen's.

Officials of the Athletic Board of Control were fortunate in being able to sign up Bob Elliott, former Queen's star and coach, to step into the breach, and the appointment was received with satisfaction in all quarters. Coach Elliott is being assisted by Frank Tindall's brother, Charles, of Colgate University, who is coaching the linemen.

More than 100 hopefuls turned out for football this year, and the squad contained a large number of new faces. Within two weeks Coach Elliott had made his first tentative selection of the senior team and had begun to concentrate his attention on this group.

In the select company were the following: snapbacks, Jim Charters and Lloyd Woods; inside wings, Mike Hriskevich, Nick Speropoulos, Bill Burgess, and Mel Carson; middles, Jack Patterson, Ted Porter, Don George, Roy Fardell, and Bob Stevens; outsides, Stu Pearce, Doug Woolley, Hal Pringle, and Jim McGuire; backs, Al Lenard, John Faulkner, Murray Bulger, Mike Halliday, Ross McKelvey, Pete Flaherty, Ken Parkinson, Don Delahaye, Billy Hoose, Frank Macintyre, and Dave Rozumniak.

In rebuilding the team Coach Elliott displayed considerable daring and imagination. Ted Porter, who was a kicking half on last year's team, has been converted into a lineman, while Roy Fardell, Jim McGuire, and Hal Pringle, formerly backs, are also pressed into duty on the line. In reverse, Ken Parkinson and Don Delahaye, previously two of the Tricolour's strongest performers on the line, have been made into flying wings.

Newcomers to the senior team are Nick Speropoulos of McMaster University, Hamilton; Mel Carson, Hal Pringle, John Faulkner, and Mike Halliday of Queen's intermediates; Don

George, Regina; Doug Woolley, Toronto; Murray Bulger, Toronto St. Michael's College; Ross McKelvey, Toronto; and Pete Flaherty, Hamilton Tigers.

It will seem like old times to see a McKelvey cavorting around the Richardson Stadium again. No relation to the illustrious "Red" McKelvey, Ross is the son of George F. McKelvey, Arts '15. Twenty-three years of age, he is a football player of the first order, having starred with Balmy Beach and Toronto Indians in the Big Four.

One of the noteworthy features of the practices this year has been the enthusiasm and spirit displayed by the aspirants. The feeling seems to be abroad that Queen's is on the "road back." Judging from the reports of strength emanating from the camps of the other teams, it cannot be expected that the Tricolour will greatly improve its position over last year's standings, but it will definitely be a much stronger team and the nucleus of even better things to come.

Out of the remainder of the squad that did not make or were not eligible for the senior team, two good intermedi-

COACH BOB ELLIOTT

ate teams have been assembled. Coached by Johnny Edwards, Arts '36, director of physical education. Queen's has an entry in the O.R.F.U. along with Cobourg, Orillia, Peterborough and Oshawa. A team has also been entered in the intermediate Intercollegiate competi-

tion, with Dr. Jack Milliken, Med. '47, in charge.

The football season opened on September 27 with the Tricolour opposing Cobourg, last year's O.R.F.U. intermediate champions. Queen's won by a score of 1 - 0.

---

## SEVERAL YEARS PLAN CLASS REUNIONS

**D**ESPITE many obstacles, several years were able to make the necessary arrangements for a class reunion this fall. By the time this issue of the *Review* is distributed, the main reunion on October 18 will have been held, but there are still several gatherings scheduled for other week-ends.

For October 18, the following were able to plan a reunion: Science '17, Keith Light, convener; Science '30, H. P. Dickey and Dave Jack; Science '40, W. M. Newby; Arts '36, C. C. Hilmer; Arts '46, K. A. Murchison. Three classes are making plans for the Western-at-Queen's week-end on November 1: Science '22, J. F. Comer and D. D. Findlay; Arts '22, C. M. Sutherland; Med. '46, Dr. B. M. Woods. The class of Science '47 is holding a reunion in Toronto on the week-end of the Queen's-at-Varsity game on November 8.

The reunion programme on October 17 and 18 was changed somewhat since the original announcement. On the evening of the seventeenth the University gave a dinner in Grant Hall in honour of Dr. W. E. McNeill, retiring vice-principal and treasurer. Guests included members of the staff, University Council, Board of Trustees, and Alumni and Alumnae directors; others were admitted to the gallery. This dinner took the place of the University Reception, and was followed by the annual meeting of the General Alumni Association. The semi-annual meeting of the Alumni Board of Directors was held on the afternoon of October 17, and all other events took place as originally planned.

A note from G. M. Sutherland, Arts '22, announces that final plans have been made for his twenty-fifth class reunion on November 1. Registration will be held at the Gymnasium 10-12 a.m. The highlight of the afternoon programme

will be the Queen's-Western game, followed by the class dinner and dance in the evening. Class members who have not already heard from the committee in charge are asked to write to Mr. Sutherland at 125 Dinnick Crescent, Toronto.

It is hoped to be able to resume the set schedule of class reunions next year. The plan has not been followed since 1939, when it was dropped because of the war. For the past three years only a general reunion has been possible because of the lack of dining and rooming accommodation in Kingston. The building of a new and greatly enlarged Students' Union is expected to help the situation considerably.

---

## F. K. McKean Invents New Process For Cleaning Molybdenite

**T**O F. K. "PAPPY" McKEAN, mining engineer with the Metallic Minerals Division of the Bureau of Mines, Ottawa, goes the credit for the discovery of a new process for cleaning molybdenite concentrate. This process makes it possible to have a successful molybdenite mine in Canada in peacetime.

Situated at La Corne, eighteen miles from Val d'Or, Quebec, the mine is owned by Molybdenite Corporation of Canada, and during the war was operated by Wartime Metals Corporation. The product was low in grade and very impure, but during the war it was mixed with the output from mines in the United States and thus was swallowed up in the huge volume of material from that source. The new process effectively removes the impurities and is surprisingly low in cost.

Superintendent of the mine is G. W. Neumann, also of Sc. '40.

**Front Elevation**

**W**ITHIN a few days after the disastrous fire in the Students Memorial Union, work was begun on the construction of a new building on the same site. An enlarged Union had already been included in the programme for the future and plans had been prepared, the front elevation of which is shown above. While some changes will be made, the building will appear much the same as depicted in the architect's sketch.

## Memorial Union

At the west end (left, above) will be the Great Hall, a deep-ceilinged dining room 90 feet by 35, in which it will be possible to accommodate a thousand students at mealtime. The building committee is now working on the plans for the remainder of the interior. Included will be such features as common rooms, small dining rooms, offices, committee rooms, guest chambers, snack bar and tuck shop, and various facilities for clubs and organizations.

# At the Branches

## Middle Atlantic

THE Middle Atlantic Branch held its first annual outing at the lovely country home of the Nelson C. Coopers in Marshalltown, Delaware, on June 29. Upon arrival, the alumni were greeted by a Tricolour banner suspended from the treetops over the highway, and everyone knew at once that a Queen's party was in progress.

While the young folks enjoyed sports—badminton, softball and croquet—old timers sat around the shady, terraced lawns and had a grand time getting acquainted with the families of former college friends and more recently graduated alumni. Reminiscences of days at the University were enlivened by group pictures from the host's collection, such as those of "The Sympathy Six" Orchestra of the 'twenties and numerous sports teams of those days. The president of the branch, Dr. G. E. Flanagan, took movies of scenes at the outing, and he plans to show these, along with some recent movies of Queen's, at the annual dinner in November.

Following lunch, there was an informal business meeting and a discussion of plans for the annual dinner, which is scheduled for November 20 in Philadelphia, and will be attended by Principal Wallace. (All Middle Atlantickers, please note this date and plan to be present. Notices will be sent out later.) A rousing vote of thanks was given to the Coopers for their truly "southern hospitality."

Those present were:

N. C. Cooper, Sc. '22, Mrs. Cooper, and daughter Catherine; Dr. G. E. Flanagan, Med. '23, Mrs. Flanagan, and George, Jr., Arts '50; Dr. R. K. Shirley, Med. '23, Mrs. Shirley and Reginald, Jr. (4), and Clifford (6 months); Dr. F. S. Clarke, Med. '37, Mrs. Clarke, and Stephen (4); Dr. John Lansbury, Med. '26, Mrs. Lansbury, Ann (14), John (7), and Roger (3); H. S. Campbell, Sc. '28, Mrs. Campbell, and Claire (13); C. U. Peeling, Sc. '09, Mr. and Mrs.

H. J. Peeling, and "Gretel"; Mr. and Mrs. H. J. Creech (Dr. Marie Hearne), Arts '30, Joan (4), and Richard (7); Dr. R. W. Bailey, Med. '04, Mrs. Bailey, and their guests, Mr. and Mrs. A. W. Hurley; W. R. Conn, Arts '32, Mrs. Conn, and Marilyn; G. C. McBride, Sc. '26, Mrs. McBride (Eileen Jandrew), Arts '24, and George (12); A. M. Wallace, Sc. '22, Mrs. Wallace, Barbara (15), and Robert (17); M. C. Fleming, Sc. '19, and Mrs. Fleming; Mr. and Mrs. H. F. Ray (Helen Libby), Arts '20.

—H.L.R.

## Kingston

INCLEMENT weather spoiled the tournament portion of the annual dinner and golf meeting scheduled for the Cataraqui Golf and Country Club on September 19, although a few of the hardier members managed to play part of a round. The dinner was an outstanding success, however, sixty-five turning out and filling every available place. The president, Ian MacLachlan, Sc. '25, Arts '26, was in the chair.

W. P. R. Holdcroft, Arts '21, Sc. '23, acted as master of ceremonies and called on various members and guests for impromptu speeches. Dr. R. G. Sinclair of the staff related his experiences on the Queen's expedition to the Arctic last summer, with particular reference to the sinking of the supply ship, *Nascopie*. Dr. G. M. Brown, Med. '38, who joined Dr. Sinclair later, told of the results obtained from the expedition.

Principal Wallace described his recent trip to the Old Country. He gave a vivid account of conditions in England and told of the hardships and problems confronting the people there.

Dr. O. A. Carson also spoke briefly, outlining plans that had been made in connection with the football team. The president, Mr. MacLachlan, listed the various events that had been planned for the Kingston branch for the winter months and asked for the support of all alumni.

## Hamilton

APPROXIMATELY 200 attended the first "University Night" programme held in the Scottish Rite Club on October 1, with Principal Wallace as guest of honour and main speaker of the evening.

In addition to Queen's alumni, graduates of the following were present: Dalhousie, Mount Allison, Acadia, McGill, Toronto, McMaster, Western, Manitoba, Saskatchewan, and one or two American universities. The guests were provided with rosettes with their college colours.

Canadian universities will soon be seeking financial aid from the federal government, Principal Wallace told his audience. He said that the realization is growing that provincial government grants are inadequate to meet present needs. Already, substantial amounts have been given by the federal government for scientific research through the National Research Council.

With reference to his trip to the Old Country last summer, the Principal paid tribute to the manner in which the British are meeting the many difficulties of the post-war period. At the same time he was disturbed over certain economic aspects. He said that labour no longer seems willing to do a honest day's work for an honest day's pay. The unions have done a lot for the not-so-able man, but have done little or nothing for those with better than average abilities. Until this situation is changed, conditions will not be satisfactory.

The speaker was introduced by Prof. Watson Kirkconnell, Arts '16, and was

W. A. DAWSON

C. H. DREW

thanked for his excellent address by Miss Anne Smith, Arts '22.

In his remarks as chairman, President W. A. Dawson, Sc. '23, welcomed the alumni of other universities to the Queen's gathering and expressed the hope that such meetings would become a regular feature. The toast to sister universities was proposed by Dr. H. T. Ewart, Med. '35, and was responded to by Chancellor G. P. Gilmour of McMaster University. H. J. Hamilton, secretary-treasurer of the General Alumni Association, spoke briefly in bringing greetings from the University.

A surprise feature of the evening was the presentation of a suitably engraved gavel to Past President C. H. Drew, Com. '25. In accepting, Mr. Drew paid tribute to the support he had received from his executive and alumni in general during his term of office.

The remainder of the evening was spent in dancing.

## Saguenay

THE fourth annual dance sponsored by the Saguenay branch was held at the Saguenay Inn, Arvida, Quebec, on May 3. A crowd of about 225 couples attended the event, which has come to be one of the most highly anticipated of the year.

Dancing was enjoyed in the main dining-room from 9.30 until 1.30, to the music of Paul Northow and his orchestra. Cocktails were enjoyed in the cocktail lounge and assembly room, and refreshments were served in the grill at midnight. The committee in charge included A. C. Turney, Sc. '39, convener, Robert Trowbridge, Sc. '32, H. H. Lockwood, Sc. '39, T. A. Carter, Sc. '31, Lynn Hull, and Mrs. C. J. Tanner (Janet Sword), Arts '38.

### Please

Notify your branch secretary if you have not been receiving notices of meetings.

Notify the Alumni Office when you change your address.

## NOMINATIONS SOLICITED FOR ELECTIONS

AS provided in the by-laws of the University Council that govern the elections of the administrative bodies of Queen's, graduates and graduate-benefactors of the University are hereby notified that nominations of candidates for election to these bodies may be made as stated below. Printed forms for these nominations are not sent out, except to the elected members of the University Council and to the non-graduate benefactors in the case of the Trustee elections.

### **Nomination of Trustees by the Graduates**

Graduates of the University (except those who are elected members of the University Council, from whom nominations are solicited as stated above) may nominate two candidates for election to the Board of Trustees to succeed E. A. Collins, B.Sc., LL.D., Copper Cliff, Ont., and B. M. Stewart, M.A., Ph.D., New York City. Both are eligible for re-election. No other present member of the Board should be nominated, nor should any member of the University staff.

Candidates must be nominated by five or more electors in order to qualify. Nominations must be in writing, signed, and received by the Registrar of the University on or before December 31, 1947. Trustees elected will serve until 1951.

### **Nomination of Trustees by the Benefactors**

Benefactors who have contributed \$100 or more to the University may nominate two candidates for election to the Board of Trustees as follows:

(a) Under the Act of 1912 (General)—One Trustee to serve until March, 1952, in succession to the late C. J. Booth, Ottawa, Ont.

(b) Under the Act of 1916, providing for representation of the School of Mining" (Special Science)—One Trustee to serve until March 31, 1951, in succession to R. D. Harkness, D.S.O., M.C., B.Sc., Montreal, Que. Mr. Harkness is eligible for re-election.

No present member of the Board, other than Mr. Harkness, should be

nominated, and no member of the University staff is eligible.

Candidates must be nominated by five or more electors in order to qualify. Nominations must be in writing, signed, and received by the Registrar of the University on or before December 31, 1947.

### **Nomination to the Council by Graduates**

Graduates of the University may nominate nine candidates for election to the University Council to succeed the following members, whose terms expire in 1948; James Bartlett, B.Sc., Toronto, Ont.; C. H. Bland, B.A., Ottawa, Ont.; His Honour Judge C. A. Cameron, B.A., Ottawa, Ont.; Mrs. F. C. Casselman, B.A., Edmonton, Alta.; Mrs. D. M. Chown, B.A., Kingston, Ont.; Rev. A. D. Cornett, M.A., B.D., D.D., Oshawa, Ont.; D. G. Geiger, B.Sc., Toronto, Ont.; G. J. Smith, B.A., B.Sc., Kingston, Ont. Retiring members are eligible for re-election. No other present members of the Council should be nominated.

Candidates must be graduates of Queen's and must receive five or more separate nominations in order to qualify. Nominations must be in writing, signed, and received by the Secretary of the University Council on or before December 15, 1947. The members elected will serve until March 31, 1954.

---

## **Increase in Registration Recorded for All Faculties**

MORE students are enrolled at Queen's this year than ever before in the University's history. Figures released by Jean I. Royce, registrar, show that up to October 1 a total of 3,188 students had registered. The previous high was last year, with 3,028. Late registrations will increase the 1947 figures.

A rise in registration in all faculties has occurred. In Arts the number is 1,644, compared to 1,609 last year; in Science, 1,168 compared to 1,133; in Medicine, 273 compared to 255; in the School of Nursing, 27 compared to 21.

Roughly 58 per cent of the total registration is composed of ex-service personnel, mainly in the post-freshman years.

# Alumni News

## Births

**Acton**—At the Ottawa Civic Hospital, on September 19, to D. B. Acton, Com. '47, and Mrs. Acton, a daughter.

**Allen**—At the Ottawa Civic Hospital, on August 4, to H. L. Allen, Com. '36, and Mrs. Allen, a son.

**Anderson**—At the Private Patients' Pavilion, Toronto Western Hospital, on August 29, to Drew Anderson, Sc. '42, and Mrs. Anderson, a son.

**Barker**—On August 16, at Mount Hamilton Hospital, Hamilton, Ont., to J. T. Barker, Com. '38, Arts '39, and Mrs. Barker (Isobel Shaw), Arts '38, Com. '39, a son (Reginald Donald).

**Barnhart**—At the Kingston General Hospital, on July 19, to H. W. Barnhart, Sc. '49, and Mrs. Barnhart, a son (John David).

**Berry**—At the Ottawa Civic Hospital, on August 10, to R. A. Berry, Sc. '38, and Mrs. Berry, a son.

**Bird**—At the Kingston General Hospital, on September 5, to Lt. Cmdr. H. J. G. Bird, and Mrs. Bird (Phyllis Van Luven), Arts '38, a son.

**Bocking**—At the Ottawa Civic Hospital, on September 11, to J. H. Bocking, Arts '36, and Mrs. Bocking, a son.

**Bruce**—At the Ottawa General Hospital, on August 10, to C. G. Bruce, Sc. '38, and Mrs. Bruce (Jessie Katherine Bailey), Arts '34, a daughter.

**Campbell**—At the Royal Victoria Hospital, Montreal, on August 22, to D. W. Campbell, Sc. '42, and Mrs. Campbell (Lois Lester), Arts '44, a son (William Bruce).

**Carkner**—At St. Joseph's Hospital, London, Ont., on August 23, to Mr. D. H. Carkner and Mrs. Carkner (Shirley Armstrong), Arts '38, a son (Ronald Earle).

**Clarke**—At the Kingston General Hospital, on August 27, to Ross E. Clarke, Sc. '35, and Mrs. Clarke, a son (Richard Dale).

**Cleveland**—On July 31, at Grace Hospital, Ottawa, to Mr. J. H. Cleveland and Mrs. Cleveland (Delta Steen), Arts '37, a son (Gordon Harrison).

**Cooper**—At Mount Hamilton Hospital, Hamilton, Ont., on July 25, to J. C. Cooper, Arts '30, and Mrs. Cooper, of Freelon, Ont., a son (Ian Alexander).

**Cuthbertson**—On August 30, at the Plummer Memorial Hospital, Sault Ste. Marie, Ont., to A. M. Cuthbertson, Sc. '44, and Mrs. Cuthbertson, a son (Gordon Alexander).

**Finkelstein**—At Mount Hamilton Hospital, Hamilton, Ont., on September 18, to Dr. B. Finkelstein, Med. '41, and Mrs. Finkelstein, a son.

**Flay**—At Grace Hospital, Ottawa, on August 27, to Dr. W. A. Flay, Med. '41, and Mrs. Flay, a son.

**Gibson**—At the Hotel Dieu Hospital, Kingston, on September 7, to Dr. J. E.

Gibson, Arts '37, Med. '40, and Mrs. Gibson, a daughter.

**Gummer**—On September 17, at Arvida, Que., to Dr. W. K. Gummer, Arts '37, and Mrs. Gummer, twins, a son and a daughter.

**Harbeson**—At the Ottawa Civic Hospital, on September 10, to Dr. A. E. Harbeson, Arts '27, Med. '29, and Mrs. Harbeson, a daughter.

**Holden**—On July 28, at Victoria Hospital, London, Ont., to Eric Holden, Sc. '44, and Mrs. Holden (Mary Carmichael), Arts '45, a daughter (Eleanor Mary).

**Hutchinson**—At La Verendrye Hospital, Fort Frances, Ont., on September 10, to David Hutchinson, Sc. '35, and Mrs. Hutchinson (Louise Tiefenbacher), Arts '37, of Postmasburg, South Africa, a son (David Guy).

**Hutton**—At the Kingston General Hospital, on September 15, to Mr. Harry Hutton, Director of the Department of Extension, Queen's University, and Mrs. Hutton, a son (William John).

**King**—At the Ottawa Civic Hospital, on September 16, to Lt.-Col. P. C. King, Sc. '30, and Mrs. King, a daughter.

**McIntosh**—At Grace Hospital, Ottawa, on September 20, to D. G. McIntosh, Sc. '42, and Mrs. McIntosh, a daughter.

**McKinnon**—At the Niagara Falls General Hospital, on July 1, to H. C. McKinnon, Sc. '42, and Mrs. McKinnon (Jean Biggar), Arts '43, a daughter (Candace Jean).

**McClenahan**—At the Civic Hospital, Ottawa, on August 12, to Mrs. McClenahan and the late Dr. W. H. McClenahan, Med. '44, a son.

**McCracken**—At the Ottawa Civic Hospital, on July 31, to M. S. McCracken, Arts '32, and Mrs. McCracken (Myfanwy Williams), Arts '34, a son (Joseph David).

**McMillan**—On August 4, at the General Hospital, Buffalo, N.Y., to A. Donald McMillan, Sc. '33, and Mrs. McMillan, a son (Ian Ross).

**McNeill**—On July 30, at the Toronto Western Hospital, to Dr. J. I. McNeill, Med. '45, and Mrs. McNeill, a son.

**Mackie**—On June 18, at the Hospital of the Good Samaritan, Los Angeles, Calif., to H. A. Mackie and Mrs. Mackie (Virginia Thomas), Arts '34, a son (H. Arthur).

**Maloney**—At the Ottawa General Hospital, on September 1, to Dr. P. J. Maloney, Med. '31, and Mrs. Maloney, a son.

**Marshall**—On July 26, at the Ottawa Civic Hospital, to H. I. Marshall, Sc. '41, and Mrs. Marshall (Josephine Losee), Arts '42, a son (David William).

**Morrison**—On September 7, at the Ottawa Civic Hospital, to Mr. Ian A. W. Morrison, and Mrs. Morrison (Connie Merritt), Arts '44, a daughter (Patricia Ann).

**Morton**—At Mount Hamilton Hospital, Hamilton, Ont., on August 31, to Mr. D. G. Morton, and Mrs. Morton (Helen Ackerman), Arts '38, a son.

**Motherwell**—On August 25, in the Calgary General Hospital, to R. K. Motherwell, Sc. '42, and Mrs. Motherwell, a daughter (Maxine Rae).

**Noble**—At the General Hospital, Cobourg, Ont., on August 5, to J. A. Noble, Arts '35, and Mrs. Noble, a son.

**Parnell**—At Victoria Hospital, London, Ont., on September 22, to Douglas E. Parnell, Arts '39, and Mrs. Parnell (Dorothy Matheson), Arts '40, a son (Edward Douglas).

**Peters**—On September 3, at the Toronto General Hospital, Private Pavilion, to J. H. Peters, Com. '36, and Mrs. Peters, a son.

**Rowan**—On April 24, to R. G. Rowan, Sc. '40, and Mrs. Rowan (Kathleen Lee), Arts '39, of Lachine, Que., a daughter (Barbara Ann).

**Simonton**—On July 23, in Holy Cross Hospital, Calgary, to J. G. Simonton, Com. '41, and Mrs. Simonton, a daughter (Lorna Jane).

**Steenberg**—On August 13, at the Kingston General Hospital, to N. R. Steenberg, Sc. '49, and Mrs. Steenberg, a daughter (Mary Patricia).

**Thomson**—At the Kingston General Hospital, on August 10, to Graham Thomson, Arts '34, and Mrs. Thomson (Mildred Mahood), Arts '34, a daughter.

**Wideman**—At the Toronto Western Hospital, on August 7, to Mr. C. Russell Wideman and Mrs. Wideman (Helen Tully), Arts '31, a daughter.

**Wittig**—On June 29, at the Alexandra Hospital, Ingersoll, Ont., to Mr. Bernard W. Wittig, Sc. '44, and Mrs. Wittig, a daughter (Pamala Jeanette).

**Wildman**—At the Ottawa Civic Hospital, on August 5, to Mr. E. J. Wildman and Mrs. Wildman (Elizabeth G. Graham), Arts '43, a son.

## Marriages

**Barry**—On September 6, in St. James Chapel, St. Mary's Cathedral, Kingston, Reta Catherine Corkey to William Gordon Barry, Sc. '49.

**Beamer**—At the home of the bride's parents, Kingston, on August 4, Enid Muriel Scott to Gordon Edwin Beamer, Arts '45. They are living in Toronto.

**Blake**—In St. George's Anglican Church, Chateauguay Basin, Que., Marjorie Louise Clayton to John Albert Blake, Arts '50.

**Burd**—In Collins Bay United Church, on August 9, Jane Eva Laura Forsyth to Charles Paul Burd, Arts '46. They are living in London, Ont., where Mr. Burd is on the staff of South London Collegiate Institute.

**Davis**—On August 20, in Cooke's United Church, Kingston, Margaret Isabel Davis, Arts '46, to Douglas Wakeford McKendry.

**Craig**—At Christ Anglican Church, Cataragui, Ont., on September 8, Moya MacDonald to William Herchmer Craig, Arts '37, Kingston.

**Goedike**—In St. John's Anglican Church, Ottawa, on July 31, Katherine Cutts, widow

of Samuel H. Cutts, of Toronto and Ottawa, to Frederick Bertram Goedike, Sc. '10.

**Elliott**—In Putnam, Ont., on August 9, Luella Pearl Rath to Gordon Raymond Elliott, Arts '40, of New Liskeard, Ont.

**Gill-Miller**—On August 23, in the Morgan Memorial Chapel, Queen's University, Grace Erie Miller, Arts '46, daughter of Prof. Norman Miller, Arts '10, and Mrs. Miller (Grace Jeffrey), Arts '14, to Murray Albert Gill, Sc. '47.

**Hamilton**—In St. George's Cathedral, Kingston, on September 6, Frances Doone Constantine to Dr. John Drennan Hamilton, head of the department of pathology at Queen's University.

**Gray**—On April 5, in St. Andrew's River Heights United Church, Winnipeg, Mary Helen Smith (B.Sc. Home Economics, Manitoba), to William Hamilton Gray, Com. '40, Arts '41.

**Hayhurst**—In the First Baptist Church, Kingston, on September 13, Shirley Alice MacLaren to William LeRoy Hayhurst, Sc. '46. They will live in Vancouver.

**Houck**—In the United Church, Newburgh, Ont., early in September, Margaret Jean Hanna to John Howard Houck, Arts '41, Med. '49.

**Hough**—In Morgan Memorial Chapel, Queen's University, on August 9, Phyllis Marion Hough, Arts '44, to Mr. Robert Wendel Camm, Smiths Falls, Ont.

**Lambert**—On September 12, at the home of the bride's parents, "Elmhurst," Kingston, Joan Jemmett, daughter of Prof. D. M. Jemmett, Arts '11, Sc. '13, and Mrs. Jemmett, to John Fraser Lambert, Arts '47. They will live in Kingston.

**Leaver**—In St. Joseph's Church, Ottawa, on September 6, Ruth Mary Mullin to Gerald Joseph Leaver, Sc. '47.

**Lee**—In Chown United Memorial Church, Vancouver, early in September, Mary Quan to Frank Bing-Siu Lee, Sc. '45. Mr. Lee was recently appointed to the staff of the Massachusetts Institute of Technology, Cambridge, Mass. Mrs. Lee is a graduate of the University of British Columbia, and for the past year has been assistant secretary and editor with the Chinese Students' Christian Association in New York City.

**Leon**—In August, in St. George's Anglican Church, Sarnia, Ont., Elizabeth Louise Belton to Clifford Ernest Leon, Sc. '45. They will live in Hamilton.

**Locke**—In Christ Church, Deer Park, Toronto, on September 6, Elizabeth Jane Lennox to Parker Alexander Locke, Arts '41, son of Mrs. Locke and the late Dr. M. A. Locke, Med. '05, Williamstown, Ont.

**McCreary**—On July 26, in Shetland United Church, Shetland, Ont., Phyllis Kathrine Dobbryn to William Prescott McCreary, Arts '38. They are living in Smiths Falls.

**Mahoney**—In St. Mary's Cathedral, Kingston, on September 13, Mary Patricia Mahoney, Arts '49, to Patrick Brian Kelly, of Sudbury, Ont.

Tracy, head of the Classics department at Queen's, and Mrs. Tracy, to John Way Vallentyne, Arts '49, son of H. J. Vallentyne, Arts '20, and Mrs. Vallentyne, Brantford, Ont.

**Wilson - Irvine**—On August 16, in St. Andrew's Church, Williamstown, Ont., Mary Jeanette Irvine, Arts '46, to William James Fielding Wilson, Sc. '45. Charles Tomkins, Sc. '45, was groomsman, and among the guests were Dale Barnes and Mary Hallett, of Arts '45. Mr. and Mrs. Wilson will live in Westmount, Que.

## Deaths

**Alford**—Retired from secondary school teaching since 1941, Miss Ethel Alford, Arts '07, died at her home in Victoria, British Columbia, on August 11. Born at Chantry, Ontario, in 1881, and educated at Athens, Ontario, she entered Queen's in 1904 with a scholarship in English and history. She received her B.A. degree in 1907, winning the medal in history. A year later she received the Master of Arts degree, winning the medal in French. She held a number of teaching certificates. After graduation she taught on the staff of the normal school at Regina, Saskatchewan. In 1915 she went to Calgary and taught English and dramatics at Crescent Heights high school. Under her direction student performances of Shakespearian plays were an important part of high school life. She travelled extensively and took postgraduate courses at Yale and Harvard. In 1929 she was transferred to Central high school, and ten years later, after a year's leave spent chiefly in Paris, she joined the staff of Western Canada high school. When she retired from teaching in 1941 she moved from Calgary to Victoria. One sister, Mrs. Mason Clendenon, survives.

**Bennett**—Richard Bedford Bennett, LL.D. '26, Viscount Bennett of Mickleham in the County of Surrey, and Prime Minister of Canada during the black depression years of 1930 to 1935, died suddenly at his English country home on June 26. He would have been seventy-seven the following week. The son of a Hopewell Hill, New Brunswick, shipbuilder and a schoolteacher, fourth-generation Canadians and Empire Loyalists, "R. B." Bennett early in life

determined he would be Prime Minister of Canada. By a rigorous campaign of self-betterment, beginning with putting himself through Dalhousie Law School by teaching school, he achieved this goal. As a young man he went west to practise law, and in 1898 was elected to the Northwest Territorial Legislature from Calgary. Later he was a member of the Alberta Legislature, and in 1911 he was sent to Ottawa. Coincidental with his parliamentary career he pursued a successful career as a financier and corporation lawyer, amassing a considerable fortune. In 1927 the Conservative Opposition elected him leader and in 1930 he led his party to victory. A strong supporter of Empire preferences, he finally won British preference for Canadian goods at the Ottawa Imperial Conference in 1932. Following the defeat of the Conservative Government in the 1935 elections, he led the Opposition in the Canadian House of Commons for three years. In 1938 he purchased the Mickleham estate, known as Juniper Hill, from his life-long friend, Lord Beaverbrook, and retired to Surrey in England. In 1941 he was elevated to the peerage. In the House of Lords he carried on his championship of the Commonwealth cause and Empire preference. During World War II he worked at the Ministry of Aircraft Production and the Canadian Red Cross. Lord Bennett's title died with him, as he was unmarried. He is survived by a brother and two nephews.

**Birch**—Superintendent of Sunnyside Home, an orphanage in Kingston, Ontario, for fifteen years, Miss Ada L. Birch, Arts '98, died on September 7 in Halifax, Nova Scotia, where she had been visiting. Her death was caused by a heart attack while she slept. Miss Birch was born in Kingston and educated at the Kingston Ladies College, prior to entering Queen's in 1895. She attended Queen's three years. In 1928 she took over the position of superintendent at Sunnyside and continued in this capacity until resigning in 1943. She resided with her sister, Mrs. Stanley Graham (Beatrice Birch), Arts '04, in Kingston. Miss Birch took an active part in community life, being a charter member of the Prince Charlie Chapter of the I.O.D.E., a member of the Women's Auxiliary of the Kingston General Hospital, and secretary of the Local Council of Women. In addition to her sister, she is survived by a brother, S. R. Birch, of Buffalo, New York.

**Boyd**—Dr. Melville Grant Boyd, Med. '29, died suddenly on September 4 after being a patient at the Kingston General Hospital for four days. Dr. Boyd was born in Kingston, son of the late Rev. J. D. Boyd, Arts '89, Theol. '92. He graduated from the Kingston Collegiate Institute and enrolled in the Arts Faculty in 1921. In 1923 he registered in Medicine and six years later received his M.D., C.M. degrees. He interned at the House of Mercy Hospital, Pittsfield, Massachusetts, and then set up a practice in Dalton, Massachusetts. In 1942 he enlisted in the United States

MONTREAL

Army Medical Corps and served a year in the Amphibious Command with the rank of Captain. He then returned to his practice in Dalton. He is survived by his wife, three children and a sister, Mrs. H. Downer (Muriel Boyd), Arts '22, of Toronto.

**Cummins**—While vacationing with his family at Muskoka, Dr. James Anthony Cummins, Med. '30, died suddenly of a heart attack on August 14. He had been in private practice in Hamilton since 1944. Dr. Cummins, who was forty-four years of age, was born in Belleville and educated at St. Michael's Academy, St. Michael's College, and Albert College, prior to entering the Medical Faculty at Queen's in 1924. He received his M.D., C.M. degrees in 1930 and interned at the Hotel Dieu in Kingston and Water Street Hospital in Ottawa. He then entered the Ontario Hospital service at Whitby. In 1934 he took a postgraduate course in psychiatry. In 1936 he went to the Ontario Hospital at Hamilton and remained with that institution as senior member of the staff until 1944, when he opened a private practice in Hamilton. Dr. Cummins is survived by his mother, his wife, two sons, one daughter, a brother and two sisters, one of them, Mrs. R. R. Basserman (Marie Cummins), Arts '29.

**Dwyer**—A member of the Board of Trustees for eighteen years, Dr. James Garfield Dwyer, Arts '02, Med. '05, LL.D. '27, died after a few weeks' illness at the Hotel Dieu Hospital in Kingston on August 2. Born in Kingston in 1883, Dr. Dwyer was educated at the Kingston Collegiate Institute, entering the Faculty of Arts at Queen's in 1899, with a Prince of Wales matriculation scholarship. After receiving an M.A. in 1902, he enrolled in the Faculty of Medicine, and before he graduated in 1905 with M.D., C.M. degrees, he won two scholarships. A leading eye, ear, nose and throat specialist in New York City, Dr. Dwyer was closely associated with the Manhattan Eye, Ear, Nose and Throat Hospital as director of laboratories and as a consulting surgeon. A strong supporter of Queen's, he served on the Board of Trustees from 1929 until his death. He was also a past president of the New York Society

of Queen's University. When a medical scholarship supported by that group was in danger of being abandoned, Dr. Dwyer assumed the financial responsibility for several years, calling it the Helen E. Dwyer Memorial Scholarship. He endowed the scholarship in 1944. Dr. Dwyer belonged to a number of medical societies, including the New York Academy of Medicine, the American Otological Society and the American Laryngological Society. He was a fellow of the American Medical Association. Surviving are a brother, E. T. Dwyer, Arts '01, Sc. '02, and four sisters. Another brother, W. O. Dwyer, Arts '07, Sc. '09, predeceased him a year ago.

**Fraser**—Past president of the Kitchener-Waterloo Alumni branch, Dr. J. W. Fraser, Arts '11, Med. '14, died in St. Mary's Hospital, Kitchener, on September 9, after an illness of five months. He had been Kitchener Medical Officer of Health for twenty years. Dr. Fraser was born near Mount Forest, Ontario, sixty-two years ago. After graduating from Whitby Collegiate Institute he began a combined Arts-Medicine course at Queen's in 1907. He received his M.D., C.M. degrees in 1914 and his B.A. in 1922. From 1914 to 1923 he practised in Cochrane, and then in Kitchener and later in Chesley for four years. Returning to Kitchener in 1927, he was appointed M.O.H. At the time of his death he was president of the North Waterloo Medical Society. Surviving, in addition to his wife, are three sons, two daughters, and six brothers and sisters, including D. J. Fraser, Arts '07, and Mrs. T. D. Finn (Amy Fraser), Arts '17, both of Ottawa.

**Gordon**—Dr. Ernest Joseph Gordon, Med. '16, medical officer of health in the St. George, Ontario, district, died in the Brantford General Hospital on July 13. Dr. Gordon, who was fifty-eight, had been confined to hospital with a heart ailment for the preceding two weeks. Born at Highgate, Ontario, he entered Queen's in 1912 and graduated with an M.B. degree at a special convocation held in November, 1916, following a summer speed-up course. He served overseas in the medical corps of the Canadian army for the remaining two years

of the war. After his discharge he took up a practice in St. George, where he remained until his death. An active civic worker, he was secretary of the public school board and president of the local Red Cross Society. In addition to his wife, he is survived by a son and daughter, two sisters, and three brothers.

**Hamm**—Assistant Crown Attorney from 1941 to 1946, Charles Hamm, K.C., Arts '18, died July 24 at his home in Toronto. He was forty-nine years of age. Born in Odessa, Ontario, Mr. Hamm entered Queen's in the fall of 1914 at the age of sixteen. He graduated with a Bachelor of Arts degree in 1918, and enrolled at Osgoode Hall. Until 1935 he practised law as an associate of the late D. W. Markham. In 1937 he was appointed a K.C. After retiring from the office of assistant Crown Attorney he had engaged in private practice. From 1935 to 1941 Mr. Hamm was supreme treasurer of the Independent Order of Foresters. Surviving are his wife and a brother.

**Harris**—Comptroller of the Jensen Radio Manufacturing Company since 1929, Herbert F. Harris, Sc. '15, died in Oak Park, Illinois, on June 25. He was in his fifty-ninth year and had been ill only a short time. Mr. Harris was born in St. Catharines, Ontario, and received his preliminary education there. He enrolled at Queen's in 1907, and in 1913 received a diploma in mining engineering. In 1915 he received a B.Sc. degree, a year after he had enlisted and gone overseas with the Engineers in the First Canadian Contingent. Later he was commissioned in the Royal Flying Corps. He was shot down behind the German lines and for nineteen months was a prisoner of war. In 1921 Mr. Harris went to Oakland, California, remaining there until he moved to Oak Park, Illinois, in 1929. Of recent years an ardent lawn bowler, he was president of the Columbus Park Lawn Bowling Club in 1945, and games chairman of the Chicago Lawn Bowling Association for the past two years. Surviving are his wife, a daughter, one brother and two sisters.

**Macdonnell**—The death of Mary Philips, wife of the late G. M. Macdonnell, K.C., Arts '60, occurred on September 12 at the Kingston General Hospital. Mrs. Macdonnell, ninety-seven years of age, was the mother of a number of prominent Queen's graduates. Prior to her husband's death she resided with him in what is now known as Macdonnell House. Surviving are three sons, J. M. Macdonnell, Arts '04, LL.D. '41, Dr. P. M. Macdonnell, Arts '12, Med. '16, and H. W. Macdonnell, Arts '09; and two daughters, Mrs. Campbell Laidlaw and Miss Mary Macdonnell, Arts '09, with whom she resided.

**McPherson**—A practising Ottawa physician for twenty-two years and a Department of Veterans' Affairs doctor for three years, Dr. Charles James McPherson, Med. '09, died on September 17 at his residence

in Ottawa. He was sixty-three years of age, and had been ill for four months. Dr. McPherson was born in Metcalfe, Ontario. He graduated with an M.D. degree in 1909, and went to Ottawa, where he practised for eighteen years. He then moved to Shawville, Quebec, where he continued until 1940. At that time he joined the Army Medical Corps and served from 1940 to 1944. He was plant physician of the General Engineering Corporation, near Toronto. After his discharge he was with the Department of Veterans' Affairs for three years. Dr. McPherson was a member of A.F. and A.M. and belonged to the Ottawa Curling Club. He is survived by his wife, two sons, two daughters, and two sisters.

**Playfair**—One of the outstanding Canadian Army physicians of the Second Great War, Brigadier Cecil Homer Playfair, Med. '24, died at his home on the Mountain Sanatorium grounds, Hamilton, on August 13. He had carried his war experiences into civilian life as medical superintendent of the sanatorium. Brigadier Playfair was born at Fallbrook, Ontario, in 1900, and received his preliminary education at Arnprior High School. In 1919 he entered the Medical Faculty at Queen's, graduating with M.D., C.M. degrees in 1924. After postgraduate studies in New York he moved to Hamilton and opened a practice there in 1926. In 1930 he began an eighteen-months' course in abnormal psychology and psychiatry. He was on the staff of both the Hamilton General and St. Joseph's hospitals. It was Brigadier Playfair who, from lessons of allied defeats in France and Norway and the subsequent seizure of Spitzbergen when he accompanied the invading Canadian forces, was mainly instrumental for sweeping reorganization of the Canadian forces' medical services in the field during the Sicilian and Italian campaigns. His work did not go unrecognized and he was decorated with the Order of the British Empire early in the war. In 1944 he was mentioned in despatches for gallant and distinguished services in the Sicilian and Italian campaigns, and in 1945 at Buckingham Palace in London the King conferred the O.B.E. upon him. Brigadier Playfair was a member of the A.F. and A.M., the Hamilton Academy of Medicine, the Hamilton and District Officers' Institute, and a number of other organizations. He is survived by his wife, a son and a daughter, two sisters and a brother.

**Saunders**—Word has reached the *Review* of the death of Mrs. C. M. Saunders (Ethel Drennan), Arts '00, on March 30 in Calgary. Mrs. Saunders was born in Toronto in 1875. She lived in Stratford for some years before moving to Kingston in 1888. After graduating from the Kingston Collegiate Institute, she entered the Arts Faculty at Queen's. In 1900 she graduated with a Bachelor of Arts degree, having specialized in history and English. In 1904

## DEEP IN CANADA'S MINES ...as elsewhere

Crane valves, fittings and piping convey and control compressed air thousands of feet underground for rock drills, hoists, loaders and other equipment.

They are also indispensable in dewatering operations and in mill, smelter and refinery processes.

Crane makes valves and fittings in amazing variety for every industrial need. Power developments, chemical plants, oil refineries, railways, ships, factories depend on them for their very life's blood. As new demands develop under the impetus of scientific research and technical advance, Crane keeps pace.

**ENGINEERING STUDENTS**—You will find Crane technical literature helpful in your studies. It is yours for the asking.

she attended Regina Normal School, and taught in Alberta for several years, in the Red Deer, Wetaskiwin, and Olds districts. She was married in Kingston in 1910 and returned west to Olds, Alberta. There she remained until 1946, when she moved to Calgary to live with her daughter. In addition to her daughter, she is survived by a son. Dr. Jennie Drennan, Med. '95, who died last November, was a sister.

**Schofield**—A distinguished Canadian geologist who was professor emeritus of structural geology on the staff of the University of British Columbia, Dr. Stuart James Schofield, Arts '06, Sc. '08, died on July 23 in Vancouver. Born at Gravesend, Kent, England, he received his early education at Kingston Collegiate Institute. He was awarded his Bachelor of Arts degree in 1906 and his Master of Arts degree in 1907, winning the medal in geology at the same time. A year later he received a B.Sc. degree in mineralogy and mining and second prize of the Engineering Society. He attended Harvard and later the Massachusetts Institute of Technology, where he obtained his Ph.D. degree. Dr. Schofield was a member of the Geological Survey of Canada from 1911 until 1920, a member of the Geological Society of America, and a Fellow of both the Royal Society of Canada and the Geological Society of China. He also belonged to the Society of Economic Geologists and the Canadian Institute of Mining and Metallurgy. He is survived by his widow, the former Florence Tait, Arts '13, two daughters, including Frances Schofield, Arts '49, a brother and a sister.

**Sparling**—Mrs. William Sparling (Sara Esther Anglin), Arts '92, died on September 17 in Vancouver, where she had been living with her sister since moving from Toronto six weeks previously. Mrs. Sparling was born in Kingston and educated at the Kingston Collegiate Institute, prior to entering the Arts Faculty at Queen's in 1888. In 1892 she received a B.A. degree, and took up the teaching profession, teaching in the Kingston and St. Mary's, Ontario, high schools. Following her marriage to Rev. Dr. William Sparling, she accompanied her husband to pastorates in Easton's Corners, Quebec City, Montreal, Toronto, Winnipeg, Ottawa, Hamilton, and London. Dr. Sparling predeceased her twenty-three years ago. For the past four years Mrs. Sparling had been an invalid. She is survived by two daughters.

**Tisdale**—A member of the staff of the Ontario Hospital School at Orillia, Dr. Clifford Vernon Tisdale, Med. '33, died on July 16. He was in his fortieth year. Dr. Tisdale was born at Guelph, Ontario, and received his preliminary education at the Brockville Collegiate Institute. He entered Queen's in 1927, and at the end of his third year in medicine won a N. F. Dupuis Scholarship. He obtained his M.D., C.M. degrees in 1933. Dr. Tisdale went to the Orillia Hospital after graduation, then to Toronto

where he took a special course at the Toronto Psychiatric Hospital and received his diploma as a specialist in 1936. The same year he joined the staff of Woodstock Hospital, where he remained until he was transferred to Orillia in March, 1946. While in Woodstock Dr. Tisdale was active in the Masonic Lodge and the Lions Club. He is survived by his wife, a son and a daughter, his parents, and one brother, N. F. Tisdale, Sc. '19.

**Ward**—A high school principal for many years, Edward M. H. Ward, Arts '16, died suddenly on May 9 of coronary thrombosis while visiting the home of his sister in Collingwood, Ontario. Since his retirement seven years ago he had been a resident of Toronto. Mr. Ward was born in Collingwood in 1882 and educated at the collegiate institute there. He began to work for his Bachelor of Arts degree in 1905, enrolling at Queen's for extramural and Summer School classes. In 1916 he received his B.A., and three years later his certificate of specialist standing in English and history. Mr. Ward had served as principal of Hagersville High School and Elmvale and Newcastle continuation schools. He is survived by his widow, a brother and a sister.

**Waugh**—A teacher at Oshawa Collegiate Institute since 1939, James Douglas Waugh, Arts '35, died in Oshawa on August 9. He was thirty-five years of age. Mr. Waugh was born in Kingston and educated at the Kingston Collegiate Institute. He was enrolled in Science for one year prior to entering the Arts Faculty in 1931. In 1935 he received a Bachelor of Arts degree. While an undergraduate he was a member of the senior rugby team for two years, including 1935, an inter-collegiate championship year. Besides his wife, the former Eleanor Kidd, Arts '35, Mr. Waugh is survived by a daughter and a son, and two brothers, John, of Kingston, and Major Freeman Waugh, Arts '34, of Petawawa.

**Wellwood**—Dr. Thomas Richard Wellwood, Arts '14, died at the Toronto Western Hospital on September 11. He was seventy years of age. Born at Mona Mills, Ontario, he attended Orangeville High School and entered the Medical Faculty at Queen's in 1904. He attended for two years, then went to the University of Toronto to complete his medical course. In 1911 he began to study extramurally, and in 1914 received his Bachelor of Arts degree from Queen's. Prior to World War I he practised for a few years in Neudorf, Saskatchewan. After postgraduate study in England and Edinburgh, Dr. Wellwood established a practice in the West End of Toronto, maintaining it for twenty-six years, until his death. Dr. Wellwood was a former president of the Ward 7 Liberal Association in Toronto. He is survived by his wife, a sister and five brothers.

**Williams**—A medical practitioner in Brockville, Ontario, for forty-one years,

# ***Explosives***

## **A Great Constructive Force**

EXPLOSIVES contribute immeasurably to our way of life . . . it is not improbable that we would still be leading an existence but little advanced from the middle ages were it not for the forces which they place at our disposal.

Explosives are vital to mining and to the development of power sites; they help build our roads and railways, and assist in clearing farmlands. Yes, explosives smooth the path of civilization and enable it to go forward . . . a great constructive force and one of the foundation stones of mankind's progress. Canadian Industries Limited, Explosives Division, Montreal.

**"EVERYTHING FOR BLASTING"**

E-47-7D

Dr. Edward Joseph Fox Williams, Arts '00, Med. '04, died following a heart attack on August 4 at his home in Brockville. Dr. Williams was an athlete of note, and was a member of the Queen's football team which was runner-up for the championship in 1899, and in 1900 he was right outside wing on the University team which won the intercollegiate championship. Born in Kingston in 1878, Dr. Williams was brought up in Brockville and educated at the collegiate institute there. He entered the Arts Faculty at Queen's in 1896, and in 1901 enrolled in the Medical Faculty. He received his M.D., C.M. degrees in 1904. After postgraduate work in Vienna and New York he began practising in Brockville. For a number of years he had been a coroner for Leeds and Grenville counties and also surgeon for the Canadian National Railways at the Brockville terminal. He was on the medical staffs of the Brockville General and St. Vincent de Paul hospitals. A member of A.F. and A.M., he was greatly interested in municipal affairs and in all branches of sport. His wife predeceased him eight years ago.

**Young** — Physician and surgeon at Seeley's Bay, Ontario, for forty years, Dr. Frank S. Young, Med. '08, died there on August 25, after a brief illness. Born at Forfar, Ontario, and educated at Athens High School, Dr. Young came to Queen's in 1902, entering the Medical Faculty. He received his M.D., C.M. degrees in 1908. Dr. Young was medical officer for the rear of Leeds and Lansdowne Township, coroner for the County of Leeds, and for some years was a member of the Seeley's Bay school board. Active in three fraternal lodges, he was a past district deputy grand master of Frontenac District Masonic Lodges, first worthy patron of the Eastern Star which was organized in Seeley's Bay last year, and a past grand master of Seeley's Bay I.O.O.F. Lodge. Besides his wife, Dr. Young is survived by two sons, Dr. Hallam Young, Med. '38, of Glen Falls, New York, and Dr. Malcolm Young, Med. '41, of Toronto; and two daughters.

## Notes

### 1890 - 1899

**Thomas Kennedy**, Arts '99, Toronto, was bereaved in June by the death of his wife. Mrs. Douglas Marshall (Helen Kennedy), Arts '34, Niagara Falls, Ont., is a daughter, and H. E. Kennedy, Sc. '37, Toronto, a son.

### 1900 - 1909

**Rev. W. T. G. Brown**, Arts '01, Kingston, was bereaved by the death of his wife on September 10.

**Dr. W. H. Dudley**, Med. '05, is retired and living at 872 Queen St. E., Sault Ste. Marie, Ont.

**Rev. Basil Thompson**, Arts '08, Kingston, left recently for Toronto to assume his new duties as assistant minister of Leaside United Church.

**H. S. Wood**, K.C., Arts '05, Vancouver, has been appointed a Justice of the Supreme Court of the Province of British Columbia.

### 1910 - 1919

**Rev. W. R. Alp**, Arts '16, minister of St. Paul's United Church in Perth, Ont., observed the twenty-fifth anniversary of his ordination into the ministry on September 27. Following three years active service overseas in World War I he graduated from Knox College, Toronto. For some time afterwards he served on the editorial staff of Presbyterian publications. His pastoral charges have included Auburn and Smith's Hill in Huron County and Chalmers United Church in Ottawa, where he was assistant minister from 1929 until he took over his present charge in 1940.

**Dr. M. G. Brown**, Med. '16, medical superintendent of Hamilton General and Mount Hamilton hospitals, has retired owing to ill health. He was medical superintendent since 1938, and prior to that assistant medical superintendent of the hospitals for twenty-seven years.

**Dr. R. O. Earl**, head of the Biology Department at Queen's, spoke recently at the concluding session of the three-day meeting of the Botanical Society of America held in Montreal. His address dealt with the work done by the University's biological station at Chaffey's Locks.

**Dr. John E. Hammett**, Med. '19, returned recently to New York City after a six weeks' trip in the Yukon Territory and Alaska.

**George E. Kelly**, Arts '18, is manager of the Great American Indemnity Company in the San Francisco office. He lives at 1734 Cambridge Drive, Alameda, Calif.

**S. R. Turner**, Sc. '16, is mill manager of the Combined Locks Paper Company, Combined Locks, Wisc. Mrs. Turner was **Maude Hubbs**, Arts '15. Their residence address is 406 W. Parkway Blvd., Appleton, Wisc.

### 1920 - 1929

**Wilfrid Eggleston**, Arts '26, has been appointed professor of journalism at Carleton College, Ottawa.

**Dr. H. T. Ewart**, Arts '26, Med. '35, has moved his offices from 433½ King Street East to 98 Sherman Avenue South, in Hamilton.

**Neil C. Fraser**, Arts '24, is a member of the legal firm Grierson, Creighton and Fraser, Oshawa, Ont.

**D. G. Geiger**, Sc. '22, transmission engineer, Western Area, Bell Telephone Company of Canada, has been elected vice-president for the Canada district of the American Institute of Electrical Engineers.

**Dr. Gerald S. Graham**, Arts '24, of Birkbeck College, University of London, was a member of the 12-man Canadian delegation which represented the Canadian Institute of International Affairs at the tenth plenary conference of the Institute of Pacific Relations held at Stratford-on-Avon from September 5 to 20.

**"AN EYE ON BUSINESS"**

Reta Henry, Arts '24, is teaching in the Mining and Technical School at Sudbury, Ont.

G. C. McBride, Sc. '26, is with the General Electric Company in Philadelphia, Pa.

Callum McLennan, Com. '27, is office manager of MacDonald Consolidated Limited, North Battleford, Sask.

Dr. H. S. Murphy, Med. '28, who has been with Group Health Assurance, Washington, D.C., for the past seven years in the capacity of obstetrician and gynaecologist, recently opened his own office in Washington, limiting his practice to obstetrics and gynaecology.

Robert E. Rourke, Arts '27, has been appointed headmaster of Pickering College, Newmarket, Ont.

Rev. A. P. Scott, Arts '23, is now minister of St. Alban's Church, Stella, Ont., and Christ Church, Emerald, Ont., both on Amherst Island.

Elizabeth Sheldon, Arts '21, of Brockville, Ont., is back at the University this year doing postgraduate work in municipal government.

Anne Smith, Arts '22, and Mrs. H. G. Medhurst (Helen Truscott), Arts '25, were delegates from Hamilton at the ninth annual conference of the International Federation of University Women held at Toronto in August.

H. V. Tancock, Arts '22, is head of the history department at Humberstone Collegiate Institute, Toronto.

Dr. J. Perry Young, Arts '23 (Ph.D. Bordeaux), has been appointed to the staff of Carleton College, Ottawa, as lecturer in French language and literature. Dr. Young had been a student at Bordeaux for five years and had just completed his thesis before the fall of France. He escaped from the country at that time and returned this year to receive his doctorate.

#### 1930 - 1939

J. T. Barker, Arts '39, Com. '38, is in the accounting department of the Steel Company of Canada, Hamilton, Ont.

Verna Burgess, Arts '36, is teaching this year at the collegiate institute in Peterborough, Ont.

Dr. Desmond Burke, Med. '32, Toronto, won the King's Medal for the seventh time at the recent annual meeting of the Dominion of Canada Rifle Association.

J. S. Campbell, Sc. '31, has been appointed professor of machine design in the Department of Mechanical Engineering at Queen's.

Dr. C. A. Cleland, Med. '30, is superintendent of the Ontario Hospital at Fort William, Ont.

Dr. T. H. Coffee, Med. '39, has been appointed professor of physical medicine at the University of Western Ontario, London.

H. M. Collins, Arts '39, is with Reliable Plastics Company, Toronto.

J. K. H. Day, Com. '36, has joined the staff of the Canadian General Rubber Company in Galt, Ont.

J. H. Donnelly, Arts '31, of the American Can Company, has been transferred from Toronto to the Winnipeg office of the firm.

C. R. Engler, Sc. '34, formerly with the Aluminum Company of Canada at Kingston is now with the Canadian Johns-Manville Company, Asbestos, Que.

John R. Evans, Sc. '35, is president of Evans Industries Limited, engineers, manufacturers and distributors, at Vancouver. His address is 6237 West Boulevard.

C. C. Ferguson, Arts '37, teaches in the collegiate-vocational school in Weston, Ont.

F. G. Flynn, Arts '36, is sales manager for Riverside Books Limited, 225 St. Denis Ave., St. Lambert, Que.

Mrs. A. W. Hay (Eleanor Clarke), Arts '39 (Ph.D. McGill), and her husband moved recently from Beloeil, Que., to New Jersey, where Mr. Hay is doing research with the Celanese Corporation of America at its new laboratories in Summit. Their residence address is 7 Greenhill Road, Madison, N.J.

Dr. J. D. Herman, Med. '34, Ottawa, was recently made a Fellow of the American College of Surgeons.

W. A. McArthur, Sc. '34, has severed connections with the Par-Tex Foundation Company of Toronto and accepted the appointment of Town Engineer of Weston, Ont.

Dr. Duncan T. R. McColl, Med. '33, has resigned his position at Coqualeetza Indian Hospital, Sardis, B.C., in order to do general practice in Wells, B.C.

R. G. McKelvey, Sc. '32, has resigned as general manager of Hard Rock Gold Mines, Geraldton, Ont., and has accepted the position of mine superintendent at Lamaque Mining Company, Bourlamaque, Que.

Merton J. MacKinnon, Sc. '32, and Clifton C. MacKinnon, Sc. '36, Vankleek Hill, Ont., were bereaved by the death of their father, Mr. John A. MacKinnon, on August 30.

C. E. McMullen, Arts '33, has been appointed inspector of public schools in Cornwall, Ont.

H. H. Merritt, Sc. '31, has been resident manager of the Geita Gold Mining Company, Tanganyika, since last January. He has also been appointed by the Governor of Tanganyika Territory as a member of the Labour Board of that country.

G. W. Motherwell, Arts '37, is principal of the high school in Carleton Place, Ont.

J. M. Neilson, Sc. '36, recently received his M.Sc. from McGill University.

R. F. Poole, Arts '34, is with Moore Business Forms Incorporated, United Office Building, Niagara Falls, N.Y.

Col. W. P. Shirreff, Sc. '35, has returned to the command of the Royal Canadian

Corps of Signals Training Centre at Vimy Barracks, Kingston, which he left in 1945 to attend a staff college at Royal Military College.

T. V. Simpkinson, Sc. '33, since March of this year has been in charge of the ferrous section of the Physical Metallurgical Research Laboratories, Bureau of Mines, Ottawa.

Dr. J. D. Sprague, Arts '33, Med. '38, is in private practice at 968 Queen St. E., Saulk Ste. Marie, Ont.

M. S. Stevens, Sc. '31, has been appointed manager of Hard Rock Gold Mines, Geraldton, Ont.

Rev. Horatio Todd, Arts '34, Theol. '37, formerly of City View United Church, Ottawa, was recently inducted as minister of Western United Church in that city.

G. P. Wigle, Sc. '35, was seriously injured in a rockblast at the Brazilian Mines of St. John d'el Rey Mining Company, but is reported to be making a rapid and complete recovery.

Mrs. H. S. Winfield (Arleigh McKone), Arts '34, has moved from Hamilton to Port Hope, Ont., where her address is 84 Brown St.

Arthur E. Wood, Arts '38, is now director of vocational training and youth guidance in the Unemployment Insurance Commission, Department of Labour, Ottawa. He served during the war as a major with the Canadian Armoured Corps, and is now carrying on in the Reserve Army as a major in the Governor General's Foot Guards.

Dr. J. S. Young, Arts '34, Med. '38, recently received his F.R.C.S. from Edinburgh.

#### 1940 - 1947

Carl Amberg, Arts '46, is lecturing in the department of chemistry at the University of New Brunswick.

Hugh Barton, Sc. '43, is with the International Paper Company at Dalhousie, N.B.

R. W. Butcher, Arts '47, T. G. Donnelly, Arts '47, and D. W. Dunn, Arts '48, received honorable mention when they competed as a three-man Queen's team in the William Lowell Putnam mathematical contest written in May under the auspices of the American Mathematical Association.

Major A. L. Brady, Arts '40, Royal Canadian Armoured Corps, has been selected by Army Headquarters to attend the United States Senior Service Amphibious Warfare School at the Marine Corps School, Quantico, Va.

R. W. Cohrs, Sc. '41, and Edna Cohrs, Arts '41, were bereaved on June 18 by the death of their mother. Miss Cohrs, formerly of the staff of the Kirkland Lake Collegiate Institute, recently joined the faculty of Russell Sage College, Troy, N.Y., where she is a lecturer in physics and mathematics.

H. E. Dunn, Arts '47, has joined the staff of the Hudson's Bay Company in Saskatoon, Sask.

D. A. H. Farmer, Sc. '47, is with the Canadian Westinghouse Company, Hamilton, Ont.

"Just look at that pass! Perfection!"

"Check ✓ . . now pass those Sweet Caps!"

## SWEET CAPORAL CIGARETTES

*"The purest form in which tobacco can be smoked"*

Camilla Gillies, Arts '46, formerly with the Department of External Affairs, is now on the secretarial staff of Gen. A. G. L. McNaughton, LL.D. '41, chairman of the Canadian section of the Atomic Bomb Commission, New York City.

Dr. S. W. Hart, Med. '40, Napanee, Ont., was recently elected president of the Prince Edward County Medical Association.

Dr. James Melvin, Arts '41, Med. '44, sailed recently for England where he will study at the Middlesex Hospital, London.

A. M. Munn, Sc. '43, has been appointed professor of physics at Carleton College, Ottawa.

G. H. O'Neill, Com. '47, has joined the staff of the Bell Telephone Company of Canada in Quebec City.

Everett Park, Sc. '47, left recently for Georgetown, British Guiana where he has accepted a position with Sprostons Limited.

D. H. Steinhorsen, Arts '43, is studying economics in the graduate school of Arts and Sciences at Harvard University.

C. F. D. Stewart, Arts '41, Harrowsmith, as a member of the leading producers' organization of the Sun Life Assurance Company of Canada, recently attended his company's agency conference at Banff.

Dr. F. Malcolm Young, Med. '41, has announced the opening of an office for the practice of medicine and surgery at 1701 King St. E., Hamilton, Ont.

## Queen's General Alumni Association Special Notice For All Ottawa Graduates

The Executive of the Ottawa Branch is arranging an interesting program for the coming year, including a Dinner Dance on Thursday, October 30th, at the Copacabana Club; Queen's Drama Guild play "The Tempest" on Saturday, November 29th, at Glebe C.I.; and Annual Dinner in January at Chateau Laurier.

A special drive is under way to increase the membership in the General Association, and fees may now be paid direct to our local Treasurer.

Support your Alma Mater and your Local Branch by mailing your cheque NOW.

## DINNER ADDRESS

Delivered by Dr. W. E. McNeill, who recently retired as Vice-Principal and Treasurer, at a dinner in his honour in Grant Hall, Friday, October 17, 1947

MR. CHANCELLOR, Members of the Queen's Family:

I shall speak mainly in thanksgiving and remembrance.

Thirty-eight years ago, at the autumn Convocation, I sat in this hall for the first time, an unregarded Assistant Professor of English of two weeks' standing. I was in the back row of the platform, in the far north-west corner, under the gallery, sick at heart, sorry I had come to Queen's.

Time is a great worker of miracles. Tonight I am honoured far beyond my deserts by the whole University family—trustees, council, staff, students, and graduates. As I look at the galleries, I am pleased that so many have come without the inducement of a dinner. I am happy in the delightful gifts. In June, by chance, I saw demonstrated at Schirmer's in New York a recording and playback instrument and longed to have it. Tonight through the generosity of the Trustees I am the grateful owner of such an instrument. I shall record many voices, to be reproduced at will for my pleasure and that of my friends, to be indefinitely preserved, when of general interest, in the archives of the University. I prize greatly Mr. Bieler's *Wartime Market*. It will have the best place in my house because of its artistry in colour and design, because the painter is my friend and one of the most vital creators of the day, because it is a gift from the teaching staff of which I was once so happily a part. I thank the Library staff and Library Curators for Blake's *Illustrations of the Book of Job* given to mark our common love of books. Nothing could please me more. Finally I thank the General Alumni Association for the presentation of an honorary life membership. I have reached my highest ambition. I am now a Queen's man. I am very happy to receive this recognition from the hands of Mrs. Boucher, the first woman president, whose advent to office marks a complete oneness in the relations of Alumnae and Alumni. (Mrs. Boucher's presentation was made privately after the dinner, but for the record it is mentioned here.)

The words accompanying the gifts are more precious to me than the gifts themselves. They take their value from the high quality of the speakers.

You, Mr. Chancellor, have held many offices of state. You have been Premier of a Province and a Finance Minister of Canada. If another's health had not been so good, you would have been Prime Minister. Then there would have been only one party in Canada—yours.

The Chairman of the Board of Trustees, Mr. Macdonnell, who forbids us to call him Doctor, is the financial expert of the Progressive-Conservative Party. He will be Finance Minister if he lives long enough. He deserves to be Prime Minister. But he is much greater than any office he may hold.

He was Queen's first Rhodes Scholar. He knows Greek. He has fully entered into the cultural heritage and it adorns all he says or does. The President of an American University, after hearing him make a speech at a Canadian American Conference, called him Exhibit A of Queen's graduates.

Principal Wallace is the senior university head in Canada. None is more distinguished. To divide his honours inventorially would dizzy the arithmetic of memory. Let one example suffice. He has fourteen honorary degrees—eight Canadian, five American, and one, the most prized, from his own and Mrs. Wallace's Alma Mater, the University of Edinburgh. American universities think of him as the representative Canadian head. He alone has an honorary degree from Harvard. He alone was chosen by the University of Buffalo when at its centenary it gave the first honorary degrees in its history. He alone was offered an honorary degree last summer on a great occasion in the history of one of the oldest and most famous American universities. He could not accept because he was abroad. But his greatest achievement, in the judgment of all of us, was when he won Mrs. Wallace, the loved and honoured first lady of this University.

Vice-Principal Mackintosh, who speaks for the staff, was a student of mine. I don't think I taught him anything. He was too good. But in this time of his great fame, I claim the right to record a teacher's pride:

So watch old armourers' eyes  
Their young knight's emprise,  
Wistfully brighter.

A dozen years ago our paths crossed in Florence. Dr. and Mrs. Mackintosh were going south, my wife and I were going north. We visited Fiesole together. As in fading light we looked across the valley of the Arno at the lovely hill town, he and not I remembered Browning's descriptive line in *Andrea del Sarto*,

A common greyness silvers everything.

Dr. Mackintosh is a great economist because he is so much more. He has humour in his heart and poetry in his soul.

Professor J. K. Robertson, who represents the Library, came to Queen's in the same year as I. From the first day we have been bound by ties of common interests. Being wholly taken by surprise in his presentation, I have no ready words with which to match his happy phrases. But perhaps all is said when I salute him, not only as a great scientist, but as a great humanist.

Who would not be happy to be praised by such men?

I am greatly pleased that I have been praised not merely as a financial and administrative officer but also as teacher and scholar.

Some years ago I was asked to speak at an out-of-town school. I was told that I would be met at the station. I stood on the platform until every other passenger had disappeared. Then a seedy looking taxi-man detached himself from the station wall, shuffled forward and asked, "Would you be the professor from Kingston?" "Yes," I said. "Well, I'll be damned," he said, and added, "Do you see that fellow over there?" pointing to an

even seedier taxi-man. "I said to him, 'Do you see anyone who looks like a professor?'" "Not a damned one," he said.

I have always wanted to look like a professor, but the Trustees of Queen's, like the two taxi-men, could see no resemblance, not even after eleven years. That was the greatest disappointment of my life. But my greatest happiness was that many of my students did see a resemblance. Vice-Principal Mackintosh is one. He knows a professor when he sees him. I thank again the scores of my former students who have written and spoken words of appreciation. My heart warms to them. The teacher is the great man in a university. Trustees, Chancellors, Principals, Deans, Registrars, and Librarians exist only that the teacher may enrich the lives of students. In my judgment the greatest teacher this University has had was James Cappon. I suggested the epitaph on his tomb in Cataraqui Cemetery. It is the last line of Chaucer's description of the Oxford scholar:

And gladly would he learn and gladly teach.

I wish that could have been said of me as the final tribute.

I had my hour of promise as a scholar. I speak of it partly in reminiscent pride and partly in explanation of my unhappiness at the autumn Convocation thirty-eight years ago. Harvard, like Queen's, had a golden age at the beginning of the century. In these years I took my bachelor's, master's, and doctor's degrees. In English I had Kittredge in Shakespeare, Neilson in the Romantic revival, Bliss Perry of the *Atlantic* in Nineteenth Century, Baker in Drama, Robinson in Chaucer, Copeland in great poetry and prose. Kittredge was the overwhelming scholar and personality of the University. Henry Bradley of Oxford called him one of the three greatest English scholars of his day. Oxford gave him D.Litt. Jesus College, Cambridge, made him an honorary fellow. He was Jove-like in appearance. Traffic halted at Harvard Square to let him cross. One day forty years ago still brightly shines in my memory. Kittredge, walking across the Yard with me, asked if I would read his examination papers in Shakespeare. It was the most famous course at Harvard. Until now that was my greatest moment. Kittredge—picked—me. I assisted him for two years. And later in a letter inviting me to apply for a rich new Harvard Travelling Fellowship, he gave me my title deeds in writing: "Your ability and scholarship will be instantly recognized by the committee." All that now seems like the blessed memory of a better life.

Neilson was a Scotsman—an M.A. of Edinburgh and a Ph.D. of Harvard. In due time, Edinburgh along with many other Universities, gave him LL.D. He also was one of the greatest scholars of his day. When he went to Smith as President the world of English Scholarship was dismayed at its apparent loss. But there was no loss. Neilson taught English for a time and produced books constantly while making himself one of the most loved and most influential college Presidents of his day. When he retired, the *New York Times* said: "He will have more leisure lucidly to teach and wittily to enliven this University of the United States." On his death Mrs. Dwight Morrow, a Trustee of Smith, wrote this great tribute: "He proved that learning is mellowed by living and living enriched by

scholarship." I am proud to have done my Ph.D. work at Harvard under Neilson.

I came to Queen's from Harvard in 1909 as Assistant Professor of English, bringing with me I thought much of Kittredge and Neilson and other great men. I had a profound disillusionment. These men didn't count at Queen's. There was then no Statute of Westminster in politics or scholarship. A man then had to come from Oxford or Cambridge, preferably after graduation from one of the four Scottish Universities, to have any part in the humanities except that of harmless necessary drudge. I still remember vividly my first interview with Cappon, Dean of the Faculty of Arts and Head of the Department of English. He began by saying that he really didn't need me, but as Watson had persuaded the Principal to give him another man in Philosophy, he had to retain his lead by insisting on a new man in English. What was there for me to do? Cappon ruminated, puffing his pipe, half talking to himself. In the end, I found myself assigned an incoherent programme of arid odds and ends which he and others wished to be rid of as well as some newly thought of tasks to keep me properly busy. The crowning indignity, as it seemed to me then, was the assignment of Public Speaking in Theology. For the first time I protested. I had no training in the subject. I couldn't possibly teach it. Cappon puffed his pipe unmoved and drily said: "They need a man: you will be better than no one." Mine not to reason why. Though my hours of teaching were then twice the normal, for Cappon did not stoop to the base clerical task of adding, I asked for more in the hope of saving my scholarship and my soul. I asked if I might have an hour or more in Shakespeare who was not then included in the honours work. Cappon looked at me over his glasses in resistant surprise and sternly demanded: "How can you teach Literature? You are American trained." I said that Harvard had good men and Boston and Cambridge a distinguished literary tradition, but Cappon interrupted decisively: "There are not two men in Boston who do not think James Whitcomb Riley the greatest poet who ever lived."

So that explains why thirty-eight years ago the new Assistant Professor of English sitting in the back row under the gallery was sorry he had come.

It is a proud memory that I soon won Cappon's favour. He was, notwithstanding formidable prejudices, a very great man, one of the greatest I have met. Next year I got rid of Public Speaking in Theology and was allowed an hour a week in Shakespeare. In Cappon's absence in 1913-14 I was formally made acting head of the department. On his return tired, uninterested, and a pronounced valetudinarian, I had an increasing load in the department. When he resigned in 1919 I was again acting head. In the summer of 1920 the executive committee of the Trustees made me head, but I functioned for only two weeks—till the meeting of the full Board of Trustees in October. Then occurred an event which changed the whole current of my life. G. Y. Chown, Registrar and Treasurer, resigned. He was one of Grant's men, one of the makers of Queen's, as great in planning and execution as others in scholarship and teaching. He urged my appoint-

ment as his successor. This was because of my sins in attending Faculty meetings regularly and taking an active part in discussions. I warn all young men here to think only of their high calling as scholars and teachers. The appointment was a mad one for the Trustees to make. I had no experience on the business side. On my first day I had this bewildering telegram from Winnipeg: "As encumbrancer will pay your overdue coping mortgage north half twenty-eight four five west wire reply immediately." What could a professor of English, who had never even seen a mortgage, do with the like of that or with the daily dozen of alien problems which came bursting through his office door? There was just one advantage. I had no time to go down town to buy anything and began to save money.

For teachers of some subjects, Geology for example, Mr. Principal, a move to administration might be a translation like Enoch's. Last winter a stenographer in Miller Hall quit suddenly, complaining that all day long she saw nothing but rocks and fossils. English has a kindlier aspect and banishment from her courts could not be without tears. For ten years I could hardly enter Kingston Hall dry-eyed. For ten years I thought that in 1920 the Trustees had done to me like of what Carlyle says the world did to Burns in making him an exciseman, "quarrelling with smugglers and vintners, computing excise dues upon tallow, and guaging ale-barrels." A disgruntled student writing in the *Journal* was not far wrong. "Why," he asked, "do the students fear Dr. McNeill? He is only a clerk hired by the Trustees."

Let us not burden our remembrance with  
A heaviness that's gone.

I have had a full and varied life since 1920. In the last twenty-five years there has been a greater development than in the previous eighty, and I have sat with the Chancellor, Principal and Trustees in the planning. Queen's has changed from a small institution of three excellent but somewhat conventional faculties to a large modern University with a great variety of courses and facilities. Its revenues in that time have increased from \$300,000 to \$1,500,000 a year.

I have not time to go into details. I will let a few facts about the physical plant suggest the expansion. There are men and women here tonight who have studied under John Watson. When he came in 1872 and when Grant came in 1877 there were only two buildings—the Principal's Residence and what is now called the Old Medical Building. When Grant died in 1902, there were only four others—the Old Arts, Carruthers, and the two frame buildings. While there were many important additions in Principal Gordon's day, the University as it now stands has been built and rebuilt since 1920. We have been fortunate in our fires. I claim no credit. The partial destruction of Kingston Hall, Fleming Hall, Old Medical Building, and the Arena started a fire-proofing and remodelling programme. Colonel Macphail when head of the Department of Civil Engineering came to the Principal one day with the whimsical request: "Please Sir, may I have the next fire?" More important than the remaking of old buildings was the construction or acquisition of new ones. Since 1920 the University

has built or bought Ban Righ Hall and its five annexes, the Stadium, the Douglas Library, the Students' Memorial Union, the new Gymnasium, the Commerce Building, Nicol Hall extension, Gordon Hall extension, Miller Hall, the Arena, Craine Building, the Central Plant, the Sanitary Engineering Building, and McLaughlin Hall. An excellent Biological station has been built at Lake Opinicon with two teaching and research buildings, a director's house, a large central house for dining and common room accommodation and a group of cabins for living quarters. The General Hospital, so vital to Medical teaching, has been multiplied in size many times and completely modernized, partly with the help of Government grants received by the University for the improvement of medical teaching. A flash-back to 1920 would show a relatively meagre institution, meagrely equipped without a single fire-proof building. Half the University of 1947 is new and all the rest renewed, except the two frame buildings. In the judgment of many visitors, Queen's is the handsomest university in Canada.

I should like to thank at least a hundred persons to-night for kindly assistance as I tried to learn a new job in the years following 1920. Trustees and officers of the University, staff, students, and graduates have been splendidly co-operative. I think with especial gratitude of our common efforts and common forbearance in the depression years. Registration fell and so did revenue from fees. The Government cut its maintenance grant by \$100,000. Almost all universities in Canada had to reduce salaries. But not Queen's. We all worked together in unselfish planning and learned the great lesson that the sum of a lot of small savings makes a very great total. We threw more than \$100,000 out of expenses and yet kept salaries intact.

While I cannot thank personally the large number who have helped and encouraged me in my work, I must in justice speak of those who were daily shoulder-companions and who made possible whatever success I have had.

First of all my secretary, Mrs. Jamieson: untiring, unruffled, patient, whimsical, discreet, knowing everything, saying little, grandly loyal.

My assistant secretary, Miss Higgins: highly intelligent, highly ornamental,

A daughter of the gods, divinely tall  
And most divinely fair,

Miss Chown in charge of mortgages and insurance: what higher compliment can I pay her in this University where G. Y. Chown wrought so enduringly than to say that she is in very truth her father's daughter—very able and very wise. If I ever disagreed with her I felt I must be wrong.)

I have been Treasurer. Mr. Gordon Smith, my successor, is a graduate in both Arts and Science. I have known him for twenty-one years, for much of that time in daily association. Through hard work, natural aptitude, and utter loyalty to this University he has abundantly earned his promotion. Mr. Tillotson who stands beside him is a graduate of Queen's in Commerce and an M.B.A. of Harvard. He has had much business experience in high places. He can earn enough in three months to live on for twelve. But he has decided that henceforth the most satisfying thing he can do is to serve his own University. In the Accountant's Office, Mr. Winney, the

new head, has made a transformation. He is not only master of accounts but above all a fine gentleman. Miss Gillespie, his main support, has ably and uncomplainingly carried an undue burden for over twenty years. The University owes her much.

As Treasurer, I was responsible for care of property and maintenance. My right hand man for many years has been Mr. Ralph Hinton, in charge of the Central Plant and of grounds and buildings. He is English born. In the first Great War he got to France, though under age. Later he won an open scholarship which gave him two years at Armstrong College. He has had much practical experience in great industries in England and Canada. There seems to be nothing he doesn't know how to do well and quickly. I have always felt it wrong that I should be paid more than he.

I have been Registrar. Miss Royce, Miss Richardson and their staff are doing incomparably better work than I ever did. Miss Richardson is quietly and charmingly efficient, and runs the office perfectly when Miss Royce is away. Miss Royce herself is one of the world's wonders. Though for a large part of the year she is in her office from 8 to 1:30, from 2 to 7:30 and from 8 to 10:00, she contrives to read everything worth while and to remember it. She never forgets a name, face, or record. The fathers and mothers, brothers and sisters, cousins, uncles, and aunts who accompany prospective freshmen to Kingston for an interview in the summer, she calls by name at the Convocation tea four years later. On the last day she will stand beside St. Peter firmly telling him whom to admit. Miss Healey, now Assistant Director of Extension, began in the Registrar's Office, only a little after I came, as a girl of sixteen. She has yearly grown in power and prestige. Successive heads of the office, including Mr. Hutton, the very admirable present Director, have all praised her from their first day. She has great wisdom and competence.

I have been Vice-Principal. I have had much business with the Principal and with his secretary, Miss Anglin, who has been the trusted helper and adviser of three Principals. Sir William Fyfe called her the perfect secretary. I have never been able to understand why a Vice-Principal is necessary while Miss Anglin remains at her post. I had the great honour of following John Watson as Vice-Principal. I have equal satisfaction in being succeeded by W. A. Mackintosh, who worthily wears the rich mantle of Shortt and Skelton.

Thus, I leave all my former duties in the happy knowledge that everything will be better done by those who come after me.

I return to what I said in the beginning. At my first Convocation thirty-eight years ago I sat sadly thinking that I had made a mistake in coming here. I was very wrong.

Seldom, in retrospect from life's end, can one know whether at any of the many forks in the road he took the right turn to reach an ultimate goal. In 1909, longing to be back in Canada, I chose Queen's at \$1350 instead of an American college at \$3000. Its President and Dean interviewed me pressingly in a shining Boston hotel. The Dean said: "I am a Toronto

graduate. I know Queen's. It has no future." Yet I came to Queen's unafraid. I can say now with certainty that I took the right turn.

I have been under great scholars—Kittredge and Neilson at Harvard. Sir Walter Raleigh and Nicol Smith at Oxford. To these and others I owe much. But I owe most to a hundred Queen's men and women, many among the ablest of our time. With them I have walked in rich companionship. I was early enough to know the seers and prophets of the golden age. From these and their great successors I have learned most of what I know. There are more members of our staff today with an international reputation than ever before. Our present keeps faith with our past. To both I have admiringly gone to school for thirty-eight years. Here I have had my best education. Tomorrow I graduate. The words with which I began my Centenary address in 1941 may properly be my valedictory:

I am not a Queen's man born  
Nor a Queen's man bred,  
But when I die  
There's a Queen's man dead.

---

### UNIVERSITY HONOURS DR. W. E. McNEILL AT A TESTIMONIAL DINNER IN GRANT HALL

THREE hundred and fifty specially invited guests honored Dr. W. E. McNeill at a testimonial dinner held in Grant Hall on October 17. Members of staff, trustees, and alumni paid tribute to the teacher, administrator, and financial expert who retired September 30 after thirty-eight years at Queen's.

On behalf of the Board of Trustees, Principal Wallace presented Dr. McNeill with a playback recording machine. Dean Mackintosh, on behalf of faculty members, gave him a colorful oil painting, *Wartime Market*, by Professor Andre Bieler. Professor J. K. Robertson, representing the library curators, gave him a William Blake's *Illustrations of the Book of Job*. For alumni, Mrs. D. W. Boucher, newly elected president, gave Dr. McNeill an honorary life membership in the General Alumni Association.

Impressive eulogies of Dr. McNeill's outstanding contribution to Queen's were made by Chancellor Dunning, who proposed that alumni honour Dr. McNeill in a practical way by subscribing, and seeking subscriptions for, the required expansion of the Queen's physical establishment—as a starting point for this form of tribute, he himself had

obtained pledges for \$10,000; by Trustee Chairman Macdonnell, who said "a future historian of Queen's will be obliged to write the name of William Everett McNeill in shining letters"; and by Principal Wallace, who paid a warm personal tribute to Dr. McNeill and said that many mistakes in administration had been avoided through his counsel. Dean Mackintosh, a former student of Dr. McNeill's, emphasized his work as a scholar and teacher, saying that he had learned from Dr. McNeill not only English but a higher morality. Professor Robertson lauded the man of letters Dr. McNeill had always shown himself to be through his work as one of the University curators.

Spontaneous applause from dinner guests and from an audience in the gallery greeted the glowing remarks made about Dr. McNeill.

Chancellor Dunning read messages of congratulations to Dr. McNeill, one from Rector B. K. Sandwell and the other from W. H. Fyfe, former principal of Queen's, now principal of the University of Aberdeen, Scotland.

Dr. McNeill acknowledged the tributes in an address that is published as the leading article in this issue.

## AUTUMN CONVOCATION

### Dr. W. E. McNeill and Dr. J. T. McNeill Given Honorary Degrees

TWO distinguished cousins—Dr. W. E. McNeill, retired vice-principal and treasurer of Queen's, and Dr. J. T. McNeill, of the Union Theological Seminary, New York—were given honorary Doctor of Laws degrees at Fall Convocation on October 18.

Grant Hall was filled with guests and students for the Convocation programme, which unfolded with traditional academic colour and solemnity. The recipients of honorary degrees were presented by Principal Wallace to Chancellor Dunning, who conferred the degrees.

The citations read:

WILLIAM EVERETT MCNEILL—"One who has rendered conspicuous service to Queen's University. An exponent of English prose, pure and undefiled, a financier of unusual sagacity, a careful husbander of university funds, a wise counsellor and a warm-hearted friend, he has made a mark on Queen's that will endure."

JOHN THOMAS MCNEILL—"A former member of the staff of this University, who has won wide recognition for his studies in church history and for his analysis of the forces that make for unity in Christian thought."

Dr. W. E. McNeill delivered the Convocation address, making an appeal for a wider and more intensive study of English literature in our educational system. (The Board of Trustees has made plans for the publication and distribution of this address.)

In his remarks, Dr. Wallace gave an outline of building activities at Queen's and commended the substitution of Union facilities in McLaughlin Hall so speedily after the burning of the Union as "an outstanding performance" on the part of the building committee, the union committee, staff and contractor. He paid tribute to three members of the senior staff who withdrew this year—Dr. McNeill, Dr. George Humphrey and Professor W. M. Conacher—and welcomed to the staff F. L. Bartlett, the new head of the course in physical and health education.

Approximately fifty first year students, winners of scholarships to Queen's this year, were presented by Dr. W. A. Mackintosh, vice-principal, to Chancellor Dunning. Principal Kent, of Queen's Theological College, delivered the opening scripture reading and prayer.

### AUTUMN CONVOCATION

Front row, left to right: Principal Wallace, Dean Ellis, Dr. W. E. McNeill, Chancellor Dunning, Dr. J. T. McNeill, Mr. J. M. Macdonnell.

Back row: Miss Royce, Dean Melvin, Principal Kent, Dean Douglas, Vice-Principal Mackintosh.

## BOARD APPROVES STAFF APPOINTMENTS

TWO new appointments to the Board of Trustees were made at the autumn meeting of the Board, held on October 18. Dr. Florence Dunlop of Ottawa was appointed to succeed Mrs. George Ross of Toronto, and Dr. James Polson, of New York, was appointed to complete the unexpired term of Dr. J. G. Dwyer, who died last August. Dr. Dwyer's term would have expired in 1949.

The Board recorded the great esteem and affection in which Dr. W. E. McNeill was held by the whole University and the great contribution which he had made to the furtherance of education in Canada. Dr. McNeill retired September 30 after thirty-eight years of invaluable service to Queen's, latterly as vice-principal and treasurer. Preliminary plans were made for the publication and distribution of the Convocation Address made by Dr. McNeill on October 18.

A number of new appointments to the University staff were approved by the Trustees. They were: J. B. McGreevy, instructor in chemistry during the winter months, on loan from the Canadian Industries Limited plant in Kingston; V. A. Beamish, Sc. '45, instructor in drawing; E. A. C. Symons, Sc. '37, instructor in electrical engineering; J. F. Edwards, Arts '37, and Miss Marion Ross, Arts '39, assistant professors in the new course of Physical and Health Education; Miss Diana Hawkins, instructor for the winter in Physical and Health Education; Miss Ruth Marie Climo, instructor in Spanish; and Grant McDonald, assistant to Professor Andre Bieler in teaching art. Effective January 1, Dr. D. N. White, M.R.C.S., M.R.C.P., will become assistant professor of medicine, specializing in neurology. A Cambridge graduate, he has had experience in many London hospitals, and for the last three and a half years has specialized in neurology.

It was agreed to authorize the expenditure of a sufficient sum to cover the examinations for tuberculosis of all students each year.

Chairman J. M. Macdonnell welcomed Dr. J. E. McAskill, A. G. MacLachlan and W. A. Newman, newcomers to the Board. Out-of-town members who attended the meeting were: Chancellor Dunning, Mrs. H. B. Campbell, R. D. Harkness, W. A. Newman, and J. B. Stirling, of Montreal; J. M. Macdonnell, J. A. Edmison, J. C. Macfarlane, and Polson of New York was appointed to Dr. R. M. Smith, Toronto; Justice C. A. Cameron, Dr. W. C. Clark, and A. E. MacRae, Ottawa; H. G. Bertram, Dundas; Dr. E. A. Collins, Sudbury; D. A. Gillies, Arnprior; H. G. Hilton, Hamilton; Dr. D. H. Laird, Winnipeg; Dr. J. E. McAskill, Watertown, N.Y.; Dr. B. M. Stewart, New York City.

---

## MARTY SCHOLARSHIP AVAILABLE TO ALUMNAE

THE Marty Memorial Scholarship, valued at \$1,000 this year instead of the former \$750, is again being offered by the Queen's Alumnae Association. Maintained in memory of the late Dr. Aletta Marty, the scholarship is for a year of graduate work and may be held by any woman graduate of the University with a Master's degree. A committee chosen by the Alumnae will make the award. The Scholarship may be awarded to the same woman for more than one year.

Applications should reach the Registrar not later than December 31. Further information may be obtained from the Registrar's office.

---

## Presented with Plaque

DR. R. S. McLAUGHLIN, LL.D. '46, observed his sixtieth anniversary with the automotive industry, and with the company which became General Motors of Canada, at a dinner in Oshawa on October 16. Dr. McLaughlin was presented with a silver plaque recognizing his "inspiring leadership and executive ability in General Motors, and his outstanding service to the transportation and automotive industry in Canada."

## L. W. BROCKINGTON APPOINTED RECTOR

Unanimous Choice of Students to Succeed Dr. B. K. Sandwell

**D**ISTINGUISHED Ottawa lawyer and Canadian public servant, L. W. Brockington, K.C., C.M.G., D.C.L., has accepted the position as rector of Queen's University. Mr. Brockington was unanimously elected by the Alma Mater Society to succeed Dr. B. K. Sandwell as the only student representative on the Board of Trustees. In addition to this duty, the rector delivers a rectorial address once during tenure of office.

Many important Canadians have held the rector's post, first established in 1913. Former rectors and the years of their appointments were: 1913, Rev. S. W. Dyde; 1916, James L. Robertson; 1920, Brig.-Gen. A. E. Ross; 1925, William H. Coverdale; 1929, O. D. Skelton; 1935, Rt. Hon. R. B. Bennett; 1937, Hon. Norman McLeod Rogers; 1940, Earl of Athlone; 1944, Dr. Sandwell.

Mr. Brockington was born at Cardiff, Wales, in 1888, and graduated from the University of Wales with honours in classics. He came to Canada in 1912 and became a journalist in Edmonton. He then studied law, winning the gold medal of the Alberta Law Society. In 1930 he was created a King's Counsel by Alberta and in 1938 by Manitoba.

L. W. BROCKINGTON, K.C. (Karsh)

In 1921 Mr. Brockington was appointed city solicitor for Calgary. In 1935 he became general counsel for the Northwest Grain Dealers' Association in Winnipeg. The following year he was appointed first chairman of the Canadian Broadcasting Corporation. Shortly after the outbreak of war he was appointed special wartime assistant to Prime Minister King.

He accepted the invitation of the British Government to go to the United Kingdom in 1942 for a year as adviser of Empire affairs to the British minister of information. Since 1943 he has acted as chairman of many labour conciliation boards in Canada.

Much in demand as a speaker, he has been heard on platforms and over the radio on many occasions in Canada, the United States, Great Britain, New Zealand and Australia. Honorary degrees have been awarded him by the Universities of Alberta, Syracuse, and Western Ontario, and Bishop's University. He is a Companion of the Order of St. Michael and St. George and an honorary Bencher of the Inner Temple, London, England. He is also an honorary member of the American Bar Association, the Bar of the City and State of New York, and honorary life member of the Canadian Legion.

### Dr. G. B. Reed Awarded Medal In Recognition of Services

**D**R. G. B. Reed, professor of bacteriology at Queen's, has been awarded the Medal of Freedom, bronze palm, by the United States Government for "outstanding and exceptionally meritorious service as a Canadian member of the Joint United States-Canadian Commission from June, 1942, to February, 1946," and for "... carrying out highly classified, co-operative research and development projects in connection with biological warfare."

The presentation was made on November 4 by Lt.-Col. W. B. Kern, U.S. Army, at a meeting of the Queen's Baconian Society in the Medical Laboratory.

## DUNNING TRUST BRINGS OUTSTANDING SCHOLARS

THREE distinguished United Kingdom scholars will come to Queen's University during the next three years under the terms of the Dunning Trust, it was decided in a recommendation passed at the autumn meeting of the Board of Trustees on October 18. The three men are Dr. T. E. Jessop, University College, Hull; Dr. John Macmurray, Edinburgh University; and Sir Richard Livingstone, Oxford University.

The \$100,000 trust, founded anonymously to honour Chancellor Dunning, is "to promote understanding and appreciation of the supreme importance of the dignity, freedom and responsibility of the individual person in human society." At its spring meeting the Board decided to invite special lecturers in the humanities. Principal Wallace consulted with leaders in the United Kingdom when he was there this summer, and it was he who recommended the men chosen by the trustees.

Dr. Jessop will be at Queen's in January for what is expected to be a three-week period, during which he will deliver three lectures, open to the public, and will meet with small groups of students and staff. He is termed "the ablest young philosopher in England (or Scotland)" and "a philosopher who can deal with human values in thought and in action, with a practical understanding of the needs of the common man." Dr. Jessop was on the staff of Glasgow University for several years, and this summer was in Europe serving the British Council in interpreting British ideals to countries there. He has written several books.

The lecturer in 1948-49 will be Dr. Macmurray, professor of moral philosophy at Edinburgh University. He is the author of several books dealing with the interpretation of religion to living in the modern world. His special field is reported to be to "mediate between the individualistic position on which the older generation built its values and the co-operative emphasis of our time."

Sir Richard Livingstone, president of Corpus Christi College at Oxford and

recently vice-chancellor of the university, will attend in 1949-50. He is recommended as one who "interprets the great period of Greek culture with a sense of its values for present day living and with an insistence on its personal challenge for the individual."

## MORGAN MEMORIAL CHAPEL AVAILABLE FOR ALUMNI

AN increasing number of graduates and affiliates of Queen's are making use of the Morgan Memorial Chapel for important religious ceremonies such as baptisms and weddings. This is as it should be, for the Chapel belongs to the University family. It was they who created it.

Morgan Memorial Chapel, on the second floor of the Old Arts Building, is a memorial to the late Professor and Mrs. William Morgan, and is the gift of A. Cameron Badenoch of the Indian Civil Service. The central window was presented by Misses Mary and Isobel Ross in memory of their father, Principal Donald Ross. The west window commemorates Rev. D. J. Macdonnell of St. Andrew's Church, Toronto, one of the organizers and first president of the Theological Alumni Association, and his brother, G. M. Macdonnell, for many years chairman of the Board of Queen's Theological College. The east window is the gift of the Theological Alumni Association and is dedicated to the memory of the Very Rev. Malcolm Macgillivray, D.D., minister of Chalmers Church, Kingston, from 1887 to 1917.

Women students in residence during the years 1903 to 1914 gave the communion table in memory of the late Professor and Mrs. J. B. Mowat. Mrs. D. G. Macphail presented the communion service in memory of her husband, who lost his life as a chaplain in the Great War. The Bible and the Hymnary are the gifts of Rev. Charles Anthony, M.A.

The chapel seats about one hundred people and is used for daily morning services, S.C.M. Wednesday noon services,

and monthly communion services the first Sunday of each month. At the latter, communicant members of all denominations are welcome. All services are designed to meet the need of inter-denominational worship.

## MRS. D. W. BOUCHER HEADS ALUMNI

**F**IRST woman graduate to be accorded the honour, Mrs. D. W. Boucher (Thelma Bogart), Arts '27, Kingston, Ontario, was elected president of the General Alumni Association for the ensuing year at the semi-annual meeting of the Board of Directors of the General Alumni Association held at the University on October 18. Mrs. Boucher succeeds N. B. MacRostie, Sc. '11, Arts '14, Ottawa, who had held the position for the last two years.

Other elections included that of Dr. J. E. McAskill, Med. '14, Watertown, New York, and J. B. Stirling, Arts '09, Sc. '11, Montreal, Quebec, as first and second vice-presidents, respectively. The following were appointed as "additional" directors for a one-year period: M. J.

Aykroyd, Sc. '13, Toronto; P. E. H. Brady, Arts '41, Ottawa; D. G. Geiger, Sc. '22, Toronto; H. E. Searle, Sc. '22, New York; Miss Mary White, Arts '29, Toronto.

In his report, Mr. MacRostie referred to the fact that the Alumni Association had come of age during 1946-47. It was just twenty-one years ago that the organization was set up during the endowment campaign of 1926, with the avowed purpose of uniting the alumni and promoting the welfare of the University. Both objectives had been realized, and the Association can now enter its maturity with confidence in the role it can play on behalf of the graduates and the University.

Special reference was made to the 1947 award of the Montreal Medal to Dr. A. L. Clark, the gift of \$3,000 to the University from the Toronto branch, and the performance of the Queen's Drama Guild in Ottawa under the auspices of the Ottawa alumni.

The Secretary - Treasurer's report showed that the membership had reached a new record high of 2730, in spite of which the Association had operated with a small deficit for the past year.

**DR. J. E. McASKILL**  
First Vice-President

**J. B. Stirling**  
Second Vice-President

It was unanimously agreed to make Dr. W. E. McNeill, retiring Vice-Principal and Treasurer of the University, an honorary life member of the General Alumni Association.

The following directors or branch representatives were present: President MacRostie, Past President E. A. Collins, First Vice-President Mrs. D. W.

Boucher, Second Vice-President Dr. J. E. McAskill; Mrs. W. C. Clark, Mrs. R. E. Dowsett, Mrs. D. G. Geiger; Drs. E. L. Bruce, O. A. Carson, J. H. Orr, Wallace Troup; Prof. D. M. Jemmett; M. J. Aykroyd, C. R. Buss, Ernest Collyer, M. N. Hay, Ian MacLachlan, J. L. Shearer, J. B. Stirling, and the Secretary-Treasurer.

---

## QUEEN'S THEOLOGICAL COLLEGE TO LAUNCH APPEAL FOR ADDITIONAL ENDOWMENT

A CAMPAIGN to raise an additional endowment fund of \$200,000 was launched at the fifty-fifth annual conference of the Queen's Theological Alumni Association, held in Convocation Hall October 27 to October 30. The appeal is being made in order that "Queen's Theological College may continue to function as a vigorous and influential centre of theological education."

The college's endowment was once adequate for its needs, but falling interest rates have cut its income from that source almost in half. The church's contribution from the Missionary and Maintenance Fund is only a little over \$3,000. Thus, though the capital endowment has never been impaired, and will not be, additional income is imperative if a maximum of four full-time professors is to be maintained.

J. A. Edmison, K.C., has been appointed chairman of the finance committee. Two new chairs are to be established from the proposed addition to capital. One, in Hebrew and Old Testament, will bear the name of the late Dr. W. G. Jordan, for twenty-seven years an important scholar in the College. The other, in Pastoral Theology, will be named after Rev. Dr. James Brown, Theol. '36, who was killed in action while serving with the R.C.A.F. during World War II.

Rev. Dr. Lynn Hough, recently retired dean of theology at Drew University, Madison, New Jersey, was the Chan-

cellor's Lecturer. Seventy-five ministers and a number of guests heard his four lectures on the general subject of "Christian Humanism and the Modern World."

A feature of the conference was the installation, by the Kingston Presbytery, of Rev. Dr. W. E. L. Smith, M.C., M.A., as professor of church history and practical theology. Dr. Smith then gave an address on "Priest and Minister in Christian History."

Others who took part in the programme were: Principal R. C. Wallace, Professor C. J. Vincent and Professor Graham George, all of Queen's University; Rev. W. A. Beecroft, Arts '08, Theol. '13, of Wingham; Rev. W. J. Fiddes and Rev. Dr. G. A. Brown, Arts '04, Theol. '07, D.D. '33, both of Kingston; Rev. J. A. Lyttle, Arts '17, North Bay; Rev. C. D. McLellan, Napanee; Rev. V. H. Fiddes, Arts '38, Theol. '41, Toronto; Rev. R. R. Bonsteel, Arts '41, Odessa; Rev. J. I. McKay, Arts '14, Theol. '17, Montreal; Rev. A. W. Seaton, Sydenham; and Principal H. A. Kent, of the Theological College. A reception was held at the home of Dr. and Mrs. Kent.

Rev. W. A. Beecroft was re-elected president of the Theological Alumni Association. Other officers are: vice-president, Rev. J. I. McKay; secretary, Rev. H. W. Cliff, Kingston; and treasurer, Rev. Dr. S. M. Gilmour, Kingston.

The conference was attended by approximately ninety alumni.

## RECORD REGISTRATION AT QUEEN'S THIS YEAR

**F**INAL registration figures for the 1947-48 session show enrolment this year to be an all-time high of 3,193. This tops last year's record of 3,070.

The number of students registering in first year is down in the faculties of Arts and Science and in the one-year diploma course in Industrial Relations, but up in the Medical Faculty. The proportion of veterans in first years is also lower this year than in 1946. Only 165 Science freshmen, out of 335 enrolled, are ex-service personnel, while last year the ratio was 331 veterans in a first year of 385. There are 31 veterans in first year Medicine, out of 66 enrolled. This is compared to the 50 veterans in 1946's freshman class of 61. In Arts, 187 of the 508 enrolled for the first time are veterans.

This year the number of women enrolled is larger than ever—570. There were 519 last fall. A breakdown shows 512 in Arts, 27 in the School of Nursing, 7 in Physical and Health Education, 2 in Science, 18 in Medicine and 4 in Industrial Relations.

Intramural registration figures for the past three years are as follows:

Arts—	1945	1946	1947
First year .....	419	609	508
Other years .....	721	1000	1164
	1140	1609	1672
Medicine—			
First year .....	347	385	335
Other years .....	567	748	835
	914	1133	1170
Science—			
First year .....	61	61	66
Other years .....	184	204	207
	245	265	273
Physical and Health Education			22
School of Nursing—			
First year .....		17	14
Other years .....		4	13
		21	27
Course in Industrial Relations—			
	29	42	29
Total .....	2328	3070	3193

## PURCHASE OF SYNCHROTON TO AID IN NUCLEAR PHYSICS

**P**URCHASE of a synchroton, one of the newest devices in the nuclear field of experimentation, has been approved by the Board of Trustees. This will be the first machine of its type in Canada, and it will enable Queen's to contribute important work in this branch of learning. The Dominion Government, through the Atomic Energy Control Board, will assist in the financing of the project. The work will be under the general direction of Dr. J. A. Gray, professor of physics.

### DRAMA GUILD CONTEST

**A**LUMNI are reminded of the Playwriting Contest being sponsored by the Queen's Drama Guild in connection with the Guild's fiftieth anniversary in 1948-49. Two prizes are being offered—\$100 for a full-length play and \$50 for a one-act play. Detailed information about the rules of the contest may be secured by writing to: Playwriting Contest, Queen's Drama Guild, Queen's University, Kingston, Ont.

The closing date for submitting manuscripts is May 1, 1948.

### W. A. Marrison Honoured By British Horological Institute

**I**N recognition of pioneer researches in the development of the quartz crystal clock, the British Horological Institute has awarded its 1947 Gold Medal to W. A. Marrison, Sc. '20. The medal is the Institute's highest award, and previous recipients have included distinguished scientists all over the world.

Mr. Marrison received the medal from Sir Harold Spencer Jones president of the Institute and Astronomer Royal, at the annual general meeting on October 29, in London, England. On November 6 he lectured before the Institute on "The Evolution of the Quartz Crystal Clock."

# THE 1947 REUNION

October 17 - 19

A NUMBER of years were not dismayed by reports of overcrowding in Kingston, and proceeded to hold reunions on October 18 with noteworthy success.

Varsity week-end saw reunions of Science '17, Science '30 and Arts '46. The most elaborate gathering was that of Science '17, convened by Keith Light, of Ottawa, who had assembled some year pictures and songs in an attractive booklet souvenir for everyone. A bang-up dinner was held in the Aluminum Company cafeteria, through the auspices of Neil Hay. C. S. Boyd, permanent president, was chairman. Dr. A. L. Clark, former dean of Science, responded to the toast to the University. Dr. M. B. Baker, professor emeritus of geology, responded to the toast to the Science Faculty.

Forty of the original 110 members of Sc. '17 attended this sixth reunion since graduation. Twenty-six were listed as deceased. Those who registered at the reunion were: A. K. Light, S. P. Eagleson, G. D. Mallory, R. J. Young, I. M. Marshall, R. M. Elmer, F. A. Sproule, D. R. Snider, T. O. Whillans, A. D. Pope, A. A. Webster, C. H. Cumming, all of Ottawa; H. A. Steven and E. H. Coon, both of Toronto; A. A. Paoli, Winnipeg; G. H. Chalmers, Guelph; H. C. Bates, Stratford; R. C. McQuire, Port Colborne; H. J. Williams and L. F. Kinnard, Boston, Mass.; T. F. Holmes, Kemptville; J. A. House, St. Catharines; C. S. Boyd, Fort Erie; W. D. Colby, Chatham; C. H. Donnelly, Simcoe; B. T. Yates, Cornwall; W. F. Hubbard, T. H. L. Payne, M. N. Hay, J. B. Hanlon, A. C. Hanley, T. V. Lord and Leslie Smith, all of Kingston.

\* \* \*

Science '30 had a smaller but also successful meeting. Friday night there was an informal party at David Jack's. On Saturday there was a dinner at Montoro Lodge, on Highway No. 2 east of Kingston, which was attended by forty-five year members and their families. Professor Arthur Jackson, honorary president, also attended.

Those present were: H. P. Dickey, president, G. W. Jarvis, A. E. Orwell, and D. S. Abbott, of Montreal; G. A. Franklin, P. C. King and J. W. Leavens, of Ottawa; J. E. Goodman and J. D. Millar, Toronto; J. C. Houston, Noranda; D. D. Hall, Brantford; R. A. Findlay, Cornwall; Charles Miller, Beauharnois; David Jack, W. A. Clarke and H. A. Cohen, all of Kingston.

\* \* \*

Arts '46 held a dinner at Vinny Morrison's after the Toronto game in Kingston, on October 18. Organizer Ken Murchison claimed it was to provide a meeting place for those year members who came to Kingston for the week-end, and was not to persuade members to come. An amusing sheet with cartoons of the year executive informed interested members. Among those present were: President Jim McQuarrie, Hank Wightman, Ken Buckingham, Doreen Denyes, Norm Brown, H. F. McKerracher, Ken Wynkie, Ian Rogers, Bob McIntosh, Ron Clark, and Bill Purdy.

\* \* \*

An innovation in the activities of the week-end was a luncheon held in the Gymnasium for alumni and their friends. Members of the Kingston branch were on hand to welcome the visitors . . . A large number attended the alumni dance in Grant Hall on Saturday night . . . The week-end programme was brought to a close with the Sunday Hour Service conducted in Grant Hall on Sunday afternoon. The University Chaplain, Chaplain, Rev. A. M. Laverty, was in charge.

Academic procession, left to right: Dr. W. E. McNeill, Dr. J. T. McNeill, Chancellor Dunning, Principal Wallace, Vice-Principal Mackintosh, Mr. J. M. Macdonnell, Principal Kent, Dean Ellis. Alumni luncheon groups, left middle: Dr. E. L. Bruce, Dr. B. M. Stewart, Dr. S. M. Polson. Right middle, D. A. Gillies, past president of the General Alumni Association, and Mrs. D. W. Boucher, president of the General Alumni Association; bottom: Miss Kay Elliott, Mrs. W. R. Hambly, Mrs. R. E. Dowsett, Mrs. D. W. Boucher, Dr. G. W. Mylks, Jr., and Dr. W. P. E. Paterson.

# Athletics

## Football

ONE point in four games is the best the Tricolour has been able to do in senior Intercollegiate football, as this issue of the *Review* goes to press. The point was earned in the opener against McGill, which ended in a tie. In the other games, Queen's was defeated by a big margin.

Despite this record, there is no reason for supporters of the Tricolour to hang their heads. Coach Bob Elliott turned out a team much improved over that of last year. Light and fast, the Tricolour gave a good account of themselves, but inexperience and injuries handicapped their best efforts.

For the season's opening game in Montreal on October 11, Queen's and McGill put on as thrilling a show as anyone would want to see. Ahead 11 to 6 in the third quarter on the strength of touchdowns by Dave Rozumniak and Ross McKelvey, the Tricolour lost the lead, but tied it up again thanks to some tremendous punting by Ted Porter.

With the score 13-13 and only a few minutes left to play, McGill staged their best march of the afternoon, driving from their own 20-yard mark to the Queen's 5. Backed to the shadows of the goal posts, the Queen's front wall stiffened and the Red and White were forced to kick. Captain Al Lenard caught the ball just inside the dead-line and then pulled off the best play of the Intercollegiate season by running through the entire McGill team and well out on to the playing field to save the day. How he managed to avoid so many would-be tacklers at such close quarters will always remain a mystery.

For the Reunion game in Kingston on October 18, Queen's entertained their traditional rivals, Varsity. The Tricolour looked like winners for the first half, to the delight of the large home crowd. A touchdown pass, Lenard to McKelvey, gave Queen's a 5-1 lead, but in the second half, the Blue and White heavyweights started to tear the lighter

Queen's line to pieces. The game ended with Varsity on top 23-6.

On October 25 and November 1, Queen's played Western, first in London and then in Kingston. In the first encounter they were defeated 52-3 and in the second, 32-0. Both were much closer than the score would indicate. The Tricolour elected to play a wide open game against the Purple and White, Intercollegiate champions since 1939, but they just could not cope with the skill and speed of their opponents. To add salt to the wound, five of Western's touchdowns were scored by a former Queen's player, Jack Parry.

In London, Queen's made yards sixteen times and on one drive carried the ball to the two-yard line, but something went wrong on the touchdown play. The three points came from a placement kick

CAPTAIN AL LENARD

by Lenard. At Kingston, the Tricolour made their best showing in the second half, and did not deserve to be shut out of the scoring.

An alumnus who saw the London debacle wrote down to the University: "While Queen's was soundly beaten, I came out of the Stadium with my head much higher than it was during the season of 1946. The current edition of the Queen's team showed an excellent spirit and gave a good account of themselves, offensively and defensively, until the sheer power of the Western reserve strength literally steam-rolled the injury-riddled Queen's team . . . Several years' continuance of the improvement shown this year over last will once again result in Queen's occupying its rightful position as a worthy contender in senior Intercollegiate athletics."

There is no question that injuries did hurt the Tricolour's chances. In the first game Jim Charters was knocked *hors de combat* and while he got back in before the season was over he was not as effective as usual. In the second play of the Varsity game, Dave Rozumniak, the team's spark-plug, was carried off with a twisted knee and was lost for the season. Charters and "Rozy" were the two best defensive players Queen's possessed and

they were sadly missed. Many others received lesser injuries that cost the team their services for varying periods.

The two Queen's intermediate teams, one in the O.R.F.U. coached by "Jake" Edwards, and the other in the Intermediate Intercollegiate coached by Dr. Jack Milliken, made a good showing and produced half a dozen good prospects for next year's senior squad. At the time of writing the O.R.F.U. team is still in the running for group honours.

### Hockey

GENERALLY recognized as one of the best hockey coaches in the business, Gene Chouinard of Perth has been appointed head coach at Queen's.

Chouinard ended his active hockey career about ten years ago after seeing service with the Cleveland Barons and other professional league clubs. He first came into the coaching limelight when he guided the Perth Blue Wings to the Eastern Canadian Memorial Cup play-downs. Subsequently he led the Ottawa Senators to the championship of the Quebec Senior Hockey League.

A resident of Perth, Ontario, the new coach is commuting to Kingston for the daily practices.

---

### J. W. Conner Appointed Fellow at Princeton University

JOHN WAYNE CONNER, Arts '41, has been appointed Charlotte Elizabeth Procter Fellow in Modern Languages for the year 1947-48 by the faculty of Princeton University. The fellowship has a value of \$1,800.

Mr. Conner entered Queen's with a scholarship in 1937. As an undergraduate he won five scholarships in French and German, and upon graduation with first class honours was awarded the medal in French and a Reuben Wells Leonard Resident Research Fellowship of \$500. In 1942 he received his M.A. in French from Queen's. He is working toward his Ph.D. at the graduate school of Princeton, and prior to winning the Procter Fellowship held a Herbert Montgomery Bergen Fellowship. During the war he served overseas in the Intelligence Service, with the rank of captain.

In centenary celebrations held recently by Utah State University, Mr. Conner's great-grandfather, Dr. Orson Spencer, was listed as the first chancellor of the University of Utah, 1850.

Mrs. Conner is the former Aileen O'Grady, Arts '38.

---

### Examination Schedule Upset

THE Department of Extension is truly perplexed when it is dealing with Constable J. W. Gourley, of the R.C.M.P., who went to Pond Inlet, Baffin Island, N.W.T., in the summer of 1945. Examination papers were sent to him in August, 1945. In November, 1946, he wrote the examinations, with an Anglican missionary presiding—and without having had any exercises corrected. In October, 1947, the Department of Extension received the written examinations.

## Student Activities

### Bands Have New Uniforms

THE newly uniformed Pipe Band is a brave sight, delighting graduates and undergraduates at the intercollegiate football games this year. Kilts and flowing plaids are of brilliant Royal Stuart tartan, worn with white spats, Glengarries and sporrans. Only the doublets have not yet arrived from Scotland—khaki battle dress jackets are worn for these.

Brass band uniforms are still on order, but in the meantime navy blue battle dress, with white belts and anklets, has been adopted. Gold-lined navy blue capes and wedge caps bring standards of appearance in line with those of musician-ship, and the straggling, "orphan" look of previous years has gone for ever.

### Model Parliament Meets

The Queen's Model Parliament—student preference to political clubs on the campus—got off to a good start at its first sitting on October 30. An

estimated 500 students were in Grant Hall when the Liberal party, led by Prime Minister A. A. Beveridge, assumed powers of government. Prof. J. A. Corry was Speaker.

Official opposition was the Labour Progressive Party, led by Don Heap, with secondary and tertiary opposition by the Progressive Conservatives (Ken Binks) and C.C.F. (Ed. McCullough). After an hour and a half of debate, the House upheld a resolution presented by the Liberals, asking that control of radio broadcasting in Canada be returned from the Canadian Broadcasting Commission to private enterprise, with a 98-92 vote. There were 32 members of the Liberals present, 8 L.P.P., 50 Prog. Con., 40 C.C.F. and 80 Independents.

Conducted on traditional lines, at the formal opening a mace preceded Speaker Corry. Two days before the four parties had convened their pre-parliament caucuses at open meetings. Procedure and House rules were set out, and the

PIPE BAND AT THE QUEEN'S - VARSITY GAME

party's stand on the parliamentary issue propounded.

**Student Winner in Sweepstakes**

Students living at the R.M.C. Stone Frigate were agog during the last week of October. One of their number, Don Harper, a Science freshman from Orillia, held a ticket on a favourite in the Irish Sweepstakes. The horse failed to finish in the money, however, and instead of \$100,000, the 23-year-old navy veteran will receive about \$1400.

**"No Smoking" Rescinded**

As a concession to the habits of the modern student, the University this year tolerates smoking in the main halls and basements of all university buildings except the Douglas Library, Nicol Hall and Ontario Hall. It is still prohibited in classrooms.

**Here and There**

The national executive of the National Federation of Canadian University Students met at Queen's October 11 to 13. Queen's was also host to representatives of the eight universities in the English-speaking Central region. John Chance, Queen's committee chairman, was in charge . . . Two Oxford University debaters successfully upheld the negative of the resolution "The working of a modern democracy demands a liberal rather than a vocational education," against Queen's debaters Tony Wand and Jack Pattison . . . A Journal poll declared the average length of coed's skirts to be 14 inches from the floor this year, compared to 17 inches last year . . . Queen's Sunday Hours, interdenominational worship at 3.30 Sunday afternoon twice a month, are being conducted by Padre Laverty. Mr. Laverty is also conducting morning services twice a month at R.M.C. for resident Queen's students and the staff of R. M. C. . . . New year presidents include: Arts '49, Don Hedley; Sc. '49, Frank Macintyre . . . *The Commerceman*, semi-annual magazine of the Commerce Club, is entering its third year. Subscriptions to this business commentary are \$1 . . . Andy Kniewasser was elected senior A.M.S. Arts representative, replacing Ted White, who resigned this fall.

**CANVASS REVEALS  
RELIGIOUS AFFILIATION**

STUDENTS registering this fall were asked to indicate their religious affiliation. Of the 3,193 students enrolled, 2,836 answered as follows:

United .....	1124
Anglican .....	702
Presbyterian .....	406
Catholic .....	354
Baptist .....	87
Jewish .....	81
Lutheran .....	20
Christian Science .....	18
Bethel Congregational .....	14
Greek Orthodox .....	13
Holiness Movement .....	4
Miscellaneous .....	13
<hr/>	
Total .....	2836

**Veteran of Two Wars  
In Attendance as Student**

STUDENTS who are also war veterans are the rule rather than the exception these days. But there is only one student at Queen's—and probably in all Canada—who is a veteran of two world wars.

He is E. A. (Archie) Huestis, Sc. '51, a forty-nine-year-old veteran of World War I and World War II. This fall he enrolled as a Science freshman at Queen's after a thirty-one year interruption in his education.

Mr. Huestis received his junior matriculation from Jarvis Collegiate in Toronto in 1916, and immediately enlisted in the Royal Navy. He served the remainder of World War I as a wireless operator with the rank of senior warrant officer. Upon discharge he entered the insurance business and continued in this occupation until the outbreak of World War II, when he joined the Signal Corps.

After training at Vimy Barracks in Kingston, Mr. Huestis was posted to Ottawa, where he served at the directorate of the R.C.C.S., with the rank of captain.

Out of the service again, Mr. Huestis attended a rehabilitation school in Hamilton and on seven matriculation subjects obtained seven firsts. Now he is continuing his chosen profession of metallurgical engineering.

# At the Branches

## Ottawa

APPROXIMATELY eighty couples turned out for the dinner dance held at the Copacabana Club on October 30. The president, J. L. Shearer, Sc. '28, acted as chairman.

In his remarks, Mr. Shearer welcomed the guests and gave an outline of the events planned for the coming year. The support of all alumni was requested.

N. B. MacRostie, Sc. '11, Arts '14, past president of the General Alumni Association, presented an interesting report of the year's activities. He pointed out that the Association has completed twenty-one years of service on behalf of the alumni and the University and could look back on its record with pride.

As chairman of the membership committee, Dr. Wallace Troup, Med. '24, past president of the Ottawa branch, announced that an all-out drive for members had been started. He asked for the co-operation of all in making the campaign a success.

H. J. Hamilton, secretary-treasurer of the General Alumni Association, spoke briefly, telling of recent developments at the University and of some of the plans for the future.

The meeting was led in the rendition of a Queen's yell in and in *Queen's Col-*

*lege Colours* by K. E. Lachance, Sc. '47, and M. L. Narraway, Sc. '47.

J. H. Latimer, Arts '40, was the winner of the door prize. The remainder of the evening was spent in dancing.

The committee in charge of this highly successful event was headed by H. I. Marshall, Sc. '41.

## Montreal

SATURDAY, October 11, the Montreal branch held its first postwar football "Fan Dance" celebrating the tied score (13-13) but moral victory of the Tricolour team over McGill that afternoon. Al McGowan's orchestra supplied music for the function, which was held in the Main Ballroom of the Mount Royal Hotel from nine until one. Refreshments were available in the adjoining Brittany Room.

Highlights of the evening were the introduction and congratulation of Coach Bob Elliott and his team, and a short welcoming address by Camilien Houde, Mayor of the City of Montreal. Claude Root, Arts '19, was the master of ceremonies.

A large crowd was in attendance and the branch hopes to resume the prewar practice of holding this affair annually on the occasion of the Queen's-McGill

OTTAWA HEAD TABLE GUESTS SING "OIL THIGH"

Left to right: G. C. Monture, Mrs. P. E. H. Brady, Dr. L. D. Wilson, Mrs. G. C. Monture, A. E. MacRae, Mrs. J. L. Shearer, Dr. W. Troup, Mrs. N. B. MacRostie, H. J. Hamilton, J. L. Shearer, Mrs. W. Troup, N. B. MacRostie, A. E. MacRae, P. E. H. Brady, Phyllis Wilson, Mrs. L. D. Wilson.

game in Montreal. W. C. Smith, Sc. '46, headed the dance committee.

### Montreal Alumnae

THE executive of the Montreal Alumnae branch entertained members at a tea held at the home of Mrs. W. J. Hyde (Elizabeth Farrell), Arts '17. Receiving with Mrs. Hyde was the president, Mrs. D. B. Thomas (Roberta McLean), Arts '20. Autumn flowers and candles in tricolour were used as decorations.

Mrs. A. P. Blackburn (Eileen Campbell), Arts '20, and Mrs. J. U. MacEwan (Eleanor Smith), Arts '22, presided over the tea table for the first hour, followed by Mrs. A. C. Ander (Margaret Taylor), Arts '26, and Mrs. J. C. Grant (Beatrice Craig), Arts '12.

Recent graduates welcomed as new members were Mrs. J. E. Conner (Lucette Hansen), Arts '45, and the Misses Anne Paynter, Arts '47, Jane Macpherson, Arts '46, Aubra Thomas, Arts '47, Ruth Mendel, Arts '47, and Betty and Hope Ross, Arts '47.

### Kingston Alumnae

DEAN A. VIBERT DOUGLAS, president of the International Federation of University Women, was the guest speaker at the October meeting of the Kingston Branch of the Queen's Alumnae Association. She gave a short address on founders and prominent women in the I.F.U.W.

A Queen's quiz, conducted by Mrs. H. J. Herbst (Gwen Morton), Arts '43, was won by Mrs. H. W. Harkness (Maude Brownlee), Arts '13, and Miss Eleanor Smith, Arts '46. Miss Jean Tweddell, Arts '13, directed a paper-hat-making contest, which was won by Miss Jean Royce, Arts '30, and Miss Eleanor Tett, Arts '28. Light refreshments were served under the convenership of Miss Jean Richardson, Arts '35.

Miss May Chown, Arts '11, president of the branch, conducted the business meeting, at which Miss Caroline Mitchell, Arts '26, read the minutes and Mrs. Hedley Cross (Frances Flynn), Arts '38, gave the treasurer's report. Mrs. Alan Meiklejohn (Jean Ramsey), Arts '30,

gave a report of the Convocation tea. Mrs. Reginald Jackson (Clara Farrell), Arts '24; Miss Helen Ireland, Arts '29, and Miss Tweddell were named the committee in charge of sales of the Queen's Engagement Calendars, proceeds going to the Ban Righ Building Fund.

### Kingston

PROF. JAMES A. ROY of the English Department gave an illustrated lecture on "Czechoslovakia" at the smoker held at the North Plant Cafeteria of the Aluminum Company on October 31. The president, Ian MacLachlan, Sc. '25, Arts '26, was in the chair.

In his address, Professor Roy gave an outline of the history of Czechoslovakia and a resume of conditions there today. He told in most interesting fashion of the pressure brought to bear on this country to enter the Communist fold. The speaker was thanked on behalf of the meeting by A. C. Hanley, Sc. '18, past president of the General Alumni Association.

Presentation of the Kingston golf shields was made by W. P. R. Holdcroft, Arts '21, Sc. '23, to Mr. MacLachlan as low net winner and to Dr. John Milliken, Med. '47, as gross score winner.

The programme was brought to a close with the serving of refreshments. The convener in charge of this event was D. L. Rigsby, Sc. '40.

## Births

**Alton**—On September 27, at the Hotel Dieu Hospital, Kingston, to Major William Alton, Sc. '38, and Mrs. Alton, a daughter.

**Byrne**—At the Hotel Dieu Hospital, Kingston, on October 2, to Major J. M. Byrne and Mrs. Byrne (Mary Hudgin), Arts '33, a son.

**Chaput**—On October 4, at St. Catharines, Ont., to Hector Chaput, Sc. '41, and Mrs. Chaput, a son.

**Chipman**—At the Ottawa Civic Hospital, on November 4, to W. P. Chipman, Arts '46, and Mrs. Chipman, a son.

**Chisholm**—At the Ottawa Civic Hospital, on September 22, to J. R. Chisholm, Arts '38, and Mrs. Chisholm, a son.

**Cohen**—At the Kingston General Hospital, on October 14, to H. A. Cohen, Arts '28, Sc. '30, and Mrs. Cohen, a daughter (Annabel Joan).

**Crowther**—On November 12, at the General Hospital, St. Catharines, Ont., to Mr. Ralph F. Crowther and Mrs. Crowther (Betty Clarke Palmer), Arts '44, a daughter (Elizabeth Anne).

**Dixon**—On October 14, to W. H. Dixon, Arts '37, and Mrs. Dixon, of Niagara Falls, Ont., a son (James William).

**Delve**—At the Kingston General Hospital, on September 26, to Rev. S. A. R. Delve, Arts '34, Theol. '41, and Mrs. Delve, a daughter (Janet Elizabeth).

**Eaman**—At the Radcliffe Hospital, Oxford, England, on October 7, to Lt.-Col. J. H. Eaman, Sc. '29, and Mrs. Eaman, a daughter (Elizabeth Anne).

**Ewart**—At Mount Hamilton Hospital, Hamilton, Ont., on September 27, to Dr. H. T. Ewart, Arts '26, Med. '35, and Mrs. Ewart, a son (Robert Mansfield).

**Frank**—At the General Hospital, Brockville, Ont., on October 10, to Dr. H. F. Frank, Med. '35, and Mrs. Frank, a son.

**Habib**—At Wellesley Hospital, Toronto, on October 22, to Samuel Habib, Arts '42 and Mrs. Habib, a daughter.

**Hawkins**—At the Ottawa Civic Hospital, on November 5, to T. H. Hawkins, Com. '29, and Mrs. Hawkins, a daughter.

**James**—On September 20, at the Montreal General Hospital, to F. E. James, Sc. '31, and Mrs. James, a daughter.

**Keating**—On October 3, at the Memorial Hospital, Noranda, Que., to Dr. Bernard J. Keating and Mrs. Keating (Pauline Jackson), Arts '42, a daughter.

**Leishman**—On September 26, at the Women's College Hospital, Toronto, to M. A. Leishman, Sc. '35, and Mrs. Leishman (Laura Doherty), Arts '33, a son (Colin James Gordon).

**Matheson**—On November 15, at the Toronto General Hospital, to John Ross Matheson, Arts '40, and Mrs. Matheson, a son (Alexander Duncan).

**Miller**—On October 1, at the General Hospital, St. Catharines, Ont., to Frederick

L. Miller, Arts '38, and Mrs. Miller, a son (Lawrence Edmund).

**Montgomery**—On October 2, at St. Mary's Hospital, Kitchener, Ont., to Dr. Donald Montgomery, Med. '45, and Mrs. Montgomery, a daughter.

**Murphy**—At St. Joseph's Hospital, Toronto, on October 2, to Dr. Harry A. L. Murphy, Med. '38, and Mrs. Murphy, a son.

**Occomore**—On August 5, at Mount Hamilton Hospital, Hamilton, Ont., to H. E. Occomore, Arts '41, and Mrs. Occomore, a son (Walter Harry).

**Ogilvie**—At the Ottawa Civic Hospital, on October 18, to W. P. Ogilvie, Sc. '46, and Mrs. Ogilvie, a daughter (Wendy Marion).

**Reid**—At the Kingston General Hospital, on August 14, to J. W. Reid, Arts '39, and Mrs. Reid, a daughter.

**Seldon**—At York County Hospital, Newmarket, Ont., on September 17, to Capt. J. M. Seldon, Sc. '42, and Mrs. Seldon, a daughter (Valerie Anne).

**Smallman**—At the Winnipeg General Hospital, on October 17, to Dr. Beverley N. Smallman, Arts '36, and Mrs. Smallman, a daughter (Sylvia Gail).

**Speer**—On October 16, in Kingston, to George A. Speer, Sc. '48, and Mrs. Speer, a son.

**Sterne**—At the General Hospital, Brantford, Ont., to F. E. Sterne, Sc. '46, and Mrs. Sterne, a daughter (Sharon Lee).

**Stevens**—On October 6, at Grace Hospital, Ottawa, to William H. Stevens, Sc. '40, and Mrs. Stevens (Mary Baker), Arts '40, a son.

**Taylor**—At the Toronto Western Hospital, on October 7, to Clive G. Taylor, Sc. '46, and Mrs. Taylor, a son (Harry Clive).

**Thomas**—At the Ottawa Civic Hospital, on October 9, to J. Edwin A. Thomas, Sc. '42, and Mrs. Thomas, a daughter (Judith Helen).

**Treen**—At the Private Patients' Pavilion, Toronto General Hospital, to Robert E. Treen, Sc. '39, and Mrs. Treen, a son.

**Tupling**—At the Private Patients' Pavilion, Toronto General Hospital, on September 24, to W. H. Tupling, Com. '38, and Mrs. Tupling, a son (Geoffrey William).

**Van Sickle**—At the Toronto Western Hospital, on September 28, to Mr. W. A. Van Sickle and Mrs. Van Sickle (Jean Miller), Arts '34, a daughter (Heather Jean).

**Vipond**—On November 2, at Stourbridge, Worcestershire, England, to Dr. C. H. Vipond, Med. '44, and Mrs. Vipond, a daughter.

**Waterbury**—On September 19, at the Private Patients' Pavilion, Toronto General Hospital, to William R. Waterbury, Arts '45, and Mrs. Waterbury, a daughter (Deborah Arden).

## Gift Books

□ □ □

### MUSIC AT THE CLOSE

By Edward A. McCourt. Joint winner of The Ryerson Fiction Award. A dramatic story of the Canadian West, early in the Twentieth Century. \$2.75.

### JUDGMENT GLEN

By Will R. Bird. Joint winner of The Ryerson Fiction Award. Like *Here Stays Good Yorkshire*, this is a magnificent story of Yorkshire settlers in Nova Scotia. \$3.00.

### THE NEW NORTH IN PICTURES

Edited by Clifford Wilson. This is probably the most beautiful Canadian book of the year. With 260 handsome illustrations. \$5.00.

### WORLD SECURITY BY CONFERENCE: IS IT POSSIBLE?

By W. A. Riddell. Canada's most experienced diplomat here describes and appraises events in the history of the League of Nations in the light of the establishment of the United Nations. \$4.00.

### ESKIMO SUMMER

By Douglas Leechman. A fascinating account of an archaeological expedition to Hudson's Bay and of the Eskimo family who looked after the author. \$2.50.

### KINGS IN EXILE

By Sir Charles G. D. Roberts. Some of the best animal stories ever written. A book to thrill every boy and girl you know. \$2.50.

THE RYERSON PRESS  
TORONTO

**Jack**—On October 11, in First United Church, Hamilton, Ont., Lieut. Nursing Sister Esther Vourneen Bagshaw to Capt. Peter Ralph Jack, R.C.E., Arts '41. The ceremony was performed by Hon. Major John Foote, V.C., Arts '33.

**Judge - Brown**—In Scotland, Ont., on September 13, Margaret R. Brown, Arts '47, to Gordon A. Judge, Med. '50, son of Albert E. Judge, Arts '15, and Mrs. Judge, of Burford, Ont. The attendants were Helen Brown, Arts '42, sister of the bride, and Dorothy Gibson, Arts '47. Percy Gladdy, Med. '50, was an usher.

**Merriman - Sully**—In St. James United Church, Ottawa, on October 4, Emily Hope Sully, N.Sc. '48, daughter of Dr. N. C. Sully, Med. '22, and Mrs. Sully, Ottawa, to Dr. John Edward Merriman, Med. '48. Among the attendants were Beverly Sully, N.Sc. '49, and Catharine Merriman, Arts '51. Robert W. Cornett, Med. '52, and P. T. Nash, Sc. '45, were ushers.

**Morton**—In Glenview Church, Toronto, early in October, Dorothy Kathleen Fisher to David Frank Morton, Sc. '40.

**Paynter**—In St. Mary's Cathedral, Kingston, on October 11, Carmel Helen Kane, to Austin William Paynter, Arts '48, son of F. W. Paynter, Arts '16, and Mrs. Paynter (Eva Cumming), Arts '14, Montreal.

**Prince - Woodward**—In Morgan Memorial Chapel, Queen's University, on September 23, Ellen Woodward, Arts '48, to Ewart A. Prince, Arts '47, son of Mrs. Prince and the late Prof. Prince. They are living in Toronto where Mr. Prince is doing post-graduate work and acting as assistant in the department of political economy at the University of Toronto. Mrs. Prince is on the staff at the Banting Institute.

**Robertson**—On October 25, in the Hespeler Baptist Church, Hespeler, Ont., Isabel E. Greutzner to Donald Peter Robertson, Arts '40, of Copper Cliff, Ont.

**Ross**—In First St. Andrew's Church, London, Ont., in October, Mary Isabel Dewar to Charles Bruce Ross, Sc. '47.

**Stock**—At Hillstead Farm, Woodstock, Ont., on October 4, Mary Louise Stock, Arts '43, to Andrew Lawrence Sanders. They will live in St. Thomas, Ont. Helen Stock, Arts '47, sister of the bride, was bridesmaid.

**Wilson**—On October 18, in Dominion United Church, Ottawa, Adeline Mae Graham to Hugh William Wilson, Sc. '45.

**Walker**—On October 11, in St. John's Church, Prescott, Ont., Katharine Elizabeth Caldwell to James Cowan Walker, Arts '43, Toronto.

### Deaths

**Bole**—While staying at his summer cottage at Birch Point, Balsam Lake, Cecil L. Bole, Arts '27, died suddenly on September 8. Mr. Bole was born in Woodville, Ontario, and matriculated from Orillia Collegiate Institute. He studied extramurally and in 1927 received a B.A. degree

with honours from Queen's, as well as a specialist's certificate. He taught first at Woodstock, then moved to Ingersoll, Ontario, where he was English and history specialist on the staff of the collegiate institute. In 1930 he assumed the principalship, a position he retained until poor health compelled him to relinquish it four years ago.

**Connell**—Dean of Medicine at Queen's for twenty-six years, until his retirement in 1929, Dr. James C. Connell, Arts '84, Med. '88, LL.D. '30, died at his home in Kingston on October 5. Dr. Connell was also acting principal for a short period between the resignation of Principal Taylor and the arrival of Principal Fyfe. Born at Ayr, Ontario, in 1863, the former dean graduated from Dundas Collegiate Institute, and enrolled in the Arts Faculty at Queen's at the age of seventeen. In 1884 he received a B.A. degree and a year later an M.A. degree. In 1888 he graduated with M.D., C.M. degrees. After post-graduate work in New York City he returned to Kingston and set up practice as the first eye, ear, nose and throat specialist in the district. He also headed this department in the Medical Faculty. In 1903, a comparatively young man for the position, he was appointed Dean of Medicine. During World War I Dr. Connell was instrumental in forming No. 5 Stationary Hospital Unit, which later became No. 7 General Hospital Unit and served in Egypt and France. After the War, when the question arose whether the Medical Faculty should remain in Kingston or be moved to Ottawa, Dr. Connell was in large measure responsible for its remaining in Kingston. In the period 1920-25 Dr. Connell was chairman of the building committee of the Kingston General Hospital, and it was under his vigorous leadership that the hospital was remodelled and the Douglas block and isolation wing built. He retired as Dean in 1929 but continued to practise medicine for a few years. In 1930 Queen's bestowed an honorary degree upon him. Dr. Connell is survived by a son, Dr. C. H. C. Connell, Arts '15, Med. '18, three grandchildren and one great-grandchild.

**Dick**—Retired physician and surgeon, Dr. Robert Andrew Dick, Med. '11, died on October 25 in hospital in Vancouver, British Columbia. Dr. Dick was born in Bolton, Ontario, and received his preliminary education at Bolton Continuation School. He entered the Medical Faculty at Queen's in 1907, with a University of Toronto matriculation, and in 1911 received his M.D. degree. For a short time after graduation he practised in northern Ontario with the Canadian National Railways. In 1913 he moved to Canora, Saskatchewan, and set up a practice there which he maintained until his retirement in 1944. He was an active member of A.F. and A.M. Surviving are his wife, a daughter, a son, a brother and a step-sister.

## HARNESS for CANADA'S WHITE HORSES

In water power development, from the erection of the cofferdam to the flow of water through giant turbines, and wherever power is generated through some other sources of energy, Crane valves, fittings and fabricated pipe are indispensable.

Crane makes 30,000 or more types of industrial valves and fittings in a wide variety of metal alloys to convey and control the flow of water, gas, oil, air, steam and chemicals for pulp and paper mills, railways, steamships, oil refineries and other Canadian industries. It keeps pace with the constantly more exacting demands of technological advance.

**ENGINEERING STUDENTS:** You will find Crane technical literature helpful in your studies. It is yours for the asking.

**Fisher**—An extramural graduate of Queen's, Simeon Whidden Fisher, Arts '22, of Ladner, British Columbia, died in the Vancouver General Hospital on October 27. Mr. Fisher was born in Toronto, and graduated in pharmacy from the University of Toronto before enrolling for extramural classes at Queen's in 1908. He received a Bachelor of Arts degree in 1922. Two daughters, two sisters and a brother survive.

**Glover**—The death of Thomas James Glover, Arts '94, Theol. '96, occurred at his home in Camden East, Ontario, on September 28. Mr. Glover was born at Camden East and educated at Newburgh and Napanee schools. He left school at an early age to work his father's farm, but following an injury to his right hand, which handicapped him for farm work, he returned to school as a young man. For several years before enrolling at Queen's he taught school. In 1894 he received a B.A. degree, and the following year he was enrolled in Theology. Upon the advice of Principal Grant, whose intimate friend he was, Mr. Glover founded Hillcroft Academy in 1899. Although the school was a success, he decided to give up teaching a few years later and turned to the study of law. He practised this profession in Toronto for some years. Mr. Glover was one of the pioneer settlers in what is now Forest Hill Village. Two years ago he returned to the Kingston district to be near his relatives.

**Hadden**—Albert Thompson Hadden, Arts '05, died at his home in Vancouver, British Columbia, on Sunday, September 21. Mr. Hadden was born at Foxmead, Ontario, in 1880, and graduated from the high school at Markham, Ontario. He entered the Arts Faculty in 1901, and in 1905 received a Bachelor of Arts degree. He is survived by his wife, a brother and a sister.

**Johnston**—Following several months' illness, P. Keith Johnston, Sc. '10, died on July 22 of bronchial pneumonia at a sanitarium in Loma Linda, California. Mr. Johnston was born at St. Claire, Michigan, in 1888, and was living in Cleveland, Ohio, when he enrolled in the Science Faculty in 1906. In 1910 he received a B.Sc. degree in civil engineering. For a number of years prior to his death, Mr. Johnston had been engaged in flood control work for Los Angeles County. He is survived by his father, J. R. Johnston, of Upland, California.

**Johnston**—Samuel Holden (Bud) Johnston, Sc. '40, Arts '41, died at Sunnybrook Military Hospital, Toronto, on September 25 after a long illness. He was thirty-one years of age. During his years at Queen's he was well known as an athlete, playing football with the senior team and starring on the track. Mr. Johnston was born at Assiniboia, Saskatchewan. He graduated from Belleville Collegiate Institute, Belleville, Ontario, and enrolled in the Science Faculty at Queen's in 1936. The following

year he transferred to Arts, and studied in that faculty until 1941, when he entered the Royal Canadian Air Force. For two years he was an instructor at Camp Borden with the rank of Flying Officer. In 1943 he went overseas, and for a year and a half flew displaced persons out of France, Germany, Belgium and Norway. After his discharge in 1945, Mr. Johnston went to Belleville to be director of athletics at the Y.M.C.A. Some months later, owing to ill health, he resigned and entered Sunnybrook Hospital. He is survived by his wife, two sons, his mother and a sister.

**King**—A retired school teacher, William Wallace King, Arts '95, died on September 17 while on vacation at Randolph, Vermont. Mr. King was born in Kingston seventy-four years ago, and graduated from the Kingston Collegiate Institute. He entered the Arts Faculty in 1891 and in 1895 received an M.A. degree in Latin and Greek. Prior to his retirement he was teaching in Newark, New Jersey. John H. King, Sc. '25, of Valley Stream, N.Y., is a son.

**McClenahan**—Dr. William Hugh McClenahan, Med. '44, was drowned in Constance Bay, on the Ottawa River, on October 5. He had been visiting in the district, about thirty miles north-west of Ottawa. Dr. McClenahan was born in 1920 and received his preliminary education at Glebe Collegiate in Ottawa, where he won collegiate honours in pole-vaulting. After graduating in medicine from Queen's, he interned at the Ottawa Civic Hospital, and then was in practice with his father-in-law, Dr. J. J. McKendry, Arts '13, Med. '14. He was to have started a practice of his own in Russell, Ontario, this winter. Surviving are his wife, a three-months-old son, John, his parents and a brother.

**Purvis**—Retired minister of the Presbyterian Church in Canada, Rev. William Walter Purvis, Arts '99, Theol. '02, died November 8 at his home in Mallorytown, Ontario. He had suffered a stroke the previous week. Mr. Purvis was born in Bruce County in 1870 and graduated from Athens High School. He entered the Arts Faculty at Queen's in 1895, and in 1899 received a Bachelor of Arts degree, and also a theology scholarship. He enrolled in the Theological College and in 1902 received his testamur. After ordination he was appointed to Bristol, Quebec, and then he served the church for a number of years in Saskatchewan. A throat ailment developed while he was out west which caused his retirement from the active ministry, and he returned to Ontario and took up farming. Mrs. Purvis was the former Annie McCrimmon, Arts '02. She predeceased him in 1927. Surviving are three sons and a daughter, including Dr. W. M. Purvis, Med. '33, and J. M. Purvis, Arts '40.

**Trousdale**—For the past thirty-seven years a medical practitioner in Vancouver, British Columbia, Dr. Frederick Harry Trousdale, Med. '07, died suddenly on

October 13. He was sixty-six years of age. Dr. Trousdale was born at Hartingdon, Ontario. He entered the Medical Faculty in 1903, and received the Faculty prize at the end of his second year. In 1907 he received M.D. and C.M. degrees. Of recent years he had taken a keen interest in lawn bowling, and was well known in Vancouver lawn bowling circles. He is survived by his wife, two sons, a daughter and two brothers.

**Van Luven** — Mrs. Otto Van Luven (Lillian Ethel Tolland), Arts '14, died on October 12 at the Kingston General Hospital, Kingston, Ontario. Mrs. Van Luven was born at Washburn, Ontario, and received her early education at Sydenham and Kingston. She enrolled in the Faculty of Arts at Queen's in 1910 and attended one year. After her marriage to Dr. Van Luven. Med. '15, she lived in Consecon, Hamilton, and Ottawa, the latter while her husband was serving in the armed forces during World War II. For the past two years she had been residing in Kingston, where she belonged to the I.O.D.E., the Cataraqui Golf and Country Club and the Kingston Curling Club. In addition to her husband, Mrs. Van Luven is survived by a sister and five brothers.

## Notes

1890 - 1899

**Rev. William McDonald**, Arts '99, Theol. '01, has retired from the active ministry of the United Church of Canada. He is living at 39 Dennistoun Ave., Peterborough, Ont.

1900 - 1909

**Dr. W. H. Ballantyne**, Med. '06, district administrator for the Department of Veterans' Affairs, Ottawa, has begun a six months retirement leave after many years of service with the Department.

**Dr. N. L. Bowen**, Arts '07, Sc. '09, LL.D. '41 (Ph.D. M.I.T.; D.Sc. Harvard), has been appointed an Honorary Member of the Finnish Academy of Sciences.

1910 - 1919

**John Buss**, Sc. '19, is assistant general manager of the Provincial Paper Company, Limited, Toronto.

**A. R. Lord**, Arts '10, principal of the Vancouver Normal School, was elected

president of the Canadian Education Association at the recent meeting held in Quebec City. **J. G. Althouse**, LL.D. '44, chief director of Education for Ontario, was elected vice-president. Among the directors were **Dr. C. C. Goldring**, Arts '18, Director of Education for the Board of Education, Toronto, and **Dr. R. O. MacFarlane**, Arts '24, Deputy Minister of Education for Manitoba.

**Rev. Kenneth Taylor**, Arts '17 and '20, recently appointed principal of the Anglican Theological College at the University of British Columbia, has been granted the honorary degree of D.D. by Huron College, London.

**Rev. Gladstone Wood**, Arts '19, Theol. '23, is minister of Riverside United Church, Windsor, Ont.

1920 - 1929

**Dr. Stanley A. Beatty**, Arts '25, Halifax, was bereaved recently by the sudden death of his eighteen-year-old son.

**Dr. H. T. Ewart**, Arts '26, Med. '35, has been appointed superintendent of the Mountain Sanatorium in Hamilton, Ont., in succession to the late **Dr. C. H. Playfair**, Med. '24.

**Lt.-Col. L. F. Grant**, Sc. '26, president of the Engineering Institute of Canada, has been awarded the honorary degree of Doctor of Science by Laval University.

**Prof. Edmund MacDonald**, Arts '24, is in the Department of Philosophy at the University of British Columbia.

Carl D. Hanniwell, Arts '28, has been in the general insurance business in Niagara Falls, Ont., since his graduation. He was mayor of the city in 1938-1939, and since 1945 has been M.P.P. for Niagara Falls Riding.

Dr. Ernest Hess, Arts '25, has resigned as chief bacteriologist of the Atlantic Fisheries Experimental Station, Halifax. After twenty-two years' service with the Fisheries Research Board of Canada he has been appointed as Director of the Fish Inspection Laboratory of the Federal Department of Fisheries at Halifax.

Dr. J. K. Pomeroy, Med. '22, Lemberg, Sask., was bereaved by the death of his wife on August 27. Mrs. Pomeroy was a sister of Rev. J. L. Rose, Arts '16, Theol. '20. She is also survived by four sons.

Donald G. Robertson, Sc. '23, Kingston, was bereaved by the death of his father, Mr. Herbert N. Robertson, on October 11.

H. A. Scott, Arts '22, of the Department of External Affairs, Ottawa, and at present commercial counsellor of the Canadian Embassy in Washington, has been named head of the new Canadian Consulate in San Francisco.

Mrs. Ashley J. Smith (Fannie Horne), Arts '22, has moved from Fredericton to Saint John, N.B., where her address is 21 Mount Pleasant Court.

Dr. Arthur T. Williamson, Arts '27 (Ph.D. Princeton), has now returned to Canada after fourteen years in England. He is living in St. Hilaire, Que. Before his return Dr. Williamson was with Imperial Chemical Industries and within the past year had been elected to the Fellowship of the Royal Institute of Chemistry. He is now with the Central Laboratory of Canadian Industries Limited in McMasterville, Que.

#### 1930 - 1939

Dr. D. O. Ferris, Med. '31, was recently appointed assistant professor of surgery at the University of Minnesota.

Dr. H. C. Horwood, Sc. '31 (Ph.D. M.I.T.), has resigned as district geologist for North Western Ontario and returned to the head office of the Ontario Department of Mines to resume his former position as geologist for the department.

Dr. J. H. G. Preston, Med. '35, recently moved to Victoria, B.C., where his address is Health Centre, 750 Pandora Ave. Dr. Preston was overseas with the R.A.F. and later the R.C.A.F. in Egypt, Libya and Greece, and on his return to Canada took a postgraduate course in public health at the University of Toronto.

Dr. J. P. Pritchett, Ph.D. '31, professor and chairman of the Department of History, Queen's College of the City of New York, has just published a "History of the United States." Associated with Dr. Pritchett in the writing of this volume is Dr. John Meng. Dr. Pritchett spent part of the past academic year in Germany directing an educational programme under the auspices of the Catholic Church.

W. J. Seely, Arts '37, teaches at the high school in Saint John, N.B.

J. H. Stevenson, Com. '38, formerly a director in the prices division of the War-time Prices and Trade Board, Ottawa, is now in the financial division of the United States Gypsum Company, Chicago.

G. L. Williams, Sc. '31, is general manager of the Alberta Salt Company, Edmonton.

#### 1940 - 1947

D. F. Aitkens, Sc. '47, is back at the University this year working towards his M.Sc.

W. R. Anderson, Sc. '47, is with Canadian Industries Limited in the paint and varnish division, Toronto.

Alison Armstrong, Arts '47, is assistant in the zoology department at Vassar College, Poughkeepsie, N.Y., where she is also doing postgraduate work.

N. W. Armstrong, Com. '47, has joined the staff of James Richardson and Sons Limited, Winnipeg, as economist-statistician.

D. R. Beckett, Sc. '45, is design engineer for the Great Lakes Paper Company, Fort William, Ont.

René Béland, Sc. '42, is lecturer in petrology in the faculty of Applied Science at Laval University, Quebec City.

Garry Bowell, Arts '41, recently received his master of business administration degree from the Harvard Business School and has accepted a position with Blodel, Stewart and Wilson, lumber and pulp manufacturers in Vancouver.

Arthur Bradford, Arts '41, received his M.A. in history from the University of Western Ontario at Fall Convocation on October 24. He is now with the Confederation Life Association in London. His residence address is 427 Waterloo Street.

K. B. Carruthers, Arts '41, is an auditor in the Department of Revenue, Vancouver, B.C.

W. N. Cobourn, Com. '42 and '47, is special assistant to the general sales manager of R. L. Crain Limited, Ottawa.

J. E. Conner, Com. '47, has accepted a position in the investment department at the head office of the Montreal Trust Company.

D. M. Cornett, Arts '41 and '47, is in the Department of External Affairs, Ottawa.

J. M. Conway, Sc. '45, is with Gutta Percha and Rubber Limited, Toronto.

Dr. D. H. Dixon, Med. '42, is in general practice at Oakville, Ont.

Dr. J. W. Clark, Med. '41, is assistant resident in surgery at Queen Mary's Hospital in Montreal.

G. C. Cox, Sc. '46, has joined the staff of the Royal Mint, Ottawa.

D. R. Crichton, Sc. '47, is with the Canadian Johns-Manville Company, Asbestos, Que.

Dr. Murray M. Fraser, Med. '46, formerly of Bella Bella, B.C., is now in Regina, Sask., with the Medical Arts Clinic.

F. R. Gardner, Sc. '47, is a graduate student at Lehigh University, Bethlehem, Pa.

W. M. Graham, Sc. '40, formerly of Asbestos, Que., is now on the staff of the E. B. Eddy Company, Hull, Que. He lives at 328 Clemow Ave., Ottawa.

Mrs. R. J. Hamilton (Jeanette Petch), Arts '40, recently moved to Simcoe, Ont., where her husband has become a partner in the legal firm of Osborne and Hamilton.

V. F. Harrison, Sc. '43, has accepted a position with the Radio Active Section of the Department of Mines and Resources, Ottawa.

Bruce Hay, Sc. '40, is with Sao Paulo Tramway Light and Power Company, New Construction Office, Caixa Postal 26-B, Sao Paulo, Brazil.

B. A. Howse, Com. '42, is accountant for the Mountjoy Timber Company, Timmins, Ont.

C. S. J. Lancaster, Com. '47, has joined the staff of the Hamilton Street Railway Company.

H. G. Lawler, Arts '46, is doing post-graduate work at the University of Western Ontario.

W. C. M. Luscombe, Sc. '41, of Dominion Textile Company, has been transferred from Magog, Que., to the head office of the firm in Montreal.

Donald G. MacArthur, Com. '47, has joined the staff of James R. Richardson and Sons Limited in Calgary.

John McCarthy, Arts '43, has been appointed an inspector of public schools by the Ontario Department of Education. He

is at present relieving Norman Campbell, Arts '22, public school inspector for South Frontenac, who is on sick leave.

J. L. McIntosh, Sc. '40, is with the Nichols Chemical Company, Montreal.

Miss Kay McLean, Arts '46, is completing work towards her M.Sc. degree at the University of Western Ontario. She is assisting in the Research Institute of Endocrinology under Dr. Collip.

A. A. Merkley, Sc. '47, is with Richards-Wilcox Canadian Company, London, Ont.

Dr. J. W. Pearce, Med. '47, is interning at Victoria Hospital, London, Ont.

John E. Nelson, Sc. '46, is sales engineer for the Canadian Ingersoll Rand Company in Kirkland Lake, Ont.

H. A. Quinn, Sc. '41, is now with Consolidated Mines (West Africa) Limited, Minna, Nigeria.

F. R. Remus, Sc. '41, is taking a course in business administration at the University of Western Ontario, London.

Dr. R. L. Reeves, Med. '40, has been appointed Coroner for Renfrew and the surrounding district.

W. J. Robinson, Sc. '47, has joined the staff of Hans Lundberg, geologist and geophysicist, Toronto. He is at present engaged in research on an electromagnetic method for geophysical exploration.

W. A. Rogers, Sc. '47, is with the Canadian International Paper Company, Gatineau, Que.

## THE MARTY MEMORIAL SCHOLARSHIP 1937-1947

By Mary White, Arts '29, Trinity College, Toronto

TEN years ago the Marty Memorial Scholarship was first awarded by the Queen's University Alumnae Association. Although most of the awards have had to be made during war years when scholars were unable to do graduate work overseas, as was the original intention of the foundation, the record of the scholarship is already impressive, and has more than justified the hopes of the Alumnae.

The scholarship was established as a memorial to Dr. Aletta Marty and her sister, Miss Sophie Marty. Dr. Marty was one of the most outstanding of the earlier women graduates of Queen's, a well-known teacher and school inspector.

DR. ALETTA MARTY

She and her sister had been eager that adequate provision be made for the education of women and that well-trained women should take their place in the professions and in community life. This scholarship, which provides opportunities for able women students to pursue graduate work in centres where the best instruction in their fields is available, is therefore a fitting memorial to the ideals they cherished. Its usual value is one thousand dollars and, next to the senior scholarship of the Canadian Federation of University Women, it is one of the most valuable scholarships open to women in Canada. It has already demonstrated its value in preparing women to contribute to academic and professional life.

The awards of the first ten years have set good precedents; the scholarship has

gone to students in a wide variety of fields, in the humanities, the sciences, and the social sciences. In most cases it has helped students at the most difficult period, the initial year in a graduate school, after which they have been able to secure other fellowships or scholarships to finish their courses. It will be evident from the following brief account that the holders of the scholarship are doing an interesting variety of jobs; some have been or are now teaching in schools or universities; some are married and rearing families, in many cases combining this with some writing or professional work; several have held important war-time and post-war posts; others are still finishing their graduate studies.

The first award went to Winnifred Rutledge, M.A. in Classics, in 1937. She went to the University of London to work on Roman History, returned to Canada and attended the Ontario College of Education, after which she taught for several years in secondary schools of the province. She is now married, Mrs. Holland Peterson, and describes herself as a housewife for her husband who is instructing in Spanish at the University of Toronto.

In 1938 the award was made in a widely different field, in mathematics, to Jeanne Le Caine. Miss Le Caine's brilliant record at Queen's was continued at Radcliffe College. She won the senior scholarship of the Canadian Federation of University Women and the Bartol Fellowship from Radcliffe; she received a Ph.D. in 1941, was lecturer in mathematics at Smith College, Northampton, a research physicist with the National Research Council in Ottawa and Montreal during the war, and later professor of mathematics at Cambridge Junior College, Cambridge, Mass. Miss Le

Caine writes of her work on atomic research, "Though there have been moments both then and later when we have felt rather like Frankenstein, it was a great satisfaction to be associated, even in a very minor capacity, with such a large forward step in the advance of knowledge." Articles on mathematical problems have appeared in the *American Journal of Mathematics* and the *Physical Review*; she was the co-author with Dr. P. R. Wallace of *Elementary Approximations in the Theory of Neutron Diffusion*, published by the National Research Council, 1946. Miss Le Caine is now married to T. L. Agnew, assistant Professor of History at Oklahoma A. and M. College, and her interest in history has been broadened by assisting her husband. She is continuing her work in mathematics; an article by her will appear shortly in the *Physical Review*.

The winner of the scholarship in 1939, Elise Berry, planned to do graduate work in English at the University of London; the war, however, intervened and Miss Berry was unable to use the scholarship. She served during the war with the Women's Royal Canadian Naval Service, and is now a specialist in English and French at Stamford Collegiate Institute in Niagara Falls.

In 1940 Anne Sedgewick, the present convener of the Marty Memorial Scholarship Committee, herself held the scholarship. She spent the year at Radcliffe working toward a Ph.D. in history. She completed the necessary course work and residence requirements for the Ph.D. and received an M.A. Miss Sedgewick was awarded the senior scholarship of the C.F.U.W. for the next year and begun work towards a thesis on Canadian-American-British relations during the First World War, but soon felt that she would like to do something connected with war work. She joined the staff of the Wartime Prices and Trade Board in June, 1942, and has made a distinguished contribution in that department as Chief of the Research Division of the Commodity Prices Stabilization Corporation Ltd., the fiscal agent of the Wartime Prices and Trade Board for the payment

of subsidies and the bulk purchasing abroad of commodities in short supply.

In 1941 the scholarship went for the first time to a student in the biological sciences, Eleanor Clarke. Miss Clarke had already demonstrated her ability to do original research by reading two papers to the Canadian Physiological Society, and being elected to membership in it. She continued her work in iodine metabolism at McGill University, received a Banting Research Fellowship the following year, and finished her Ph.D. Miss Clarke acted as research assistant at McGill and the University of Montreal, publishing in all twenty-two studies. Some of her work there was in relation to medical research for war-time use. She is now married to Dr. A. W. Hay, a research worker in physical chemistry, and has a son, born in 1946. Mrs. Hay hopes to do part-time work and to write some non-scientific articles.

Joyce Hemlow, the winner in 1942, had already tasted of the joys and heart-breaks of teaching before she came to Queen's; she was known in her own province of Nova Scotia as a teacher of unusual skill and ability. This flair for teaching has not deserted her. After a brilliant career at Radcliffe where she won two scholarships, the senior scholarship of the C.F.U.W., and several assistantships at Harvard, Miss Hemslow went to McGill. She has been Resident Assistant to the Warden of the Royal Victoria College and lecturer in the department of English for two years, and this year is assistant professor in language and literature.

In 1943 the scholarship returned to mathematics, when Kathleen Butcher, who was at that time finishing her M.A. at Smith College, won it. Miss Butcher went to the University of Michigan to work in algebra, and won two fellowships there as well as the senior scholarship of the C.F.U.W. After the completion of her Ph.D., Miss Butcher was instructor in mathematics at Wellesley College. She was married last summer to G. W. Whitehead, and is instructing in mathematics this winter at Brown University in Providence.

In 1944 Ellen Thibaudeau, a graduate in English, used the scholarship to continue her work in English at Radcliffe College. Miss Thibaudeau has acted as Head Resident for two of the undergraduate residences in Radcliffe: she has received her A.M. and completed the course work for the Ph.D. She reports that she is now engaged on her thesis, a study of Canadian poetry, under the direction of Professor Douglas Bush of Harvard.

The award was made in science in 1945 to Reta Anderson, a graduate in bacteriology, who held an Arts Research Fellowship at Queen's to work under Professor G. B. Reed. Miss Anderson had been senior technician and later demonstrator in bacteriology at Queen's, contributing to the *Journal of War Medicine* and the *Canadian Journal of Research*. She was the first scholar to go to England at the close of the war, and spent a year at the Strangeway's Research Foundation in Cambridge working under Dr. H. B. Fell on tissue culture in relation to the study and cultivation of viruses. Miss Anderson is now employed as a scientist by the Department of National Defence.

In 1946 the scholarship was held by Claire Curtis, now Mrs. Tanner. Miss Curtis was a graduate in biology and chemistry and had done graduate work in botany at the University of Toronto. She went to Iowa State College to study soil conservation, and was able to visit various conservation projects in the State of Iowa. She hopes to continue her work in field ecology with her husband, whose subject is the conservation of wild life.

The present holder of the scholarship is Barbara Rooke, an M.A. in English from Queen's who had been working toward a Ph.D. in the University of Toronto. Miss Rooke spent 1941-5 in the R.C.A.F. (Women's Division), the last two years in England. She has returned to England to the University of London to work on an edition of Coleridge's periodical, *The Friend*. She writes from London that she is busy on the manuscripts in the British Museum and the Royal Victoria and Albert

Museum, and is attempting to get access to manuscripts in private hands.

Ten years is too brief a period to judge results from such a scholarship. The holders are either still completing their graduate studies, or just beginning the work of their maturity. As one scholar said, the crop we are planting must be of slow growth. It is, therefore, to the future we must look for the full fruition of what has been started, though there already has been sufficient evidence of its value. No one who believes in the importance to the community at large of trained minds and enriched experience can doubt the contribution made by this scholarship.

---

### ADMISSION REQUIREMENTS LISTED IN LEAFLET

A LEAFLET that should prove to be most helpful to teachers and others wishing to guide young people preparing for university has been issued this year by the Registrar's Office.

In a simple table the various degrees offered by the University are listed, together with the admission requirements for every course, the length and fees per annum, and some vocational outlets for graduates who receive these degrees. The folder covers all Faculties and all specialized courses offered in each. A list of provincial examinations equivalent to Grade XIII in Ontario is also provided.

Copies may be obtained from the Registrar, Queen's University, Kingston, Ontario.

---

### Armistice Day Service Attended By Large Number

GRANT Hall was filled to overflowing by students and staff who assembled to honour Armistice Day. Classes were called for half an hour.

After singing a hymn and observing two minutes' silence, the students heard a brief talk by Principal Wallace, who urged them to do what they could to make sure war sacrifices had not been made in vain.

Rev. A. M. Laverty, University chaplain, conducted the service, which was concluded by the national anthem.

## DR. JAMES C. CONNELL

An Appreciation by Dr. G. W. Mylks, Med. '97

ON October last there passed away at his home, "Ayer House," Kingston, Dr. J. C. Connell, at the advanced age of eighty-four.

In the early 'eighties, two young men attended a meeting for young people at the Presbyterian Church at Dundas, Ontario. The meeting was addressed by Dr. George M. Grant, then Principal of Queen's University.

One of the young men was so impressed by the Principal's remarks that he decided to come to Queen's for his university education. This young man of Dundas, a youth of eighteen, was James C. Connell. He soon matriculated and was duly entered in the Arts course, from which he graduated as Bachelor of Arts in 1884 and received the Master's degree in 1885. He then registered in Medicine, graduating with the M.D. C.M. degree in 1889.

Interested in the study of diseases of the eye, ear, nose and throat, he took special training for a considerable period at the Manhattan Eye and Ear Hospital, New York City. He then located in Kingston and was at that time the only local practitioner specializing in diseases of the eye, ear, nose and throat. For about forty years he practised his specialty, and was widely known throughout Kingston and district. He was a skilful surgeon and his knowledge and experience placed him in the first rank as operator and consultant.

Soon after location at Kingston he became head of the Department of Eye, Ear, Nose and Throat at the Kingston General Hospital. About the same time he was made Professor in the same subject at the University Medical School. He was an occasional contributor to medical journals on subjects pertaining to his special work.

Dr. Connell was an outstanding teacher in his chosen branch and was most devoted to his students. Many medical graduates of Queen's across Canada and in the United States will remember him as the careful, painstaking, and thorough clinician who

spared no effort to give a good grounding in his subjects.

Outstanding as were his achievements in the clinical field and as a teacher, I think his greatest distinction was discovered to be in the field of University administration. He was elected to be Dean of the Medical Faculty in 1911 and continued in that office for twenty-eight years. He brought into effect many improvements in the academic life of the Faculty and at all times was a staunch advocate for the advancement of teaching and clinical training of Medical students.

He believed that by advancing hospital and laboratory facilities here at Kingston that advantages would accrue which would greatly outweigh any transfer of the clinical division to other centres, a plan that was impressively suggested in the years 1918-1920. Furthermore, it was his belief that the maintenance of a cultural link with the University was something not to be lightly dispensed with.

With these aims in view, and as a most capable Dean, he worked unceasingly towards the development of a new hospital. In this enterprise he was successful beyond the dreams of some of his colleagues who sometimes doubted

DR. J. C. CONNELL

the final accomplishment of so ambitious a programme.

The Kingston General Hospital in 1920 was a comparatively small institution, with a bed capacity of slightly over 100. The new General Hospital before the addition of a Victory Wing had a total bed capacity of about 450 beds. The building scheme which was completed about 1930 included the Douglas Building, new and modern well-lighted operating suites, situated on the top floor. A greatly improved and enlarged X-ray department with the most approved equipment was located on the ground floor of this building. The remaining parts of the Hospital were greatly extended and thoroughly renovated and fireproofed. This refers to the administrative and records departments and to the private room sections. In addition one should enumerate: the newly renovated and altered maternity wing, the Hospital for Sick Children, new buildings for infectious diseases, Nurses' Home and extensions and hospital accessory buildings such as service and laundry and the like.

The transformation thus wrought placed the Kingston General Hospital in Class "A" as a teaching institution and as such it was considered adequate as a clinical centre for Medical students. Dean Connell worked towards the objective of this new Hospital and was the leading financial organizer for the project which was begun in 1920 and finished about 1930 at a cost of one and a quarter million dollars.

Although a busy man in his specialty, he took infinite care in the selection of teachers and joined with other members of the Faculty in the promotion of the best academic standards. He was, as one of his colleagues said of him "truly a real University statesman." This quality brought recognition on the part of the University Trustees some time later.

During an interlude between the departure of one University Principal and the arrival of a successor, a period of several months, Dr. J. C. Connell was made acting Principal. He received an honorary LL.D. from Queen's in 1930.

Early in his career he married Miss Agnes Hendry of Kingston, who predeceased him in 1935. One son, Dr. Hendry C. Connell, of Kingston, survives.

Dr. Connell was a genial and kindly host to many friends and Faculty members at his home and was beloved by a wide circle of University associates and many old patients in the eastern section of Ontario.

Some years ago he was presented with a fine oil portrait. This portrait, the property of Queen's University, hangs in the Board Room of the General Hospital.

It is fitting that we should be thus reminded that within these walls Dr. J. C. Connell laboured and by his brilliant gifts of organization and direction contributed greatly to the realization of one of his fondest dreams—a new and larger General Hospital.

---

### LECTURE SERIES TO OPEN ON JANUARY 19

THE 1948 Monday Evening Popular Lectures, sponsored by the University and open to the general public, will begin on January 19, when Dr. T. E. Jessop, of University College, Hull, England, will be the speaker. Dr. Jessop, who is the first Dunning Trust Lecturer, will also give the second Popular Lecture. The titles of the lectures are: "The Vindication of Freedom" (January 19), and "Freedom and Social Order" (January 26). They are being held in Convocation Hall.

Lectures to be given in February had not been announced at the time the *Review* went to press.

---

### Awarded Fellowship

DR. H. H. J. NESBITT, Arts '36, Ottawa, was recently awarded a fellowship in the Royal Entomological Society of London, England. An Arts graduate of Queen's, Dr. Nesbitt also holds an M.A. and Ph.D. from the University of Toronto. He is now with the Department of Agriculture and is engaged in the stored products and insect investigations.

Dr. Nesbitt was married in 1944 to Miss Betty Clendinnen, Arts '42.

## DR. T. E. JESSOP TO VISIT QUEEN'S

### WILL DELIVER DUNNING TRUST LECTURES

THE first Dunning Trust Lecturer, Dr. T. E. Jessop of University College, Hull, England, will be at Queen's in January. He will spend the month meeting students and staff in informal groups and will give three lectures on the subject of "The Freedom of the Individual in Society." The titles of the lectures will be: (1) "The Rise and Fall of Freedom"; (2) "The Vindication of Freedom"; (3) "Freedom and Social Order."

Established by an anonymous donor in honour of Chancellor Dunning, the \$100,000 Dunning Trust is "to promote understanding and appreciation of the supreme importance of the dignity, freedom and responsibility of the individual person in human society." For the next three years the trust is being used to bring an outstanding scholar to Queen's for a short time each year. Dr. Jessop, a man of wide experience and high reputation, is the first of these.

Dr. Jessop was born in 1896 in the industrial part of the West Riding of Yorkshire. He received M.A. and B. Litt. degrees from Leeds and Oxford universities. While serving on the western front during World War I he won the Military Cross. He was twice wounded, and permanently disabled.

Since 1928 Dr. Jessop has been professor of philosophy at Hull University. He is a Fellow of the British Psychological Society and in 1942 was Donellan Lecturer at Trinity College, Dublin.

In World War II Dr. Jessop, rejected when he volunteered for military service, gave almost full time to helping as a civilian in the educational and chaplaincy services of the Army and R.A.F. His work was chiefly in Britain, although he made a number of tours overseas to camps ranging from Austria to Cyrenaica and from Malta to Ceylon. One course he conducted was for Canadian soldiers. In 1944 he was awarded the O.B.E.

Dr. Jessop is still engaged in work similar to what he did during the war. He has always been interested in adult education, with the emphasis on citizen-

ship and international affairs, and this interest has expressed itself in broadcasting, provincial and national committee work, and conducting classes.

In religious work, Dr. Jessop specialized in conducting conferences and schools for ministers and lay readers. He is a Methodist but is known in all churches. He is an honorary director of the Student Christian Movement.

Besides articles in philosophical periodicals, the following are the chief of Dr. Jessop's writings:

Philosophical — *A Bibliography of George Berkeley*, 1934; *Berkeley's Principles of Human Knowledge*, 1937; "The Philosophical Background" in *A Companion to French Studies*, ed. by R. L. G. Ritchie, 1937; *A Bibliography of David Hume and of Scottish Philosophy*, 1938; "The Scientific Doctrine of Man" in *The Christian Understanding of Man*, 1938; *Science and the Spiritual*, 1942; part translator of *A Hundred Years of British Philosophy* by R. Metz, 1938.

Religious—*Law and Love: A Study of the Christian Ethic*, 1940; *Effective Religion*, 1944; *Evangelism and Education*, 1947.

DR. T. E. JESSOP

International Affairs—*The Treaty of Versailles: Was it Just?* 1942.

A new critical edition of the *Works of George Berkeley* is now being edited by Dr. Jessop.

### STATISTICS SHOW POPULARITY OF COURSES

AT the risk of getting in wrong with the various professors directly concerned, the *Review* is going out on a limb with some statistics on Arts courses preferred by the postwar college student.

Figures showing the enrolment in all courses for 1945, 1946 and 1947 have been released by the Registrar's office. Taking into consideration that 1946 registration in the Arts Faculty was 40 per cent over 1945, and 1947 registration 4 per cent higher than 1946, it was decided that unless a department showed comparative increases, it would be considered to be falling off in popularity, at least temporarily.

Under this system, enrolment in the departments of Commerce, economics, history, biochemistry, geology, German and mineralogy totalled well over the increases due to larger student bodies. The growth is in the order stated, Commerce heading the list with 109 per cent increase in 1946 and a 25 per cent increase in 1947.

The greatest drops were noticed in Russian, Greek, music, and astronomy, in that order.

Spanish held its own in 1946 and increased 10 per cent in 1947. Biology remained the same. Physics showed over 50 per cent increase in 1946 and this year maintained the necessary 4 per cent increase. There were large increases in philosophy, politics, and mathematics in 1946, but 1947 saw slight drops in enrolment. After 100 per cent increases in 1946, classical literature, Greek and Roman history, and Hebrew dropped quite a bit in 1947.

Bacteriology, French, Latin, religious knowledge, and classical reading were down in 1946 but this fall showed a gain in enrolment: English, chemistry and art showed a drop both years.

The largest enrolment in any one course is in English 2, taken by 539

students this year. Philosophy 1, the other compulsory course for a B.A. degree, is second with 472.

### APPOINTED PRESIDENT OF ACADIA UNIVERSITY

DR. T. WATSON KIRKCONNELL, Arts '16, has been appointed president of Acadia University, Wolfville, Nova Scotia. At present professor of English at McMaster University, he will take over his new position in the spring from Dr. F. W. Patterson, president of Acadia since 1923.

Since his three years overseas in World War I, Dr. Kirkconnell has followed an academic career. He studied a year at Oxford, then returned to Canada and joined the English department of Wesley College, Winnipeg, in 1922. In 1934 he changed his position as English professor for that of head of the department of Classics. Since 1940 he has been professor of English at McMaster.

A prolific author of technical articles on a wide variety of subjects, Dr. Kirkconnell is best known for his studies and writing on the Slavonic peoples. He has been honoured by membership in a great many professional and academic organizations, including several in Hungary, where he was a visiting professor one summer.

Among the Canadian offices and honours which he has earned are: national president, Canadian Authors Association; Lorne Pierce gold medal of the Royal Society of Canada for conspicuous contributions to Canadian literature, 1943; Fellow of the Royal Historical Society; Fellow of the Royal Economic Society; and many others.

Dr. Kirkconnell is the author of several books.

### Union Construction Progresses

Construction of the new Students' Union is proceeding with speed. The foundation has already been laid, including the wide front steps. Three walls have been torn down, leaving only the back wall standing. It was decided that the other walls could not properly be incorporated in the new building, as had been proposed at first.

## TWO YEARS MARK TWENTY-FIFTH REUNION

**T**WO years—Science '22 and Arts '22—held highly successful twenty-fifth anniversary reunions in Kingston on November 1 week-end. Thirty-one out of a possible fifty-five attended the Science gathering, while eighteen members of Arts '22 were on hand.

### Arts '22

Following is an account of the Arts '22 reunion, written by Rev. Donald MacInnes, Arts '22, Theol. '24, permanent secretary:

Like a legion from a foreign land, Arts '22 came home to Queen's on November 1 to celebrate the Silver Jubilee of their graduation.

Change, if not decay, all around greeted their wondering eyes: more limestone and less campus; greater enrolment, fewer lectures. *Exeunt* Boo Hoo, old "Y" book store, the Avonmore and Jimmie Bews. Enter—the forward pass, girls in Science, feminine cartwheeling cheerleaders, and juvenile students. Indeed, among the multitude of varying factors, Alfie Pierce alone was constant.

At the stadium, where Queen's tussled with Western, '22 was not down-hearted. While we studied in the days of Batstone and Leadlay, and recall Tigers, Argos, Rough Riders and Edmonton biting the dust in Dominion finals, yet for effort and sportsmanship this year's team proved themselves worthy to wear the same colours as did the old conquerors of Yale.

The cafeteria at the Aluminum Plant was the scene of the reunion dinner. At roll call the following somewhat harsher but familiar voices answered—Ka yile!

Those present were: S. M. Chown and Mrs. Chown, and Miss Lillian Handford, Renfrew; Dr. N. V. Freeman, Arts '15, Med. '22, and Mrs. Freeman (Gertrude Deadman), Battersea; V. E. Bullock, C. P. MacArthur, Arts '13, Theol. '21, and Mrs. MacArthur (Viola Gibson), of Ottawa; Mrs. D. G. Geiger (Goldie Bartels), J. T. Gow and Mrs. Gow, A. L. Moore and Mrs. Moore, Mrs. W. H. Orr (Thelma Moses), J. R. Rutledge and Mrs. Rutledge, G. M. Sutherland and

SCIENCE '30 REUNION, OCTOBER 18

Front row, left to right: Ab Orwell, Jerry Jarvis, Bert Findlay, Dave Jack,  
Back row: Pat Houston, Charles Miller, Herb Dickey, Dick Cohen, Ed Goodman

Mrs. Sutherland (Doreen Lavell), Mrs. H. A. Logan (Georgina Ettinger), and H. V. Tancock and Mrs. Tancock, all of Toronto; Rev. Donald MacInnes, Milverton; H. A. McNeill, K.C., and Mrs. McNeill, Kingston; G. V. Roney, Sc. '26, and Mrs. Roney (Kathleen MacNamee), Gananoque; Dr. Paul Scott, Med. '24, and Mrs. Scott (Ella Sparks), Picton; Mrs. G. R. Woolsey, (Florence Munro), Montreal.

Letters were received from the following class members unable to attend: R. W. Cumberland, Dr. W. A. Newlands and Mrs. H. P. Salter (Flossie Gray), of New York; Norman Campbell, Kingston; Miss Eva Glenn, Richmond, Ontario; Dr. J. L. McKelvey, Minneapolis; Mrs. A. L. Kuéhner (Grace Weese), Lennoxville, Quebec; C. E. C. Ratchford, and R. T. Wager, Montreal; Margaret Wilton, Toronto; Rev. H. F. Cross, Watford, Ontario; T. H. Holton, Galt; Thelma Craig and A. F. Cross, Ottawa; and William MacMillan, Sudbury.

#### Science '22

THE following account of the Science '22 reunion was supplied by D. D. Findlay, class secretary:

A most successful reunion was held in Kingston on October 31 and November 1. Of the fifty-five members who could possibly have attended thirty-one did so. Twenty-eight of these had their wives. This was the best attendance at any of the four reunions held since graduation.

After the Queen's-Western game Mr. and Mrs. D. R. Roughton entertained at a cocktail party. Dean D. S. Ellis, Dr. A. L. Clark, and Professors D. M. Jemmett and W. L. Malcolm were there.

The dinner was held at the LaSalle Hotel on Saturday evening. It was a gay affair. Principal Wallace and Treasurer Gordon Smith joined in the festivities at the end of the dinner. "Red" Wilson gave prizes to the most distinguished performers since graduation. "Doc" Maddox, who celebrated his seventieth birthday that day was presented with a sporty hat and sportier bathing trunks.

Details of the Science '22 scholarship fund, which the year had agreed to finance, were explained at the dinner. As the *Review* goes to press, \$1570 has been pledged outright and \$305 pledged annually. This scholarship will help a worthy second-year student and at the same time perpetuate the memory of the year.

Mr. J. A. H. Henderson of Montreal was elected to the permanent executive as vice-president.

The following were present at the reunion: Mr. and Mrs. C. E. Bulmer, Mr. and Mrs. C. H. Frid, Hamilton; Mr. and Mrs. J. F. Comer, D. G. Geiger, Mr. and Mrs. C. Gerow, Toronto; Mr. and Mrs. A. V. Corlett, Normetal, Que.; Mr. and Mrs. J. P. Devenny, Kitchener; Mr. and Mrs. D. D. Findlay, Carleton Place; Mr. and Mrs. W. Greenwood, Brockville; Mr. and Mrs. A. G. Hamilton, Niagara Falls, N.Y.; J. B. Hanlon, and sister, Prof. and Mrs. T. V. Lord, Mr. and Mrs. A. G. MacLachlan, Mr. and Mrs. D. R. Roughton, Kingston; J. A. H. Henderson, J. J. Roche, Mr. and Mrs. J. E. Van Buskirk, Montreal; G. E. Lewis, Lewiston, N.Y.; Mr. and Mrs. J. E. McDonough, Haileybury; D. C. Maddox, Mr. and Mrs. C. L. O'Brian, Ottawa; Mr. and Mrs. R. C. Mott, Falconbridge; Mr. and Mrs. E. W. Roy, Napanee; Mr. and Mrs. J. B. Saunders, Stayner; Mr. and Mrs. H. E. Searle, South Orange, N.J.; Mr. and Mrs. J. D. Tully, New York City; Mr. and Mrs. M. L. Urquhart, Schumacher; Mr. and Mrs. A. M. Wallace, Bethlehem, Pa.; C. A. Campbell, and daughter, Frankfort; H. M. Fair, Delhi; Mr. and Mrs. J. H. D. Wilson, Chatham.

#### Rev. Dr. G. H. Donald Writes Brochure in Memory of Service

DEDICATED to the members of the Church of St. Andrew and St. Paul, in Montreal, a brochure entitled *Stones That Speak* has been written by the Rev. Dr. George H. Donald, D.D. '41. Minister of the Church, 1925-45, Dr. Donald presents an interesting explanation of the symbols and emblems incorporated in the architecture of the building.

## P.S.—PLEASE SEND ME SOME MORE MONEY

By Gwen Morton Herbst, Arts '43

THIS year is the twenty-first anniversary of the founding of the General Alumni Association of Queen's University, and the twentieth anniversary of the Queen's *Review*. Feeling that such a coming of age ought to be recognized in some way, we started rooting around in old *Journals*, *Tricolors* and *Reviews*, with the idea of writing a comparative sketch of University life then and now.

That was several days ago. Somewhat to our surprise, the job has grown from a perfunctory few paragraphs into a labour of love. Only an approaching deadline dragged us from the depths of the Douglas Library, where we had been lost in old newspaper files—aided and abetted by Miss Melva Eagleson, Arts '25, guardian of the stacks.

A good way to show what twenty years can do is to take a look at the birth announcements in Vol. 1, No. 1 of the *Review*. Of the six children announced in that issue, four have come to Queen's. The only graduate is Barbara Monture, Arts '47, daughter of G. C. Monture, Sc. '21, and Mrs. Monture. Presently attending the University are Kathryn LaFontaine, Arts '49, daughter of W. O. LaFontaine, Sc. '22, and Mrs. Lafontaine (Mae Millen), Arts '22; J. S. Ellis, Sc. '48, son of Dean D. S. Ellis, Arts '07, Sc. '10, and Mrs. Ellis; and C. H. Warner, Com. '49, son of G. W. Warner, Sc. '23, and Mrs. Warner.

These young people are seeing a Queen's that is twice as large as it was when they were born. In 1927 enrolment stood at 1,548, a "decided increase" over the previous year. This fall's enrolment stands at 3,193, highest in the history of Queen's.

With the cost of living uppermost in everyone's mind today, it seemed a good thought to base our comparison of 1927 and 1947 on the expenses of students then and now. Prices in the "roaring twenties" were on the upswing, just as they are today.

The first item is fees. They are almost double now. Twenty years ago the Arts student paid only \$70 for tuition for the year. Now it is \$150. Science was \$130—today it is \$255 (including student interest fees). Medical fees rose from \$125 to \$200 (higher in other than first year). Student interest fees are up, too. Health insurance, Union, faculty societies, A.M.S., *Journal* and athletic fees total \$23 now, while twenty years ago slightly fewer fees came to \$14.

The calendars of 1927 said that a student could expect a room for \$2.50 to \$3.50 a week and table board for \$5 to \$6 a week. Today table board—if it can be found—costs the student from a rare \$6 to \$8.50. Eating around at restaurants, as many must do, is very expensive, with meals starting at 50 cents, plus beverage. Meals at the University cafeterias in Grant and McLaughlin halls are 35 cents for lunch and 50 cents for dinner, but it means standing in line half an hour. The best value for the money is to be had at the Royal Military College, where 250 men students live in the Stone Frigate and Fort Frederick barracks and also get breakfast and dinner every day for a total of \$35 a month.

Coeds living in residence are better off than most students. Rates have been held down to the same level as prevailed during the depression until this year, when rapidly spiralling costs have pushed them to \$250-\$300 for double room and board for the session and \$275-\$300 for single room and board. It used to be \$230-\$270 and \$245-\$270 for the same accommodation. Board alone at Ban Righ, which was \$155 for the session, is now listed at \$165. This is paid in two instalments, \$75 before Christmas and \$90 after, with the warning that the second term rate will probably have to be raised.

Text books were thought to be expensive in 1927, but they are even more so now. A conservative estimate is that

they are up 10 per cent—many think it is more like 25 per cent.

Clothes. There is a big difference there, particularly in men's clothing. For \$100 a man could practically be clothed from head to toe. At \$24 each, a suit, an overcoat and a tuxedo, all tailored to measure by Tip Top, came to \$72. Two-trouser suits at Bibby's cost \$24. An extra-special was a "guaranteed marine serge, silk sewn, \$35." Add a few "real snappy" accessories, and you had a well-dressed college man. Slickers were accepted rainy day wear, and Lockett's urged: "Gentlemen, spats are a necessary part of your wardrobe in a climate such as ours. Further, they add to your appearance." Girls at Ban Righ wrote letters to the *Journal* deriding men who insisted on "plus fours" although they had "legs like cranes." Queen's sweaters, at \$6.50, were popular. Today it is the "year" windbreaker, decided upon and ordered by the members of each faculty year, which sets the men back about \$12.

Although times were good twenty years ago, Kingston merchants made a bid for student patronage by offering them 10 per cent discounts. They don't today.

The 1947 Queen'sman can get a ready-made suit with one pair of trousers for \$50. As trousers take a lot of punishment from desk-sitting students, odd trousers must be purchased. Grey flannels that were well below \$10 are now from \$10 to \$25. Five dollars used to buy a pair of sturdy shoes—the same quality is twice the price now. Formal wear—and the "tux" will definitely not do—is unobtainable at present, but when it is tailors forecast \$100 for a suit of tails.

Cleaning a suit of clothes is 95 cents today, not much more than it was in 1927. Now, however, there is no such thing as a contract, whereby one suit was picked up every week, sponged, pressed and given minor repairs for \$3 a term. Another incidental expense is a haircut. Formerly 40 cents, it is now 50 cents, with another raise in the offing.

Women students, if they follow fashions closely, are faced with a falling

hemline that outdates everything in their wardrobes. As a matter of fact, though, short skirts still predominate on the campus. As one senior put it: "You can spot freshettes by their long skirts. They're the only ones who have all new clothes!"

Long or short, they aren't cheap. Whereas two decades ago a reasonably smart afternoon dress could be had for \$10, this fall the equivalent gown isn't a penny less than \$20. Something "a little special" can go as high as Dad's pocketbook will stand. Shoes are harder to compare, because in 1927 satin slippers, at \$10, were all the rage. According to fashion forecasts, these are coming into style again, but they haven't hit Kingston yet. Coats are much higher today, ranging from \$40 to \$100 for cloth coats. In 1927 Steacy's advertised a wide selection of winter coats from \$12.50 to \$49.50. Silk stockings are about the same price today as they were twenty years ago—\$1 to \$2. Only now it is nylon, in shades labelled "adorable," "caprice," "dawn," or the new dark tones of "brown sugar" and "moon-glow," whereas then it was real silk in "peach," "flesh," "gull grey," and "gun-metal."

Today's coeds get a break in one respect. Their gym costume, a blue romper with short sleeves and open neck, costs \$2.50. Their mothers paid \$6.35 for "the correct gymnasium costume—a navy blue tunic with blue girdle, close-fitting black knickers, white sports shirt." With this were worn black stockings and white gymnasium shoes (Oxfords), compared with the white socks and badminton shoes of today.

The little luxuries that really seem like necessities to students are also up in price. Instead of today's 20 cigarettes for 33 cents, it used to be 20 for 25 cents, "and save the poker hands." Consequently many 1947 students roll their own. A nickel isn't much good any more, with soft drinks and chocolate bars selling for seven cents. Toast-and-coffee, that old standby for killing an hour between classes, is 20 cents, and even 25 cents, rather than the old ten.

Entertainment has changed. Twenty years ago Kingston was on the stock circuit and the Grand was a legitimate theatre where "Miss Arlie Marks and her Quality Players" could be seen in "four high class comedy dramas" for 75, 50 or 25 cents. An "Old Country Pantomime—Aladdin" cost more, evening seats ranging from 50 cents to \$2. Movies, now 30 cents in the afternoon and 45 at night, cost 30 cents. Students wept over Richard Arlen and Clara Bow in "Wings," and thrilled to Ramon Navaro, Betty Bronson and Francis X. Bushman in "Ben Hur." "The Big Parade," with John Gilbert and Renee Adoree, was rated one of the finest.

In those days the movies seemed to cater to students by showing such pictures as "The Drop Kick" with Richard Barthelmess. Particularly interesting is the Capitol theatre advertisement on October 5, 1927: "The Poor Nut—with Jackie Mulhall and Charlie Murray. He was just a poor college boob, but when she looked into his eyes—wow—the worm turned into a fighting lion! And he carried his college to victory in the most sensational race ever seen."

Would that lure any of today's undergraduates?

There were fewer dances held on the campus in 1927, and therefore more entertainment was sought in Kingston. All flappers wanted to be seen at the Venetian Gardens, billed as a "recreation academy where Queen's students frolic." The after-the-game tea dances then were 75 cents a couple, the novelty dances, from 7.30 to midnight, cost \$2. Another popular place for doing the Black Bottom and hearing jazz favourites like "Mississippi Mud" and "Among My Souvenirs" was Peter Lee's Grand Gardens, \$1.25 a couple. There was a war tax on entertainment then as now.

The Frosh Reception, today an enormous dance in the gymnasium with a stag line that is a coed's dream come true, was a far different affair in 1927. It was a programme of speeches and entertainment, including an address by Principal Taylor, songs by Freeman Waugh, sleight of hand by George Ketiladze, and singing led by Sammy Fisher. Refreshments

were served. Strong agitation for dancing at the reception was under way, but authorities still felt that this might embarrass students who did not dance. Does anyone worry about this point today?

Before closing—having, we believe, conclusively proved that it costs a lot more to go to college now than it did twenty years ago (if anybody doubted it)—there is the matter of train and taxi fares. The former are definitely less now than they were in 1927, especially since week-end rates had not yet been started. Taxis, on the contrary, are 35 cents now instead of the old quarter fare. And, of course, they still pile in passengers.

### DR. GRAHAM GEORGE WINS PRIZE FOR BALLET MUSIC

DR. GRAHAM GEORGE, head of the music department at Queen's, has been declared one of the five prize winners in this year's Canada-wide contest for original musical compositions. The contest was sponsored by the Composers, Authors and Publishers Association of Canada. A cash prize of \$100 and an assurance of a broadcast performance of the prize-winning composition over C.B.C. some time this season are given to winners.

"The Jabberwocky", ballet music which he composed early last summer during a vacation in New Brunswick, was Dr. George's entry in the competition. First public appearance of the composition was given by Queen's Summer Symphony in Grant Hall last August. Miss Bettina Byers, for whom the music was written, did the choreography and directed the ballet at that time. A melodic piece of descriptive music, it is based on the imaginative poem of the same name from Lewis Carroll's *Through the Looking Glass*.

This year marks the second time Dr. George has won the C.A.P.C. award. In 1943 he was awarded a prize for a set of variations for string orchestra. Variations for full orchestra won him a \$500 award in another nation-wide contest.

# Athletics

## Football

**A**FTER starting the 1947 football season with high hopes of improving their position in the standings over that of last year, the Queen's seniors wound up at the bottom of the league without a win. The only point scored was in the tie game played with McGill in the opening game of the schedule. In the final two games, Queen's went down to defeat at the hands of Varsity, 15-5, and McGill, 11-6. In both, the Tricolour outplayed the opposition but came out on the short end of the score.

At Toronto on November 8, the Tricolour made their best showing of the current season. Queen's moved the yardsticks twelve times for a total gain of 246 yards, while the Beavers made only nine such advances for 167. Captain Al Lenard turned in a brilliant kicking display, his punts and kick-offs sending the ball for long rides. One successful forward pass, Lenard to Bulger, was good for 55 yards.

What turned the scale in favour of the home team was the fact that Varsity broke through to block two kicks and on both occasions followed up with a touch-down from a forward pass. The Tricolour front wall outplayed the Blue and White consistently except for those two costly lapses, but there went the old ball game.

One bright feature of this tilt was the manner in which Frank Macintyre came into his own as a plunger. Practically every time he was handed the ball he knifed through for a good gain and there were occasions when he almost broke into the clear. It was the best exhibition of line plunging put on by a Queen's player in many a year.

Determined to finish the season with a win, Queen's entertained McGill at the Richardson Stadium on November 15. This time fumbles proved the jinx, as the Tricolour outplayed the visitors in every department except forward-passing. It was a fumble that gave McGill an easy touchdown, from which the

Queen's forces never recovered, although they tried hard enough.

In this game Queen's made yards sixteen times for a total of 324 yards, while holding McGill to nine first downs for 172. Frank Macintyre was again a powerhouse, rolling up 116 yards on eight attempts, and Ross McKelvey ran the ends for a total of 110 yards. But all this excellent work was more than offset by fumbles.

The game was won and lost in the second quarter when the visitors, aided by what breeze there was, made all their points. The major score was registered when a Queen's lateral pass went astray behind the goal-line and McGill fell on the ball. In the closing minutes of the final quarter, Lenard almost pulled the game out of the fire when he hurled one of his long forwards to Jim McGuire over the McGill goal-line, but the latter was not able to hold on to the ball.

Thus ended one of the few winless seasons in the history of the Tricolour.

Queen's had a good team this year, one that deserved a better fate, but injuries robbed them of the services of some of their best men. Spark-plug Dave Rozumniak was knocked out for the season in the second game of the schedule and his loss was sorely felt. Others were out for varying periods, and in the last game, besides Rozumniak, Queen's were without Bill Burgess, Ted Porter, and Mike Halliday, all regulars.

Despite their lowly standing, Queen's placed one man on the all-star Inter-collegiate team picked by the sports-writers. Captain Al Lenard, a standout at quarterback all year, was the selection. The champion Western Mustangs, who went through without a loss, picked off ten of the positions, while McGill got the only other one.

A most interesting development was that while Queen's were playing McGill, Varsity were holding the vaunted Mustangs to a 12-12 tie at London. Western, undefeated since 1939, had won all its previous games by a substantial margin

and the horrible suspicion was beginning to grow around the circuit that London had discovered the secret of perpetual motion as far as gridiron victories were concerned. Varsity proved to the satisfaction of everyone that the champions were only human after all by playing the Mustangs off their feet, and on the day's play should have won. The final league standings show Western in front with 11 points, Varsity, 9, McGill, 3, and Queen's, 1.

At this time of the year it is customary to shrug off past shortcomings with an optimistic prediction about next fall. Nevertheless it must be admitted that Queen's chances next season do look more favourable. They lose few of this year's senior squad and can count on at least half a dozen likely prospects from the two good intermediate teams.

Coached by "Jake" Edwards, the intermediate O.R.F.U. team finished on top of its group, numbering among their victims the 1946 Dominion intermediate champions. Queen's could very likely have continued on to the Dominion championship themselves but it was felt that the boys would have to lose too much time from their studies. From this squad, and from Dr. Jack Milliken's intermediate intercollegiate team, the seniors can count on some husky and experienced material. As a matter of fact, Head Coach Bob Elliott brought up three intermediates to bolster the injury-riddled seniors in the final game.

For the McGill game, Queen's played hosts to representatives of high school teams in the district. Approximately twenty schools accepted the invitation to send their coach, team captain, and one other player. The visitors were shown around the campus in the morning, ate lunch with the senior football team at noon, and heard short welcoming addresses from Principal Wallace and Coach Bob Elliott, before attending the game.

### Hockey

COACHED by Gene Chouinard of Perth, the Queen's hockey team has a record of one win and two losses in the pre-Christmas portion of the Intercollegiate schedule.

The victory was scored at the expense of the University of Montreal Carabins at the Jock Harty Arena on December 5, the final score being 6-5. The game was featured with rugged play and burly defensive tactics on the part of both teams, with Queen's enjoying a slight edge in the play.

The Carabins, with a win over McGill to their credit, tied up the score in the third period, after trailing 5-3, but Jerry Wagar fired in the winning goal in the final minutes of the game. The other Queen's goals were scored by Chuck Hews, Tom Barrett, Harry Hamilton, and Don Hedley.

In the season's opener at the Jock Harty Arena on November 21, Queen's lost to McGill 5-3 in a wild game enlivened with a brief free-for-all in the third period. The Tricolour goals were scored by Tom Barrett, George Weber, and Harry Hamilton.

In Toronto on November 28, the Tricolour were vanquished 8-2 by a powerful Varsity team in a rugged, thrill-packed tilt. The Blue and White ran in six goals in the first two periods, holding the Gaels scoreless. Queen's counted twice in the final period on thrusts spearheaded by Jake Wallis and Jerry Wagar.

COACH GENE CHOUINARD

## Student Activities

### Send Parcels Overseas

In a two-day whirlwind campaign, \$600 was collected from and by Queen's students to send overseas 135 Christmas boxes to High Holborn, a badly blitzed parish in London. Representatives of various campus organizations were in charge, with James Stone, Arts '48, as chairman.

### Campus Figure Dies

Charles Janos, big, jovial proprietor of the Queen's Tea Room, popularly known as "Lazonga's", died of a heart attack on November 16 in the Toronto General Hospital. Mr. Janos, who knew and was known to hundreds of students, had come to Canada from Greece as a penniless boy of fourteen.

### Present "The Tempest"

"The Tempest", fourth annual Shakespearean production of the Queen's Drama Guild, was presented November 25 to 28 in Convocation Hall to capacity audiences. On November 30 the Guild took the play to Ottawa, where it was favorably received at a performance sponsored by the Ottawa Alumni branch. Leading players were Sandy Webster, Freda Rosen, Glen Wilms, Elspeth Wallace, Larry Thornton, Gordon Robertson, and Jack Vallentyne.

### Student Behaviour Endorsed

More than 2,000 Queen's men and women invaded Toronto for the Varsity-Queen's game on November 8. They behaved "splendidly", to quote President Ernest Collyer of the Toronto Alumni branch, who wrote a letter to the *Journal* praising the atmosphere which was maintained at the Alumni dance in the Royal York Hotel. (Hotel authorities were reported to have had no complaints

whatever after a week-end which, in previous years, has sometimes been characterized by misplaced enthusiasm on the part of Queen's supporters.)

### Here and There

A reformed Dogpatch Drag was held in the gymnasium this year as a climax to Sadie Hawkins' week. "Sweaters and skirts or better" were decreed as coed garb, while men were restricted to "slacks, and sweaters or plaid shirts."

. . . Scientific and medical books, an *Encyclopaedia Britannica*, and about 500 books no longer in demand at the Douglas Library are being sent overseas to depleted Polish university libraries. . . All members of the staff and student body were X-rayed during the T.B. survey taken in Kingston in November. . . One famous painting a month is being exhibited in the main hall of Douglas Library, as a result of arrangements made by Professor Andre Bieler, resident artist, with the National Gallery in Ottawa. . . Voice recordings of the A.M.S. executive were made by Dr. W. E. McNeill on the recording machine given him on his retirement in September.

. . . What was believed to be the first virginal to come to Queen's was demonstrated in the Music Room to music classes and interested outsiders. A sixteenth century keyboard instrument of the harpischord type, it was brought under the auspices of Dr. Graham George, resident musician. . . . George Perrin, Arts '49, has been appointed by the A.M.S. as chairman of the Queen's committee of the National Federation of Canadian University Students. . . . Rev. A. M. Laverty, University chaplain, was the only Canadian representative at a three-day Inter-Faith Conference held at Cornell University, Ithaca, New York.

# At the Branches

## Middle Atlantic

THE first annual dinner of the Middle Atlantic Branch of the Queen's Alumni Association was held on November 20, 1947, at the Warburton Hotel, Philadelphia, with Principal Wallace as the guest of honor. Thirty-nine people attended. A social hour preceded the dinner during which many of the alumni had an opportunity to chat with Dr. Wallace. While the dinner was in progress, Dr. George E. Flanagan, Arts '17, Med. '23, president of the branch, acted as chairman. After one verse each of "America" and "God Save the King" were sung by the guests, the blessing was offered by Dr. James Cattnach, Arts '89, Theol. '92. The business meeting proceeded between courses. During the dinner, Queen's and popular songs were sung, led by an accordion player.

Dr. Wallace gave a very inspiring speech on Queen's as it is today. He outlined the building programme now under way and mentioned the prominence which many members of the present staff have achieved in their respective fields. He spoke very highly of the present body of undergraduates. It was a very moving address and renewed everyone's pride in Queen's. Dr. John Lansbury, Med. '26, vice-president, thanked Dr. Wallace.

The meeting was closed with a twenty-minute showing of colour movies taken by Dr. Flanagan. Scenes taken at the alumni picnic in June were enjoyed, especially by those who had attended. The other pictures, taken at Queen's in October, 1947, featured the buildings and student activities and brought the dinner to a happy conclusion.

The dinner committee consisted of Harris S. Campbell, Sc. '28 (chairman), Dr. F. S. Clarke, Med. '37, and W. R. Conn, Arts '32.

Those present were: (from Pennsylvania) Dr. R. W. Bailey, Med. '04, and Mrs. Bailey; H. S. Campbell, Sc. '28, and Mrs. Campbell; Dr. R. K. Childerhose, Med. '21, and Mrs. Childerhose;

Dr. F. S. Clarke, Med. '37, and Mrs. Clarke; Dr. W. R. Conn, Arts '32, and Mrs. Conn; H. J. Creech and Mrs. Creech (Dr. Marie Hearne), Arts '30; Dr. G. E. Flanagan, Arts '17, Med. '23, and Mrs. Flanagan; J. E. R. Fox, Sc. '41, and Mrs. Fox; Mrs. S. S. Huebner (Ethel Mudie), Arts '99; J. M. Judge, Arts '28, and Mrs. Judge (Helen Shaugrew), Arts '29; Dr. John Lansbury, Med. '26, and Mrs. Lansbury; Dr. C. E. Moore, Med. '27, and Mrs. Moore; Dr. C. T. C. Nurse, Med. '08, and Mrs. Nurse; C. U. Peeling, Sc. '09; Prof. C. W. Simmons, Sc. '20, and Mrs. Simmons; A. M. Wallace, Sc. '22, and Mrs. Wallace; (from Delaware) N. C. Cooper, Sc. '22, and Mrs. Cooper; (from Maryland) Rev. James Cattnach, Arts '89, Theol. '92; Dr. A. B. Dixon, Med. '39, and Mrs. Dixon; Dr. R. K. Shirley, Med. '23, and Mrs. Shirley; (from New Jersey) S. V. Perry, Sc. '23, and Mrs. Perry (Hazel Bigford), Arts '22.

## Quebec

MAJOR J. A. M. Roy, Sc. '38, was elected president of the Quebec branch at the annual meeting held on November 8 at the Victoria Curling Club, Quebec City. Thirty-five alumni and friends were present, including members from Donnacona, Portneuf and Pont-Rouge.

Following dinner, yearly reports were submitted by Secretary Roy and Treasurer C. G. O'Neill, Com. '33. President B. J. Walsh, Sc. '22, addressed the meeting and moved votes of congratulation to Capt. J. M. A. Bleau, M.Sc. '32, and Mrs. Bleau, and to C. E. Ployart, Arts '26, and Mrs. Ployart, who were celebrating their twenty-fifth wedding anniversaries. Felicitations were also accorded Renald Letourneau, Sc. '41, and Mrs. Letourneau, who were married last summer.

Moved by J. O. Martineau, Sc. '15, and adopted unanimously, the following officers were elected for the coming year: honorary president, Mr. Walsh;

president, Major Roy; vice-president, M. R. C. Amaron, Arts '40; secretary, Dr. Jacques Claveau, Sc. '40; treasurer, Mr. O'Neill; committee, J. M. Milne, Sc. '29, and Major C. B. Bate, Sc. '15.

The remainder of the evening was given over to hearing vocal solos by Mrs. Roy and to dancing.

\* \* \*

The Quebec branch also held a social evening last June 14 at l'auberge de l'Etang at Cap Santé. Cocktails were served in a private lounge before dinner. Dancing, community singing and solos by members and friends completed the programme.

### Lakehead

**D**R. B. K. SANDWELL, past Rector of Queen's and editor-in-chief of *Saturday Night*, was the guest speaker at a dinner meeting of the Lakehead alumni held in the Prince Arthur Hotel on November 22. D. R. Beckett, Sc. '45, presided.

In his address, Dr. Sandwell deplored the fact that some 60,000 Canadians were flocking to the United States this year—an export for which Canada received no American dollars. “The suggestion that there are too many educated persons in Canada is only another way of saying that there are too few persons engaged in labour in proportion,” he said. The solution was to be found in an immigration policy that would open the door to people who were still willing to do hard work.

F. V. Deamude, Sc. '22, moved a vote of thanks to the speaker. Dr. B. C. Hardiman, Med. '14, proposed the toast to the University. A sing-song was led by Dr. R. G. Miller, Med. '37.

### Saguenay

**D**R. W. E. McNEILL, recently retired as Vice-Principal and Treasurer of Queen's, was the guest speaker at the annual dinner meeting held in the Saguenay Inn on November 3. Approximately fifty were in attendance.

Introduced by C. J. Turner, Sc. '39, Dr. McNeill spoke on recent developments at the University. He said that never in the history of Queen's were there so many staff members of international reputation as there were at the present. Special reference was made to Principal Wallace whom he described as the senior university man in Canada today. “It should be a source of pride to all Queen's men that they have such a distinguished head,” said Dr. McNeill.

The speaker pointed out that the decision to limit registration at Queen's to 2,000 presents certain serious problems. When the enrolment settles down at this figure, there will be a marked decrease in revenue. At the same time, the University will have to face strong competition from new and enlarged institutions of learning.

Dr. McNeill was thanked for his excellent address by A. G. Muirhead, Sc. '26.

The toast to Queen's University was proposed by J. B. Nayler, Sc. '23, and

**MAJOR J. A. M. ROY**  
President, Quebec

**MRS. R. E. DOWSETT**  
President, Queen's Alumnae

**C. J. TANNER**  
President, Saguenay

**ROBERT TROWBRIDGE**  
Secretary, Saguenay

was responded to by H. J. Hamilton, secretary-treasurer of the General Alumni Association. Mrs. C. J. Tanner (Janet Sword), Arts '38, gave the secretary-treasurer's report, which showed a substantial bank balance. T. A. Carter, Sc. '31, retiring president of the branch, and toastmaster at the dinner, expressed appreciation for the assistance given him by the executive. Special mention was made of J. P. Estabrook, Sc. '39, convener of the dinner.

The nominating committee's report was adopted as follows: president, C. J. Tanner, Sc. '39; vice-president, A. H. "Pat" Johnston, Sc. '34; secretary-treasurer, Robert Trowbridge, Sc. '33; committee—Ruth Walker, Arts '33, H. H. Lockwood, Sc. '39, A. G. Muirhead, Sc. '26, T. A. Carter, Sc. '31, J. P. Estabrook, Sc. '39, and W. T. Ross, Sc. '41.

\* \* \*

While in Arvida, Dr. McNeill and Mr. Hamilton were shown through the plant of the Aluminum Company of Canada and other points of interest in the vicinity. They were conducted on their tour by Mr. Carter, assisted by Queen's graduates in the places visited.

### Winnipeg

**J.** C. ELLIOTT, C.B.E., Arts '19, was guest speaker at a luncheon meeting of the Winnipeg branch, held in the Hudson Bay Company dining-room on November 22. Mr. Elliott, a director of A. E. Ames and Company, and an economist of wide experience, spoke on the nature of Canadian prosperity and its prospects for the future. A witness of the Toronto games of the last two years, he also offered words of encouragement about the prospects of the Queen's football team.

President L. A. H. Warren, Arts '02, conducted the meeting, which was attended by sixty members. The speaker was introduced by D. B. Shaw, Com. '30, and thanked by C. A. E. Hensley, Arts '24. C. E. Joslyn, Sc. '16, acted as cheer leader, and G. E. Snider, Arts '13, was at the piano.

\* \* \*

On November 30 the Winnipeg branch held a reception in honour of Leonard

W. Brockington, C.M.G., K.C., Rector of Queen's, at the home of Dr. R. A. Macpherson, Med. '29, and Mrs. Macpherson (Maxine Browne), Arts '28.

Mrs. R. M. Fisher (Mabel Scholes), Arts '13, Mrs. G. H. Herriott (Marion Hewton), Arts '11, and Mrs. L. A. H. Warren presided at the tea table, with Mrs. M. T. Macfarland (Janet Allan), Arts '30, Miss Joyce Woodside, Arts '46, and Miss Shelagh Fisher, Arts '47, serving.

About eighty members and friends attended the reception.

### Toronto

**A** SPARKLING address by H. Napier Moore, director of Maclean-Hunter Publications, was the highlight of the annual dinner held in the ballroom of the Royal York Hotel on November 29. Approximately 325 were in attendance, a capacity turnout.

Mr. Moore's remarks were a most delightful reminiscence of his experience as a newspaper and editorial writer at home and abroad, in times of peace as well as during World Wars I and II.

Mr. Moore studded his address with anecdotes and stories, brilliantly told, and kept his audience in high spirits. Introduced by Dr. J. N. McKinley, Med. '08, Mr. Moore was thanked for his splendid speech by J. R. Rutledge, Arts '22.

Ernest Collyer, Sc. '23, president of the branch, served as chairman and toastmaster. He issued a special welcome to the new graduates and urged them, as well as others, to take an active interest in the affairs of the alumni. Mention was made of the additional money raised this year by the branch for the scholarships and furniture funds established at the University last year. The funds now stand at \$1,800 and \$2,000 respectively.

A telegram of regret was read from Principal Wallace, unable to attend because of illness. A painting by Dr. J. N. McKinley, which was to be presented to the Principal, will be given to him at a later date. It was moved to send Dr. Wallace a telegram wishing him a speedy recovery.

The toast to Queen's was proposed by A. Norman McLeod, Arts '32, and was responded to by J. M. Macdonnell, Arts '04, LL.D. '41, chairman of the Board of Trustees. The toast to Sister Universities was proposed by Col. E. A. Baker, Sc. '15, LL.D. '40, and response was made by Dr. S. E. Smith, LL.D. '37, president of the University of Toronto.

Dr. J. A. Hannah, Arts '26, Med. '28, proposed the toast to the Ladies, and Mrs. R. E. Dowsett (Jean Rose), Arts '19, responded. Mrs. J. W. Dyer (May Sharpe), Arts '27, added greetings from the women graduates in Toronto.

During the programme a presentation of books was made to Dr. H. J. Cody, D.D. '03, formerly president of the University of Toronto. A presentation was also made to Mrs. H. Napier Moore.

Under the guidance of D. A. "Bert" Stott, Sc. '30, prizes were given away to lucky ticket holders. Included were J. M. McEachern, Arts '34, and Mrs. McEachern; H. J. Armstrong, Com. '25, Mrs. H. J. Armstrong (Helen Loyst), Arts '25, Elizabeth Goss, Arts '36, K. W. Campbell, Sc. '38, J. C. Thornham, Sc. '40, Mrs. A. J. Hill (Dorothy Bamforth), Arts '31.

A choir selected by the chairman and directed by N. G. "Pat" Stewart, Arts '11, Sc. '15, with Kay Elliott, Arts '26, at the piano, led in the singing of several Queen's songs. A special contribution was a song entitled "We are the members of the Queen's alumni."

At the conclusion of the dinner programme, Colin A. Campbell, Sc. '22, expressed appreciation to Mr. Stott and his committee for the excellent arrangements that had been made. The remainder of the evening was spent in dancing.

### Niagara Peninsula

A SUCCESSFUL fall meeting of the Niagara Peninsula branch was held in November at the Red Casque Inn, Stamford. J. A. Edmison, Arts '26, was the guest speaker, giving an address on penal reform. Sixty-seven were present.

John Park, Sc. '38, Niagara Falls, was elected president for the ensuing year. J. E. Neilson, Sc. '28, St. Catharines, is

first vice-president, A. E. Smith, Sc. '34, of Welland, is second vice-president, and the secretary-treasurer is J. E. Shaw, Arts '42, of Niagara Falls.

### New York

THE annual dinner of the New York Society of Queen's University was held at the Midston House in New York City on November 19. Principal Wallace was the guest speaker.

In his address to thirty alumni and their guests, Dr. Wallace spoke of life at the University today, the spirit and the humanitarian efforts of the students, the building plans and the enrolment and teaching programme of the future. He also told something of his visit to Great Britain last summer, expressing the conviction that Britain would endure and be the better for the present epoch of hardships.

After dinner the president, Dr. John Hammet, Med. '19, introduced Dr. Bryce Stewart, Arts '11, who spoke in memory of the late Dr. J. G. Dwyer, Med. '05, outlining his life as a physician, alumnus and benefactor of the University.

Dr. James A. Polson, Med. '10, of Bronxville, New York, who was appointed a trustee to fill the vacancy left by Dr. Dwyer, was introduced to the society, and spoke briefly. Dr. G. E. Hayunga, Sr., Med. '90, the only surviving charter member of the society, and Dr. N. D. Garand, Med. '40, the new treasurer, were also presented.

The president concluded his remarks by outlining the proposed activities for the year—an informal party in mid-winter and a picnic in the spring.

Those who attended the dinner were as follows: Dr. H. B. Geiger, Med. '26, H. J. Fraser, Sc. '23, Dr. C. S. McWilliams, Med. '27, and Mrs. McWilliams (Helen Marjorie Smade), Arts '28, Dr. B. M. Stewart, Arts '11, Mrs. Hugh Douglas (Dorothy Newman), Arts '24, R. E. Smith, Sc. '43, Dr. J. E. Hammett, Med. '19, Dr. J. A. MacGregor, Med. '19, Dr. W. A. Newlands, Arts '22, Med. '26, Miss Lillian Hudson, Arts '11, H. E. Searle, Sc. '22, Dr. H. M. Munro, Med. '39, Dr. G. E. Hayunga, Sr., Med. '90, Dr. G. E. Hayunga, 3rd, Med. '48,

Dr. J. F. Maloney, Med. '41, Dr. N. D. Garand, Med. '40, Dr. C. D. Moore, Med. '28, Dr. J. H. Findlay, Arts '25, Sc. '27, H. P. Salter, Com. '23, and Mrs. Salter (Flossie Elizabeth Gray), Arts '22, Mrs. Paul Banker (Grace Wood), Arts '26, Dr. F. J. Matthews, Med. '11, J. J. Gates, Sc. '33, P. R. Rutledge, Sc. '14, Dr. J. A. Polson, Arts '07, Med. '10, Dr. J. R. Emery, Arts '25, Med. '27, Dr. C. B. Corbett, Med. '16, Miss Camilla Gillies, Arts '46, and Miss Gay Speal, Com. '43.

### Kingston Alumnae

Librarian H. Pearson Gundy, M.A., was the guest speaker at the November 3 meeting of the Kingston Alumnae. In the Ban Righ Hall Common Room, sixty members and friends heard an enter-

taining address on "Reading for Fun." Mr. Gundy pointed his talk with quotations from medieval English literature.

Forty dollars' worth of food had been sent to England by the Queen's Alumnae Overseas Relief Fund, it was reported by Mrs. Reginald Jackson (Clara Farrell), Arts '24. Other reports heard were from Miss Melva Eagleson, Arts '25, programme convener; Miss Caroline Mitchell, Arts '26, secretary; Mrs. Hedley Cross (Frances Flynn), Arts '38, treasurer; and Miss Jean Tweddell, Arts '12, bridge committee. Miss Etta Robinson, Arts '29, was appointed to the sales committee of the engagement calendar. Miss Agnes Percival, Arts '39, was in charge of refreshments.

## Alumni News

### Births

**Baker**—In the Hotel Dieu Hospital, Kingston, on December 5, to Dr. J. E. Baker, Med. '34, and Mrs. Baker, a son.

**Beattie**—In November, to Dr. W. G. Beattie, and Mrs. Beattie (Donalda MacRae), Arts '41, of Toronto, a daughter (Barbara Irene).

**Booth**—On August 5, in Toronto, to R. L. Booth and Mrs. Booth (Frances McKenzie), Arts '46, a daughter (Linda Jane).

**Crothers**—At the Royal Victoria Hospital, Montreal, on October 23, to D. C. Crothers, Sc. '47, and Mrs. Crothers, a daughter.

**Dafoe**—On November 3, at St. Michael's Hospital, Toronto, to Dr. Colin Dafoe, Med. '36, and Mrs. Dafoe, a son.

**Dodd**—At the Nuttall Hospital, Kingston, Jamaica, on July 18, to Dr. Geoffrey E. Dodd and Mrs. Dodd (Margaret Farquharson), Arts '41, twins, a son (Christopher Wallace), and a daughter (Jennifer Anne). (Corrected notice).

**Ellis**—At the Ottawa Civic Hospital, on November 29, to Major W. H. Ellis, Sc. '39, and Mrs. Ellis (Evelyn Brown), Com. '40, a son (Gordon Lorne).

**Gardiner**—At the General Hospital, Regina, Sask., on November 20, to James Wilfred Gardiner, Arts '46, and Mrs. Gardiner, a son (James Stirling).

### CORRECTION

The announcement of the birth of a son to William H. Stevens, Sc. '40, and Mrs. Stevens (Mary Baker), Arts '40, of Deep River, Ont., which appeared in the November issue was published in error. The item was given to the *Review* in good faith, but referred to another Mr. and Mrs. William H. Stevens, of Ottawa.

**Gibson**—At the Hotel Dieu Hospital, Kingston, on November 20, to Dr. J. D. Gibson, Med. '42, and Mrs. Gibson (Monica James), Arts '34, a son.

**Green**—On December 4, at the Kingston General Hospital, to William E. Green, Sc. '50, and Mrs. Green, a son.

**Hamilton**—At the Kingston General Hospital, on December 8, to H. J. Hamilton, Arts '32, and Mrs. Hamilton (Norine Smith), Arts '36, a son (Edward Francis).

**Lidington**—At the Ottawa Civic Hospital, on December 4, to Dr. E. W. Lidington, Med. '42, and Mrs. Lidington (Isabelle Bronskill), Arts '41, a son.

**Lucas**—In July, at Cambridge, Mass., to Alec Lucas, Arts '43, and Mrs. Lucas, a son (George Frederick).

**Lockley**—On November 10, at Scripps Memorial Hospital, La Jolla, Calif., to A. S. Lockley, Arts '41, and Mrs. Lockley (Helén Victoria Stevens), Arts '46, a daughter (Cynthia Adrian).

**McIlmoyl**—On October 2, to Dr. S. W. McIlmoyl, Arts '26, Med. '28, and Mrs. McIlmoyl, of Troy, N.Y., a daughter (Margaret Merry).

**McIntyre**—On November 7, at the Private Patients' Pavilion, Toronto General Hospital, to Dr. J. A. McIntyre and Mrs. McIntyre (Katherine McRuer), Arts '43, a son (Stephen George).

**Meleghy**—On November 11, at the Grace Hospital, Ottawa, to Mr. S. J. Meleghy and Mrs. Meleghy (Marjory Gray), Arts '38, a daughter (Elizabeth Gray).

**Moriarty**—In Calgary, Alta., on November 24, to Dr. E. Joseph Moriarty, Med. '44, and Mrs. Moriarty, a son.

**Munro**—On November 19, at the Private Patients' Pavilion, Toronto General Hos-

## Marriages

**Birch**—On, November 15, in Montreal Doris Kelly Bruyere to William Deacon Birch, Sc. '39.

**Clark - Ullett**—On August 30, in Dominion United Church, Ottawa, Barbara Blanche Ullett, Arts '48, to Malcolm Arthur Clark, Sc. '47.

**Gummer**—On August 4, in Holy Trinity Church, Pembroke, Ont., Lois C. Collins to William Harold Gummer, Com. '40. Mr. Gummer is now with the Department of National Revenue (taxation division) in Kingston.

**MacClement** — In Chalmers Wesley Church, Quebec City, on November 29, Margaret Tait Ross to Dr. William Donald MacClement, Arts '31, son of the late Dr. W. T. MacClement, Arts '88, and Mrs. MacClement of Kingston.

**McMaster**—On August 20, at Sioux Lookout, Ont., Estella C. Marquis, R.N., to Basil Foster McMaster, Arts '47.

**Richardson**—On November 29, at the residence of the bride's mother, Winnipeg, Man., Agnes McCausland Richardson, Arts '41, daughter of Mrs. Richardson and the late Dr. James Richardson, Arts '06, LL.D. '29, to Mr. William Moore Benidickson, M.P., of Kenora, Ont. The bride was given in marriage by her brother, James A. Richardson, Arts '43.

**Weymark**—In Toronto, on November 8, Winona Alma Ritenburg to William James Weymark, Sc. '40.

## Deaths

**Bowie**—Dr. Murray Richardson Bowie, Med. '37, was shot to death on November 25 in the Canadian Pensions Commission Ottawa offices by a disgruntled World War I veteran who then killed himself with a bullet through the heart. Dr. Bowie was a pensions examiner. His assailant, Henry Page, fifty-nine, apparently had brooded over a notification, received the previous day, of a reduction of \$20 a month in his first war pension because an arthritic condition had improved. Dr. Bowie had examined the pensioner a month earlier. Page walked into the doctor's fourth-floor office in uptown Ottawa and fired twice. He then turned the smoking revolver on himself. Both men died instantly. Dr. Bowie was born at Essex, Ontario, in 1910. He received his preliminary education at Glebe Collegiate Institute in Ottawa, and then enrolled in the Science Faculty at Queen's in 1929. After one year he changed to Medicine and in 1937 graduated with M.D., C.M. degrees. He interned in hospitals in Brooklyn, New York, and Ottawa, before returning to Essex to open practice in 1938. In 1941 he enlisted in the Canadian Army Medical Corps and went overseas with the rank of Captain. He was appointed to the pensions commission upon his discharge in 1945. Survivors include his wife, the former Catharine Kidd, Arts '34, a three-year-old son, and his father, Dr. H. A. Bowie, Med. '01, of Ottawa.

**SPUN  
ROCK  
WOOL**

(Reg'd)

A resilient, long-fibered insulation made from molten rock. Proof against Fire, Vermin, Vibration and Corrosion. Recommended for cold-storage; sound-proofing and acoustical treatments; all industrial purposes up to 1000 F. Made in standard forms for home insulation; exported in bulk form.

**Clugston**—Rev. James Fraser Clugston, Arts '07, died in hospital in Galt, Ontario, on July 29. Mr. Clugston was born at Epping, Ontario, in 1880. He graduated from Meaford, Ontario, high school, and in 1903 entered the Arts Faculty at Queen's. He received a Bachelor of Arts degree in 1907, and then went on to Knox College, where he trained as a minister. Mr. Clugston's pastorates included those at Gobles, East Oxford, Dunbarton, Columbus, Dobbington, Appleby and Onondaga. He was minister of the latter circuit at the time of his death. Surviving are a daughter, two sisters and four brothers. His wife predeceased him nine days.

**Germain**—Word has reached the *Review* of the death last June 14 of Henry Allen Germain, Sc. '07, of East Pittsfield, Massachusetts. Mr. Germain was born and educated at Gananoque, Ontario. He enrolled in the Science Faculty in 1903 and in 1907 received a B.Sc. degree in electrical engineering. He then took a two-year apprentice course with the General Electric Company at Pittsfield, put in six months on transformer and motor testing and three years on the design of power and lighting transformers. Since then he had been con-

cerned with designing and commercial engineering for the General Electric Company. Mr. Germain was prominent in the Christian Science Church in his community. He is survived by his wife.

**MacLennan**—For thirty-five years a missionary in China, Miss Elizabeth MacLennan, Arts '99, died at her home in Edmonton, Alberta, on August 6, 1947. She was seventy-nine years of age, and had been retired since 1939. Miss MacLennan was born at Charlottenburgh, Ontario, and educated at Williamstown high school. She came to Queen's in 1895 and received her B.A. degree in 1899. In 1904 she went to China, where she spent most of the rest of her life, chiefly with the school girls of the United Church Honan Mission. After her retirement she settled down in Edmonton, where she continued to be active in Church affairs. At the time of her death she was superintendent of a Sunday school which she had started at a veterans' housing centre in Edmonton. Miss MacLennan is survived by three sisters.

**Mattock**—A member of the Almonte Public School teaching staff for forty years, Miss Edna Maude Mattock, Arts '08, died

**I**N 1887 the Empire celebrated the Golden Jubilee of Queen Victoria. In the same year the Manufacturers Life Insurance Company was incorporated by an Act of Parliament of Canada.

The company was born in an age of peace and growing prosperity. The world was then on the threshold of great technical and scientific achievement, but no one visualized the turbulent times of war and economic stress which lay ahead. The sixty years which have elapsed have witnessed severely testing times for any life insurance institution, but in its Diamond Jubilee Year the Manufacturers Life looks back upon an unbroken record of growth and increasing financial strength.

at her home in Almonte on September 23. A native of Almonte, Miss Mattock received her B.A. degree extramurally from Queen's in 1908. She was organist of the Baptist Church for more than forty years, church clerk for twenty years and active in the Sunday school and mission circle. Four sisters survive.

**Pearse**—The death of Warwick Guy Pearse, Sc. '14, occurred in Los Angeles, California, on August 27. A native of London, Ontario, he was educated at private schools before registering at Queen's in 1910. In 1914 he graduated with a B.Sc., degree in civil engineering. During World War I he served overseas as a captain with the 7th Field Company Canadian Engineers. After demobilization in 1919 he was on the staff of the department of public works, Toronto, until 1926, when he moved to Los Angeles to work for the Southern California Edison Company. During World War II he was associated with oil and refinery construction and maintenance companies. Mr. Pearse is survived by his wife and two sisters, all of Los Angeles.

**Wallace**—Former chancellor of McMaster University and an outstanding Baptist clergyman, Dr. O. C. S. Wallace, LL.D. '09, died on August 29 at Maryland General Hospital, Baltimore, Maryland. He was ninety-one years of age. After some years of teaching in his native Nova Scotia, Dr. Wallace graduated from Acadia University in 1883. He studied at Newton Theological Seminary and was ordained to the Baptist ministry, which he served at many pastorates in Canada and the United States. During World War I he went overseas to visit Canadian troops. He also represented Canadian Baptists at the 1920 Baptist World Alliance. Since 1935 he had been retired from the active ministry. He is survived by his third wife, a daughter and a son.

## Notes

### 1890 - 1900

**Dr. F. C. Hagar**, Med. '95, practises at 7124 Sunset Blvd., Hollywood, Calif.

**W. J. Saunders**, Arts '99, Kingston, was elected a director of the Ontario Association of Public School Trustees' and Ratepayers' at a meeting held in Toronto recently.

### 1900 - 1909

**Dr. W. L. Bailey**, Arts '04, has retired from Northwestern University, Evanston, Ill., after thirty years on the staff as Professor of Sociology and chairman of the department. He is now living at 84 York Lane, Charlottetown, P.E.I.

**Dr. G. C. Bateman**, C.M.G., Sc. '05, LL.D. '44, has left the Government service and is practising as a consulting engineer in Montreal. He is a member of the Atomic Energy Board (Canada).

**Dr. A. E. R. Boak**, Arts '07, professor of history at the University of Michigan, has been made a member of the Council of the Medieval Academy of America.

**Dr. Daniel McLellan**, Arts '04, Med. '06, has been practising in Vancouver since 1911 with the exception of four years overseas service in the First Great War. His offices are in the Medical-Dental Building.

**George E. Pentland**, Arts '04, former high school teacher and inspector of public schools in Ontario, is now retired and living in Hanover, Ont.

**K. S. Twitchell**, Sc. '07, has for the past year been vice-president of the American Eastern Corporation, 80 Rockefeller Plaza, New York City.

### 1910 - 1919

**G. H. Chalmers**, Sc. '17, and '18, is with Armco Drainage and Metal Products of Canada Limited, Guelph, Ont.

**Dr. W. L. Higginson**, Med. '19, has been practising in Pembroke, Ont., since 1927.

**Arthur A. Holland**, Sc. '10, is doing consulting engineering work at Chaplin, Sask.

**E. C. Keeley**, Sc. '17, is assistant manager of Teck-Hughes Mine in Kirkland Lake, Ont.

**Dr. J. E. McAskil**, F.A.C.S., Med. '14, of Watertown, N.Y., is president of the Fifth District, New York State Medical Society.

**S. H. McCuaig**, Arts '13, is a member of the legal firm, McCuaig and Parsons, in Edmonton, Alta.

**W. Norman McLeod**, Arts '13, president and director of the Moore Corporation Limited, Toronto, was recently elected to the Board of Directors of the Bank of Nova Scotia.

**Mrs. W. H. Raney** (Laura Argue), Arts '18, is librarian at the public library in North Bay, Ont.

# TRAFFIC CONTROL OF FLUIDS

No basic industries depend more on valves and fittings than chemical and process plants with their huge batteries of storage tanks, mixing vats, and high pressure equipment.

Crane makes valves and fittings of nickel-iron, acid-bronze,

chrome-nickel steels and other corrosion-resisting alloys. These are part of the 30,000 odd varieties of units Crane manufactures for railways, ships, mines, oil refineries, power plants and other Canadian industries.

**ENGINEERING STUDENTS**—Crane technical literature will prove helpful in your studies. It is yours for the asking.
